[1] On sales of coal to those railroads in connection with whose prices reference is made to this note, code members may, at their option, apply sizes of coal in size groups Nos. 1 to 12, inclusive, on orders for mine run. No substitution of mine run, lump or double screened coal will be permitted on orders for screenings.

[2] Modified egg shall contain not less than 15 per cent of 1¼″ x 0 screenings.

[3] Includes the following railroads: Baltimore & Ohio Chicago Terminal Railroad, Belt Railway of Chicago, Chicago & Calumet River Railroad, Chicago & Western Indiana Railroad, Chicago Short Line Railway, Chicago Junction Railway, Chicago River & Indiana Railroad, Chicago, West Pullman & Southern Railroad, Illinois Northern Railroad, Indiana Harbor Belt Railroad, Manufacturers Junction Railway, Pullman Railroad.

GENERAL NOTES.—An additional charge of 15 cents per net ton shall be added to the prices shown for locomotive fuel when locomotives are coaled at mine tipples.

The price of coal for shipment to any railroad other than those railroads specifically mentioned in this schedule shall be 185 per ton f. o. b. mines.

Any coal furnished to railroads for power plants, station heating or other uses shall be sold at prices shown on the price tables of this schedule applicable for all uses other than railroad locomotive fuel.

**SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT No. 11**

TRUCK SHIPMENTS ONLY

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members within District No. 11.

2. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mine unless otherwise designated.

3. All prices are subject to the effective Marketing Rules and Regulations and the Rules and Regulations governing Distributors.

4. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

5. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D 410–38, exceeds 5%, the price for the next higher size group classification for that mine shall apply.

6. *Calcium chloride and oil treated coal.* All coals in Size Groups Nos. 1 to 12, inclusive, and 17 to 20, inclusive, treated with oil, wax, calcium chloride, or other dust-allaying or anti-freezing agents, shall be priced 10 cents per ton higher than the same size untreated.

On coal in all other size groups, the increase of 10 cents per ton shall apply only during the period April 1st to November 15, inclusive, in each year, and shall not apply during the period November 16th to March 31st, inclusive.

7. Not *less* than the actual cost of transporting coal from the ordinary loading facilities at the mines to any consumer shall be added to the established minimum price f. o. b. transportation facilities at the mine.

The cost of such transportation is subject to review by the Commission on complaint or upon its own motion. In every case reviewed by the Commission the Code Member shall have the burden of establishing or proving that the cost so charged was not less than the actual cost of transportation.

*Description of Size Groups*

| Size group No. | Grade | Size dimensions | |
|---|---|---|---|
| 1 | Lump | Larger than 4 inches. | |
| | | Top size | Bottom size |
| | Egg | 9″ and larger than 8″ | 7″ and larger than 6″. |
| | Egg | 9″ and larger than 8″ | 6″ and larger than 5″. |
| | Egg | 9″ and larger than 8″ | 5″ and larger than 4″. |
| | Egg | 8″ and larger than 7″ | 6″ and larger than 5″. |
| | Egg | 8″ and larger than 7″ | 5″ and larger than 4″. |
| | Egg | 7″ and larger than 6″ | 5″ and larger than 4″. |
| | Egg | 6″ and larger than 5″ | 5″ and larger than 4″. |
| 2 | Lump | Larger than 3″ but not exceeding 4″. | |
| | | Top size | Bottom size |
| | Egg | 9″ and larger than 8″ | 4″ and larger than 3″. |
| | Egg | 8″ and larger than 7″ | 4″ and larger than 3″. |
| | Egg | 7″ and larger than 6″ | 4″ and larger than 3″. |
| | Egg | 6″ and larger than 5″ | 4″ and larger than 3″. |
| | Egg | 5″ and larger than 4″ | 4″ and larger than 3″. |
| 3 | Lump | Larger than 2″ but not exceeding 3″. | |

| | | Top Size | Bottom Size |
| | Egg | 9" and larger than 8" | 1½" and smaller. |
| | Egg | 8" and larger than 7" | 1½" and smaller. |
| | Egg | 7" and larger than 6" | 1½" and smaller. |
| | Egg | 6" and larger than 5" | 1½" and smaller. |
| | Egg | 5" and larger than 4" | 1½" and smaller. |
| | Egg | 4" and larger than 3" | 1½" and smaller. |
| | Egg | 3" and larger than 2" | 1½" and smaller. |
| | Nut | (Straight mine run; no fines removed. | |
| 7 | Mine Run and Resultants | Mine run, modified by the removal of any intermediate size or sizes; no fines removed. | |
| | | All resultants larger than 2 inches; no fines removed. | |
| | | Top Size | Bottom Size |
| 8 | Nut | 2" and larger than 1¼" | Larger than 5/16". |
| 9 | Nut (Not Washed or air-cleaned). | 2" and larger than 1¼" | 5/16" and larger than 3/32" or 10 Mesh. |
| 10 | Nut (Not Washed or air-cleaned). | 1½" and larger than ¾" | Larger than 3/16". |
| [1] 11 | Nut (Not Washed or air-cleaned). | 1½" and larger than ¾" | 3/16" and larger than 3/32" or 10 Mesh. |
| 12 | Nut (Not Washed or air-cleaned). | ¾" and smaller | Larger than 3/32" or 10 Mesh. |
| 13 | Screenings (not washed or air-cleaned). | 2" and larger than 1½"; no fines removed. | |
| 14 | Screenings (not washed or air-cleaned). | 1½" and larger than 3/16"; no fines removed. | |
| 15 | Carbon (not washed or air-cleaned). | ¾" and smaller, but larger than 3/32" or 10 Mesh; no fines removed. | |
| 16 | Dust (not washed or air-cleaned). | 3/32" or 10 Mesh and smaller; no fines removed. | |

[1] This size group will also include 1¼" by 5/16" air-cleaned breaker nut.

### Description of Size Groups—Continued

| Size group No. | Grade | Size dimensions | |
|---|---|---|---|
| | | Top Size | Bottom Size |
| 17 | Nut (washed or air-cleaned) | 2" and larger than 1¼" | ¾" and larger than 5/32" or 10 Mesh. |
| 18 | Nut (washed or air-cleaned) | 1¼" and larger than 5/16" | Larger than ¾". |
| 19 | Nut (washed or air-cleaned) | 1¼" and larger than 5/16" | ¾" and larger than 5/32" or 10 Mesh. |
| 20 | Nut (Washed or air-cleaned) | ¾" and smaller | Larger than 5/32" or 10 Mesh. |
| 21 | Nut (Washed or air-cleaned) | 1½" and larger than ¾" | Not larger than 10 Mesh. |
| 22 | Screenings (Washed or air-cleaned). | 2" and larger than 1½" | (Water-Cleaned Coal: One millimeter or equivalent thereof. Air-Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10-mesh screen. |
| 23 | Screenings (Washed or air-cleaned). | 1½" and larger than 3/16" | (Water-Cleaned Coal: One millimeter or equivalent thereof. Air-Cleaned Coal: Shall contain at least 10 percent of fines that will pass through a 10-mesh screen. |
| 24 | Carbon (Washed or air-cleaned). | 3/16" and smaller | (Water-Cleaned Coal: One millimeter or equivalent thereof. Air-Cleaned Coal: Shall contain at least 10 percent of fine sthat will pass through a 10-mesh screen. |
| 25 | Screenings (Dry Dedusted) | 2" and larger than 1½" | Fines are the resultant coal which passes through a dedusting screen with openings not larger than ½". Not more than 50 percent of ¼" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings not larger than 8 mesh. |
| 26 | Screenings (Dry Dedusted) | 1½" and larger than 3/16" | Fines are the resultant coal which passes through a dedusting screen with openings not larger than ¾". Not more than 50 percent of ¾" minus shall be removed, except that there shall be no limit to the percent of fines removed through the use of standard dedusters equipped with screens with openings not larger than 8 mesh. |
| 27 | Special stoker (Dry Dedusted) | ¾" and smaller | 8 Mesh and larger than 28 Mesh. |
| [1] 28 | Carbon (Dry Dedusted) | 3/16" and smaller | Not larger than 28 Mesh. |
| 29 | Screenings (Water Dedusted) | 2" and larger than 1½" | 10 Mesh and smaller. |
| 30 | Screenings (Water Dedusted) | 1½" and larger than 3/16" | 10 Mesh and smaller. |
| 31 | Carbon (Water Dedusted) | ¾" and smaller | 10 Mesh and smaller. |
| 32 | Breaker screenings (Not Washed or air-cleaned). | Raw Screenings made by crushing or breaking, in a Bradford or similar type of breaker, only such coal as is rejected from the picking tables in the hand-picking process of cleaning coarse sizes. | |
| 33 | Breaker screenings (Washed or air-cleaned). | Washed or air-cleaned breaker screenings made by crushing or breaking, in a Bradford or similar type of breaker, only such coal as is rejected from the picking tables, in the hand-picking process of cleaning coarse sizes, and which are subsequently washed or air-cleaned. | |
| 34 | Picking table refuse | Coal rejected from the picking tables, in the hand-picking process of cleaning coarse sizes, and which has not passed through a breaker. | |

[1] District No. 11 produces no coal applicable to this size group.

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR RAIL SHIPMENT ONLY FOR DISTRICT No. 12

DIRECTIONS TO CODE MEMBERS FOR THE APPLICATION OF PRICES SHOWN IN THIS PRICE SCHEDULE

To illustrate manner in which a code member may locate its mine price for shipment by railroad to a point of delivery in the State of Iowa, attention is directed to the following:

Norwood-White Coal Company, in order to locate its f. o. b. mine price for small egg coal, 2 x 4" in size, for shipment from No. 7 Moran mine to Council Bluffs, Iowa, would turn to "Listing of Code Members" and note that Mine Index 38, Mine Origin Group No. 15, Moran Origin Group, applies to No. 7 Moran mine. Prices to Iowa destinations listed in alphabetical order are shown hereinafter. However, under Size Group 4, which includes small egg sizes, and opposite Council Bluffs appears note "(a)". Note "(a)" indicates prices for Small Egg coal can be located on a table hereinafter, from which it is noted Mine Price of $3.06 per net ton is applicable to shipments of 2 x 4" Egg coal from rail mines in Mine Origin Group No. 15, Moran Origin Group, to Council Bluffs, Iowa. $3.06 per net ton, f. o. b. mines is therefore the Mine Price for 2 x 4" Egg coal, produced at No. 7 Moran mine, for shipment by railroad to Council Bluffs, Iowa, and this price applies for all uses except Railroad Locomotive Fuel; Railroad Locomotive Fuel prices are shown by Mine Index Numbers.

McConville Coal Company, in order to locate its f. o. b. mine price for Small Egg coal, 2 x 4" in size, for shipment from No. 1 Dennis mine to Council Bluffs, Iowa, would proceed in the above manner. "Listing of Code Members" indicates Mine Index 29, Mine Origin Group No. 5, Centerville Origin Group, applies to No. 1 Dennis mine. The table indicates that to Council Bluffs Mine Price of $3.06 and Base Freight Rate of $1.59 apply only to 2 x 4" Egg coals produced in Mine Origin Group No. 15, Moran Origin Group. As No. 1 Dennis mine is in Mine Origin Group No. 5, Centerville Origin Group, from which group a freight rate of $1.92 per net ton applies to 2 x 4" Egg coal for shipment to Council Bluffs, Iowa, it is necessary to see Note 3, "Price Instructions and Exceptions". Note No. 3 permits McConville Coal Company to decrease the Mine Price of $3.06, shown for Base Origin Group No. 15, Moran Origin Group, by 33 cents, an amount equal to the difference of the actual freight rate of $1.92, from No. 1 Dennis mine to Council Bluffs, and the Base Rate of $1.59, resulting in an f. o. b. mine price of $2.73 per net ton for 2 x 4" Egg coal shipped by railroad from No. 1 Dennis mine to Council Bluffs, Iowa. McConville Coal Company's mine price of $2.73 for 2 x 4" Egg coal from No. 1 Dennis mine is applicable for all uses except Railroad Locomotive Fuel.

New Market Coal Company, in order to locate its f. o. b. mine price for Small Egg coal, 2 x 4" in size, for shipment from New Market mine to Council Bluffs, would turn to "Listing of Code Members" which indicates Mine Index 36, Mine Origin Group No. 17, New Market Origin Group, applies to this mine. As New Market mine is in Mine Origin Group No. 17, New Market Origin Group, from which group a freight rate of $1.26 per net ton applies to 2 x 4" Egg coal for shipment to Council Bluffs, Iowa, applying Note No. 3 "Price Instructions and Exceptions", the New Market Coal Company shall increase Mine Price of $3.06, to Council Bluffs, Iowa, by 33 cents, an amount equal to the difference of the actual freight rate of $1.26, from New Market mine to Council Bluffs, and the Base Rate of $1.59, resulting in an f. o. b. mine price of $3.39 per net ton for 2 x 4" Egg coal shipped by railroad from New Market mine to Council Bluffs, Iowa, which price is applicable for all uses except Railroad Locomotive Fuel.

Norwood-White Coal Company, McConville Coal Company, or New Market Coal Company, in order to locate their respective mine prices for any size of coal for shipment by railroad to points of delivery in Kansas, Missouri, Nebraska, North Dakota, South Dakota, or Minnesota, would turn to the table where f. o. b. mine prices are shown in cents per net ton of 2,000 pounds, applicable to all Code Member mines for all uses except Railroad Locomotive Fuel.

All prices are subject to "Price Instructions and Exceptions".

PRICE INSTRUCTIONS AND EXCEPTIONS (FOR SHIPMENT BY RAILROAD)

1. All prices shown herein are in cents per net ton of 2,000 pounds and apply f. o. b. transportation facilities at mines.

2. All prices are subject to the effective Marketing Rules and Regulations and the Rules and Regulations governing distributors.

3. The Market Areas used in this schedule are those areas numerically designated and geographically described in the document entitled, "Consuming Market Areas as Prosposed by the National Bituminous Coal Commission pursuant to Section 4 of the Bituminous Coal Act of 1937," dated April 24, 1939.

4. The prices herein established for mines shipping by railways shall be applicable to all coal shipped by conveyances other than trucks or wagons.

5. Railway Locomotive Fuel Prices herein designated shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

6. The f. o. b. mine prices shown result from designated base rail freight rate shown to each destination from a base origin group. Any producer having a contemporaneous rail rate that is higher than that shown to destination listed, may decrease the f. o. b. mine price shown by an amount equal to the difference of the actual rate of the individual producer mine and that of the base rate listed. Any producer mine having a contemporaneous rail rate that is less than the base rail rate shown to the destination listed, shall increase the f. o. b. mine price shown by an amount equal to the difference of the listed base rail rate and the actual rail rate of the individual producer mine.

7. No adjustment shall be made in the prices shown herein due to the assessment of a switching charge by any railroad, which is an addition to the rail through line haul rate for effecting a specified delivery.

8. All size designations herein are for round hole screens, or their equivalent.

8-inch round hole equals 5¼-inch bar.
6-inch round hole equals 4⅛-inch bar.
4-inch round hole equals 2¾-inch bar.
2-inch round hole equals 1⅜-inch bar.
1½-inch round hole equals 1¼-inch bar.
1¼-inch round hole equals ⅞-inch bar.
⅞-inch round hole equals ¼-inch bar.

9. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

10. When coal is subjected to any chemical, oil or wax process or otherwise specially treated, an additional charge of not less than ten cents (10¢) per ton shall be made for each such treatment. When coal has been washed, a twenty-cent (20¢) per ton additional charge shall be made.

11. Coal trucked or hauled by a Code Member or his representative to a railroad siding or ramp, or

Coal trucked or hauled by a Code Member to a purchaser having privately owned or leased railway facilities, shall be governed by the following additional instructions:

Such coal shall be sold at not less than the minimum f. o. b. mine price established in this price schedule for shipment by railroad.

SIZE GROUPS AND SPECIFICATIONS

(FOR SHIPMENT BY RAILROAD)

Size group No. 1. *Chunk.* (All Lump above 2") Includes 2½", 3", 4", 5", and 6" Lump. (8" x 4") Includes all coal, the largest sizes of which are capable of passing through an 8" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 4" round hole screen or its equivalent. (6" x 4") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 4" round hole screen or its equivalent. (6" x 3") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 3" round hole screen or its equivalent.

Size group No. 2. *Lump.* (2" and under) Includes ¾", 1", 1¼", 1½", 1⅝" and 2" Lump.

Size group No. 3. *Egg or range.* (8" x 2") Includes all coal, the largest sizes of which are capable of passing through an 8" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent. (6" x 2") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent.

Size group No. 4. *Small egg.* (4" x 2") Includes all coal capable of passing through a 4" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent. (3" x 1½") Includes all coal capable of passing through a 3" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 1½" round hole screen or its equivalent.

Size group No. 5. *Mine run.* Includes all coal as it comes from the mine, from which no portion thereof has been removed, and which has received no preparation or treatment.

Size group No. 6. *Nut.* (2" x 1¼") Includes all coal capable of passing through a 2" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 1¼" round hole screen or its equivalent. (1¼" x ¾") Includes all coal capable of passing through a 1¼" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a ¾" round hole screen or its equivalent.

Size group No. 7. *Domestic stoker.* Includes all coal, either crushed or raw, the largest sizes of which are capable of passing through a 1¼" or smaller round hole screen or its equivalent, from which has been removed only that portion capable of passing through a ⅜" round hole screen or its equivalent.

Size group No. 8. *Screenings.* Includes all uncrushed, raw coal, the largest sizes of which are capable of passing through a 2" or smaller round hole screen or its equivalent, and from which no fines have been removed.

Size group No. 9. *Crushed industrial stoker.* Includes all coal, the resultant of crushing mine-run so that the largest sizes are capable of passing through a 2" round hole screen or its equivalent, and from which no fines have been removed.

Size group No. 10. *Carbon.* (⅜" x 0) Includes all coal, the largest sizes of which are capable of passing through a ⅜" round hole screen or its equivalent, and from which no fines have been removed.

*Prices F. O. B. Mines, for Shipment by Railroad, Applicable for All Uses Except Railroad Locomotive Fuel; Subject to Price Instructions and Exceptions and Notes*

| 24 | What Cheer | Keokuk-Mahaska. |
| 16 | Williamson | Lucas. |

### PRICE INSTRUCTIONS AND EXCEPTIONS

Item No. 1. The Schedule of Prices shown herein applies f. o. b. transportation facilities at mines on all coal shipped by Code Members in the District shown on the title page hereof.

Item No. 2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3. All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

Item No. 4. All prices herein are *in cents* per net ton of 2,000 pounds.

Item No. 5. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

Item No. 6. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

Item No. 7. When coal is subjected to any chemical, oil or waxing process or otherwise specially treated, an additional charge of not less than 10 cents per ton shall be made for each such treatment. When coal has been washed, a 20 cents per ton additional charge shall be made.

Item No. 9. (a) Coal trucked or hauled by a Code Member or his representative, to a railroad siding or ramp, and then shipped by Railroad or (b) Coal trucked or hauled by a Code Member to a purchaser having privately owned or leased railway facilities, shall be governed by the following additional instruction:

Such coal shall be sold at not less than the established minimum price at the point of delivery for all rail coal. (See Rail Price Schedule.)

Item No. 10. The f. o. b. Mine Prices provided in the Rail Mine Schedule do not reflect railroad switching charges. When such charges exist the f. o. b. Mine Price shall be increased by not less than the exact amount of the switching charge.

### SIZE SPECIFICATIONS

Size Group No. 1. *Chunk.* (All Lump above 2") Includes 2½", 3", 4", 5", and 6" Lump. (8" x 4") Includes all coal, the largest sizes of which are capable of passing through an 8" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 4" round hole screen or its equivalent. (6" x 4") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent and from which has been removed only that portion capable of passing through a 4" round hole screen or its equivalent. (6" x 3") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 3" round hole screen or its equivalent.

Size Group No. 2. *Lump.* (2" and under) Includes ¾", 1", 1¼", 1½", 1⅝" and 2" lump.

Size Group No. 3. *Egg or range.* (8" x 2") Includes all coal, the largest sizes of which are capable of passing through an 8" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent. (6" x 2") Includes all coal, the largest sizes of which are capable of passing through a 6" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent.

Size Group No. 4. *Small egg.* (4" x 2") Includes all coal capable of passing through a 4" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 2" round hole screen or its equivalent. (3" x 1½") Includes all coal capable of passing through a 3" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 1½" round hole screen or its equivalent.

Size Group No. 5. *Mine-run.* Includes all coal as it comes from the mine, from which no portion thereof has been removed, and which has received no preparation or treatment.

Size Group No. 6. *Nut.* (2" x 1¼") Includes all coal capable of passing through a 2" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a 1¼" round hole screen or its equivalent. (1¼" x ¾") Includes all coal capable of passing through a 1¼" round hole screen or its equivalent, and from which has been removed only that portion capable of passing through a ¾" round hole screen or its equivalent.

Size Group No. 7. *Domestic stoker.* Includes all coal, either crushed or raw, the largest sizes of which are capable of passing through a 1¼" or smaller round hole screen or its equivalent, from which has been removed only that portion capable of passing through a $\frac{5}{16}$" round hole screen or its equivalent.

Size Group No. 8. *Screenings.* Includes all uncrushed, raw coal, the largest sizes of which are capable of passing through a 2" or smaller round hole screen or its equivalent, and from which no fines have been removed.

Size Group No. 9. *Crushed industrial*

*stoker*. Includes all coal, the resultant of crushing mine-run so that the largest sizes are capable of passing through a 2" round hole screen or its equivalent, and from which no fines have been removed.

Size Group No. 10. *Carbon*. (5/16" x 0). Includes all coal the largest sizes of which are capable of passing through a 5/16" round hole screen, or its equivalent, and from which no fines have been removed.

## DEPARTMENT OF AGRICULTURE.

### Farm Security Administration.

### Designation of Counties for Tenant Purchase Loans

#### ALABAMA

JULY 12, 1939.

Pursuant to the provisions of Title I of the Bankhead-Jones Farm Tenant Act, and Section II 3 of Administration Order 230 of the Farm Security Administration, issued thereunder, and upon the basis of the recommendation of the Alabama State Farm Security Advisory Committee, the following counties are hereby designated as those in which loans, pursuant to said Title, may be made under the provisions of said Order for the fiscal year ending June 30, 1940: all counties previously designated for the fiscal year ending June 30, 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39-2503; Filed, July 12, 1939; 12:10 p. m.]

### Designation of Counties for Tenant Purchase Loans

#### ARKANSAS

JULY 12, 1939.

## FEDERAL POWER COMMISSION.

[Docket No. IT 5558]

IN THE MATTER OF THE MARYLAND PUBLIC SERVICE COMPANY

NOTICE OF APPLICATION

JULY 12, 1939.

Notice is hereby given that on July 8, 1939, an application was filed with the

Federal Power Commission, pursuant to Section 203 of the Federal Power Act, by The Maryland Public Service Company, a corporation organized under the laws of the State of Maryland and doing business in said State with its principal office in Frederick, Maryland, seeking an order authorizing the sale to Consolidated Gas Electric Light and Power Company of Baltimore, a corporation organized under the laws of the State of Maryland, of all its franchises and property excepting cash, accounts receivable and customers' contributions for extensions, not refundable, including all its electric operating facilities, consisting of approximately seven miles of electric line and appurtenances, supplying 145 customers; for a cash consideration of $14,675; as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to the said application should, on or before the 27th day of July, 1939, file with the Federal Power Commission a petition or protest in accordance with the Commission's Rules of Practice and Regulations.

[File No. 46-70]

IN THE MATTER OF UTILITIES POWER & LIGHT CORPORATION LIMITED, ET AL.

ORDER RELATIVE TO AUTHORITY TO ACQUIRE BONDS OF UTILITIES ELKHORN COAL CO.

The Commission having by order on May 20, 1939 (Holding Company Act Release No. 1548), authorized the Utilities Power & Light Corporation, Limited, a wholly-owned subsidiary of Utilities Power & Light Corporation, a registered holding company (presently in reorganization proceedings under Section 77B of the Bankruptcy Act, proceedings in which are pending in the District Court of the United States for the Northern District of Illinois, Eastern Division) and the Trustee for the estate of the debtor as

intervening applicant, to acquire the outstanding Twenty Year 6% First Mortgage Sinking Fund Gold Bonds of Utilities Elkhorn Coal Company, due July 1, 1943, with January 1, 1938 and subsequent coupons attached, at a price of 70% of the principal amount thereof subject to certain terms and conditions therein set forth including the condition that the offer of purchase shall expire thirty days from the date of mailing of the literature in which the offer to purchase and the solicitation of acceptances thereto were made;

The applicant and the intervening applicant having on July 10, 1939 filed a further amendment in this matter setting forth that at the close of business July 7, 1939 the applicant had acquired, pursuant to solicitation submitted after authority given by this Commission and the United States District Court for the Northern District of Illinois, Eastern Division, $803,000 principal amount of said bonds; that a balance of $210,000 principal amount of said bonds remain outstanding in the hands of the public; that under the order of this Commission the right to solicit the purchase of these bonds terminates July 13, 1939; that the applicant and intervening applicant believe that after an additional thirty days time is granted to said applicant and intervening applicant for the purpose of soliciting the acceptance of the offer to purchase such bonds from the remaining bondholders, all or substantially all of said remaining bonds can be acquired; and therefore requesting that this Commission extend the applicant's right to solicit acceptances of its offer to purchase Elkhorn bonds at a price of 70% of the principal amount subject to all of the terms and conditions of the previous order of this Commission heretofore mentioned.

It appearing to the Commission that it is in the public interest and in the interest of investors or consumers to grant an extension of time during which the applicant and intervening applicant may purchase said bonds; and the Commission having in its order, heretofore mentioned, reserved jurisdiction for the purpose, among others, of passing upon any question that might arise in connection with the purchase offer and solicitations of acceptances thereto;

*It is ordered*, That the authority of the applicant to acquire the Twenty Year 6% First Mortgage Sinking Fund Gold Bonds of Utilities Elkhorn Coal Company, due July 1, 1948, with January 1, 1938, and subsequent coupons attached, shall not terminate on July 13, 1939, but that such authority shall be and it hereby is extended to August 12, 1939, inclusive, subject in all other respects to the same terms and conditions of the original order of May 20, 1939.

By the Commission.

### EXECUTIVE ORDER

AUTHORIZING AND REQUESTING THE FEDERAL POWER COMMISSION TO PERFORM CERTAIN FUNCTIONS RELATING TO THE TRANSMISSION OF ELECTRIC ENERGY BETWEEN THE UNITED STATES AND FOREIGN COUNTRIES AND TO THE EXPORTATION AND IMPORTATION OF NATURAL GAS FROM AND INTO THE UNITED STATES

By virtue of the authority vested in me as President of the United States, and as an aid in effectuating the provisions of the Federal Power Act, approved August 26, 1935 (49 Stat. 838), and the Natural Gas Act, approved June 21, 1938 (52 Stat. 821), I hereby authorize and request the Federal Power Commission (1) to receive all applications for permits for the construction, operation, maintenance, or connection, at the borders of the United States, of facilities for the transmission of electric energy between the United States and foreign countries, and for the exportation and importation of natural gas to or from foreign countries, and (2), after obtaining the recommendations of the Secretary of State and the Secretary of War thereon, to submit each such application to the President with a recommendation as to whether the permit applied for should be granted, and if so, upon what terms and conditions.

The Federal Power Commission may prescribe such regulations not inconsistent herewith as it may deem necessary or desirable for carrying out the provisions of this order.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*July 13, 1939.*

[F. R. Doc. 39-2568; Filed, July 14, 1939; 12:56 p. m.]

### EXECUTIVE ORDER

TRANSFER OF JURISDICTION OVER CERTAIN LANDS FROM THE SECRETARY OF AGRICULTURE TO THE SECRETARY OF WAR

WISCONSIN

WHEREAS certain lands within the hereinafter-described areas have been acquired, or are in process of acquisition, under the authority of the Emergency Relief Appropriation Act of 1935, approved April 8, 1935 (49 Stat. 115), in connection with the Camp McCoy, LO-WI 16, Land-Utilization and Land-Conservation Project of the Department of Agriculture, in Wisconsin; and

WHEREAS by Executive Order No. 7908, dated June 9, 1938,[1] all the right, title, and interest of the United States in such lands, acquired or in process of acquisition, was transferred to the Secretary of Agriculture for use, administration, and disposition in accordance with the provisions of Title III of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937 (50 Stat. 522, 525), and the related provisions of Title IV thereof; and immediately upon the acquisition of legal title to those lands now in process of acquisition the said order, by the terms thereof, will become applicable to all the additional right, title, and interest thereby acquired by the United States; and

WHEREAS it appears that the use of such lands as a military reservation would be in the public interest:

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by section 32 of Title III of the said Bankhead-Jones Farm Tenant Act, and upon recommendation of the Secretary of Agriculture, it is ordered that all lands within the hereinafter-described areas acquired or in process of acquisition by the United States, together with the improvements thereon, be, and they are hereby, transferred from the Secretary of Agriculture to the Secretary of War for use as a military reservation:

FEDERAL REGISTER

Published by the Division of the Federal Register, The National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. L. 500), under regulations prescribed by the Administrative Committee, with the approval of the President.

The Administrative Committee consists of the Archivist or Acting Archivist, an officer of the Department of Justice designated by the Attorney General, and the Public Printer or Acting Public Printer.

The daily issue of the FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1 per month or $10 per year; single copies 10 cents each; payable in advance. Remit by money order payable to Superintendent of Documents, Government Printing Office, Washington, D. C.

Correspondence concerning the publication of the FEDERAL REGISTER should be addressed to the Director, Division of the Federal Register, The National Archives, Washington, D. C.

## TITLE 7—AGRICULTURE

### AGRICULTURAL ADJUSTMENT ADMINISTRATION

[ACP-1938-28]

1938 AGRICULTURAL CONSERVATION PROGRAM BULLETIN

SUPPLEMENT NO. 25

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1938 Agricultural Conservation Program Bulletin, as amended,[1] is hereby further amended as follows:

Paragraph 1 of Section V, A is amended to read as follows:

(1) *Cotton.* 5 cents per pound of the normal yield for the farm for each acre of cotton in excess of the cotton acreage allotment: *Provided*, That in any county where producers were unofficially notified of the approximate tilled acreage percentages to be used in computing the cotton allotments both on the basis of administrative areas in the county and on a county-wide basis, but were not officially notified of the final and correct acreage allotment until after the planting season had ended, the deduction will be made only with respect to the acreage in excess of the larger of the allotments so determined.

Done at Washington, D. C. this 14th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] HARRY L. BROWN,
*Acting Secretary.*

[F. R. Doc. 39-2561; Filed, July 14, 1939; 11:21 a. m.]

## TITLE 10—ARMY: WAR DEPARTMENT

### CHAPTER VII—PERSONNEL

PART 73—APPOINTMENT OF COMMISSIONED OFFICERS AND CHAPLAINS

*Appointment of Second Lieutenants, Regular Army, in the Arms, Except the Air Corps and Corps of Engineers, From Groups 2 and 5*[2]

§ 73.101 *Announcement of examination.* Under the provisions of section 24e, National Defense Act, as amended by section 7, of the Act approved April 3, 1939, examinations of applicants for appointment as second lieutenants in the Infantry, Cavalry, Field Artillery, Coast Artillery Corps, and Signal Corps, in accordance with the provisions of A.R. 605-5, and special conditions hereinafter set forth, will be held provided that

[1] 4 F.R. 2135 DI.
[2] These regulations supplement Part 73, Title 10, Code of Federal Regulations.

funds are made available under War Department appropriations, as follows:

(a) Preliminary examinations will be completed not later than July 15, 1939.

(b) Final examinations will be completed September 2, 1939.

(c) Selected candidates will be commissioned about November 1, 1939. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 2, A.R. 605-8, May 29, 1939]

§ 73.102 *Grades and arms.* Insofar as this examination is concerned, the appointments to be made under this authority will be limited to the filling of twenty-nine vacancies in the Infantry, Cavalry, Field Artillery, Coast Artillery Corps, and Signal Corps, Regular Army, for the fiscal year 1940. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 3, A.R. 605-8, May 29, 1939]

§ 73.103 *General information relative to appointments.* The general plan to be followed in making appointments will be as prescribed in paragraph 4, A.R. 605-5, except as follows:

(a) Warrant officers and enlisted men who qualify will not be commissioned ahead of all other applicants examined at the same time but will be given the same consideration as other qualified applicants. All selections for appointment will be made as provided in section 73.12.

(b) The final examination consists of—

(1) A written examination in educational and military subjects, a moral and general fitness test, and a physical examination which will be the same for all arms.

(2) An additional written examination applicable to the arm for which the applicant is applying.

In some cases exemption from all, or a part, of the examination in educational subjects may be granted. No exemptions from military subjects will be granted. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 4, A.R. 605-8, May 29, 1939]

§ 73.104 *Eligibility for appointment.* (a) In addition to the requirements contained in section II, A.R. 605-5, candidates must be single and not previously married. Candidates who have taken two written examinations for appointment in the Regular Army are ineligible to compete in subsequent examinations.

(b) In order to be eligible for appointment in the Signal Corps a candidate must be—

(1) A graduate in electrical engineering of an educational institution which maintains a four-year course in that subject and confers a bachelor degree for the successful completion thereof, or

(2) A graduate, who has majored in physics or electrical subjects, of an educational institution which maintains a four-year course and which confers a bachelor degree based on the successful completion of the above-mentioned major subjects, or

(3) A member of the senior class of an institution described in subparagraphs (1) and (2) above, who will graduate prior to his actual appointment as second lieutenant and whose graduation will place him in one or both of the categories prescribed in subparagraphs (1) and (2) above. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 5, A.R. 605-8, May 29, 1939]

§ 73.105 *Applications.* Candidates will submit applications in accordance with section III, A. R. 605-5, not later than June 20, 1939. These applications will be accompanied by a recent photograph approximately 3 inches by 5 inches in size. Each applicant will be required to confine his preference to one of the arms in which appointments are to be made as a result of the examination, and will be examined for appointment only in the arm for which he expresses a preference. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 6, A.R. 605-8, May 29, 1939]

§ 73.106 *Preliminary examination.* This examination will be conducted in accordance with the provisions of section IV, A.R. 605-5, except the medical member, if there is one, will not be excused from further participation in the proceedings of the board until completion of the determination as to moral character and general fitness. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 7, A.R. 605-8, May 29, 1939]

§ 73.107 *Final examination.* This examination will be conducted in accordance with section V, A.R. 605-5, except as provided below:

(a) The examination for moral character and general fitness will be conducted by the entire board. The board will rate each candidate as indicated on the General Fitness Report which will be furnished to corps area commanders for distribution to the examining boards.

To qualify in the moral character and general fitness examination for appointment, candidates will be required to attain a rating of satisfactory in moral character and not less than 240 points in the general fitness test.

(b) *Mental examination.* (1) The mental examination is divided into part I, which consists of educational subjects, and part II, which consists of military subjects. Each candidate is required to qualify either by examination or by an approved exemption in six subjects of part I. Each candidate is required to qualify by examination in all subjects of part II. Examinations will be written, and the candidate will certify on each examination paper that he has received or given no unauthorized assistance during the examination. Questions will be prepared and marks awarded by the War Department. Examination in any subject will be taken simultaneously by all candidates before any board. Reexaminations will not be permitted.

(2) *Part I.* Part I of the mental examination is designed to determine whether or not those candidates who are not graduates from a recognized college or university possess the educational requirements of an officer of the Regular Army. To qualify mentally for appointment, all candidates who are required to undergo part I of the examination must attain a general average of 75 percent on the entire part and a grade of not less than 65 percent in each subject. The subjects are divided into three groups as follows:

(i) *Group A.*
English rhetoric, composition, and literature.
History of modern Europe or history of the United States (choice of one).
General mathematics.
(ii) *Group B.*
Calculus.
Physics.
Chemistry.
Electricity.
Surveying.
Civil engineering.
Mechanical engineering.
(iii) *Group C.*
French.
Spanish.
Economics.
Political science.

Examinations must be taken in six different subjects, to be selected in the following manner: Unless exempted, all of group A must be taken with the choice of history indicated in (i) above, and three examinations are to be selected from groups B and C, provided that one must be selected from group B, one from group C, and the third from either group B or C.

(3) *Part II*—(i) *General duties of board.* The examination in part I having been completed, the qualifications of the candidate for appointment in the arm of his choice will be determined. The final examining board will require the candidate to file suitable evidence of his qualifications, including certified reports from colleges, universities, schools, or from Reserve Officers' Training Corps units. The board will conduct the special examinations prescribed in this subparagraph.

(ii) *Evidence of qualifications.* Every candidate will be informed that from the evidence submitted by him as required by (i) above, the chief of an arm must determine whether or not the candidate is suitable for appointment in that arm. The burden of submitting satisfactory evidence rests upon the candidate. Reports covering education should show the date of graduation, the courses satisfactorily completed, class standing, and such other information as will express the estimate that proper school authorities have formed of the student and his work. Any special military or civil expe-

rience qualifying for any arm should be stated.

(iii) *Infantry, Cavalry, Field Artillery, Coast Artillery Corps, and Signal Corps.* Each candidate for appointment in these arms will be required to take an examination in each of the subjects listed below. These examinations will be based on the texts prescribed for the 10-series of the Army Extension Courses for the arms indicated above.

Organization of the Army.
Administration.
Military law—the law of military offenses.
Military discipline, courtesies, and customs of the service.
Interior guard duty.
Maps and serial photograph reading.
Military sanitation and first aid.
Organization of the arm in which the candidate is competing for appointment.

(iv) To qualify mentally for appointment, all candidates will be required to attain a grade of not less than 50 percent in every subject in which examined in part II of the examination.

(c) *Exemptions.* (1) An arbitrary grade of 80 percent will be awarded in any subject in which advantage of exemption is taken.

(2) *Part I.* All exemptions from a subject or subjects of part I which are approved by corps area commanders will be recognized by the final board. The following exemptions are authorized:

(i) *From all subjects of part I.* Graduates of or members of the senior class in good standing who will graduate during the current academic year from recognized colleges and universities. The exemptions will be granted only upon submission by the candidate of satisfactory evidence to substantiate the claim.

(ii) *From individual subjects.* Exemption in a subject will be granted to persons who are not college graduates but who have attended a recognized college or university, only on satisfactory evidence from school records submitted by the candidate, showing qualification under school requirements in the subjects of part I, from which exemptions are requested.

The burden of submitting satisfactory evidence to substantiate the fulfillment of the conditions in (i) and (ii) above rests upon the candidate and will be submitted by him to the examining board prior to or upon reporting for the preliminary examination. A certified transcript of graduation record and class standing will serve to support condition in (i) above.

(3) *Part II.* No exemptions will be granted. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 8, A.R. 605–8, May 29, 1939]

§ 73.108 *General scope of subjects of examination*—(a) *Part I*—(1) *English rhetoric, composition, and literature.* The examination will require a thorough knowledge of the basic rules of rhetoric and their application, a knowledge of the meaning of words, familiarity with the rules of composition showing the ability to write a clear and well-organized theme, and general knowledge of the principal periods of American and English literature, together with familiarity with the principal writers of each period and their important works. The scope of the examination will be that covered in rhetoric and composition by Wooley and Scott's "College Handbook," or equivalent, and in literature by Long's "English Literature" and Pancoast's "Introduction to American Literature," or equivalents.

(2) *History of modern Europe.* The examination will require a knowledge of facts of modern European history from the Reformation to the present day, and the ability to analyze and interpret outstanding trends and developments—political, social, and economic—in that period. The scope will be that covered by Hayes' "Political and Cultural History of Modern Europe," Vols. I and II, or equivalent.

(3) *History of the United States.* The examination will cover the political, economic, social, and military developments of the United States from 1492 to the present, as presented in Muzzey's "United States of America," Revised Edition, 1933, Vols. I and II, or equivalent.

(4) *General mathematics.* The examination will require a thorough knowledge of algebra as covered by W. L. Hart's "College Algebra" or equivalent, together with a working knowledge of the principles of geometry and trigonometry as covered by Phillipps and Fisher's "Elements of Geometry" and W. L. Hart's "Plane Trigonometry," or equivalents.

(5) *Calculus.* The examination will require a knowledge of calculus as covered by Woods and Bailey's "Elementary Calculus," or equivalent.

(6) *Physics.* The examination will require a knowledge of physics as covered by Duff's "College Physics," or equivalent.

(7) *Chemistry.* The scope of this examination will be that of a final examination in this subject given by recognized colleges and technical schools at the end of sophomore or junior years in the scientific courses. The scope will be as covered in Alexander Smith's "College Chemistry" (Kendall), or equivalent.

(8) *Electricity.* The scope of this examination will be that of a final examination in this subject given by recognized colleges and technical schools at the end of the sophomore or junior years in the scientific courses. The scope of the subject will be as covered by Chester L. Dawes' "Electrical Engineering", Vol. I (Direct Currents), and by the first and second chapters only of Chester L. Dawes' "Electrical Engineering", Vol. II (Single Phase Alternating Currents), or equivalents.

(9) *Surveying.* The examination will cover the principles of plane, geodetic, and aerial photographic surveying and their application, and will require a knowledge of the following:

(i) Instruments, their adjustments and uses.

(ii) Plane surveying to include methods of computing areas of limited boundaries and volumes of irregular shape, and topographic surveying mapping.

(iii) Geodetic surveying.

Field astronomy, method of determining time, latitude, longitude, and azimuth.

Triangulation, field work, computations and adjustments.

Trigonometric and precise spirit leveling.

Projection of maps, especially polyconic projection.

(iv) Aerial surveys.

The examination may include an application of the above knowledge to the solution of problems in which the required forms, formulas, and tables will be furnished the candidate for use during the solution of the problems. The extent of the knowledge required will conform to the contents of Davis, Foote and Rayner's "Surveying, Theory and Practice" (latest edition), or equivalent.

(10) *Civil engineering.* Theory and practice of engineering construction, including buildings, highways, retaining walls, dams, foundations, water-supply and sewerage systems and materials of construction (equivalent to that covered by Mitchell's "Civil Engineering," Baker's "Treatise on Masonry Construction" (tenth edition), Spofford's "Theory of Structures," Merriman's "Elements of Sanitary Engineering," and Johnson's "Materials of Construction").

(11) *Mechanical engineering.* This examination will require a knowledge of—

(i) Advanced mechanics, and
(ii) A knowledge of either—

Hydraulics, or

Thermodynamics, such as is required in the final examination in each subject as given by recognized colleges and technical schools at the end of the sophomore or junior years, in the scientific courses and as covered by recognized standard textbooks such as the following:

For advanced mechanics: Seely and Ensign's "Analytical Mechanics for Engineers," latest edition; Maurer and Roark's "Technical Mechanics," latest edition; Frank L. Brown's "Engineering Mechanics," latest edition.

For hydraulics: Russell's "Textbook on Hydraulics," latest edition; Daugherty's "Hydraulics," latest edition; Kind and Wisler's "Hydraulics," latest edition; Hughes and Safford's "Hydraulics," latest edition; Schoder and Dawson's "Hydraulics," latest edition.

For thermodynamics: Meyer, Calderwood and Potter's "Elements of Engineering Thermodynamics," latest edition; William D. Ennis' "Thermodynamics Abridged," latest edition; V. W. and G. A. Young's "Elementary Engineering Thermodynamics," latest edition.

(12) *French.* The examination will require a knowledge of vocabulary, verb, grammar, composition, and idiomatic expression as covered in Morrison and Gauthier's "A French Grammar" and Martin and Russell's "At West Point" or any other recognized textbooks of similar scope of the grammar and composition of the French language.

(13) *Spanish.* The examination will require a knowledge of vocabulary, verb, grammar, composition, and idiomatic expression as covered in Torres' "Essentials of Spanish" and Seymour and Carnahan's "Short Spanish Review Grammar" or any other recognized textbooks of similar scope on the grammar and composition of the Spanish language.

(14) *Economics.* The scope of this examination will be equivalent to that given as a final examination in recognized colleges at the end of a year's course in elementary economics, including—

(i) The economic organization of modern society, with special reference to the United States.

(ii) A consideration of the part which money and credit play in the operation of this organization. Textbooks: Fairchild, Furniss, and Buck's "Elementary Economics," or equivalent.

(15) *Political science.* The scope of this examination will cover a survey of—

(i) Political forms from the prehistoric era to the present.

(ii) Political systems extant today.

(iii) An analysis of the organization and operation of Government in the United States. The scope will be that covered by Maxey's "The American Problem of Government," or equivalent.

(b) *Part II.* Subjects for candidates for appointment in the Infantry, Cavalry, Field Artillery, Coast Artillery Corps, and Signal Corps are as follows:

(1) *Organization of the Army.* The scope of the examination will be similar to that covered in Subcourse 10–1 (Common Subcourse No. 17) (Text 627). It includes general information about the composition of the Army of the United States and its territorial organization in peace and war; the general features of division, corps, and field army organization; a general picture of the military system of command and staff.

(2) *Administration.* The scope of the examination will be similar to that covered in Subcourse 10–3 (Common Subcourse No. 1) (Text 401). It includes company administration to include military correspondence; penalty envelopes and labels; use of the mails; and daily company reports.

(3) *Military law—The law of military offenses.* The scope of the examination will be similar to that covered in Subcourse 10–4 (Common Subcourse No. 14) (Texts 371 and 421). It includes the elementary principles of criminal law with particular reference to the crimes and offenses denounced by the punitive Articles of War.

(4) *Military discipline, courtesies, and customs of the service.* The scope of the examination will be similar to that covered in Subcourse 10–5 (Common Subcourse No. 12) (Texts 127 and 418). It includes the essentials of military discipline, courtesies, and customs of the service.

(5) *Interior guard duty.* The scope of the examination will be similar to that covered in Subcourse 10–6 (Common Subcourse No. 10) (Text 423). It includes the duties of officers in the conduct of an interior guard.

(6) *Map and aerial photograph reading.* The scope of the examination will be similar to that covered in Subcourse 10–7 (Common Subcourse No. 11) (Texts 206, 919, 978, 985, and 1011). It includes, in map reading, orientation; direction; distances, vertical and horizontal; slope; visibility; conventional signs; and coordinates of maps; and in aerial photograph reading, elementary interpretation; orientation; scales, distances; and the appearance of natural and artificial features in aerial photographs.

(7) *Military sanitation and first aid.* The scope of the examination will be similar to that covered in Subcourse 10–8 (Common Subcourse No. 15) (Text 419). It includes elementary sanitation with special reference to the protection and maintenance of the health and physical efficiency of personnel; and first-aid procedure.

(8) Organization of the arm in which the candidate is competing for examination as follows:

(i) *Infantry.* The scope of the examination will be similar to that covered in Subcourse 10–2 (Text 405) which includes a general knowledge of the organization of the Army, together with a detailed outline of the organization and equipment of infantry units.

(ii) *Cavalry.* The scope of the examination will be similar to that covered in Subcourse 10–2 (Text 859a), which includes the organization of cavalry units, beginning with the squad, to include a brief study of the organization of the cavalry regiment, both horse and mechanized.

(iii) *Field Artillery.* The scope of the examination will be similar to that covered in Subcourse 10–2 (Texts 745a and 745b), which includes a general outline of the higher echelons of field artillery; a detailed treatment of the organization of field artillery within the regiment; characteristics of field artillery weapons.

(iv) *Coast Artillery Corps.* The scope of the examination will be similar to that covered in Subcourse 10–2 (Text 429), which includes general artillery organization and organization of elements and units manned and serviced by coast artillery troops.

(v) *Signal Corps.* The scope of the examination will be similar to that covered in Subcourse 10–2 (Text 564), which includes the knowledge of Signal Corps units considered essential for junior officers of the Signal Corps; the organization and mission of the infantry division signal company and cavalry division signal troop. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 9, A.R. 605–8, May 29, 1939, as amended by C 1, June 14, 1939]

§ 73.109 *Selection, order of merit, and assignment of appointees*—(a) *Notification of acceptance or rejection.* Examination papers will be marked as indicated in sections 73.110 and 73.111. Appointees will be selected by the War Department. This work will be expedited as much as circumstances permit, and candidates will be notified, as early as practicable, of their acceptance or rejection. Prior to such notification, no information will be given concerning candidates under consideration.

(b) *Qualifying marks required on final examinations.* As prescribed in paragraphs (a), (b) (2) and (3) (iv), section 73.107. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 10, A.R. 605–8, May 29, 1939]

§ 73.110 *Preparation of final examinations, and correction of examination papers.* Final examinations will be prepared and examination papers will be corrected as follows:

(a) *Part I.* Under direction of the Superintendent, United States Military Academy.

(b) *Part II.*

| *Subject* | *Under direction of* |
|---|---|
| Organization of the Army | Command and General Staff School |
| Administration | The Adjutant General |
| Military law | The Judge Advocate General |
| Military discipline, courtesies, and customs of the service | Chief of Cavalry |
| Interior guard duty | Chief of Infantry |
| Map and aerial photograph reading | Chief of Engineers |
| Military sanitation and first aid | The Surgeon General |
| Organization of the Infantry | Chief of Infantry |
| Organization of the Cavalry | Chief of Cavalry |
| Organization of the Field Artillery | Chief of Field Artillery |
| Organization of the Coast Artillery Corps | Chief of Coast Artillery Corps |
| Signal Corps organization | Chief Signal Officer. |

(c) *Physical examination.* Physical examination report will be reviewed by The Surgeon General and recommendation will be made by him in each case as to physical eligibility of candidates. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 11, A.R. 605–8, May 29, 1939]

§ 73.111 *Weights of parts of examination.* (a) Part I will be given no weight other than to determine whether the candidate has or has not the general education required of an officer in the Regular Army.

(b) The number of points, in weight, allotted to each subject in part II will be as follows for candidates for appointment in the Infantry, Cavalry, Field Artillery, Coast Artillery Corps, and Signal Corps:

| *Subject* | *Weight* |
|---|---|
| Organization of the Army | 100 |
| Administration | 100 |
| Military law | 100 |
| Military discipline, courtesies, and customs of the service | 100 |
| Interior guard duty | 100 |
| Map and aerial photograph reading | 100 |
| Military sanitation and first aid | 100 |
| Organization of the Infantry<br>Organization of the Cavalry<br>Organization of the Field Artillery<br>Organization of the Coast Artillery Corps<br>Signal Corps organization | 100 |
| Total | 800 |

(c) The number of points, in weight, allotted to each subject in the moral character and general fitness test will be as follows:

(1) *Moral character test.* The moral character test will be given no weight other than to determine whether the candidate is qualified or disqualified morally for appointment in the Regular Army.

(2) *General fitness test.*

| *Subject* | *Weight* |
|---|---|
| Personality | 60 |
| Personal appearance | 30 |
| Demeanor | 10 |
| Voice | 10 |
| Bearing | 10 |
| Neatness | 10 |
| Civil experience | 20 |
| Mental alertness | 60 |
| Energy | 10 |
| Self confidence | 10 |
| Dependability | 20 |
| Tact | 10 |
| Force | 30 |
| Leadership | 60 |
| Cooperation | 20 |
| Knowledge of current problems in United States and abroad | 30 |
| Total | 400 |
| Unfavorable physical or mental traits in addition to those indicated above which, in the opinion of the board, would detract from the value of the candidate to the arm of the military service in which he seeks appointment—maximum deduction permitted by board | 100 |

(Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 12, A.R. 605–8, May 29, 1939]

§ 73.112 *Determination of successful candidates.* Selection of the successful candidates for appointment from among those eligible and qualified morally and physically for appointment will be determined as follows:

(a) The final grade (figure of merit) of each candidate will be determined by adding the grade attained on part II of the mental examination to the grade attained on the general fitness test.

(b) Candidates will be selected for appointment in each arm in which appointments are to be made, in accordance with quotas established by the Secretary of War and in the relative order of their final grades, determined as indicated in paragraph (a) above, beginning with the highest in each arm. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 13, A.R. 605–8, May 29, 1939]

§ 73.113 *Recommendations of chiefs of arms.* The complete examination report on each candidate will, after marks have been awarded, be referred to the chief of arm in which the candidate has expressed a choice for appointment. Each such chief will convene a board to consider the complete examination report and any War Department records of the candidate. Based upon such consideration, the chief of the arm will either approve or disapprove appointment in his arm. In case of disapproval, reasons fully establishing the propriety thereof will be stated by the disapproving office. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 14, A.R. 605–8, May 29, 1939]

§ 73.114 *Selection board.* (a) There will be appointed by War Department confidential orders a selection board to consist of one officer of the Adjutant General's Department and two other officers to be drawn by lot from among the arms, other than the Air Corps and Corps of Engineers.

(b) There will be transmitted to this board—

(1) Original application of candidate.

(2) Reports of preliminary and final examining boards, including—

(i) Evidence of exemption from part I, if candidate has been exempted.

(ii) Reports of physical examination.

(3) Marked examination papers.

(4) Recommendation of The Surgeon General as to physical qualification of candidates.

(5) Reports on moral and general fitness tests as provided for elsewhere.

(6) Recommendations of chiefs of arms concerned.

(c) The board will select the successful candidates in accordance with the provisions of these regulations and will forward its report in quadruplicate to the War Department. The report will include the lists provided for in section 73.115. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 15, A.R. 605–8, May 29, 1939]

§ 73.115 *Lists of selected and rejected candidates; order on promotion list.* (a) Selections having been completed, the selection board will prepare lists of selected and rejected candidates as follows:

(1) Selected candidates by arm in order of relative merit based on general fitness rating and standing on part II of the final examination.

(2) Rejected candidates in the various categories grouped as to cause for rejection.

(3) List of candidates who, while otherwise qualified, must be rejected because of lack of vacancies for appointment. This list will group the individuals by arm and service, showing for each candidate his relative position in accordance with his figure of merit.

(b) In the case of each rejected candidate, the specific reason for rejection will be stated.

(c) Appointees will be placed on the promotion list in order of merit based on general fitness rating and standing on part II of the final examination. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of April 3, 1939) [Par. 16, AR 605–8, May 29, 1939]

§ 73.116 *Appointment; notification of rejection.* When the selecting board has completed its duties, appointments will be tendered and rejected applicants will be notified of rejection. Appointees will be given a reasonable time to accept appointments. (Sec. 24e, 41 Stat. 774; as amended by sec. 7, Act of Apr. 3, 1939) [Par. 17, A.R. 605–8, May 29, 1939]

[SEAL] E. S. ADAMS,
*Major General*
*The Adjutant General.*

## TITLE 18—CONSERVATION OF POWER

### FEDERAL POWER COMMISSION

[Order No. 42–A]

PRESCRIBING ACCOUNTING WITH RESPECT TO ELECTRIC PLANT ACQUISITION ADJUSTMENTS ACCOUNTS

JULY 11, 1939.

Commissioners: Clyde L. Seavey, Chairman; Basil Manly, Leland Olds, John W. Scott. Claude L. Draper, not participating.

The Commission, having under consideration the matter of uniform systems of accounts, particularly the text of the account entitled "Electric Plant Acquisition Adjustments" of the Commission's Uniform System of Accounts prescribed for Public Utilities and Licensees by orders of the Commission adopted June 16, 1936 and December 31, 1936; and

It appearing to the Commission that:

(a) Electric Plant Accounts Instruction 2–A of the said Uniform System of Accounts provides that each utility[1] shall classify its electric plant in accordance with the Electric Plant Accounts as prescribed in said Uniform System of Accounts;

(b) Instruction 2–C of said Electric Plant Accounts provides that the detailed Electric Plant Accounts of each utility shall be stated on the basis of cost to the utility of electric plant constructed by it and on the basis of original cost, estimated if not known, of electric plant acquired by it as an operating unit or system; and further, that the difference between the original cost as above, and the cost to the utility of electric plant includible in Accounts 100.1 to 100.4, inclusive, for Class A and B Utilities (or Accounts 1100.1 and 1100.3 for Class C Utilities and Accounts 2100.1 and 2100.3 for Class D Utilities), after giving effect to any depreciation or amortization recorded by the accounting utility at the time of acquisition, shall be recorded in Electric Plant Acquisition Adjustments Account;

(c) Subdivision C of Electric Plant Acquisition Adjustments Account provides as follows:

The amounts recorded in this account with respect to each property acquisition shall be depreciated, amortized, or otherwise disposed of, as the Commission may approve or direct.

The Commission finds that:

(1) Studies of original cost, as provided for in paragraph (a) above, are being completed by utilities and amounts entered in the appropriate primary Electric Plant Accounts in accordance with Instruction 2–C above referred to, or will be so entered in said accounts in the near future;

(2) It is appropriate to consider the matter of disposition of such amounts as may be lodged in said Electric Plant Acquisition Adjustments Accounts; and

The Commission orders that:

(A) Debit amounts in an Electric Plant Acquisition Adjustments Account may be charged to Earned Surplus in whole or in part, or may be amortized over a reasonable period by charges to Miscellaneous Amortization without further order of the Commission;

(B) Should a utility desire to account for debit amounts in an Electric Plant Acquisition Adjustments Account in any manner different from that indicated in (A) above, it shall petition the Commission for authority to do so;

[1] The term "utility" as used herein means any public utility or licensee to which the Commission's Uniform System of Accounts is applicable.

(C) Debit balances shall not be determined by application of credit amounts thereto;

(D) Credit amounts in an Electric Plant Acquisition Adjustments Account shall be accounted for as directed by the Commission;

(E) Where a utility subject to both Federal and State regulations, petitions the Commission in accordance with paragraph (B) above, the cooperative procedure heretofore adopted between Federal and State Commission shall be invoked;

(F) Disposition of amounts in Electric Plant Acquisition Adjustments Accounts, as above directed, is for accounting purposes only and such disposition shall not be construed as determining or controlling the consideration to be accorded these items in rate or other proceedings, nor shall anything contained herein prevent the Commission from subsequently ordering the amounts to be charged directly to surplus or from modifying the adopted amortization period.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 39–2548; Filed, July 14, 1939; 9:31 a. m.]

## TITLE 24—HOUSING CREDIT

### FEDERAL HOME LOAN BANK BOARD

AMENDMENT TO RULES AND REGULATIONS FOR THE FEDERAL SAVINGS AND LOAN SYSTEM

PROVIDING A METHOD FOR CREDITING VOLUNTARY RETIREMENTS OF INVESTMENTS IN FEDERAL SAVINGS AND LOAN ASSOCIATIONS BY THE SECRETARY OF THE TREASURY AND HOME OWNERS' LOAN CORPORATION.

*Be it resolved,* That subsection (d) of Section 203.8 of the Rules and Regulations for the Federal Savings and Loan System is amended, effective July 14, 1939, to read as follows:

"(d) *Retirement of investments by the Secretary of the Treasury or Home Owners' Loan Corporation.* Retirement of investments by the Secretary of the Treasury or by Home Owners' Loan Corporation in Federal associations may be effected in accordance with procedure and using forms approved by the Board, which procedure and forms may be obtained from the Federal home loan bank of which the Federal association is a member. No request for the privilege of retiring investments by the Secretary of the Treasury will be approved by the Board unless such request is received by the Board at its office in Washington, D. C. within 30 days subsequent to the last preceding dividend date, accompanied by a check, postal money order, or bank draft in the amount of the investment sought to be retired, together with any dividends declared but unpaid, on such investment to the last preceding dividend date. Any Federal association may request from time to time the voluntary repurchase of investments by the Secretary of the Treasury and by Home Owners' Loan Corporation in the same order as applications for repurchase of such investments may be made by the Secretary of the Treasury and Home Owners' Loan Corporation under subsection (j) of Section 5 and subsection (n) of Section 4 of Home Owners' Loan Act of 1933, as amended, so that all such voluntary repurchases shall be in direct anticipation of applications for repurchase which the Secretary of the Treasury or Home Owners' Loan Corporation is permitted by law to make."

(Sec. 5 (a) of H.O.L.A. of 1933, 48 Stat. 132, Sec. 5 (j) of H.O.L.A. of 1933, as added by Sec. 5, 48 Stat. 645, Sec. 4 (n) of H.O.L.A. of 1933, as added by Sec. 17 (a), 49 Stat. 297; 12 U.S.C. 1464 (a), (j), 12 U.S.C., Sup., 1463 (n)).

*Be it further resolved,* That this amendment is deemed to be of a procedural character within the provisions of subsection (c) of Section 201.2 of the Rules and Regulations for the Federal Savings and Loan System.

Adopted by the Federal Home Loan Bank Board on July 13, 1939.

[SEAL] H. CAULSEN,
*Assistant Secretary.*

[F. R. Doc. 39–2552; Filed, July 14, 1939; 11:15 a. m.]

AMENDMENT TO RULES AND REGULATIONS FOR INVESTMENT BY HOME OWNERS' LOAN CORPORATION IN SECURITIES OF SAVINGS AND LOAN ASSOCIATIONS

PROVIDING A METHOD FOR CREDITING VOLUNTARY RETIREMENTS OF INVESTMENTS IN SAVINGS AND LOAN ASSOCIATIONS BY HOME OWNERS' LOAN CORPORATION

*Be it resolved,* That paragraph (c) of Section 58 of the Rules and Regulations for Investment by Home Owners' Loan Corporation in Securities of Savings and Loan Associations is repealed, effective July 14, 1939, and paragraph (b) of said Rules and Regulations is amended, effective July 14, 1939, to read as follows:

"(b) Any institution may request the voluntary retirement of investments held by the Home Owners' Loan Corporation in the same order as applications for retirement of such investments may be made by the Home Owners' Loan Corporation under subsection (n) of Section 4 and subsection (j) of Section 5 of Home Owners' Loan Act of 1933, as

amended, so that all such voluntary retirements shall be in direct anticipation of applications for retirement which the Home Owners' Loan Corporation is permitted by law to make."

(Sec 4 (k) of H.O.L.A. of 1933, 48 Stat. 132, Sec. 4 (n) of H.O.L.A. of 1933, as added by Sec. 17 (a), 49 Stat. 297; Sec. 5 (j) of H.O.L.A. of 1933, as added by Sec. 5, 48 Stat. 645; 12 U.S.C. 1463 (k), 1464 (j), 12 U.S.C., Sup., 1463 (n))

Adopted by the Federal Home Loan Bank Board on July 13, 1939.

[SEAL] H. CAULSEN,
*Assistant Secretary.*

[F. R. Doc. 39-2551; Filed, July 14, 1939; 11:15 a. m.]

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### WAR DEPARTMENT

### CHAPTER II—RULES RELATING TO NAVIGABLE WATERS

### PART 203—BRIDGE REGULATIONS

§ 203.710 *State of California; bridge regulations for all navigable waterways of the United States within California, including San Francisco Bay and connected bays and river systems tributary thereto.*[1] Paragraph (b) of the rules and regulations to govern the operation of the drawbridges crossing all navigable waterways of the United States within the State of California approved March 4, 1936, is hereby amended by inserting the following subparagraph:

(14) *Petaluma Creek—Northwestern Pacific Bridge at Black Point.* (i) The owner of, or agency controlling, this bridge will not be required to keep a draw tender in constant attendance except when the swing span remains closed for the passage of railroad traffic. At all other times the swing span may remain in open position and unattended.

(ii) During foggy weather a bell shall be tolled continuously when the swing span is in open position. (Sec. 5, River and Harbor Act, Aug. 18, 1894, 28 Stat. 362; 33 U.S.C. 499) [Regs., Mar. 4, 1936 (E.D. 6374-343/2) • • • as amended June 27, 1939 (E.D. 6371 (Northwestern Pacific R. R. Co.-Petaluma Creek-Black Point, Calif.)-¼)]

[SEAL] E. S. ADAMS,
*Major General,*
*The Adjutant General.*

[F. R. Doc. 39-2545; Filed, July 14, 1939; 9:31 a. m.]

[1] These regulations are supplementary to Title 33, Chaper II, Part 203, of the Code of Federal Regulations.

## TITLE 45—PUBLIC WELFARE

### CIVILIAN CONSERVATION CORPS

### PART 203—ENROLLMENT, DISCHARGE, HOSPITALIZATION, DEATH AND BURIAL OF ENROLLEES[1]

§ 203.2 *Classes of enrollees*—(a) *Juniors.* Except as prescribed in paragraph (b) below, the office of the Director, Civilian Conservation Corps, through its State selecting agencies, selects for enrollment as juniors unmarried male citizens of the United States between the ages of 17 and 23, both inclusive, who are unemployed and in need of employment.

• • • • • •

(50 Stat. 319) [Par. 18a, C.C.C. Regs., W.D., Dec. 1, 1937; amended by C 30, July 5, 1939]

§ 203.3 *Eligibility for selection and reselection*—(a) *Selection*—(1) *Function of the selecting agencies.* Selection and reselection of enrollees are the responsibilities of the State selecting agencies. Junior and veteran applicants are selected and certified to the War Department under definite policies as to eligibility approved by the Director, Civilian Conservation Corps, and duly announced to their respective field agents by the Federal agencies concerned. Men so selected and certified will present properly executed application forms duly signed by the authorized selecting agents of the Director, Civilian Conservation Corps, or the Veterans Administration, as the case may be. The War Department does not participate in selection or reselection.

(2) The following classes of persons are excluded from selection and enrollment:

(i) Those who have been previously dishonorably or administratively discharged.

(ii) Those who have been convicted by a civil or military court of an offense which may be punished by death or imprisonment for a term exceeding 1 year.

(iii) Those serving a current term of probation or parole by reason of a sentence of a criminal court because of the commission of any crime or misdemeanor.

(iv) Civil law enforcement officers such as justices of the peace, sheriffs, game wardens, and their deputies.

(v) Members of the National Guard of a State, a territory, or the District of Columbia.

(vi) Unworthy enrollees.

• • • • • •

(50 Stat. 319) [Par. 19a, C.C.C. Regs., W.D., Dec. 1, 1937; amended by C 30, July 5, 1939]

§ 203.10 *Allotments and deposits.* Whenever "State selecting agency" is used in this section, the State Director of Selection representing the Director, Civilian Conservation Corps, in the State, of the senior representative of the Veterans Administration in the region, concerned with enrollments, is intended.

• • • • • •

(b) *Changes or termination.* (1) Subsequent to the certification of an allotment or deposit by the State selecting agency the designated allottee will not be subject to change, and the allotment will not be subject to reduction or cancelation, except upon approval by the State selecting agency. For stoppages of allotment or deposit upon final payment see section 203.16. Should the corps area commander not concur in the action taken by the State selecting agency, the matter will be referred to the office of the Director, Civilian Conservation Corps, or the Veterans Administration through the normal channels of command. The decision of the Director, Civilian Conservation Corps, or the Veterans Administration will be final. (See par. (g) below.) Request for change of allotment may be initiated either by the enrollee or the State selecting agency.

• • • • • •

(50 Stat. 319) [Pars. 36a (2) and c (1), C.C.C. Regs., W.D., Dec. 1, 1937; amended by C 30, July 5, 1939]

§ 203.18 *Transportation and travel allowances.*

• • • • • •

(b) *Transportation in kind from places of discharge*—(1) *Juniors.* Subject to subparagraphs (4), (5), (6), and (7) below and to subparagraph (3), paragraph (e), Section 203.21, to places of selection by the State selecting agency or to their homes if the distance thereto is equal to or shorter than that to the places of selection, irrespective of the factors which caused discharge, or to places nearer than to places of selection or their homes.

• • • • • •

(50 Stat. 319) [Par. 66b (4) (a), C.C.C. Regs., W.D., Dec. 1, 1937; amended by C 30, July 5, 1939]

[SEAL] E. S. ADAMS,
*Major General,*
*The Adjutant General.*

[F. R. Doc. 39-2547; Filed, July 14, 1939; 9:31 a. m.]

[1] These regulations amend the indicated sections and paragraphs of Title 45, of the Code of Federal Regulations.

## *Notices*

### DEPARTMENT OF THE INTERIOR.

### National Bituminous Coal Commission.

[General Docket No. 15]

IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS: IN RE MINIMUM PRICE AS COORDINATED FOR DISTRICTS Nos. 9, 10, 11, 12, 13, 14 AND 15

AN ORDER FOR AND NOTICE OF FINAL HEARING IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES FOR THE COALS PRODUCED IN DISTRICTS NOS. 9, 10, 11, 12, 13, 14 AND 15

[*The Order for and Notice of Final Hearing and the schedules of proposed coordinated minimum prices for Districts Nos. 9 and 10 appeared in the* FEDERAL REGISTER *for Thursday, July 13, 1939. The schedules of proposed coordinated minimum prices for Districts Nos. 11 and 12 appeared in the* FEDERAL REGISTER *for Friday, July 14, 1939.*]

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT No. 13

FOR ALL SHIPMENTS EXCEPT TRUCK

*Price Instructions and Exceptions Applicable to Mines in Subdistrict No. 1*

Item No. 1. The prices published herein are in cents per net ton of 2,000 pounds and apply f. o. b. transportation facilities at mines on all coal produced by code members at mines located in the district shown on the title page hereof.

Item No. 2. The prices published in this schedule are subject to the established Marketing Rules and Regulations and the rules and regulations governing distributors.

Item No. 3. All prices shown herein are for payment in United States funds.

Item No. 4. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D 410-38 exceeds 5%, the price for the next higher size group classification for that mine shall apply.

Item No. 5. The prices herein established for mines shipping by railways shall be applicable to all coal shipped by conveyances other than trucks or wagons.

Item No. 6. Railway locomotive fuel prices designated on page 37 shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

Item No. 7. The market areas used in this schedule are those areas numerically designated and geographically described in the document entitled, "Consuming Market Areas as Proposed by the National Bituminous Coal Commission Pursuant to Section 4 of the Bituminous Coal Act of 1937" dated April 24, 1939.

Item No. 8. All coal subjected to any chemical, oil or wax process for allaying dust shall be priced at not less than 15 cents per net ton above the prices shown herein.

Item No. 9. An extra charge of $2.50 per car must be made when more than one size of coal is shipped in the same railroad car.

Item No. 10a. Any producer mine located in subdistrict No. 1 with a contemporaneous through haul rate to any destination that is higher than the through haul rate applicable to any other mine in subdistrict No. 1 to such destination may reduce the f. o. b. mine price shown herein for said producer mine in the exact amount of the differential between the actual freight rate applicable to that particular producer mine and the lowest contemporaneous freight rate of any other producer mine in subdistrict No. 1. Such reduction shall not exceed 25 cents per net ton.

Item No. 10b. *Coking coal.* For shipment only to destinations within the state of Alabama. Prices shown for all mines in subdistrict No. 1 are based on lowest line haul coking-in-transit or lowest line haul Furnace raw material rates, whichever properly applies. Mines having lower transportation charges must plus their mine prices the amount of their transportation advantage, measured by that line haul rate which properly applies. Mines having higher than such base rates may absorb up to 25 cents per ton of such disadvantage. There shall be no adjustment of furnace material transportation charges to equalize with coking-in-transit transportation charges.

Item No. 11. *Industrial coal* The term "Industrial Coal" as used in this schedule is coal used in industrial plants which buy and receive coal in carload quantities for their own use.

Item No. 12. *Domestic coal* The term "Domestic Coal" as used in this schedule is coal other than defined as "Industrial Coal".

Item No. 13. For the mine with index No. 69 the price shown herein for size group No. 7 shall apply to 2" x ¾" nut coal.

Item No. 14. For mines with index numbers 1 to 23 inclusive, when top size of coal applicable to size group 2 does not exceed 5" the prices shown in this schedule may be reduced 10 cents per net ton.

Item No. 15. For the mine with index number 17 the prices shown herein for size groups 5, 7 and 20 shall apply to coal with a top size not larger than 4".

Item No. 16. For the mine with index number 1 the prices shown herein for size groups 5 and 20 may be reduced 25 cents per ton when 2" x 1" nut coal is applied.

Item No. 17. *Seasonal discounts* The following seasonal discounts may apply on coal when sold for domestic use only:

| Mine Index Nos. | Market areas in which discounts apply | Size group | Apr. | May | June | July | Aug. | Sept. | Oct. |
|---|---|---|---|---|---|---|---|---|---|
| 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 14, 15, 16, 17, 18, 19, 21, 22, 23. | 69, 70, 71, 72, 73, 74, 117, 120, 122, 123, 124, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 212. | 1 | 75 | 65 | 55 | 45 | 35 | 25 | 15 |
| | | 2 | 75 | 65 | 55 | 45 | 35 | 25 | 15 |
| | | 5 | 65 | 55 | 45 | 35 | 25 | 15 | 0 |
| | All other market areas not shown above. | 1 | 50 | 40 | 30 | 20 | 10 | 0 | 0 |

| 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 41, 42, 43, 44, 45, 46, 47, 48, 49, 51, 52, 53, 54, 68. | Carbon Hill Big Seam. | 245 | ---- | ---- |

[1] Mines with index Nos. 1, 2, 3, 4, 6, 7, 8, 14, and 15 may reduce the prices shown above 10 cents per ton when sale is made to or through an American agent.

### *Prices F. O. B. Mines for Shipment to all Railroads for Locomotive Fuel Only*

The following prices apply for locomotive use only. For station heating, power plants, dining cars and other uses regular steam and/or domestic schedules apply except that where slack coal by such application is higher than locomotive fuel, proper locomotive fuel price may apply to slack coal]

| For all mines in subdistrict No. 1—Mine index No. | For all sizes customarily furnished railroads for locomotive fuel | | |
|---|---|---|---|
| | Central of Georgia [a] | Seaboard Air Line Railway | All other railroads not specifically shown |
| 41, 57 | 243 | ---- | 220 |
| 55 | ---- | 243 | 220 |
| 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 14, 15, 16, 17, 18, 19, 21, 22, 23, 30, 31, 32[b], 33, 34[b], 35, 36, 37, 38, 39, 42, 43, 44[c], 45, 46[b], 47, 48, 49[b], 51, 52, 53, 54, 56, 58, 59, 61, 62[c], 63, 64[c], 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78 | 220 | 220 | 220 |

[a] Mines with index numbers 62 and 64 may deliver locomotive fuel to the A. B. & C. Railroad over the privately owned railway of the Woodward Iron Company at the price shown above.

[b] Mines with index numbers 46 and 49 may deliver locomotive fuel to the Southern Railroad over the privately owned railway of the Sloss-Sheffield Steel & Iron Co. at the price shown above.

[c] Mines with index number 44 may reduce the price shown above when for delivery to the Illinois Central Railroad by the amount of $10.75 per car, which amount is the contemporaneous weighing and switching charge.

[d] Mines with index numbers 32 and 34 may reduce the price shown above when for delivery to the Columbus and Greenville Railway by the exact amount per ton necessary to equalize actual freight division differentials with mines taking the Southern Railway group 4 freight rates.

[e] Prices shown for Central of Georgia and Seaboard Air Line Railways shall also apply to controlled subsidiaries whose purchases of coal are directly made by the controlling system. This includes steamship bunker coal for the Central of Georgia.

### *Price Instructions and Exceptions Applicable to Mines in Subdistrict No. 3*

Item No. 1. The prices published herein are in cents per net ton of 2,000 pounds and apply f. o. b. transportation facilities at mines on all coal produced by code members at mines located in the district shown on the title page hereof.

Item No. 2. The prices published in this schedule are subject to the established Marketing Rules and Regulations and the rules and regulations governing distributors.

Item No. 3. All prices shown herein are for payment in United States funds.

Item No. 4. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D 410–38 exceeds 5%, the price for the next higher size group classification for that mine shall apply.

Item No. 5. The prices herein established for mines shipping by railways shall be applicable to all coal shipped by conveyances other than trucks or wagons.

Item No. 6. Railway locomotive fuel prices designated on page 45 shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

Item No. 7. The market areas used in this schedule are those areas numerically designated and geographically described in the document entitled, "Consuming Market Areas as Proposed by the National Bituminous Coal Commission Pursuant to Section 4 of the Bituminous Coal Act of 1937" dated April 24, 1939.

Item No. 8. All coal subjected to any chemical, oil or wax process for allaying dust shall be priced at not less than 15 cents per net ton above the prices shown herein.

Item No. 9. Any producer mine located in subdistrict No. 3 with a contemporaneous through haul rate to any destination that is higher than the through haul rate applicable to any other mine in subdistrict No. 3 to such destination, may reduce the f. o. b. mine price shown herein for said producer mine, in the exact amount of the differential between the actual freight rate applicable to that particular producer mine, and the lowest contemporaneous freight rate of any other producer mine in subdistrict No. 3. Such reduction shall not exceed 35 cents per net ton. —

(This exception does not apply on shipments of coal from any mine to any destination point in market area No. 112.)

Item No. 10. *Industrial coal.* The term "Industrial Coal" as used in this schedule is coal used in industrial plants which buy and receive coal in carload quantities for their own use.

Item No. 11. *Domestic coal.* The term "Domestic Coal" as used in this schedule is coal other than defined as "Industrial Coal."

| | | All market areas not listed above. | 325 |
| | | For shipment to all railroads in all areas. | 400 |

***Prices F. O. B. Mines for Shipment to All Railroads for Locomotive Fuel, Station Heating, Power Plants and Other Uses***

| For all mines in subdistrict No. 3—Mine index No. | Size | Prices |
|---|---|---|
| 91, 93, 94, 95, 96, 97, 98, 99. | For all sizes except screenings. | 220 |
| | Screenings with top size not more than 2". | 215 |

**SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 13**

**TRUCK SHIPMENTS ONLY**

***Identification of Subdistrict Numbers***

**Identification**

Subdistrict No. 1. Alabama Rail Connected Mines.

Subdistrict No. 2. Alabama Truck Mines.

Subdistrict No. 3. Tennessee-Georgia Rail Connected Mines.

Subdistrict No. 4. Tennessee-Georgia Truck Mines.

**PRICE INSTRUCTIONS AND EXCEPTIONS**

***Alabama Mines—Subdistricts 1 and 2—Truck Shipment Only***

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members within District No. 13.

2. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

***Size Groups Applicable to Alabama Mines Shipping by Truck—Subdistricts 1 and 2*—Continued**

| Size group No. | Grade | Size dimensions: Top size | Size dimensions: Bottom size |
|---|---|---|---|
| 8 | Nut | Not larger than 1¼". | Not larger than ¾". |
| 10 | Mine run | Straight mine run; no fines removed. | |
| | | Mine run, modified by the removal of fines intermediate size or sizes; no fines removed. | |
| 11 | 6" x 0 | All resultant coals larger than 6", but not larger than 6"; no fines removed. | |
| | | All resultant coals larger than 5", but not larger than 6"; no fines removed. | |
| 12 | 5" x 0 | All resultant coals larger than 4", but not larger than 5"; no fines removed. | |
| 13 | 3" x 0 | All resultant coals larger than 1¼", but not larger than 3", no fines removed. | |
| | 2" x 0 | | |
| 14 | 1¼" x 0 | All screenings 1¼", and smaller. | |
| 19 | Industrial [1] | All lump and double screened coals with a horizontal cut as larger. | |
| 20 | Industrial [1] | All double screened coals with a top size not larger than 3". | |

[1] For Definition of Industrial Coal see Price Instructions and Exceptions, Item No. 7.

8. *Domestic coal.* The term "Domestic Coal" as used in this schedule is coal other than defined as "Industrial Coal".

9. All prices in size group 10 are for unwashed coal. Run of Mine coal when washed shall be sold 10c per ton higher.

10. *Seasonal discounts.* The following seasonal discounts may apply on coal when sold for domestic use only:

| Size group | April | May | June | July | August | September | October |
|---|---|---|---|---|---|---|---|
| All market areas | 75 | 65 | 55 | 45 | 35 | 25 | 15 |
| All market areas | 75 | 65 | 55 | 45 | 35 | 25 | 15 |
| All market areas | 65 | 53 | 45 | 33 | 23 | 15 | 0 |

11. Not *less* than the actual cost of transporting coal from the ordinary loading facilities at the mines to any consumer shall be added to the established minimum price f. o. b. transportation facilities at the mine.

***Prices in Cents per Ton for Shipment Into All Market Areas—For Truck Shipment Only***

PRICE INSTRUCTIONS AND EXCEPTIONS

*Tennessee-Georgia Mines—Sub-Districts 3 and 4—Truck Shipment Only*

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members within District No. 13.

2. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

3. All prices are subject to the effective Marketing Rules and Regulations and the Rules and Regulations governing Distributors.

4. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

5. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D 410-38, exceeds 5%, the price for the next higher size group classification for that mine shall apply.

6. All prices herein are for unwashed coal. Washed coal of any size shall be sold 10¢ per ton higher.

7. All coal subjected to any chemical, oil or wax process for allaying dust shall be priced at not less than 15¢ per net ton above the prices shown herein.

8. *Industrial coal.* The term "Industrial Coal" as used in this schedule is coal used in industrial plants which buy and receive coal in carload quantities for their own use.

9. *Domestic coal.* The term "Domestic Coal" as used in this schedule is coal other than defined as "Industrial Coal."

10. *Seasonal discounts.* The following seasonal discounts may apply on coal when sold for domestic use only:

| | Size group | May | June | July | August | September |
|---|---|---|---|---|---|---|
| All market areas | 1 | 50 | 40 | 30 | 20 | 10 |
| All market areas | 2 | 50 | 40 | 30 | 20 | 10 |
| All market areas | 4 | 50 | 40 | 30 | 20 | 10 |

11. Not *less* than the actual cost of transporting coal from the ordinary loading facilities at the mines to any consumer shall be added to the established minimum price f. o. b. transportation facilities at the mine.

The cost of such transportation is subject to reviow by the Commission on complaint or upon its own motion. In every case reviewed by the Commission the Code Member shall have the burden of establishing or proving that the cost so charged was not less than the actual cost of transportation.

*Size Groups Applicable to Tennessee and Georgia Mines Shipping by Truck—Sub-Districts Nos. 3 and 4*

| Size group No. | Grade | Size dimensions | |
|---|---|---|---|
| | | Top size | Bottom size |
| 1 | Lump | No limit | Larger than 2". |
| | Egg | Larger than 5" | No limit. |
| 3 | Egg | 5" and larger than 2" | 2" and larger than 1". |
| 4 | Lump | No limit | 2" and smaller. |
| 6 | Nut | 2" and larger than 1½". | 1" and larger than ½". |
| 8 | Stoker | 1½" and larger than ¾". | ½" and larger than ⅜". |
| 9 | Stoker | ¾" and smaller | ⅜" and smaller. |

*Size Groups Applicable to Tennessee and Georgia Mines Shipping by Truck—Sub-Districts Nos. 3 and 4*—Continued

| Size group No. | Group | Size dimensions |
|---|---|---|
| 10 | Mine Run. | Straight mine run; no fines removed. |
| | 6" x 0 | Mine run, modified by the removal of any intermediate size or sizes; no fines removed. |
| | | All resultant coals larger than 5"; no fines removed. |
| 11 | 5" x 0 | All resultant coals 5" and larger than 4". |
| 12 | 4" x 0 | All resultant coals 4" and larger than 2". |
| | 3" x 0 | |
| 13 | 2" x 0 | All screenings 2" and larger than 1¼" (includes specially prepared 2" x 0 nut and slack coal with part of the fines removed. Each car of such coal must contain not less than 40% of fine coal including intermediate coal from washer which will pass through a ¾" screen). |
| 15 | 1¼" x 0 | All screenings 1¼" and larger than 1¼". |
| 16 | 1¼" x 0 | All screenings 1¼" and larger than ¾". |
| 17 | ¾" x 0 | All screenings ¾" and larger than ¾". |
| 18 | ¾" x 0 | All screenings ¾" and smaller. |
| 19 | Industrial[1] | All lump coal with a bot tom size 1" and larger. |
| | | All double screened coal with a top size larger than 2". |

[1] For Definition of Industrial Coal see Price Instructions and Exceptions, Item No. 8.

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 13

VAN BUREN, WARREN AND MCMINN COUNTIES, TENNESSEE IN MINIMUM PRICE AREA NO. 1—TRUCK SHIPMENTS ONLY

*Price Instructions and Exceptions*

1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal produced by Code Members within District No. 13. (Van Buren, Warren and McMinn Counties, Tennessee).

2. All prices herein are per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines unless otherwise designated.

3. All prices are subject to the effective Marketing Rules and Regulations and the Rules and Regulations governing Distributors.

4. Invoices shall be paid in full in United States currency, or funds equivalent thereto, not later than the due date.

5. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D 410-38, exceeds 5%, the price for the next higher size group classification for that mine shall apply.

6. All prices herein are for unwashed coal. Washed coal of any size shall be sold 10¢ per ton higher.

7. All coal subjected to any chemical, oil or wax process for allaying dust shall be priced at not less than 15¢ per net ton above the prices shown herein.

8. Not *less* than the actual cost of transporting coal from the ordinary load-

ing facilities at the mines to any consumer shall be added to the established minimum price f. o. b. transportation facilities at the mine.

The cost of such transportation is subject to review by the Commission on complaint or upon its own motion. In every case reviewed by the Commission the Code Member shall have the burden of establishing or proving that the cost so charged was not less than the actual cost of transportation.

*Prices in Cents per Ton for Shipment Into All Market Areas*

| Code member index—name | Mine | Seam | County | Prices and size groups | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | | 1 | 2 | 3 | 4 | 5 | 6 |
| C. W. Hart | Hart | Sewanee | VanBuren | 315 | 315 | 260 | 235 | 200 | 195 |

*Size Groups*

Description

Size Group No. 1. Screened coal—bottom size 2" or larger.

Size Group No. 2. Double screened coal—maximum top size 5", maximum bottom size 2".

Size Group No. 3. Double screened coal—maximum top size 2", maximum bottom size 1".

Size Group No. 4. Straight mine run.

Size Group No. 5. Resultant 2 x 0".

Size Group No. 6. Resultant 1 x 0".

---

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 14

PRICE INSTRUCTIONS AND EXCEPTIONS

1. The prices shown herein apply f. o. b. transportation facilities at mines for all coal produced by Code Members in the District shown on the title page hereof.

2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

3. All size designations herein are for round hole screens, or their equivalents, except when otherwise designated. When other types of screens are used, the District Board, subject to the approval of the Commission, shall determine the actual size designation of coal so prepared.

4. All prices herein are in cents per net ton of 2,000 lbs. f. o. b. transportation facilities at the mines.

5. When coal is loaded in Box cars the following amounts shall be added to the minimum f. o. b. mine price:

Sub-District 1—15 cents; Sub-Districts 2, 3, 4, 5, 6, 7, 8 and 9—25 cents.

6. A minimum charge of 10 cents per ton on all sizes of coals shall be added for oil or other similarly treated coal.

7. The description of the Market Areas listed herein are the same as those described in the "Consuming Market Areas Schedule".

8. When smithing coal is sacked, $1.50 per net ton shall be added to the minimum f. o. b. mine price.

SIZE GROUPS

*Sizes Included*

Size group No. 1. Lump—Solid Shot Coal, screened over bars spaced 1½" apart.

Size group No. 2. Lump—Solid Shot Coal, screened over bars spaced ¾" apart.

Size group No. 3. Lump—Solid Shot Coal, screened over perforated plates with round holes 2½" or smaller.

Size group No. 4. Lump—Machine Cut Coal, screened over perforated plates with round holes 2½" and larger.

Size group No. 5. Lump—Machine Cut Coal, screened over perforated plates with round holes under 2½" in diameter.

Size group No. 6. Grate—Includes all sizes of coal having a top size of 7½" and a bottom size of 5½".

Size group No. 7. Furnace—Includes all sizes of coal having a maximum top size of 12" and a maximum bottom size of 4".

Size group No. 8. Egg—Includes all sizes of coal having a maximum top size of 6" and a maximum bottom size of 2½".

Size group No. 9. Small Egg—Includes all sizes of coal having a maximum top size of 4" and a maximum bottom size of 2".

Size group No. 10. Stove—Includes all sizes of coal having a maximum top size of 3" and a maximum bottom size of 1½".

Size group No. 11. Nut—Includes all sizes of coal having a maximum top size of 2½" and a maximum bottom size of 1½".

Size group No. 12. Range—Includes all sizes of coal having a maximum top size of 2½" and a maximum bottom size of ⅞".

Size group No. 13. Chestnut—Includes all sizes of coal having a maximum top size of 1½" and a maximum bottom size of ⅞".

Size group No. 14. Nutrun—Includes all sizes of coal having a maximum top size of 2½", with no coal removed.

Size group No. 15. Slack—Includes all sizes of coal having a maximum top size of 1¼", with no coal removed.

Size group No. 16. Slack—Includes all sizes of coal having a maximum top size of ⅞", with no coal removed.

Size group No. 17. Pea—Includes all sizes of coal having a maximum top size of 1¼" and a maximum bottom size of ⅜".

Size group No. 18. Minerun—Includes all coal as it comes from the mine with no part of the small coal removed.

Size group No. 19. Dead Coal—Coal used by smelters for Ore reduction.

Size group No. 20. Smithing Coal—Coal used for blacksmithing.

Size group No. 21. Railroad Locomotive fuel—any size prepared coal—single or double screened—or straight mine run.

Size group No. 22. Railroad locomotive fuel with all coal over 6" round hole removed.

Size group No. 23. Railroad locomotive fuel with all coal over 2½" round hole removed.

When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled above then such coal must be included in the next higher priced size group and priced accordingly.

IDENTIFICATION OF SUBDISTRICTS

*Identification*

Subdistrict No. 1. Includes all mines in Pope County, all mines in the "Spadra field" of Johnson County, Arkansas.

Subdistrict No. 2. Includes all mines in the Denning-Coal Hill and Altus fields of Franklin and Johnson Counties, and all mines in the Philpott field of Johnson and Franklin Counties, Arkansas.

Subdistrict No. 3. Includes all mines in the "Paris Field" of Logan County, Arkansas, and mines in Franklin County located in Paris Basin.

Subdistrict No. 4. Includes all mines in the "Charleston Field" in Franklin County, Arkansas.

Subdistrict No. 5. Includes all mines in Sebastian County, Arkansas.

Subdistrict No. 6. Includes all mines in the "Panama Field" of Leflore County, Oklahoma.

Subdistrict No. 7. Includes mines in the "Bokoshe and Milton Field" of Leflore County, Oklahoma, mines in the McCurtain field of Haskell County and all mines in Sequoyah County, Oklahoma.

Subdistrict No. 8. Includes all mines in the "Poteau-Wister field" in Leflore County, Oklahoma.

Subdistrict No. 9. Includes all mines in the "Howe-Heavener field" of Leflore County, Oklahoma, and all mines in the "Bates field" in Scott County, Arkansas.

Subdistrict No. 10. Includes all mines in the "Stigler-Kanima field" in Haskell County, Oklahoma.

Subdistrict No. 11. Includes all mines in the "Scranton field" of Logan County, Arkansas.

| 21 | 250 |
| 22 | 225 |
| 23 | 135 |

## SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 15

### FOR ALL SHIPMENTS EXCEPT TRUCK

*Price Instructions and Exceptions (For Shipment by Railroad)*

Item No. 1. All prices shown herein are in cents per net ton of 2,000 pounds and apply f. o. b. transportation facilities at mines.

Item No. 2. This Price Schedule is divided into three parts, namely:

Part I—Domestic and Commercial Use and Industrial Use.

(a) Prices shown for Domestic and Commercial Use apply (1) on all sales in retailing of coal. (2) On all sales of coal to consumers using coal principally for space heating. (3) On all other sales except Industrial Use and as provided for in Part II Special Purpose Use and Part III Railroad Locomotive Fuel Use.

(b) Prices in the Industrial Use Schedule apply only where sale is made by the Producer Code Member, his authorized agent, or a registered wholesaler or jobber and where the coal moves direct from the mine of the producer to the consumer using the fuel principally for (1) the purpose of driving steam engines or turbines. (2) The purpose of manufacturing or processing if fuel is required each day of the year products of the consumer are produced.

Part II—Special Purpose Coal Use. The prices shown in Part II apply to all coal produced in what is known as the Briartown District in Oklahoma.

Part III—Railroad Locomotive Use Schedule. Prices apply on coal sold to railroads for locomotive fuel use only.

Item No. 3. All prices are subject to the effective Market Rules and Regulations and the Rules and Regulations governing distributors.

Item No. 4. All size designations are for round hole screens. When screens having other types of openings are used and the percentage of over-size, as determined in accordance with the method of test prescribed by A.S.T.M. designation D-410-38, exceeds 5% the price for the next higher Size Group Classification for that mine shall apply.

Item No. 5. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

Item No. 6. All lump or double screened coal subjected to any chemical, oil or wax process for allaying dust shall be priced at not less than 10 cents per net ton above the prices shown herein.

Item No. 7. The Market Areas used in this schedule are those areas numerically designated and geographically described in the document entitled, "Consuming Market Areas as Proposed by the National Bituminous Coal Commission pursuant to Section 4 of the Bituminous Coal Act of 1937", dated April 24, 1939.

Item No. 8. The f. o. b. mine price on shelly, off-grade coal may be reduced a maximum of 15 cents per ton on sizes one to seven, inclusive, when due notice is given by a Code Member to the Statistical Bureau of the National Bituminous Coal Commission that he has such coal to dispose of and the coal is inspected and so classified by an authorized representative of the Commission.

Item No. 9. (a) In order to maintain delivered differentials with the base Producing Group sizes and sizes moving from other Producing Groups in competition with the base group size, the prices as set forth in the Schedule may be reduced in such a manner as necessary to preserve the delivered differentials, transportation charges considered, as reflected in the Schedule showing delivered differentials that may be maintained with base group coals by reducing prices published herein. See Page 33.

(b) Base Production Group coals are indicated in the following Price Schedule in each and every market area.

(c) All delivered differentials established in the Schedule are based upon "A" grade coals from the various Producing Groups.

(d) To destinations where Production Group No. 1 is the base unwashed "A" grade coal is to be considered the base coal.

(e) All permitted delivered differentials except as otherwise provided for shall be based upon the lowest freight group rate as published in the current effective railroad tariffs:

*Exceptions.* (1) To destinations in the State of Missouri delivered differentials may be based using the lowest mileage rate from an individual active mine actually shipping coal by rail.

(2) Where truck and gas compelled rates are in effect from mines within a Production Group, other mines within such group may reduce their prices in such a manner as to effect an equal delivered cost with the rail shipping mines.

(3) Where mines in a Production Group are located in more than one freight rate group as published in the current effective railroad tariffs, all mines within the Production Group may reduce their prices in such a manner as to effect an equal delivered cost with the mines in the rate group having the lowest published rate.

Item No. 10. Price Classification: A, List; B, Minus 0.05; C, Minus 0.10.

Item No. 11. Railway Locomotive Fuel prices designated shall not be used in the sale of coal to railways other than those recognized as common carriers by the Interstate Commerce Commission or by the Canadian Railways Commission.

*Size Groups*

Size group No. 1. Fancy Lump—Coal passing over a screen with round hole openings larger than 3".

Size group No. 2. Lump—Coal passing over a screen with round hole openings of ½" to 3", inclusive.

Size group No. 3. Furnace or Egg—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings of not less than 1½".

Size group No. 4. Egg—Nut—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings not over 1¼".

Size group No. 5. Fancy Nut—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 2".

Size group No. 6. Standard Nut—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 1¼".

Size group No. 7. No. 2 Nut—Coal passing through a screen with round hole openings not over 2" and over a screen with round hole openings not over 1¼".

Size group No. 8. Chestnut—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings of not over 1".

Size group No. 9. Mine Run—Coal shoveled at the face from which no coal has been removed either at the face, preparation plant, or when loading into transportation facilities, and shall contain not less than 30% screenings that will pass through an 1¼" round hole screen. Run of mine containing less than 30% screenings that will pass through an 1¼" round hole screen shall be classified as Lump coal and sold at not less than the Lump coal price.

Size group No. 10. Nut Run—Coal passing through not larger than a 3" round hole screen or its equivalent, from which no coal has been removed, and it shall contain not less than 50% screenings that will pass through an 1¼" round hole screen. Nut Run containing less than 50% screenings that will pass through an 1¼" round hole screen shall be classified as 3" Nut coal and sold at no less than the price applying on Standard Nut.

Size group No. 11. Special Stoker—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ⅜".

Size group No. 12. Raw Prepared Screenings—Coal dry-cleaned passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ¼".

Size group No. 13. Washed Screenings—1¼" x 0—Washed coal passing through a screen with round hole open-

ings not over 1¼" from which no coal has been removed.

Size group No. 14. Screenings—1¼" x 0—Coal passing through a screen with round hole openings not over 1¼" from which no coal has been removed.

Size group No. 15. Raw Dust—¼" x 0—Coal that has not been washed passing through a screen with round hole openings not over ¼" from which no coal has been removed.

*Producing Groups Defined*

Group No. 1. All mines located in Cherokee, Crawford, Bourbon, Neosho, Labette and Wilson Counties, Kansas; and Barton, Jasper, Dade, Cedar, and that portion of Vernon County lying south of an east and west line drawn through the town of Nevada, Missouri.

Group No. 2. All mines located in Linn County, Kansas; and Bates, Henry, St. Clair, Morgan, Pettis and Johnson Counties; and that portion of Vernon County lying north of an east and west line drawn through the town of Nevada in Missouri.

Group No. 3. All mines located in Boone, Callaway, Audrain, Randolph, Macon, Linn, Grundy, Harrison, Adair, Chariton, Schuyler, Putnam, Cole, Howard, Monroe, Warren, and Ralls Counties in Missouri.

Group No. 4. All mines located in Ray, Clay, Caldwell, Daviess, Clinton, and Carroll Counties in Missouri.

Group No. 5. All mines located in Lafayette County, Missouri.

Group No. 6. All mines located in Osage, Franklin, Lyon, and Coffey Counties, Kansas.

Group No. 7. All mines operating on the genuine McAlester seam in Pittsburg and Latimer Counties, Oklahoma.

Group No. 8. All mines operating on the Wilburton-Hartshorne seams in Pittsburg and Latimer Counties, Oklahoma.

Group No. 9. All mines located in Coal County, Oklahoma.

Group No. 10. All mines located in Okmulgee County, Oklahoma.

Group No. 11. All mines located in Tulsa, Wagoner, Roger, and Craig Counties, Oklahoma.

Group No. 12. All mines located in Muskogee County, Oklahoma.

Group No. 13. All mines located in Johnson, Leavenworth, and Wyandotte Counties, Kansas.

SPECIAL PURPOSE COAL SCHEDULE—PART 2

*Oklahoma "Smithing Coal" From Production Group No. 12*

Minimum prices f. o. b. mines in cents per ton of 2,000 lbs. for coal loaded into railroad cars and shipped by rail to all destinations.

| | Per ton |
|---|---|
| Crushed Mine Run—Bulk | $5.22 |
| Crushed Mine Run—Sacked | [1] 7.17 |
| Lump—Over 2½" | 5.72 |

[1] From price of $7.17 per ton may be deducted $1.75 per ton when buyer furnishes sacks.

RAILROAD LOCOMOTIVE FUEL SCHEDULE—PART 3

*Minimum Prices F. O. B. Mines in Cents per Ton of 2,000 Lbs.*

PRODUCTION GROUP NO. 1

| | |
|---|---|
| Railroad locomotive fuel | 210 |
| 3" x 0 Washed or 3" x ¼" Unwashed | 200 |
| 2" x 0 Washed or 2" x ¼" Unwashed | 185 |
| 1¼" x 0 Washed or 1¼" x ¼" Unwashed | 170 |
| Locomotive fuel loaded on Mo. Pac. R. R. and its connections for use West in fuel oil competing territory | 170 |

*Exception:* The actual published switching charges not to exceed $6.93 per car may be absorbed from the above prices.

PRODUCTION GROUP NO. 2

| | |
|---|---|
| Railroad locomotive fuel | 210 |
| 3" x 0 stoker screenings with ½ of fines removed | 195 |
| 2" x 0 | 170 |

PRODUCTION GROUP NO. 3

| | |
|---|---|
| Railroad locomotive fuel | 210 |
| 2" x 0 | 170 |

PRODUCTION GROUP NO. 4

| | |
|---|---|
| Railroad locomotive fuel | 250 |

PRODUCTION GROUP NO. 5

| | |
|---|---|
| Railroad locomotive fuel | 250 |
| *Exception:* Mines on C. & A. R. R. in Production Group 5 at Corder, Missouri, Railroad locomotive fuel | 220 |

PRODUCTION GROUP NO. 6

| | |
|---|---|
| Railroad locomotive fuel | 225 |

PRODUCTION GROUP NOS. 7, 8, 10

| | |
|---|---|
| Railroad locomotive fuel | 210 |

PRODUCTION GROUP NO. 11

| | |
|---|---|
| Railroad locomotive fuel | 210 |
| 3" x ¼" | 200 |
| 2" x ¼" | 185 |

The above prices are based on the lowest freight origin group rate from production group No. 3. All other mines in production group No. 3 may adjust f. o. b. mine prices to deliver equal with mines in base freight origin group.

Mines in production groups No. 1 and No. 2 may adjust f. o. b. mine price to maintain approved delivered differential with production group No. 3. (See table entitled "Schedule Showing Delivered Differentials That May Be Maintained With Base Group Coals By Reducing Schedule Prices Published Herein."

---

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 15

TRUCK SHIPMENTS ONLY

*Price Instructions and Exceptions*

Item No. 1. The schedule of prices shown herein applies f. o. b. transportation facilities at mines on all coal shipped by Code Members in the District shown on the title page hereof.

Item No. 2. All prices are subject to the Marketing Rules and Regulations issued by the National Bituminous Coal Commission.

Item No. 3. All size designations herein are for round hole screens, or their equivalent. When other types of screens are used, the District Board shall determine the actual size designation of the coal so prepared, with the approval of the Coal Commission.

Item No. 4. All prices herein are in cents per net ton of 2,000 pounds f. o. b. facilities at the mine.

Item No. 5. When any size of coal is sold, in which the maximum top or bottom size exceeds the sizes scheduled, then such coal must be included in the next higher priced size group and priced accordingly.

Item No. 6. In the sale of coal to destined points outside the boundary of the United States, prices stipulated herein are for payment in United States funds.

Item No. 7. When coal is subjected to any chemical, oil or waxing process or otherwise specially treated, an additional charge of not less than 10 cents per ton shall be made.

Item No. 8. The substitution on any order of a grade or size of coal taken a minimum price higher than the grade or size ordered is not authorized or permitted.

Item No. 9. Prices shown herein for sizes numbers 1 to 10 inclusive from production group No. 1 are for unwashed coal. When these sizes are washed 15¢ per ton shall be added to the prices indicated.

*Size Groups*

Size group No. 1. Fancy Lump—Coal passing over a screen with round hole openings larger than 3".

Size group No. 2. Lump—Coal passing over a screen with round hole openings of ½" to 3", inclusive.

Size group No. 3. Furnace or Egg—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings of not less than 1½".

Size group No. 4. Egg-Nut—Coal passing through a screen with round hole openings not over 10" and over a screen with round hole openings not over 1¼".

Size group No. 5. Fancy Nut—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 2".

Size group No. 6. Standard Nut—Coal passing through a screen with round hole openings not over 3" and over a screen with round hole openings not over 1¼".

Size group No. 7. No. 2 Nut—Coal passing through a screen with round hole openings not over 2" and over a screen with round hole openings not over 1¼".

Size group No. 8. Chestnut—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings of not over 1".

Size group No. 9. Mine Run—Coal shoveled at the face from which no coal has been removed either at the face, preparation plant, or when loading into transportation facilities, and shall contain not less than 30% screenings that will pass through an 1¼" round hole screen. Run of mine containing less than 30% screenings that will pass through an 1¼" round hole screen shall be classified as lump coal and sold at not less than the Lump coal price.

Size group No. 10. Nut Run—Coal passing through not larger than a 3" round hole screen or its equivalent, from which no coal has been removed, and it shall contain not less than 50% screenings that will pass through an 1¼" round hole screen. Nut Run containing less than 50% screenings that will pass through an 1¼" round hole screen shall be classified as 3" Nut coal and sold at no less than the price applying on Standard Nut.

Size group No. 11. Special Stoker—Coal passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ⅜".

Size group No. 12. Raw Prepared Screenings—Coal dry-cleaned passing through a screen with round hole openings not over 1¼" and over a screen with round hole openings not over ¼".

Size group No. 13. Washed Screenings—1¼" x 0—Washed coal passing through a screen with round hole openings not over 1¼" from which no coal has been removed.

Size group No. 14. Screenings—1¼" x 0—Coal passing through a screen with round hole openings not over 1¼" from which no coal has been removed.

Size group No. 15. Raw Dust—¼" x 0—Coal that has not been washed passing through a screen with round hole openings not over ¼" from which no coal has been removed.

*Identification of Production Groups*

Group No. 1. All mines located in Cherokee, Crawford, Bourbon, Neosho, Labette and Wilson Counties, Kansas; and Barton, Jasper, Dade, Cedar, and that portion of Vernon County lying south of an east and west line drawn through the town of Nevada, Missouri.

Group No. 2. All mines located in Linn County, Kansas; and Bates, Henry, St. Clair, Morgan, Pettis and Johnson Counties; and that portion of Vernon County lying north of an east and west line drawn through the town of Nevada in Missouri.

Group No. 3. All mines located in Boone, Callaway, Audrain, Randolph, Macon, Linn, Grundy, Harrison, Adair, Chariton, Schuyler, Putnam, Cole, Howard, Monroe, Warren, and Ralls Counties in Missouri.

Group No. 4. All mines located in Ray, Clay, Caldwell, Daviess, Clinton, and Carroll Counties in Missouri.

Group No. 5. All mines located in Lafayette County, Missouri.

Group No. 6. All mines located in Osage, Franklin, Lyon, and Coffey Counties, Kansas.

Group No. 7. All mines operating on the genuine McAlester seam in Pittsburg and Latimer Counties, Oklahoma.

Group No. 8. All mines operating on the Wilburton-Hartshorne seams in Pittsburg and Latimer Counties, Oklahoma.

Group No. 9. All mines located in Coal County, Oklahoma.

Group No. 10. All mines located in Okmulgee County, Oklahoma.

Group No. 11. All mines located in Tulsa, Wagoner, Rogers, and Craig Counties, Oklahoma.

Group No. 12. All mines located in Muskogee County, Oklahoma.

Group No. 13. All mines located in Johnson, Leavenworth, and Wyandotte Counties, Kansas.

*Prices in Cents per Ton for Shipment Into All Market Areas—For Truck Shipment Only*

## DEPARTMENT OF AGRICULTURE.

### Division of Marketing and Marketing Agreements.

[Docket No. A-105—O-105]

NOTICE OF PUBLIC HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF MILK IN AREA COMPRISED OF THE CITIES OF DAVENPORT AND BETTENDORF, IOWA, AND ROCK ISLAND, MOLINE, EAST MOLINE, AND SILVIS, ILLINOIS, AND THE FOLLOWING TOWNSHIPS: DAVENPORT, ROCKINGHAM, AND PLEASANT VALLEY IN SCOTT COUNTY, IOWA, AND SOUTH MOLINE, MOLINE, BLACKHAWK, COAL VALLEY, HAMPTON, AND SOUTH ROCK ISLAND IN ROCK ISLAND COUNTY, ILLINOIS, WHICH AREA IS KNOWN AS THE QUAD CITIES MARKETING AREA, SUCH HEARING TO BE HELD PURSUANT TO THE PROVISIONS OF THE AGRICULTURAL MARKETING AGREEMENT ACT OF 1937

Whereas the Illinois-Iowa Milk Producers Association and the Quality Milk Association, jointly, have requested the Secretary of Agriculture to hold a public hearing on a marketing agreement and order prepared and proposed by such organizations and designed to regulate such handling of milk in the area comprised of the cities of Davenport and Bettendorf, Iowa, and Rock Island, Moline, East Moline and Silvis, Illinois, and the following townships: Davenport, Rockingham, and Pleasant Valley in Scott County, Iowa, and South Moline, Moline, Blackhawk, Coal Valley, Hampton, and South Rock Island in Rock Island County, Illinois (which area is known and hereinafter referred to as the Quad Cities marketing area) as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce; and

Whereas the Secretary of Agriculture has reason to believe that the execution of a marketing agreement or the issuance of an order will tend to effectuate the declared policy of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, with respect to such handling of milk in the Quad Cities marketing area as is in the current of interstate commerce or which directly burdens, obstructs or affects interstate commerce; and

Whereas under said act notice of and opportunity for a hearing are required prior to the execution of a marketing agreement or the issuance of an order, and the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration, United States Department of Agriculture, provide for such notice;

Now, therefore, pursuant to said act and said general regulations, notice is hereby given of a public hearing to be held at Rock Island, Illinois, on August 2, 1939, in Room 360 Post Office Building, at 10:00 a. m., c. s. t., on the aforementioned marketing agreement and order, prepared and proposed by the aforementioned organizations and designed to regulate such handling of milk in the Quad Cities marketing area as is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce.

At this public hearing, representatives of the Secretary will receive factual evidence (1) as to whether or not any marketing agreement or order should be issued regulating the handling of milk in such area, and (2) as to the specific provisions which a marketing agreement or order should contain.

The proposed marketing agreement and proposed order provide, among other things, for: (a) selection of a market administrator and definition of his powers and duties, (b) classification of milk, (c) minimum prices, (d) reports of handlers, (e) optional methods of excluding milk produced and sold by handlers who are also producers, (f) payments to producers through the use of a market-wide pool, (g) a base rating plan, and (h) expenses of administration.

Copies of the proposed marketing agreement and proposed order may be obtained from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0310 South Building, or may be there inspected.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

Dated: July 14, 1939.

## DEPARTMENT OF LABOR.

### Wage and Hour Division.

NOTICE OF CHANGE IN DATE OF HEARING ON PETITIONS FOR REVIEW OF FINDINGS AND DETERMINATION BY THE PRESIDING OFFICER ON APPLICATIONS FOR PERMISSION TO EMPLOY LEARNERS IN THE APPAREL INDUSTRY

By notice published July 1, 1939, a public hearing was scheduled to be held July 18, 1939, before Paul Sifton, Deputy Administrator, on petitions for review of the findings and determination of the presiding officer on applications for permission to employ learners in the apparel industry.

Notice is hereby given that said hearing will commence at 10 o'clock on July 31, 1939, at the Raleigh Hotel, 12th and Pennsylvania Avenue NW., Washington, D. C.

Any person interested in appearing, either in support of or in opposition to the matters prayed for in the petition for review, may appear on his own behalf or on the behalf of any other person, provided that he shall file with the Administrator, at his office in Washington, prior to noon on July 27, 1939, a Notice of Intention To Appear, which shall contain the following information:

(1) The name and address of the person appearing.

(2) If he is appearing in a representative capacity, the name and address of the person or persons whom he is representing.

(3) Whether he is appearing in support of or in opposition to any petition for review.

(4) The approximate length of time which his presentation will consume.

(5) Scope of appearance; i. e., for which branch of the apparel industry appearance will be made.

The previous notice of hearing mentioned above and published July 1, 1939 (4 F.R. 2743 DI), is hereby incorporated by reference in this notice, subject only to the changes stated herein.

Signed at Washington, D. C., this 14th day of July 1939.

ELMER F. ANDREWS,
*Administrator.*

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 12th day of July, A. D. 1939.

[File No. 43-222]

IN THE MATTER OF SAN ANTONIO PUBLIC SERVICE COMPANY

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE IN REGARD TO PREFERRED STOCK

San Antonio Public Service Company, a subsidiary of American Light & Traction Company, a registered holding company, having filed a declaration and amendments thereto pursuant to Section 7 of the Public Utility Holding Company Act of 1935 in regard to the issue and sale of 45,000 shares of 6% Cumulative Preferred Stock having a par value of $100 per share and a declaration in regard to any change in rights of its outstanding Common Stock caused by the issuance of the Preferred Stock above mentioned;

A hearing on such matter having been held[1] after appropriate notice; the declarant having waived the right to have submitted to it a report by the Trial Examiner; to have submitted to it proposed findings of fact by the Commission; to file a brief and to oral argument before the Commission prior to the making of findings of fact and the entry of an order by the Commission; the record in this matter having been examined; and the Commission having made and filed its findings;

*It is ordered*, That the declarations in regard to the issue and sale of the aforesaid 6% Preferred Stock by San Antonio Public Service Company and the consequent change in rights in the outstanding Common Stock in accordance with the terms and conditions set forth in, and for the purposes represented by said amended declarations, be, and the same hereby are, permitted to become effective, subject, however, to the following conditions:

(a) That until further order of the Commission, so long as any shares of 6% Preferred Stock are outstanding, the declarant shall not pay any dividends on or make any other distribution to the holders of shares of its Common Stock if after giving effect to such payment or distribution the capital of the declarant represented by its Common Stock together with its surplus, as then stated on its books of account, shall in the aggregate be less than $5,810,000. This condition shall become inoperative and of no effect if the Commission shall at any time hereafter adopt or enter a rule, regulation or order under Section 12 (c) of the Act or otherwise (other than Rule U-12C-2 as now in effect), which shall be applicable to the declarant, limiting the right of companies to pay dividends on their common stock with reference to maintaining an equity junior to outstanding preferred or preference stocks. The Commission reserves jurisdiction to revoke or modify this condition at any time on its own motion or upon application of the declarant;

(b) That the issue and sale of the 6% Preferred Stock shall be accomplished in compliance with the terms and conditions of, and for the purposes represented in said declaration as amended; and

(c) That within ten days after the issue and sale of the 6% Preferred Stock, the declarant shall file with this Commission a certificate of notification showing that such issue and sale have been effected in accordance with the terms and conditions and for the purposes represented by said declaration as amended.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 13th day of July, A. D. 1939.

[File No. 46-159]

IN THE MATTER OF THE MIDDLE WEST CORPORATION AND CENTRAL AND SOUTH WEST UTILITIES COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 10 (a) (1) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties;

*It is ordered*, That a hearing on such matter be held on August 4, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 31, 1939.

The matter concerned herewith is in regard to acquisition by the applicants of certain notes of Port Isabel Corporation, Port Isabel Realty Company, Port Isabel Irrigation Company and Port Isabel Channel, Dock and Wharf Company, in exchange for notes previously executed by said companies and acquisition by the applicants of certain other notes of the same companies representing extensions of previously executed notes.

By the Commission.

### EXECUTIVE ORDER

AUTHORIZING THE INITIAL APPOINTMENT OF THE ASSISTANT ADMINISTRATOR OF THE FEDERAL SECURITY AGENCY AND ONE PRIVATE SECRETARY TO THE ASSISTANT ADMINISTRATOR WITHOUT COMPLIANCE WITH THE CIVIL SERVICE RULES, AND AMENDING SCHEDULE A OF THE CIVIL SERVICE RULES

By virtue of and pursuant to the authority vested in me by the provisions of paragraph Eighth of subdivision SECOND of Section 2 of the Civil Service Act (22 Stat. 403, 404), it is hereby ordered as follows:

1. Subject to the establishment before the Civil Service Commission of the requisite qualifications in each case, the initial appointment of the Assistant Administrator of the Federal Security Agency, and one private secretary or confidential assistant to the said Assistant Administrator, may be effected without compliance with the competitive requirements of the Civil Service Rules.

2. Schedule A of the Civil Service Rules is hereby amended by adding thereto the following subdivision:

XXXVII. FEDERAL SECURITY AGENCY

(1) Two private secretaries or confidential assistants to the Administrator of the Federal Security Agency.

FEE ON APPLICATION FOR TRANSFER OF LOAN FROM ONE ASSOCIATION TO ANOTHER

JULY 14, 1938.

Part 19 of Title 6, Code of Federal Regulations, is amended by adding the following section:

§ 4009.1 *Fee on application for transfer of loan from one association to another.* In connection with each application for a transfer of a loan from another association to it, an association may:

(1) Absorb expenses incurred in connection with such application including the cost of its inspection; or

(2) Require the payment of a fee of not to exceed $5.00 to cover the cost of its inspection before it considers the application: *Provided, however,* That the total amount so collected shall not, in any case, exceed 1 percent of the unpaid balance of the indebtedness.

If the transfer is being made at the request of and for the convenience of the bank, the bank may pay the fee required by the association. If, however, the transfer is being made at the request of and for the convenience of the

## TITLE 14—CIVIL AVIATION

### CIVIL AERONAUTICS AUTHORITY

[Regulation 412-A-1]

FILING OF POOLING AND OTHER AGREEMENTS

At a session of the Civil Aeronautics Authority held at its office in the City of Washington, D. C., on the 14th day of July, 1939.

The Civil Aeronautics Authority, acting pursuant to the Civil Aeronautics Act of 1938, particularly section 205 (a) thereof, and finding such action necessary to carry out the provisions of section 412 of said Act, hereby makes and promulgates the following regulation:

§ 1 *Number of copies.* (a) Unless express permission to file less copies is granted, there shall be filed with the Authority three (3) true and complete copies of all contracts and agreements which are required to be filed under the provisions of section 412 (a) of the Civil Aeronautics Act of 1938. Oral contracts and agreements required to be filed under the provisions of said section shall be evidenced by true and complete written memoranda and three (3) true and complete copies of such memoranda shall be filed with the Authority. Contracts or agreements embodied in correspondence between the parties shall be evidenced by true and complete memoranda and there shall be filed with the Authority three (3) true and complete copies of such memoranda together with three (3) true and complete copies of such correspondence.

(b) Additional copies of contracts or agreements shall be furnished to the Authority upon request.

§ 2 *Formal requirements.* All documents filed hereunder shall be on strong, durable white paper and, if possible, not larger than 8½" by 13" in size, except that tables, charts, maps, and other documents larger than that size may be folded to approximately the required measurements. The left margin should be at least 1½" wide and if the document is bound, it should be bound on the left side. One copy of each typewritten document should be carbon-backed.

§ 3 *Place and time of filing.* The required number of copies of written contracts or agreements shall be filed at the office of the Authority in Washington, D. C., addressed to the Economic Compliance Division, Civil Aeronautics Authority, within fifteen (15) days after the date of execution thereof. The required number of copies of memoranda or oral contracts or agreements and of contracts or agreements embodied in correspondence together with copies of such correspondence shall be filed in the same manner, within fifteen (15) days after such contracts or agreements have been entered into between the parties. The time of filing prescribed herein may be extended by the Authority in exceptional circumstances upon proper application therefor.

§ 4 *Who shall file.* (a) The filing of copies of contracts and agreements which are required to be filed under the provisions of Section 412 (a) of the Civil Aeronautics Act of 1938 shall be made by every air carrier who is a party thereto. However, if the required number of copies are filed by any air carrier who is a party to such contract or agreement, any other air carrier who is a party shall be deemed to have complied with this requirement if it transmits to the Authority, within the time prescribed by section 3 of this regulation, a signed statement to the effect that it concurs in such filing.

(b) The filing of copies of contracts or agreements evidenced by resolutions or other action of associations of air carriers may be effected in the following manner. The secretary or other authorized officer of the association may be designated as agent for the purpose of making such filing. Each air carrier who is a member of such association shall separately transmit to the Authority a written statement, signed by such air carrier, reciting that a designated person or persons holding the office of secretary or other office of the association, or that any person or persons holding a designated office or offices of the association is constituted the attorney in fact for the filing of copies of any future contracts or agreements evidenced by resolution or other action of the association to which such air carrier may become a party. Such authorizations may be revoked at any time by any air carrier by giving formal notice of revocation to the Authority.

§ 5 *Certification and verification.* (a) One copy of each written contract or agreement filed shall bear the certification of the secretary or other duly authorized officer of the filing party or parties to the effect that such copy is a true and complete copy of the original written instrument executed by the parties.

(b) One copy of each memorandum of oral contracts or agreements filed shall be verified by the secretary or other duly authorized officer of the filing party or parties to such oral contract or agreement. The person or persons verifying such memorandum shall set forth that they are fully familiar with all the terms and conditions of such oral contract or agreement and that the memorandum filed is a true and complete memorandum thereof.

(c) Copies of correspondence embodying contracts or agreements shall be accompanied by the certifications of the secretary or other duly authorized officer of the filing party or parties to the effect that such copies are true and complete copies of the originals of such correspondence.

(d) One copy of each contract or agreement evidenced by resolution or other action of associations of air carriers shall bear the certification of the secretary of the association to the effect that such copy is a true and complete copy of the resolution duly adopted by the association on a certain date. The secretary shall also specify in such certification the names of each air carrier who concurred in such resolution or other action and the name of each air carrier who did not so concur.

§ 6 *Modifications or cancellations.* This regulation shall be applicable to all modifications or cancellations of contracts or agreements required to be filed under the provisions of Section 412 (a) of the Civil Aeronautics Act of 1938.

§ 7 *Contracts or agreements previously filed.* Contracts or agreements which have been filed prior to the effective date hereof shall not be subject to the provisions of this regulation, except to the extent that the Authority may by appropriate request in particular cases require compliance with any specific provision or provisions hereof.

§ 8 *Effective date.* This regulation shall be effective from and after the 1st day of August 1939.

By the Authority.

[SEAL] PAUL J. FRIZZELL,
*Secretary.*

[F. R. Doc. 39-2608; Filed, July 17, 1939; 12:25 p. m.]

## TITLE 16—COMMERCIAL PRACTICES

### FEDERAL TRADE COMMISSION

[Docket No. 2875]

IN THE MATTER OF ALBERTY'S FOOD PRODUCTS, ETC.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Food Regular and Alberty's Food Instant (new style), or any other similar preparations, render milk more readily digestible, constitute a competent remedy, cure or treatment for cancer or ulcer, or have any therapeutic or medicinal value, or that respondent's Alberty's Food Instant (old style), or any other similar preparation, has any therapeutic value in excess of the therapeutic value possessed by ordinary milk, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, in conection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Laxative Blend, or any other similar preparation, has any therapeutic value or affects the muscles of the intestines other than that the senna contained in the preparation is a cathartic, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (n) (2) *Advertising falsely or misleadingly — Nature — Product:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly — Results.* Representing, in connection with offer, etc., in interstate commerce, or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Special

Formula Tablets, or any other similar preparation, is a tonic and will produce blood regeneration or increase sexual activity, or that it has any medicinal or therapeutic value, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Phosphate Pellets and Alberty's No. 3 Tablets, or any other similar preparations, have any therapeutic value, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Cheno Combination Tablets, or any other similar preparation, contains any ingredient which would have an influence on fat metabolism or that use of said preparation will cause any weight reduction other than that due to laxative properties thereof, or that it has therapeutic value, or that respondent's Cheno Herb Tea, or any similar preparation, contains any ingredient which will cause or produce any weight reduction, or that use thereof will bring about reduction in weight, or that it has any effect on the metabolism of fat, or has any therapeutic value other than that of a mild laxative, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Diabetic is a competent remedy, cure or treatment for diabetes, or that it has any therapeutic or medicinal value, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Phenix Pluri-Gland Tablets For Men and Alberty's Phenix Pluri-Gland Tablets For Women contain any ingredient which would increase or stimulate sex activity, or that said preparations have any medicinal or therapeutic value, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6. (n) (2) *Advertising falsely or misleadingly—Nature—Product:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (ff 10) *Advertising falsely or misleadingly—Unique nature or advantages.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's Alberty's Food, or any other similar preparation, rebuilds the intestinal tract and is the only food which accomplishes this result; eliminates rickets and other calcium-starvation diseases in children, adults and animals; and modifies milk so that the calcium element is assimilated; and that by taking it more calcium and phosphorus are stored up in the body than would be by the use of three or four times the quantity of ordinary milk; and that it is the only food discovered that offsets acidosis and is the most powerful alkaline food known, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Misrepresenting, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, the cause of and the effect of an excess of magnesium in the human body, or the character and properties of calcium, the effect on the system of a lack of calcium content, and the results and benefits accruing from the taking of calcium, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (a) (10.1) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—History:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent was the first person in the United States to recognize the value of calcium; that calcium is a great rejuvenating agency; that the taking of respondent's Alberty's Food supplies the necessary calcium to the body in the proper quantities; and that stunted growth, tooth decay, acidosis, sickness, suffering, premature old age and death are due either to a lack of calcium or the inability to assimilate it; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that the spleen controls the sex organism and that acid fruits or vinegar, being "foreign acids", have a detrimental effect on the spleen, destroying red blood corpusles, or that acidosis is one of the contributing causes of waning sex life, or that bismuth subnitrate has a soothing effect on the digestive tract and is a valuable, harmless remedy, or that the gall bladder should never be removed, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (x) *Advertising falsely or misleadingly—Results.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, that respondent's gland treatment will produce or bring about any beneficial results to the user, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Misrepresenting, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, the cause of and the effect of an excess of magnesium in the human body, or the character and properties of calcium, the effect on the system of a lack of calcium content, and the results and benefits accruing from the taking of calcium, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (1) *Advertising falsely or misleadingly—Indorsements and testimonials:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (gg) *Advertising falsely or misleadingly—Value:* § 3.18 *Claiming indorsements or testimonials falsely.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, by citing purported case histories of users thereof, which said case histories are not true, and by the use of testimonials which are untrue in fact or which were not given by the person alleged to have given the testimonial, that the various products sold by respondent have a value and efficacy which they do not possess, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

§ 3.6 (a) (22) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer—Laboratory:* § 3.96 (b) (5) *Using misleading name—Vendor—Producer or laboratory status of dealer.* Representing, in connection with offer, etc., in interstate commerce or in District of Columbia, of various baby foods and health preparations, through the use of the word "laboratory", or any other term of similar meaning or like import, as a part of respondent's trade name, or in any other manner or through any other means or device, that respondent conducts, operates or maintains a laboratory for the purpose of manufacturing, testing or experimenting with the various preparations sold by her, until and unless she actually owns and operates, or directly and absolutely controls, a laboratory maintained for said purposes, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Modified cease and desist order, Alberty's Food Products, etc., Docket 2875, June 26, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 26th day of June, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

IN THE MATTER OF ADAH ALBERTY, TRADING AS ALBERTY'S FOOD PRODUCTS, ALBERTY'S FOOD LABORATORIES, THE ALBERTY'S FOOD LAB., ALBERTY'S FOOD LABORATORIES, THE ALBERTY'S FOOD LABORATORIES, CHENO LABORATORIES, CHENO PRODUCTS, AND U. S. OKEY

MODIFIED ORDER TO CEASE AND DESIST

This proceeding having been heard [1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Charles P. Vicini, an examiner of the Commission theretofore duly designated by it in support of the allegations of said complaint, and in opposition thereto, and the briefs filed herein, the respondent not having requested oral argument and the Commission having made its findings as to the facts and its conclusion that said respondent, Adah Alberty, has violated the provisions of an Act of Congress, approved September 26, 1914, entitled "An Act to create a Federal Trade Commission to define its powers and duties and for other purposes";

*It is ordered* that, Respondent Adah Alberty, an individual, individually and trading as Alberty's Food Products, Alberty's Food Lab., Alberty's Food Laboratories, The Alberty's Food Laboratories, Cheno Laboratories, Cheno Products, and U. S. Okey, or trading under any other name, her representatives, agents and employees in connection with the offering for sale, sale and distribution of various baby foods and health preparations, now sold by her under various and sundry names in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

(1) Representing that the preparations now designated as Alberty's Food Regular and Alberty's Food Instant (new style), or any other preparations composed of the same or similar ingredients and possessing similar properties, under whatever name sold, render milk more readily digestible, constitute a competent remedy, cure or treatment for cancer or ulcer, or have any therapeutic or medicinal value;

(2) Representing that the preparation Alberty's Food Instant (old style), or any other preparation composed of the same or similar ingredients and possessing similar properties, has any therapeutic value in excess of the therapeutic value possessed by ordinary milk;

(3) Representing that the preparations now designated as Alberty's Laxative Blend, or any other preparation composed of the same or similar ingredients and possessing similar properties, under whatever name sold, has any therapeutic value or affects the muscles of the intestines other than that the senna contained in the preparation is a cathartic;

(4) Representing that the preparation now designated as Alberty's Special Formula Tablets, or any other preparation composed of the same or similar ingredients and possessing similar properties, under whatever name sold, is a tonic and will produce blood regeneration or will increase sexual activity, or that it has any medicinal or therapeutic value;

(5) Representing that the preparations now designated as Alberty's Phosphate Pellets and Alberty's No. 3 Tablets, or any other preparations composed of the same or similar ingredients and possessing similar properties, under whatever name sold, have any therapeutic value;

(6) Representing that the preparation now designated as Cheno Combination Tablets, or any other preparation composed of the same or similar ingredients and possessing similar properties, under whatever name sold, contains any ingredient which would have an influence on fat metabolism or that the use of said preparation will cause any weight reduction other than the reduction due to the laxative properties of said preparation, or that said preparation has a therapeutic value;

(7) Representing that the preparation now designated as Cheno Herb Tea, or any other preparation composed of the same or similar ingredients and possessing similar properties, under whatever name sold, contains any ingredient which will cause or produce any weight reduction, or that by the use thereof the user will bring about a reduction in weight, or that said preparation has any affect on the metabolism of fat, or that it has any therapeutic value other than that of a mild laxative;

(8) Representing that the preparations now designated as Diabetic is a competent remedy, cure or treatment for diabetes, or that it has any therapeutic or medicinal value;

(9) Representing that the preparations now designated as Alberty's Phenix Pluri-Gland Tablets For Men and Alberty's Phenix Pluri-Gland Tablets For Women contain any ingredient which would increase or stimulate sex activity, or that said preparations have any medicinal or therapeutic value;

(10) Representing that the preparations now designated as Alberty's Food, or any other preparation composed of the same or similar ingredients and possessing similar properties under whatever name sold, rebuilds the intestinal tract and is the only food which accomplishes this result; that it eliminates rickets and other calcium-starvation diseases in children, adults and animals; that it modifies milk so that the calcium element is assimilated; that by taking it more calcium and phosphorus are stored up in the body than would be by the use of three or four times the quantity of ordinary milk; that it is the only food discovered that offsets acidosis and is the most powerful alkaline food known;

(11) Misrepresenting the cause of and the effect of an excess of magnesium in the human body;

(12) Misrepresenting the character and properties of calcium, the effect on the system of a lack of calcium content, and the results and benefits accruing from the taking of calcium;

(13) Representing that respondent was the first person in the United States to recognize the value of calcium; that calcium is a great rejuvenating agency; that the taking of Alberty's Food supplies the necessary calcium to the body in the proper quantities; and that stunted growth, tooth decay, acidosis, sickness, suffering, premature old age and death are due either to a lack of calcium or the inability to assimilate it;

(14) Representing that the spleen controls the sex organism and that acid fruits or vinegar, being 'foreign acids', have a detrimental effect on the spleen, destroying red blood corpuscles;

(15) Representing that acidosis is one of the contributing causes of waning sex life;

(16) Representing that respondent's gland treatment will produce or bring about any beneficial results to the user;

(17) Representing that bismuth subnitrate has a soothing effect on the digestive tract and is a valuable, harmless remedy;

[1] 2 F.R. 238.

(18) Representing that the gall bladder should never be removed;

(19) Representing by citing purported case histories of users thereof which said case histories are not true, and by the use of testimonials which are untrue in fact or which were not given by the person alleged to have given the testimonial that the various products sold by her have a value and efficacy which they do not possess;

(20) Representing through the use of the word "laboratory", or any other term of similar meaning or like import, as a part of her trade name, or in any other manner or through any other means or device, that she conducts, operates or maintains a laboratory for the purpose of manufacturing, testing or experimenting with the various preparations sold by her, until and unless she actually owns and operates, or directly and absolutely controls, a laboratory maintained for said purposes;

(21) And from making any other similar representations of like import or effect as to the therapeutic or medicinal value of said preparations or the benefits accruing from the use thereof.

*It is further ordered*, That the respondent, Adah Alberty, an individual, shall, within sixty (60) days after service upon her of this order, file with the Commission a report in writing setting forth in detail the manner and form in which she has complied with the order hereinbefore set forth.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[Docket No. 3369]

IN THE MATTER OF AMERICAN MEMORIAL COMPANY

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product.* Representing, in connection with offer, etc., in commerce among the various states and in the District of Columbia, of granite or marble monuments, tombstones or footstones, by the use of the words "everlasting" or "eternal", or any other word of similar import or meaning, or in any other manner, that respondent's monuments, tombstones, or footstones are everlasting, or that its said monuments or tombstones weigh 400 pounds or any other specified weight or weights, unless and until such is the fact, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, American Memorial Company, Docket 3369, July 11, 1939]

§ 3.6 (a) (2a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Bonded business:* § 3.6 (h) *Advertising falsely or misleadingly—Fictitious guarantees:* § 3.72 (i) *Offering deceptive inducements to purchase—Money back guarantee.* Representing, in connection with offer, etc., in commerce among the various states and in the District of Columbia, of granite or marble monuments, tombstones or footstones, that the respondent has posted a bond guaranteeing the quality of its products, or has posted a bond which insures conformity by the respondent with the laws of the United States Government or the rules and regulations of any agency thereof, or has posted any other bond, unless and until such is the fact, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, American Memorial Company, Docket 3369, July 11, 1939]

§ 3.6 (a) (22) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer—Manufacturer.* Representing, in connection with offer, etc., in commerce among the various states and in the District of Columbia, of granite or marble monuments, tombstones or footstones, by means of pictorial or other representations of a factory or manufacturing plant, or in any other manner, that respondent makes or manufactures its granite monuments or tombstones, unless and until it owns and operates, or directly and absolutely controls, the factory or plant wherein such monuments or tombstones are made or manufactured by it, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, American Memorial Company, Docket 3369, July 11, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 11th day of July, A. D. 1939.

Commissioners Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

ORDER TO CEASE AND DESIST

This proceeding having been heard [1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Edward E. Reardon, an examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, and briefs filed herein, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, American Memorial Company, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of granite or marble monuments, tombstones or footstones in commerce between and among the various states of the United States and in the District of Columbia, do forthwith cease and desist from:

(1) representing by the use of the words "everlasting" or "eternal", or any other word of similar import or meaning, or in any other manner, that respondent's monuments, tombstones, or footstones are everlasting;

(2) representing that respondent's monuments or tombstones weigh 400 pounds or any other specified weight or weights unless and until such is the fact;

(3) representing that the respondent has posted a bond guaranteeing the quality of its products, or has posted a bond which insures conformity by the respondent with the laws of the United States Government or with the rules and regulations of any agency thereof, or has posted any other bond, unless and until such is the fact;

(4) representing, by means of pictorial or other representations of a factory or manufacturing plant, or in any other manner, that respondent makes or manufactures its granite monuments or tombstones unless and until it owns and operates or directly and absolutely controls the factory or plant wherein such monuments or tombstones are made or manufactured by it.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[Docket No. 3560]

IN THE MATTER OF HART, SCHAFFNER & MARX, ET AL.

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.66 (a) *Misbranding or mislabeling—Composition.* Using, in connection with offer, etc., in commerce, of men's clothing and other articles of merchandise, the unqualified word "Silk" or "Silkool", or any other word or words of similar import or meaning, to designate or describe fabrics which are not composed wholly of unweighted silk, the product of the cocoon of the silkworm, prohibited; subject to provision that, in case of a fabric or product composed in part of unweighted silk and in part of materials other than unweighted silk, such words may be used as descriptive of the silk content if there is used, in immediate connection or conjunction therewith, in letters of equal size and conspicuousness, a word or words accurately describing and designating each constituent fiber or material thereof in the order of its predominance by weight, beginning with the largest single constituent. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Hart, Schaffner & Marx, et al., Docket 3560, July 10, 1939]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.66 (a) *Misbranding or mislabeling—Composition.* Advertising, etc., in connection with offer, etc., in commerce, of men's clothing and other articles of merchandise, such clothing or any other similar products composed in whole or in part of rayon without clearly disclosing the fact that such men's clothing or similar products are composed of rayon, and without naming, when composed in part of rayon and in part of other fibers or materials, such fibers or materials, including the rayon, in the order of their predominance by weight, beginning with the largest single constituent, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Hart, Schaffner & Marx, et al., Docket 3560, July 10, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 10th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

IN THE MATTER OF HART, SCHAFFNER & MARX, AND WALLACH'S, INC., CORPORATIONS.

ORDER TO CEASE AND DESIST

This proceeding having been heard [1] by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondents, and a stipulation as to the facts, in which stipulation respondents waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act.

*It is ordered*, That the respondents Hart, Schaffner & Marx and Wallach's, Inc., corporations, their respective officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of men's clothing and other articles of merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Using the unqualified word "Silk" or "Silkool" or any other word or words of similar import or meaning, to designate or describe fabrics which are not composed wholly of unweighted silk, the product of the cocoon of the silkworm, except that in the case of a fabric or product composed in part of unweighted silk and in part of materials other than unweighted silk, such words may be used as descriptive of the silk content if there is used in immediate connection or conjunction therewith, in letters of equal size and conspicuousness, a word or words accurately describing and designating each constituent fiber or material thereof in the order of its predominance by weight, beginning with the largest single constituent;

(2) Advertising, offering for sale or selling men's clothing or any other similar products composed in whole or in part of rayon without clearly disclosing the fact that such men's clothing or similar products are composed of rayon and when such clothing or similar products are composed in part of rayon and in part of other fibers or materials, such fibers or materials, including the rayon, shall be named in the order of their predominance by weight, beginning with the largest single constituent.

*It is further ordered*, That the respondents shall within sixty days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

## TITLE 17—COMMODITY AND SECURITIES EXCHANGES

## COMMODITY EXCHANGE ADMINISTRATION

AMENDMENT TO RULES AND REGULATIONS OF THE SECRETARY OF AGRICULTURE UNDER THE COMMODITY EXCHANGE ACT, AS AMENDED

By virtue of the authority vested in the Secretary of Agriculture by the Commodity Exchange Act, as amended (7 U.S.C. and Sup. IV, secs. 1-17a), I, M. L. Wilson, Acting Secretary of Agriculture, do hereby make, prescribe, publish, and give public notice of the following amendment to the rules and regulations of the Secretary of Agriculture under said act, as amended, said amendment to become effective on the first day of August 1939, and to continue in force and effect until amended or superseded under the authority of said act, as amended.

Section 317 [3.17] [1] of article III of said rules and regulations is amended to read as follows:

§ 317 [3.17] [1] *Information shown in reports on Form 304.* Reports made by any person on Form 304 shall be prepared in accordance with the instructions appearing on Form 304 and shall contain the following information:

(1) the make-up of such person's net fixed-price position in spot cotton;

(2) the make-up of such person's hedgeable interest in spot cotton and his market position;

(3) the make-up of such person's basis position in spot cotton;

(4) the amount of certificated cotton owned by such person;

(5) such person's fixed-price spot-cotton positions (both long and short) if such person holds or controls open contracts in any one cotton future on any contract market amounting to, or exceeding, 20,000 bales: *Provided*, That, upon call from the Commodity Exchange Administration, such person shall report his fixed-price spot-cotton positions (both long and short), irrespective of the amount of such open contracts held or controlled by him;

(6) the amount of open contracts held by such person for his own account in all cotton futures on all boards of trade (exchanges) in the United States and elsewhere, by markets and by futures; and

(7) the amount of "call cotton" bought and sold, or contracted for purchase or sale, on which the price has *not* been fixed, together with the respective futures on which based. (Sec. 4i, as added by sec. 5, 49 Stat. 1496; 7 U.S.C., Sup. 6i).

Done at Washington, D. C., this 15th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] M. L. WILSON, *Acting Secretary of Agriculture.*

[F. R. Doc. 39-2600; Filed, July 17, 1939; 10:06 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

AMENDMENT OF RULE U-9C-3

Acting pursuant to the authority conferred upon it by the Public Utility Holding Company Act of 1935, particularly Sections 3 (d), 9 (c) and 20 (a) thereof,[2]

---

[1] 3 F.R. 1801 DI.

[1] 3 F.R. 2584 DI.

[1] Section number of Part 3, Title 17, Code of Federal Regulations.

[2] C. 687, sec. 3, 49 Stat. 810; 15 U.S.C., Sup. III, 79c: C. 687, sec. 9, 49 Stat. 817; 15 U.S.C., Sup. III, 79i: C. 687, sec. 20, 49 Stat. 833; 15 U.S.C., Sup. III, 79t.

and finding it appropriate in the public interest and the interest of investors and consumers, the Securities and Exchange Commission hereby amends paragraph (13) of Rule U–9C–3 [Sec. 250.U–9C–3] so that it shall read as follows:

(13) Any such company that is primarily a public-utility company may acquire any security which is issued by an industrial or other non-utility enterprise located in the territory served by the acquiring company: *Provided*, That, upon completion of any such acquisition, the total cost of all such securities acquired during any calendar year does not exceed $5,000 or an amount equal to one-tenth of 1 percent of the total assets of the acquiring company, whichever is greater.

Effective upon publication.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
*Secretary.*

## TITLE 21—FOOD AND DRUGS

### FOOD AND DRUG ADMINISTRATION

PROMULGATION OF REGULATIONS UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Under the authority of Section 701 (a) of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040; 21 U.S.C. 301), the following regulations for the enforcement of the Act are hereby promulgated. These regulations shall take effect on January 1, 1940.

These regulations are prescribed and promulgated in order to emphasize the applicability of sections 402 and 403 of the Act to food subject to regulations under section 401 of the Act, and in order to promote brevity in regulations under section 401 of the Act.

§ 10.000 *General regulation.* (a) The definitions and interpretations of terms contained in section 201 of the Act shall be applicable also to such terms when used in regulations promulgated under the Act.

(b) The name of a food for which a definition and standard of identity is fixed and established under section 401 of the Act shall have the meaning ascribed to such name by such definition and standard, wherever such name is used in regulations promulgated under the Act.

(c) Each definition and standard of identity, and each standard of quality, fixed and established for a food under section 401 of the Act, contemplates that such food and all articles used as components or ingredients thereof shall be clean, sound, and fit for food.

§ 10.010 *General methods for water capacity and fill of containers.* For the purposes of regulations promulgated under section 401 of the Act—

(a) The term "general method for water capacity of containers" means the following method:

(1) In the case of a container with lid attached by double seam, cut out the lid without removing or altering the height of the double seam.

(2) Wash, dry, and weigh the empty container.

(3) Fill the container with distilled water at 68° Fahrenheit to 3/16 inch vertical distance below the top level of the container, and weigh the container thus filled.

(4) Subtract the weight found in (2) from the weight found in (3). The difference shall be considered to be the weight of water required to fill the container.

In the case of a container with lid attached otherwise than by double seam, remove the lid and proceed as directed in clauses (2) to (4) inclusive, except that under clause (3) fill the container to the level of the top thereof.

(b) The term "general method for fill of containers" means the following method:

(1) In the case of a container with lid attached by double seam, cut out the lid without removing or altering the height of the double seam.

(2) Measure the vertical distance from the top level of the container to the top level of the food.

(3) Remove the food from the container; wash, dry, and weigh the container.

(4) Fill the container with water to 3/16 inch vertical distance below the top level of the container. Record the temperature of the water, weigh the container thus filled, and determine the weight of the water by subtracting the weight of the container found in (3).

(5) Maintaining the water at the temperature recorded in (4), draw off water from the container as filled in (4) to the level of the food found in (2), weigh the container with remaining water, and determine the weight of the remaining water by subtracting the weight of the container found in (3).

(6) Divide the weight of water found in (5) by the weight of water found in (4), and multiply by 100. The result shall be considered to be the percent of the total capacity of the container occupied by the food.

In the case of a container with lid attached otherwise than by double seam, remove the lid and proceed as directed in clauses (2) to (6) inclusive, except that under clause (4), fill the container to the level of the top thereof.

§ 10.020 *General Statements of substandard quality and substandard fill of container.* For the purposes of regulations promulgated under section 401 of the Act—

(a) The term "general statement of substandard quality" means the statement "BELOW STANDARD IN QUALITY GOOD FOOD—NOT HIGH GRADE" printed in two lines of Cheltenham bold condensed caps. The words "BELOW STANDARD IN QUALITY" constitute the first line, and the second immediately follows. If the quality of the contents of the container is less than 1 pound, the type of the first line is 12-point, and of the second, 8-point. If such quantity is 1 pound or more, the type of the first line is 14-point, and of the second, 10-point. Such statement is enclosed within lines, not less than 6 points in width, forming a rectangle. Such statement, with enclosing lines, is on a strongly contrasting, uniform background, and is so placed as to be easily seen when the name of the food or any pictorial representation thereof is viewed, wherever such name or representation appears so conspicuously as to be easily seen under customary conditions of purchase.

(b) The term "general statement of substandard fill" means the statement "BELOW STANDARD IN FILL" printed in Cheltenham bold condensed caps. If the quantity of the contents of the container is less than 1 pound, the statement is in 12-point type; if such quantity is 1 pound or more, the statement is in 14-point type. Such statement is enclosed within lines, not less than 6 points in width, forming a rectangle; but if the statement specified in paragraph (a) is also used, both statements (one following the other) may be enclosed within the same rectangle. Such statement or statements, with enclosing lines, are on a strongly contrasting, uniform background, and are so placed as to be easily seen when the name of the food or any pictorial representation thereof is viewed, wherever such name or representation appears so conspicuously as to be easily seen under customary conditions of purchase.

In testimony whereof, I have hereunto set my hand and caused the official seal of the United States Department of Agriculture to be affixed hereto on this 14th day of July 1939, in the City of Washington, District of Columbia.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39–2578; Filed, July 14, 1939; 4:22 p. m.]

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH REGULATIONS MAY BE PROMULGATED (A) FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY, STANDARD OF QUALITY, AND STANDARD OF FILL OF CONTAINER, FOR CANNED TOMATOES; AND (B) SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR SUCH CANNED TOMATOES WHICH FALL BELOW SUCH STANDARD OF QUALITY, AND SUCH STANDARD OF FILL OF CONTAINER

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE STANDARD OF FILL OF CONTAINER FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drugs, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing in the above-entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

Containers for tomatoes are of two types: (1) the usual "sanitary" tin can, and (2) glass and all other kinds of containers other than the ordinary "sanitary" tin can.

2

A. The fill of container for tin cans with lids of a double seam may be determined by the following method:

(1) Cut out the lid without removing or altering the height of the double seam.

(2) Measure the vertical distance from the top level of the container to the top level of the food by means of a depth gage.

(3) Remove the food from the container; then wash, dry, and weight the container.

(4) Fill the container with water which is at room temperature to three-sixteenths of an inch vertical distance from the top level of the container. Then weigh the container thus filled and determine the weight of the water by subtracting the weight of the container found as prescribed in (3).

(5) Draw off enough water from the container so that the level of the water corresponds to the level of the food as found in the measurement (2) above. Weigh the container with the remaining water and determine the weight of such remaining water by subtracting the weight of the container as determined by method (3) above.

(6) Divide the weight of water found by method (5) above by the weight of water found by method (4) above, and multiply by 100. The result should be the percentage of the total capacity of the container occupied by the food.

B. The fill of container for glass or other types of container, other than described in "A" above, may be determined by the same method as outlined above, except that process (1) is omitted and in lieu of process (4) the container is filled with water so that the water is level with the top of such container.

3

The method of measuring the fill of container as presented in finding number 2 A is reasonably accurate. The method as applied to tin cans with a double seam does not reach mathematical exactness, however, because an allowance of three-sixteenths of an inch is made for the height of such seams, whereas such seams may not be exactly three-sixteenths of an inch. Such variations from the allowance as may exist are, however, of no particular consequence as affecting either the consumer or the producer.

4

A standard of fill of container based upon the finding 2 is a necessity, in order to promote honesty and fair dealing in the interest of the consumer by insuring him a container which is practically full.

5

Under good commercial practice, a standard fill of container based upon the preceding findings could be easily met by good commercial practice.

6

In addition to the space in the cans as measured to the bottom of the lid, there are seams in each end of the can which allow some additional space in such containers.

7

The method of measuring head-space in order to determine the percentage of the container occupied by the food is not an accurate index to the proportion of the food to the space in the container. This is true because many containers for canned tomatoes are not cylindrical and only perfect cylinders can be measured accurately by the head-space method. Even the ordinary tin can in general commercial use is not a perfect cylinder, and the measuring of head-space is accurate for determining the proportion of the capacity of the container occupied by food only in the case of containers having a uniform cross-section area throughout the entire height.

8

Irregular containers now in use for canned tomatoes cannot be effectively measured by the head-space method.

9

The methods for measuring fill of container for canned tomatoes, set out in finding number 2, are simple and practical, and lend themselves most admirably to commercial practice.

10

That the standard practice of canners which has received consumer acceptance is that the fill of container of canned tomatoes is a fill of not less than 90 percent of the total capacity of the container.

Based upon the foregoing findings of fact, a conclusion in the form of a regulation is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE STANDARD OF FILL OF CONTAINER FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

§ 53.042 *Canned tomatoes—Fill of container.* (a) The standard of fill of container for canned tomatoes is a fill of not less than 90 percent of the total capacity of the container, as determined by the general method for fill of containers prescribed in section 10.010 (b).

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this the 14th day of July 1939.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39–2572; Filed, July 14, 1939; 4:21 p. m.]

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH REGULATIONS MAY BE PROMULGATED (A) FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY, STANDARD OF QUALITY, AND STANDARD OF FILL OF CONTAINER FOR CANNED TOMATOES; AND (B) SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR SUCH CANNED TOMATOES WHICH FALL BELOW SUCH STANDARD OF QUALITY, AND SUCH STANDARD OF FILL OF CONTAINER

ORDER OF THE SECRETARY PROMULGATING REGULATIONS FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 541), and based upon substantial evidence of record at the hearing in the above-entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

Tomatoes used in canning are mature tomatoes of red or reddish varieties.

[1] 4 F.R. 1091 DI.

[1] 4 F.R. 1091 DI.

2

There are three types of canned tomatoes:

(a) The most common of the three types of canned tomatoes is generally referred to simply as "tomatoes." In the canning process, tomatoes are washed, sorted, trimmed, scalded, peeled, and cored. The order of these processes varies somewhat according to the practice of the individual canner. When the liquid which drains from the tomatoes in the peeling and coring process is to be used in the finished products, sorting of the tomatoes is generally done before scalding. Tomatoes which are sorted out because of imperfections are trimmed in such a manner as to remove imperfections. Following this scalding process, tomatoes are peeled and cored. If they have not been sorted and trimmed before scalding, the liquid, cores, and trimmings obtained at this point in the process are discarded. If, however, there has been sorting and trimming before scalding so that no unsound tomatoes are received by the peelers, the peels, cores, and liquid are kept for use in canning tomatoes or other tomato products. The peeled and cored tomatoes may be packed in containers either by hand or by a machine. To the tomatoes in their containers is added sufficient liquid which has drained from tomatoes in the peeling and coring process to fill the cans completely. Some canners use the liquid obtained from strained tomatoes in lieu of, or in addition to, the liquid which has drained from tomatoes in the peeling and coring process to fill the cans completely. The air in the tomatoes in their containers is then removed by heat or by a vacuum process and the container sealed. Thereafter, the container is processed by heat, so as to prevent spoilage, and properly cooled, so as to prevent overcooking.

(b) In addition to the process of canning described above, some canners follow the practice of filling the container full of whole, mature tomatoes of red or reddish varieties, trimmed and cored as described in (a), without the addition of any liquid which may have drained from such tomatoes or from any other tomatoes. This type of canned tomatoes differs from the first type described only in that no additional tomato liquid is added.

(c) In this third method of canning tomatoes, whole tomatoes, trimmed, peeled, and cored as described in the first process, are placed in their containers so that their containers are about two-thirds to three-fourths full. To these partly filled containers is added a hot tomato liquid. This liquid is procured by placing the clean peels, cores, and liquid which has drained from tomatoes in the peeling and coring process into a machine known as a cyclone. To this tomato mixture may be added some whole tomatoes. The tomato mixture is then processed in the cyclone so as to strain the liquid and fleshy parts of the tomato from the skins, cores, and seeds. The resulting liquid is heated practically to boiling, but the heat is kept at such a point that there is no substantial concentration of the tomato material. The canned tomatoes, with the addition of this tomato material, have been sold under the name of "Tomatoes with Puree from Trimmings."

3

The use of the term "Tomatoes with Puree from Trimmings" to describe the third type of canned tomatoes is inaccurate, because the tomato material added to canned tomatoes is neither a puree, as that word is generally understood in connection with tomato products, nor is it prepared from trimmings.

4

Since residual tomato material from preparation for canning, in the form of tomato flesh and liquid obtained from skins, cores, and seeds cannot be accurately and truthfully described as tomatoes "with puree from trimmings," the product should be so labeled, as truthfully to reveal the source of the raw-material ingredients. Rot and decomposition attach first to the skins of the tomatoes and are concentrated, therefore, in a product made from skins, seeds, and cores. Canned tomatoes made from whole tomatoes have generally been found to have a lower mold count than canned tomatoes prepared in part from liquid extracted from the skins of tomatoes. The history of canned tomatoes with added material procured from skins, seeds, and cores reveals that this product has not merited the same degree of favor as tomatoes prepared from the whole fruit.

5

Zestful and harmless flavorings are used in the manufacture of canned tomatoes. Salt, spices, and basil leaves, either singly or in combination, are sometimes added to canned tomatoes.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by Section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

§ 53.040 *Canned tomatoes—Identity; label statement of optional ingredients.* (a) Canned tomatoes are mature tomatoes of red or reddish varieties which are peeled and cored and to which may be added one or more of the following optional ingredients:

(1) The liquid draining from such tomatoes during or after peeling and coring.

(2) The liquid strained from the residue from preparing such tomatoes for canning, consisting of peelings and cores with or without such tomatoes or pieces thereof.

(3) The liquid strained from mature tomatoes of such varieties.

It may be seasoned with one or more of the optional ingredients:

(4) Salt.
(5) Spices.
(6) Flavoring.

It is sealed in a container and so processed by heat as to prevent spoilage.

(b) When optional ingredient (2) is present, the label shall bear the statement "With Added Strained Residual Tomato Material from Preparation for Canning." When optional ingredient (3) is present, the label shall bear the statement "With Added Strained Tomatoes." When optional ingredient (5) or (6) is present, the label shall bear the statement or statements "Spice Added" or "With Added Spice," "Flavoring Added" or "With Added Flavoring," as the case may be. If two or all of optional ingredients (2), (3), (5), and (6) are present, such statements may be combined, as for example, "With Added Strained Tomatoes, Residual Tomato Material from Preparation for Canning, Spice and Flavoring." In lieu of the word "Spice" or "Flavoring" in such statement or statements, the common or usual name of such spice or flavoring may be used. Wherever the name "Tomatoes" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the statement or statements herein specified showing the optional ingredients present shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this the 14th day of July 1939.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39-2573; Filed, July 14, 1939; 4:21 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH REGULATIONS MAY BE PROMULGATED (A) FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY, STANDARD OF QUALITY, AND STANDARD OF FILL OF CONTAINER FOR CANNED TOMATOES; AND (B) SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR SUCH CANNED TOMATOES WHICH FALL BELOW SUCH STANDARD OF QUALITY, AND SUCH STANDARD OF FILL OF CONTAINER

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF QUALITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing in the above-entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

A standard of quality for canned tomatoes based, as one of the factors to be considered, upon the weight of the tomatoes in the container that are retained, after proper draining for two minutes on a sieve (eight inches in diameter if the quantity of the contents of the container is less than three pounds and twelve inches in diameter if such quantity is three pounds or more) having two meshes to the linear inch and the bottom which is made of wire of a uniform diameter of 0.054 inch, woven into square meshes of a uniform inside diameter of 0.446 inch, equalling or exceeding one-half of the weight of water at 68° F. required to fill the container, is a reasonable one and would promote honesty and fair dealing in the interest of the consumers for the reasons that the sieve of the size described permits the liquid and very small pieces of tomato flesh to fall through the openings, retaining the larger tomato portions; one-half at least by volume of the can is tomato meats of sufficient size to serve the uses to which consumers make of the article; consumers can determine their needs and make budgetary allowances in purchasing the size can best suited to their needs knowing that not more than one-half is liquid and tomato fragments; and it can be precisely determined.

2

It is reasonable and will promote honesty and fair dealing in the interest of consumers to specify a drained weight requirement for canned tomatoes based on the water capacity of the container rather than a drained weight requirement based on the total contents in the container for the reason that the can, to the consumer's eye, is a measure of the quantity of drained tomato meats that ought to be received; recent examination of thousands of cans of tomatoes show that a requirement based on the water capacity of the container would be fairer and more equitable both to the canner and the consumer; it would give the consumer a better quality of tomatoes; it could be accurately determined; and it is in accord with good commercial canning practice.

3

It is reasonable and it will promote honesty and fair dealing in the interest of consumers to prescribe, in a reasonable standard of quality for canned tomatoes, a method for determining the weight of water required to fill a metal container with lid attached by double seam which will include

(1) opening the container without injuring the double seam, removing contents, washing, drying and weighing the empty container,

(2) filling such container with distilled water of a temperature of 68° F. to three-sixteenths of an inch below the top level and then weighing the container and the water; and

(3) the result, after subtracting the weight of the empty container described in (1) from the weight of the container and water described in (2), is the weight of water required to fill the container,

for the reason that the method is definite; that any method based on can dimensions would be approximate; that domestic and imported can construction differs; that calculations from dimensional measurements are not accurate; that three-sixteenths of an inch is the accepted and determined measure of the double seam; that the displacement method is not practicable or reasonable for a canner to use in his factory; and that the method here recommended is in accord with good commercial canning practice.

4

It is reasonable and will promote honesty and fair dealing in the interest of consumers to prescribe, in a reasonable standard of quality for canned tomatoes, a method of determining the weight of water required to fill containers other than those attached by double seam, which will include

(1) opening the container, removing contents, washing, drying and weighing the empty container,

(2) filling such container with distilled water of a temperature of 68° F. to the top and then weighing the container and the water; and

(3) the result, after subtracting the weight of the empty container described in (1) from the weight of the container and water described in (2), is the weight of water required to fill the container

for the reasons that the method is definite; that any method based on can or container dimensions would be approximate; that domestic and imported container construction differs; that calculations from dimensional measurements are not accurate; that when tomatoes are in containers with lids other than those attached by means of a double seam the lid is placed on the top of the container; that the displacement method is only practicable with good commercial canning practice.

5

A standard of quality for canned tomatoes based, as one of the factors to be considered, upon the redness or height of the color of the tomatoes in the container determined by taking and removing from the sieve the drained tomatoes obtained in determining the drained weight and cutting out, and successively segregating those portions in which the red color is least developed until one-half by weight of such drained tomatoes have been so segregated; by reducing such segregated portions to a uniform mixture without removing or breaking the tomato seeds; by putting such mixture into a black container to a depth of at least one inch; by freezing such mixtures from air bubbles and skimming off or pressing below the surface all visible tomato seeds; by comparing the color of such mixture, in full diffused daylight or its equivalent, with the blended color of combinations of the following Munsell color discs, or the color equivalent of such discs:

Disc 1. Red—5R 2.6/13 (glossy finish)
Disc 2. Yellow—2.5 YR 5/12 (glossy finish)
Disc 3. Black—N 1/ (glossy finish)
Disc 4. Grey—N 4/ (mat finish);

and if the redness or height of the color of such mixture is not less than that of any combination of the above-described Munsell color discs in which one-third of the area of disc 1 and not more than one-third of the area of disc 2 (regardless of the exposed area of discs 3 and 4) is exposed, then the color factor requirement is met,

would be reasonable and would promote honesty and fair dealing in the interest of consumers in that the consumer would be assured of getting tomatoes with fairly well developed red color, and would be in accord with good commercial practice.

6

In a standard of quality for canned tomatoes, a maximum allowance of one square inch of tomato peel per pound of canned tomatoes in the container as one of the quality factors would be reasonable and would promote honesty and fair dealing in the interest of consumers in that, of the thousands of cans of tomatoes examined between July 1, 1937 and September 21, 1938 representing the output of 388 packers located in all of the principal tomato producing sections of the United States and being a very representative cross section of the industry, the great majority showed less than one inch of tomato peel per pound of canned tomatoes; the consumer expects to get a minimum amount

[1] 4 F.R. 1091 DI.

of peel in a can of tomatoes; and it is in accord with good commercial practice.

7

In a standard of quality for canned tomatoes, a maximum allowance of one-fourth square inch of tomato blemish per pound of canned tomatoes in the container, as one of the quality factors, would be reasonable and would promote honesty and fair dealing in the interest of consumers for the reason that this quality factor has been in force since 1931 without change; of the thousands of cans of tomatoes examined for this factor but few failed to meet the requirement and the great majority was well below the tolerance; and it is in accord with good commercial practice and consumer understanding of the article.

8

There are no yellow varieties of tomatoes canned and sold under the name of tomatoes unqualified.

Based upon the foregoing findings of fact, conclusions in the form of regulations which will promote honesty and fair dealing in the interest of consumers are hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF QUALITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

§ 53.041 *Canned tomatoes—Quality.* (a) The standard of quality for canned tomatoes is as follows:

(1) The drained weight, as determined by the method prescribed in subsection (b) (1), is not less than 50 percent of the weight of water required to fill the container, as determined by the general method for water capacity of containers prescribed in section 10.010 (a);

(2) the strength and redness of color, as determined by the method prescribed in subsection (b) (2), is not less than that of the blended color of any combination of the color discs described in such method, in which one-third the area of disc 1, and not more than one-third the area of disc 2, is exposed;

(3) peel, per pound of canned tomatoes in the container, covers an area of not more than 1 square inch; and

(4) blemishes, per pound of canned tomatoes in the container, cover an area of not more than one-fourth square inch.

(b) Canned tomatoes shall be tested by the following method to determine whether or not they meet the requirements of clauses (1) and (2) of subsection (a):

(1) Remove lid from container, but in the case of a container with lid attached by double seam, do not remove or alter the height of the double seam. Tilt the opened container so as to distribute the contents over the meshes of a circular sieve which has previously been weighed. The diameter of the sieve used is 8 inches if the quantity of the contents of the container is less than 3 pounds, or 12 inches if such quantity is 3 pounds or more. The meshes of such sieve are made by so weaving wire of 0.054 inch diameter as to form square openings 0.446 inch by 0.446 inch. Without shifting the tomatoes, so incline the sieve as to facilitate drainage of the liquid. Two minutes from the time drainage begins, weigh the sieve and drained tomatoes. The weight so found, less the weight of the sieve, shall be considered to be the drained weight.

(2) Remove from the sieve the drained tomatoes obtained in (1). Cut out and segregate successively those portions of least redness until 50 percent of the drained weight, as determined under (1), has been so segregated. Cominute the segregated portions to a uniform mixture without removing or breaking the seeds. Fill the mixture into a black container to a depth of at least 1 inch. Free the mixture from air bubbles, and skin off or press below the surface all visible seeds. Compare the color of the mixture, in full diffused daylight or its equivalent, with the blended color of combinations of the following concentric Munsell color discs of equal diameter, or the color equivalents of such discs:

1. Red—Munsell 5R 2.6/13 (glossy finish).
2. Yellow—Munsell 2.5 YR 5/12 (glossy finish).
3. Black—Munsell N 1/ (glossy finish).
4. Grey—Munsell N 4 (mat finish).

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this the 14th day of July 1939.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39-2575; Filed, July 14, 1939; 4:21 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH REGULATIONS MAY BE PROMULGATED (A) FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY, STANDARD OF QUALITY, AND STANDARD OF FILL OF CONTAINER, FOR CANNED TOMATOES; AND (B) SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR SUCH CANNED TOMATOES WHICH FALL BELOW SUCH STANDARD OF QUALITY, AND SUCH STANDARD OF FILL OF CONTAINER

ORDER OF THE SECRETARY PROMULGATING REGULATIONS FIXING AND SPECIFYING FORM AND MANNER OF LABEL STATEMENTS FOR CANNED TOMATOES WHICH FALL BELOW STANDARD OF QUALITY AND STANDARD OF FILL OF CONTAINER

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing in the above entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

In 1931, under the McNary-Mapes Amendment to the Food and Drugs Act of 1906 (21 U.S.C. Sec. 10, Par. 5, in the case of food) to promote honesty and fair dealing in the interest of the consumer, the Secretary of Agriculture, after public hearings, promulgated a regulation providing for the labeling of canned foods that fell below the applicable standard of quality or fill of container, which included canned tomatoes; that such regulation required the label statement to indicate plainly that the product was substandard; that the factors considered essential to indicate plainly that the product was substandard were (1) the relative prominence of the statement on the label; (2) such a position of the statement on the label with respect to the name or a pictorial representation of the product as would make the statement apparent or discernible under ordinary conditions of purchase and sale; (3) the kind and size of type used; and (4) a statement to be of such a nature that it would not convey a misleading impression; that such a regulation embodying these factors has been in force since 1931; and that essentially the same requirements are hereinafter recommended.

2

It will be reasonable and will promote honesty and fair dealing in the interest of consumers in promulgating regulations providing for the labeling of canned tomatoes that fall *below* the applicable standards of quality or fill of container, to require such a label statement as would plainly indicate the product was below standard; that such a label statement would include prominence, position, display, type, clarity and certainty; and that such a label statement would indicate clearly and concisely that the article failed to meet the standards of quality or fill of container applicable thereto.

3

Such a label statement will indicate plainly that the product is below standard if it appears in connection with the product name or pictorial representation thereof or both such name and pictorial representation so as to be clearly visible under ordinary conditions of purchase and sale.

4

It will be reasonable and will promote honesty and fair dealing in the interest of consumers to require, on below standard quality canned tomatoes, the statement "Below Standard Quality" on one line and "Good Food—Not High Grade" on a line below; to be printed in type of 12-point Cheltenham bold condensed caps for the first line and for the second line 8-point type of the same style if the quantity of the contents of the container is less than one pound, and if such quantity is one pound or more in type of the same style, the first line to be 14-point, and the second line 10-point; such statement to be enclosed within a border, not less than 6 points in width, in the shape of a rectangle; and such statement, so enclosed, to be on a strongly contrasting, uniform background, so placed as to be clearly seen when the word "Tomatoes" or any pictorial representation of a tomato is viewed, wherever such word or representation appears so conspicuously as to be easily seen under customary conditions of purchase and sale.

[1] 4 F.R. 1091 DI.

5

It will be reasonable and will promote honesty and fair dealing in the interest of consumers to require, on below standard fill of container canned tomatoes, the statement "Below Standard Fill" to be printed in type of 12-point Cheltenham bold condensed caps for the first line and for the second line 8-point type of the same style if the quantity of the contents of the container is less than one pound, and if such quantity is one pound or more in type of the same style, the first line to be 14-point and the second line 10-point; such statement to be enclosed within a border, not less than 6 points in width, in the shape of a rectangle; and such statement, so enclosed, to be on a strongly contrasting, uniform background, so placed as to be clearly seen when the word "Tomatoes" or any pictorial representation of a tomato is viewed, wherever such word or representation appears so conspicuously as to be easily seen under customary conditions of purchase and sale.

6

It will be reasonable and will promote honesty and fair dealing in the interest of consumers to require, on canned tomatoes that fall below both the standard of quality and the standard of fill of container applicable thereto, both the statements described in paragraphs 4 and 5, the one following the other, and enclosed in a single rectangle.

7

The statement "Below U. S. Standard" on below standard quality or fill of container canned tomatoes is indefinite; is misleading; and conveys the impression to the consumer that the United States Government supervised the preparation of the article.

8

The statement "slack fill" on substandard quality or fill of container canned tomatoes is ambiguous; is indefinite; and the meaning that is intended to be conveyed to the consumer by the words "slack fill" is uncertain.

Based upon the foregoing findings of fact, a conclusion in the form of regulations which will promote honesty and fair dealing in the interest of consumers are hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF LABELING OF SUBSTANDARD FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS CANNED TOMATOES

§ 53.041 *Canned tomatoes — Label statement of substandard quality.* (c) If the quality of canned tomatoes falls below the standard prescribed in subsection (a) of this section, the label shall bear the general statement of substandard quality specified in section 10.020 (a), in the manner and form therein specified; but in lieu of such general statement of substandard quality, the label may bear the alternative statement "Below Standard in Quality ———," the blank to be filled in with the words specified after the corresponding number of each clause of subsection (a) of this section which such canned tomatoes fail to meet, as follows: (1) "Excessively Broken Up"; (2) "Poor Color"; (3) "Excessive Peel"; (4) "Excessive Blemishes." If such canned tomatoes fail to meet both clauses (3) and (4), the words "Excessive Peel and Blemishes" may be used instead of the words specified after the corresponding numbers of such clauses. Such alternative statement shall immediately and conspicuously precede or follow, without intervening written, printed, or graphic matter, the name "Tomatoes" and any statements required or authorized to appear with such name by section 53.040 (b).

§ 53.042 *Canned tomatoes—Label statement of substandard fill.* (b) If canned tomatoes fall below the standard of fill of container prescribed in subsection (a) of this section, the label shall bear the general statement of substandard fill specified in section 10.020 (b), in the manner and form therein specified.

It is ordered that the regulations hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this the 14th day of July 1939.

[SEAL] HARRY L. BROWN;
*Acting Secretary of Agriculture.*

[F. R. Doc. 39-2576; Filed, July 14, 1939; 4:22 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR PURPOSE OF RECEIVING EVIDENCE UPON BASIS OF WHICH REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: TOMATO PUREE, TOMATO PASTE, TOMATO CATSUP, TOMATO JUICE

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS TOMATO PUREE

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing in the above-entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

The term "Tomato Puree" and the term "Tomato Pulp" are synonymous names for the same food.

2

Tomatoes used in the manufacture of tomato puree, tomato pulp, are mature tomatoes of red or reddish varieties.

3

The raw materials used are:

(1) Whole tomatoes;

(2) Residual tomato material from preparation for canning, consisting of pieces, cores, peelings, liquid, in whole or in part;

(3) Residual tomato material from partial extraction of juice;

(4) Tomato puree, tomato pulp, is made from any one of the above sources of raw material, or any combination thereof.

4

When tomato puree, tomato pulp, is manufactured in whole or in part from residual tomato material from preparation for canning or from partial extraction of juice, the label shall declare the raw-material ingredients used.

5

Tomato puree, tomato pulp is manufactured by crushing and straining whole tomatoes or residual tomato material from preparation for canning or from partial extraction of juice, so as to remove seeds, skins, cores, and other coarse or hard substances, concentrating to a definite point, and packing so as to prevent spoilage.

6

Tomato puree, tomato pulp, is a concentrated product.

7

(1) When total solids are to be determined for the purpose of the standard or for any legal purpose, a method employed is the method set forth by the "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," 4th Edition, 1935, page 499, Section 16, "Total Solids—Tentative."

[1] 4 F.R. 957 DI.

(2) When salt-free solids are to be determined, sodium chloride may be determined by the method prescribed on page 500 of the book referred to in (1) above, under Section 22, "Sodium Chloride—Official." The amount of sodium chloride found is subtracted from the total solids found. The difference is considered to be the salt-free tomato solids of the product.

8

Salt frequently is used as a seasoning ingredient in tomato puree, tomato pulp.

9

The concentration of tomato puree, tomato pulp is such that the salt-free tomato solids content is not less than 8.37 percent but less than 25.00 percent.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS TOMATO PUREE

§ 53.020 *Tomato puree, tomato pulp—Identity; labeling of optional ingredients.* (a) Tomato puree, tomato pulp, is the food prepared from one or any combination of two or all of the following optional ingredients:

(1) The liquid obtained from mature tomatoes of red or reddish varieties.

(2) The liquid obtained from the residue from preparing such tomatoes for canning, consisting of peelings and cores with or without such tomatoes or pieces thereof.

(3) The liquid obtained from the residue from partial extraction of juice from such tomatoes. Such liquid is obtained by so straining such tomatoes or residue, with or without heating, as to exclude skins, seeds, and other coarse or hard substances. It is concentrated, and may be seasoned with salt. When sealed in a container it is so processed by heat, before or after sealing, as to prevent spoilage. It contains not less than 8.37 percent, but less than 25.00 percent, of salt-free tomato solids, as determined by the following method:

Determine total solids by the method prescribed on page 499 under "Total Solids—Tentative", and sodium chloride by the method prescribed on page 500 under "Sodium Chloride—Official", of "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935. Subtract the percent of sodium chloride found from the percent of total solids found; the difference shall be considered to be the percent of salt-free tomato solids.

(b) When optional ingredient (2) is present, in whole or in part, the label shall bear the statement "Made from ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Canning." When optional ingredient (3) is present, in whole or in part, the label shall bear the statement "Made From ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Partial Extraction of Juice." If both such ingredients are present, such statements may be combined in the statement "Made From ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Canning and from Partial Extraction of Juice." Wherever the name "Tomato Puree" or "Tomato Pulp" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the statement or statements herein specified showing the optional ingredients present shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 14th day of July 1939.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39-2574; Filed, July 14, 1939; 4:21 p. m.]

IN THE MATTER OF THE PUBLIC HEARING FOR PURPOSE OF RECEIVING EVIDENCE UPON BASIS OF WHICH REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: TOMATO PUREE, TOMATO PASTE, TOMATO CATSUP, TOMATO JUICE

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS TOMATO PASTE

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing in the above-entitled matter,[1] detailed findings of fact are made, as follows:

*Findings of Fact*

1

Tomatoes used in the manufacture of tomato paste are mature tomatoes of red or reddish varieties.

2

The raw materials used are:

(1) Whole tomatoes;

(2) Residual tomato material from preparation for canning, consisting of pieces, cores, peelings, liquid, in whole or in part;

(3) Residual tomato material from partial extraction of juice;

(4) Tomato paste is made from any one of the above sources of raw material, or any combination thereof.

3

When tomato paste is manufactured in whole or in part from residual tomato material from preparation for canning or from partial extraction of juice, the label shall declare the raw-material ingredients, used.

4

Tomato paste is manufactured by crushing and straining whole tomatoes or residual tomato material from preparation for canning or from partial extraction of juice, so as to remove seeds, skins, cores, and other coarse or hard substances, concentrating to a definite point, and packing so as to prevent spoilage.

5

(1) When total solids are to be determined for the purpose of the standard or for any legal purposes, a method employed is the method set forth by the "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, page 499, Section 16, "Total Solids—Tentative."

(2) When salt-free solids are to be determined, a method employed by which sodium chloride is found is the method prescribed on page 500 of the book referred to in (1) above, under Section 22, "Sodium Chloride—Official." The amount of sodium chloride found is subtracted from the total solids found. The difference is considered to be the salt-free tomato solids of the product.

6

Sweet basil leaves, oil of sweet basil, and salt are sometimes used in tomato paste.

7

Tomato paste has a minimum salt-free tomato solids content of 25.00 percent.

8

Baking soda, as an acid-neutralizing agency, is sometimes used in the manufacture of tomato paste.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETICS ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD KNOWN UNDER ITS COMMON OR USUAL NAME AS TOMATO PASTE

§ 53.030 *Tomato paste—Identity; labeling of optional ingredients.* (a) Tomato paste is the food prepared from one or any combination of two or all of the following optional ingredients:

(1) The liquid obtained from mature tomatoes of red or reddish varieties.

(2) The liquid obtained from the residue from preparing such tomatoes for canning, consisting of peelings and cores with or without such tomatoes or pieces thereof.

(3) The liquid obtained from the residue from partial extraction of juice from such tomatoes. Such liquid is obtained by so straining such tomatoes or residue, with or without heating, as to exclude skins, seeds, and other coarse or hard substances. It is concentrated, and may be seasoned with one or more of the optional ingredients:

(4) Salt.
(5) Spice.
(6) Flavoring.

It may contain, in such quantity as neutralizes a part of the tomato acids, the optional ingredient:

(7) Baking soda.

When sealed in a container it is so processed by heat, before or after sealing, as to prevent spoilage. It contains not less than 25.00 percent of salt-free tomato solids, as determined by the following method:

Determine total solids by the method prescribed on page 499 under "Total Solids—Tentative," and sodium chloride by the method prescribed on page 500 under "Sodium Chloride—Official," of "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935. Subtract the percent of sodium chloride found from the percent of total solids found; the difference shall be considered to be the percent of salt-free tomato solids.

(b) When optional ingredient (2) is present, in whole or in part, the label shall bear the statement "Made From ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Canning". When optional ingredient (3) is present, in whole or in part, the label shall bear the statement "Made From ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Partial Extraction of Juice". If both such ingredients are present, such statements may be combined in the statement "Made From ———" (or "Made in Part From ———", as the case may be) "Residual Tomato Material from Canning and from Partial Extraction of Juice". When optional ingredient (5) or (6) is present the label shall bear the statement or statements "Spice Added" or "With Added Spice," "Flavoring Added" or "With Added Flavoring," as the case may be. When optional ingredient (7) is present, the label shall bear the statement "Baking Soda Added." If two or all of the optional ingredients (5), (6), and (7) are present, such statements may be combined, as for example, "Spice, Flavoring, and Baking Soda Added." In lieu of the word "Spice" or "Flavoring" in such statement or statements, the common or usual name of such spice or flavoring may be used. Wherever the name "Tomato Paste" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the statement or statements herein specified showing the optional ingredients present shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 14th day of July 1939.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

## TITLE 25—INDIANS

## OFFICE OF INDIAN AFFAIRS

AMENDMENT OF REGULATIONS GOVERNING LEASES AND PERMITS ON RESTRICTED INDIAN LANDS

Section 171.12 of Title 25, Chapter I, Office of Indian Affairs, Department of the Interior, Sub-Chapter Q, Part 171, Leasing of Indian Allotted and Tribal Lands for Farming, Grazing and Business, which reads:

§ 171.12 *Tribal Lands, Approval of Permit or Lease.* The letting of tribal lands for farming, grazing, or business purposes shall be accomplished through leases for stated periods, or through permits revocable in the discretion of the Commissioner of Indian Affairs, after advertising as provided for in Section 171.9 of these regulations. Any permit covering the use of tribal lands for farming, grazing, or business purposes where the annual rental does not exceed $1,000 should be approved by the superintendent and need not be submitted to the Washington Office, except where the leasing laws expressly provide for approval by the Secretary. Permits calling for an annual rental in excess of $1,000, and all leases, regardless of the amount of rental involved, should be submitted to the Washington Office for consideration.

is amended to read:

§ 171.12 *Tribal Lands, Approval of Permit or Lease.* Tribal lands may be used for farming, farm-pasture, or business purposes under revocable permits or leases for stated periods, after advertising as provided in Section 171.9. In accordance with existing law and applicable provisions of the constitution and by-laws or charter of any Indian tribe, approval of permits and leases shall be handled in the following manner:

(a) *Permits.* Permits may be approved by the superintendent when the annual rental does not exceed $1,000, or by the Commissioner of Indian Affairs when the annual rental is more than $1,000 but does not exceed $5,000, but in the case of any permit in which the annual rental exceeds $5,000 or where the constitution and by-laws of the Indian tribe involved requires its approval by the Secretary of the Interior, such permit shall be submitted to the Secretary of the Interior for his approval.

(b) *Leases.* The approval of leases covering tribal lands of Indian tribes having corporate charters issued pursuant to the acts of June 18, 1934 (48 Stat. 984), May 1, 1936 (49 Stat. 1250), or June 26, 1936 (49 Stat. 1967) shall be handled in the same manner as the approval of permits as provided in subsection (a) hereof. All other leases regardless of the amount of annual rental shall be subject to the approval of the Secretary of the Interior.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

JULY 6, 1939.

## TITLE 26—INTERNAL REVENUE

## BUREAU OF INTERNAL REVENUE

[T. D. 4911]

CAPITAL STOCK TAX

EXTENSION OF TIME FOR FILING CAPITAL STOCK TAX RETURNS AND PAYING TAX

*To Collectors of Internal Revenue and Others Concerned:*

§ 137C.1 *General extension.* Forms 707 and 708 for the filing of returns of capital stock tax under Chapter 6 of the Internal Revenue Code (53 Stat., Part 1), as amended, for the year ended June 30, 1939, are required to be filed and the tax paid on or before July 31, 1939, unless the time for filing returns and paying the tax is extended under the provisions of sections 1203 and 1205 of the aforementioned chapter.

In accordance with the provisions of these sections, the period during which the returns of capital stock tax may be

[1] 4 F.R. 957 DL

filed, and the tax paid, is hereby extended; and collectors of internal revenue are authorized to accept returns without assertion of penalties for delinquency or of interest if the returns are filed and the tax paid on or before the dates indicated in the next two paragraphs below:

1. Returns of corporations having a principal place of business within the continental United States must be filed with collectors of internal revenue on or before August 31, 1939.

2. Returns of corporations having no principal place of business within the continental United States must be filed with collectors of internal revenue on or before September 29, 1939. (Secs. 1203, 1205, 3791, 53 Stat., Part 1.) [T.D. 4911, Bu. Int. Rev., July 14, 1939]

§ 137C.2 *Special extensions.* Corporations within the first of the classes indicated above may be granted further extensions by collectors of internal revenue to a date not later than September 29, 1939, under the provisions of Article 36 (b) of Regulations 64[1] (1938 Edition) (section 137.36 (b), Title 26, Code of Federal Regulations), as made applicable to the Internal Revenue Code by Treasury Decision 4885,[2] approved February 11, 1939 (Part 465, Subpart B, of such Title 26), upon the condition that interest at the rate of 6 per cent per annum be paid from August 31, 1939, to the date of payment. (Secs. 1203, 1205, 3791, 53 Stat., Part 1.) [T.D. 4911, Bu. Int. Rev., July 14, 1939]

[SEAL] HAROLD N. GRAVES,
*Acting Commissioner of Internal Revenue.*

Approved July 14, 1939.

HERBERT E. GASTON,
*Acting Secretary of the Treasury.*

[F. R. Doc. 39-2586; Filed, July 15, 1939; 11:04 a. m.]

## TITLE 29—LABOR

## CHILDREN'S BUREAU

[Regulation No. 1–D]

### CHILD LABOR

EXTENSION OF TEMPORARY CERTIFICATES OF AGE REGULATION

JULY 13, 1939.

By virtue of and pursuant to the authority conferred by section 3 (1) and section 11 (b) of the Fair Labor Standards Act of 1938 (52 Stat. 1060) the following regulation is hereby issued for the purpose of extending the effective period of Child Labor Regulation No. 1–A, entitled "Temporary Certificates of Age," as the effective period thereof was extended by Child Labor Regulations No. 1–B and 1–C, for an additional period of 92 days until October 24, 1939.

*Authority for Regulation*

SEC. 3 (1) OF THE ACT

* * * oppressive child labor shall not be deemed to exist by virtue of the employment in any occupation of any person with respect to whom the employer shall have on file an unexpired certificate issued and held pursuant to regulations of the Chief of the Children's Bureau certifying that such person is above the oppressive child-labor age.

SEC. 11 (b) OF THE ACT

With the consent and cooperation of State agencies charged with the administration of State labor laws the Administrator and the Chief of the Children's Bureau may, for the purpose of carrying out their respective functions and duties under this Act, utilize the service of State and local agencies and their employees and, notwithstanding any other provisions of law, may reimburse such State and local agencies and their employees for services rendered for such purposes.

*Temporary Certificates of Age*

Child Labor Regulation No. 1–A, entitled "Temporary Certificates of Age," issued October 14, 1938[3] and effective until January 23, 1939, as amended by Child Labor Regulation No. 1–B, issued January 19, 1939,[4] and Child Labor Regulation No. 1–C, issued April 14, 1939,[5] extending the effective period for the acceptance of temporary certificates of age for 90 days, each, until July 24, 1939, is hereby amended by extending the effective period for the acceptance of temporary certificates of age, as provided in Child Labor Regulation No. 1–A, for an additional period of 92 days, that is until October 24, 1939.

[SEAL] KATHARINE F. LENROOT,
*Chief of the Children's Bureau.*

## TITLE 43—PUBLIC LANDS

## GENERAL LAND OFFICE

[Circular No. 1458]

TEMPORARY ONE-YEAR GRAZING LEASES OF REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS, OREGON

§ 115.86 *Statutory authority.* Section 4 of the act of August 28, 1937 (50 Stat., 875) authorizes the leasing for grazing purposes of any of the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands which may be so used without interfering with the production of timber or other purposes of the act.*

§ 115.87 *Applications.* Applications for temporary one-year grazing leases should be filed in duplicate in the office of the Chief Forester, Oregon and California Revested Lands Administration, 407 Customhouse, Portland, Oregon. Application forms may be obtained upon request from the Chief Forester, and will be in substance as follows:

UNITED STATES DEPARTMENT OF THE INTERIOR—GENERAL LAND OFFICE

OREGON AND CALIFORNIA REVESTED LANDS ADMINISTRATION, PORTLAND, OREGON

*Application for Grazing Lease*

Serial No. G. L. A. ------
Date ---------- 19--

(1) I, ----------
(Name of applicant)
of ----------
(Post Office address)
hereby apply to lease under section 4 of the act of August 28, 1937 (50 Stat., 875), the ------ ---------- Section ------, Township ----------, Range ----------, ---------- Meridian, containing ------ acres.

(2) Describe by legal subdivisions the lands you own or hold under control by lease or permit, and the dates initiated or acquired, and when the right will expire, if it is held for a period of years.

---

Section ------, Township ------, Range ------, ------ Meridian.

(a) How many acres of your privately owned lands are under cultivation? ------ acres.

(b) How many acres are used for grazing purposes? ------ acres.

(3) State briefly your experience in the livestock industry and give two references.

---

(4) State what interests, if any, you have in any other lease or pending application for lease under section 4 of the act approved August 28, 1937.

---

(5) Are you a citizen of the United States? ------ By birth? ------ By naturalization? ------.

(If by naturalization, evidence of such naturalization must be furnished.)

If not a citizen, have you filed the necessary declaration of intention to become such? ---------- When? ----------
Where? ----------

(If the applicant is a corporation, a certified copy of the articles of incorporation, together with a copy, signed by proper official, of the minutes of the meeting authorizing the filing of the application and, if an association, a copy of the constitution and by-laws, and evidence of the citizenship of each member must be submitted.)

(6) Do the lands applied for contain any springs or water holes? ------ If so, describe them, giving the location by section, township, and range.

---

(a) Are the lands applied for occupied or used for any purpose? ------ By whom? ---------- for what purpose?

---

(7) Do you own or control any source of water supply needed or used for livestock purposes? ------
Describe it ----------
Where located ---------- ----------
(Subdivision) (section)
---------- ----------
(township) (range)

(8) State the number and kind of stock to be grazed on the leased lands ----------, seasons of contemplated use ---------- ----------, the manner in which you plan to graze the lands applied for in connection with your general operations.

---

(9) Have you previously used the lands covered by this application? ------ If so, for how many years and for what usual period each year? ----------

(a) How many stock have you grazed thereon during the average year? ------

(10) Have the lands been used for grazing purposes in the past by any other person? ------ If so, by whom? ----------
To what extent? ----------

(11) How many head of livestock do you own? ------ Cattle ------; Horses ------; Sheep ------; Goats ------

---
(Signature of applicant)

Subscribed and sworn to before me this the -------- day of ----------, 19--.
(The original application only need be sworn to.)

---
(Official designation of officer)*

§ 115.88 *Filing fees.* No filing fees will be required on applications for the temporary one-year grazing leases.*

§ 115.89 *Action upon applications.* When an application is received in the Chief Forester's office, it will be identified by number in a manner similar to that used in timber sales, except that the symbol G.L.A. will identify it as a grazing lease application. In acting upon applications embracing lands subject to lease, the Chief Forester will, in each case, make a determination as to the lands which in his opinion the applicant is entitled to lease. In making such a determination, consideration will be given the information furnished in the application, together with other available information in his office. Where two or more persons apply for the same lands, consideration will be given to the statements in the applications as to ownership and control of base lands, the need for additional grazing lands, and to the grazing operations of the individuals involved. The rental charged will be based upon a comparison of rentals charged on State, Federal, and privately-owned lands of similar character in the same locality.*

§ 115.90 *Offer and form of lease.* When [illegible] a determination is made as to the lands to be awarded and the rental to be charged, the Chief Forester will prepare and forward to the applicant by registered mail a lease, in quadruplicate, advising the applicant that he will be allowed 10 days from receipt thereof within which to sign the four copies of the proposed lease and return the same to the Chief Forester, accompanied with the amount due as rental as set forth therein. Temporary one-year grazing lease will be substantially in the following form:

[To be executed by applicant in quadruplicate]

[Form of Lease]

UNITED STATES DEPARTMENT OF THE INTERIOR—GENERAL LAND OFFICE

OREGON AND CALIFORNIA REVESTED LANDS ADMINISTRATION

*Lease of Lands for Grazing Livestock, Section 4 of the Act of August 28, 1937 (50 Stat., 875)*

Serial ------

This indenture of lease, entered into by and between the United States of America, party of the first part, hereinafter called the lessor, acting in this behalf by the Chief Forester, Oregon and California Revested Lands Administration, and ----------, party of the second part, hereinafter called the lessee, under, pursuant, and subject to the terms and provisions of the Act of Congress approved August 28, 1937 (50 Stat., 874), entitled "An Act relating to the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands situated in the State of Oregon," hereinafter referred to as "The Act," which is made a part hereof.

Witnesseth:

That the lessor, in consideration of the rents to be paid and the covenants to be observed as herein set forth, does hereby grant and lease to the lessee an exclusive right and privilege of using for grazing purposes the following described tract of land:

---

containing approximately ------ acres, together with the right to construct and maintain thereon all buildings or other improvements necessary to the full enjoyment thereof, for a period of one year from date hereof.

I. In consideration of the foregoing, the lessee hereby agrees:

(a) To pay the lessor as rental the sum of ------.

(b) To observe the laws and regulations for the protection of game animals, game birds, and nongame birds, and not unnecessarily disturb such animals or birds.

(c) That neither he nor his employees will set fires that will result in damage to the timber, range, or to wildlife, and to extinguish all campfires started by him or any of his employees before leaving the vicinity thereof.

(d) That authorized representatives of the Department of the Interior at any time shall have the right to enter the leased premises for the purpose of inspection, and that Federal agents, including game wardens, shall at all times have the right to enter the leased area on official business.

(e) Not to remove any timber whatsoever growing on the leased land without specific authorization in advance by the Chief Forester. Such authority may be granted only for the erection and maintenance of improvements required in the operation of this lease.

(f) To take all reasonable precaution to prevent and suppress forest, brush, and grass fires.

(g) To comply with all Federal and local laws regarding sanitation.

(h) Not to enclose roads or trails commonly used for public travel so as to interfere with the traveling of persons who do not molest grazing animals.

(i) Not to overgraze the lands embraced in this lease or to allow grazing in such a manner as to cause any waste or damage to the forage thereon.

II. The lessor expressly reserves:

(a) The right to permit prospecting, locating, developing, mining, entering, leasing, or patenting the mineral resources, and to dispose of such resources under any laws applicable thereto; the right to permit the use and disposition of timber on the lands embraced in this lease, under existing laws and regulations; and nothing herein contained shall restrict the acquisition, granting, or use of permits or rights of way under existing law.

(b) The right to dispose of by homestead entry, sale, or any other manner provided by applicable laws, any of such leased land, which, in the judgment of the Secretary of the Interior, is more suitable for disposal than for afforestation, reforestation, streamflow protection, recreation, or other public purposes.

III. It is further understood and agreed:

(a) That this lease is granted subject to valid existing rights and to all rules and regulations issued under authority of the Secretary of the Interior.

(b) That the lessee may construct, or maintain and utilize, any fence, building, corral, reservoir, well, or other improvements needed for the exercise of the grazing privileges of this lease, but any such fence shall be so constructed as to permit ingress and egress for miners, prospectors for minerals, and other persons entitled to enter such area for lawful purposes.

(c) That upon the termination of this lease by expiration or forfeiture thereof pursuant to paragraph (d) hereof, in the absence of an agreement to the contrary, the lessee may, within a reasonable period, to be determined by the lessor, remove or make other disposition of all property belonging to him, together with any fence, building, or other removable range improvements of any kind owned or controlled by him, but if not removed within the period of time specified by the lessor, such property, buildings, and improvements shall become the property of the United States.

(d) If the lessee shall fail to comply with the provisions of the act, or make default in the performance or observance of any of the terms, covenants, and stipulations hereof and such default shall continue for 10 days after service of written notice thereof by the regional forester, then that officer may, in his discretion, terminate and cancel this lease.

IV. It is further covenanted and agreed that each obligation hereunder shall extend to and be binding upon, and every benefit hereof shall inure to, the heirs, executors, administrators, successors, or assigns of the respective parties hereto.

V. It is also further agreed that no Member of or Delegate to Congress, or Resident Commissioner, after his election or appointment, or either before or after he has qualified, and during his continuance in office, and that no officer, agent or employee of the Department of the Interior, shall be admitted to any share or part in this lease, or derive any benefit that many arise therefrom, and the provisions of section 3741 of the Revised Statutes of the United States and sections 114, 115, and 116 of the Codification of the Penal Laws of the United States approved March 4, 1909 (35 Stat. 1109), relating to contracts enter into and

form a part of this lease so far as the same may be applicable.

In Witness Whereof, I, _____ party of the second part, have hereto affixed my signature this _____ day of _____, 19---.

_____

In Witness Whereof, and as representative of the United States of America, party of the first part, I have hereunto affixed my signature this _____ day of _____, 19---.

THE UNITED STATES OF AMERICA,
By _____
*Chief Forester,*
*Oregon and California Revested Lands Administration.*

If within the time allowed, the applicant returns the lease forms properly signed, together with the amount due as rental, the Chief Forester will date and sign the four copies and make appropriate notations on the records of his office as to the issuance of the lease.[1]

§ 115.91 *Disposition of papers and rental.* One copy of the lease will be forwarded to the applicant, one copy retained by the Chief Forester, and the original application, together with the original and remaining copy of the lease, will be forwarded to the Register of the appropriate United States District Land Office for notation on his records and transmittal to the General Land Office. The money received as rental will be disposed of in accordance with the provisions of section 4 of the act.[1]

§ 115.92 *Rights under application.* The filing of an application for a temporary one-year grazing lease will not in any way create any right in the applicant to use the lands for grazing purposes until the rental is paid and a lease duly executed by the Chief Forester.[1]

§ 115.93 *Failure of applicant to complete lease.* Upon failure of the applicant to sign and return to the Chief Forester the four copies of the proposed lease, together with the amount due as rental, within the specified time, the application will be finally rejected and the lands involved may be leased to other qualified applicants.[1]

*Instructions superseded.* The regulations in sections 115.86 to 115.93, inclusive, supersede instructions of May 20, 1939, addressed to the Chief Forester, which read as follows:

"Until grazing regulations can be drafted and promulgated, you are authorized to issue temporary one-year grazing leases for O and C lands in or out of national forests applying the principles of Circular 1401, revised, using forms similar to that provided for General Land Office grazing leases."

FRED W. JOHNSON,
*Commissioner.*

Approved, July 6, 1939.

OSCAR L. CHAPMAN,
*Assistant Secretary.*

## TITLE 44—PUBLIC PROPERTY AND WORKS

### FEDERAL WORKS AGENCY—PUBLIC WORKS ADMINISTRATION

[Special Order No. PWA-2]

### EXECUTION OF CERTAIN DOCUMENTS ON BEHALF OF THE GOVERNMENT IN CARRYING OUT THE FUNCTIONS OF THE PUBLIC WORKS ADMINISTRATION

JULY 13, 1939.

1. All allotment orders making allotments of loan and/or grant funds, all appointments of personnel and all orders separating personnel from the service of the Government shall be signed personally by the Federal Works Administrator.

2. In order to permit the more expeditious carrying out of the functions of the Public Works Administration and the execution of the allotment orders made by the Federal Works Administrator, I hereby authorize the Acting Commissioner of Public Works to execute all documents other than those referred to in Paragraph 1 above which affect the functions of the Public Works Administration and are required to be signed, on behalf of the United States of America, in the name of the Federal Works Administrator, including the following:

(a) Contracts, including Loan and/or Grant Agreements;
(b) Offers;
(c) Waivers relating to such agreements or offers;
(d) Summary reports on loan and/or grant applications;
(e) Public vouchers.

In executing such documents the signature of the Acting Commissioner of Public Works shall appear as follows:

FEDERAL WORKS ADMINISTRATOR,
By _____
*Acting Commissioner of Public Works*

3. Nothing herein is to be construed as rescinding the whole or any part of General Order No. 1, issued by the Acting Commissioner of Public Works with the approval of the Federal Works Administrator under date of July 1, 1939.[1]

4. This order shall be effective as of July 1, 1939.

5. This order is issued pursuant to the Reorganization Act of 1939 and Reorganization Plan No. 1[2] transmitted to the Congress by the President.

JOHN M. CARMODY,
*Federal Works Administrator.*

## *Notices*

## DEPARTMENT OF THE INTERIOR.

### Bituminous Coal Division.

[General Docket No. 15]

### IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS: IN RE MINIMUM PRICES AS COORDINATED FOR DISTRICTS NOS. 1 TO 20, INCLUSIVE, 22 AND 23

### AN ORDER PERTAINING TO PROCEDURE IN RESPECT TO THE FINAL HEARINGS IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES FOR COALS PRODUCED IN DISTRICTS NOS. 1 TO 8, INCLUSIVE, DISTRICTS NOS. 9 TO 15, INCLUSIVE, DISTRICTS NOS. 16 TO 20, INCLUSIVE, 22 AND 23

The National Bituminous Coal Commission, pursuant to its Order and public Notice dated May 1, 1939, having caused a final hearing in the matter of the establishment of minimum prices for coals produced in Districts Nos. 16, 17, 18, 19, 20, 22 and 23 to be commenced in Denver, Colorado, on May 19, 1939, and said hearing having commenced on that date and continued through June 1, 1939, at which time all interested parties were afforded an opportunity to be heard with respect to any evidence, data, or other material relating to those matters insofar as they pertain to shipments of said coals into Market Areas Nos. 213 to 243, inclusive, and said hearing having been adjourned on June 1, 1939, subject to renotice and the said Commission having thereafter, pursuant to its Order dated June 23, 1939,[1] directed that a final hearing be held on July 24, 1939, for the establishment of minimum prices for coals produced in Districts Nos. 1 to 8, inclusive, and having thereafter, pursuant to its Order of June 28, 1939,[2] directed that a final hearing be held for the establishment of minimum prices for coals produced in Districts Nos. 9 to 15, inclusive, commencing on August 7, 1939, and said Orders dated June 23, 1939, and June 28, 1939, having been ratified, continued in effect and supplemented by an Order dated July 8, 1939[3] of the Director of the Bituminous Coal Division, Department of the Interior.

Now, therefore, *It is ordered,* That:

1. Any interested person may hereafter appear at any appropriate stage of any of the aforesaid hearings and be heard with respect to any evidence, data or other material relating to the matters embraced by any or all of said hearings, that may be timely and appropriate: *Provided,* That, in the judgment of the official or officials presiding at such hearings, such person has duly asserted his desire to be heard and has indicated the subject matter upon which he wishes to be heard and the nature and scope of the hearing which he desires, by filing a protest or otherwise.

2. All of the aforesaid hearings (including the hearings upon adjournment of any of such hearings) comprise a single record and proceeding for the purpose of according to interested persons the privileges described in paragraph designated "1" hereof.

3. The aforesaid hearing heretofore commenced in Denver, Colorado, on May 19, 1939, relating to coordinated minimum prices for coals produced in Districts Nos. 16, 17, 18, 19, 20, 22 and 23, will be resumed upon appropriate notice.

4. At the hearing to commence on July 24, 1939, subject to such change by the presiding officers as may be desirable for the orderly and expeditious conduct of the hearing, the general procedure for receiving evidence will be first, to receive evidence relating to the coordinated minimum prices for coals shipped into Market Areas Nos. 1 to 14, inclusive; coals shipped to the Atlantic Seaboard via tidewater; coals shipped to destinations on the Atlantic Seaboard for bunker use; coals shipped to those destinations on the Great Lakes east of a line drawn between a point just west of Port Maitland, Ontario, on the north shore of Lake Erie, to a point on the south shore of Lake Erie at which the Pennsylvania and New York State lines meet; and coals shipped eastward via Lake Erie and Lake Ontario for destinations located on Lake Ontario, Welland Canal and the St. Lawrence River. Thereafter, evidence will be received with respect to coordinated minimum prices for coals shipped into market areas and destinations west and south of the aforesaid market areas.

Evidence relating to coordinated minimum prices for coals shipped into certain Market Areas other than Market Areas Nos. 213 to 243, inclusive, by Districts Nos. 16 to 20, inclusive, 22 and 23, in competition with the coals of other Districts, will be adduced when the phase of the hearing commenced at Denver, Colorado, on May 19, 1939, has been resumed pursuant to notice hereafter to be given as above provided and upon the resumption of said phase of the hearing the entire hearing pertaining to the final establishment of effective minimum prices for coals produced in Districts Nos. 1 to 20, inclusive, 22 and 23, will be closed for the purpose of receiving evidence.

*It is further ordered,* That the Acting Chief of the Record Section cause a copy of this Order to be published forthwith in the FEDERAL REGISTER; and cause a copy hereof to be mailed forthwith to Frederic L. Kirgis, Director, Consumers' Counsel Division, Office of the Solicitor, Department of the Interior, to the Secretary of each District Board, and to each code member within Districts Nos. 1 to 20, inclusive, 22 and 23.

Dated at Washington, D. C., this 15th day of July 1939.

H. A. GRAY,
*Director.*

## DEPARTMENT OF LABOR.

### Wage and Hour Division.

IN THE MATTER OF APPLICATION FOR THE EXEMPTION OF THE MANUFACTURING OR PROCESSING OF CLAY PRODUCTS (OTHER THAN POTTERY) AND CONCRETE PRODUCTS FOM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938 AS AN INDUSTRY OF A SEASONAL NATURE

NOTICE OF HEARING

Whereas an application has been filed by the Committee for the brick manufacturers of Maine, New Hampshire and Vermont, the Vermont Concrete Pipe Corporation, and sundry other parties for exemption from the maximum hours provisions of the Fair Labor Standards Act of 1938, for the manufacturing or processing of clay products (other than pottery) and concrete products as industries of a seasonal nature pursuant to Section 7 (b) (3) of the Act and Part 526 of the regulations issued thereunder,[1] and

Whereas it is deemed advisable, in view of the fact that the above applications present related issues of fact and law, to hold a combined hearing under the provisions of Section 526.6 (a) of the Regulations, wherein separate opportunity will be given each of the said industries or subdivisions thereof to give testimony or to argue,

Now, therefore, notice is hereby given of a public hearing to be held at the Hearings and Exemptions Hearing Room, on the 3rd floor of 939 D Street NW., Washington, D. C., to commence at 10:00 o'clock a. m., on August 7, 1939, before Harold Stein hereby duly authorized to conduct said hearing, take testimony, hear argument and determine:

Whether the processing or manufacturing of clay products (other than pottery) or concrete products as defined herein or any subdivisions thereof are industries of a seasonal nature within the meaning of Section 7 (b) (3) of the Act and Part 526 of Regulations issued thereunder.

As used in this notice: The processing or manufacturing of clay products (other than pottery) includes the removal of clay from the stock pile and the grinding, screening, granulating, crushing, blending, mixing, tempering, moulding, drying, transporting, setting, firing of clay or other operations resulting in common, face and vitrified brick; drain, hollow building and other tile; sewer pipe, stove lining, terra cotta, fire brick and other clay refractories.

The processing or manufacturing of concrete products includes the removal of materials from the stock pile and the measuring, mixing, moulding, curing of concrete or other operations resulting in building block and tile, brick, cast stone, pipe, posts, vaults and miscellaneous articles made of aggregates, including sand, gravel, crushed rock, cinders, slag and burned clay, bound together with cement.

Any person interested in supporting or opposing any application for exemption may appear on his own behalf or on the behalf of any other person provided that he shall file with the Administrator at his office in Washington, D. C., prior to 12 o'clock noon on August 3, 1939, a Notice of Intention to Appear which shall contain the following information:

(1) The name and address of the person appearing.

(2) If he is appearing in a representative capacity, the name and address of the person or persons whom he is representing.

(3) Whether he is appearing in support of or in opposition to any application for exemption.

(4) The approximate length of time which his presentation will consume.

(5) Scope of appearance, i. e., for what specific industry or subdivision thereof appearance will be made, and for which operations therein.

Signed at Washington, D. C., this 17th day of July 1939.

ELMER F. ANDREWS,
*Administrator.*

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

[Docket No. 3133]

IN THE MATTER OF ELIZABETH ARDEN, INC., ELIZABETH ARDEN SALES CORPORATION, AND FLORENCE N. LEWIS

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 U.S.C.A. Section 41).

*It is ordered*, That John W. Addison, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

*It is further ordered*, That the taking of testimony in this proceeding begin on Friday, July 21, 1939, at nine o'clock in the forenoon of that day (eastern standard time) in Room 2301, United States Court House, Foley Square, New York, New York.

Upon completion of testimony for the Federal Trade Commission, the examiner is directed to proceed immediately to take testimony and evidence on behalf of the respondent. The examiner will then close the case and make his report.

By the Commission.

[File No. 56-28]

IN THE MATTERS OF INTERNATIONAL UTILITIES CORPORATION, GENERAL WATER GAS & ELECTRIC COMPANY, SECURITIES CORPORATION GENERAL, AMERICAN STATES UTILITIES CORPORATION AND RALPH ELSMAN, AS LIQUIDATING TRUSTEE

ORDERS APPROVING SALES AND ACQUISITIONS OF SECURITIES AND RETIREMENT OF PREFERRED STOCK

American States Utilities Corporation, a registered holding company, having filed applications pursuant to Sections 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 for approval of the sale of notes and common stock of its subsidiaries, Kellogg Power & Water Company and Hermiston Light & Power Company, for $165,000 and $110,000, respectively, plus certain adjustments set forth in the applications, and having filed an application pursuant

to Section 12 (c) for approval of the application of the proceeds received by it from the sale of the aforementioned notes and stock to the purchase and retirement by tender of a maximum of 24,000 shares of its $25 par value 5½% cumulative preferred stock; General Water Gas & Electric Company, a subsidiary of International Utilities Corporation, a registered holding company, having filed an application pursuant to Section 10 for approval of the acquisition of the notes and common stock of Kellogg Power & Water Company; International Utilities Corporation, a registered holding company, and Ralph Elsman, Liquidating Trustee, having filed an application pursuant to Section 10 for approval of the acquisition of a note and the common stock of Hermiston Light & Power Company; and International Utilities Corporation, General Water Gas & Electric Company, and Securities Corporation General having filed applications, pursuant to Section 12 (f), for approval of the tender and sale to American States Utilities Corporation at not more than $15 a share of not less than a total of 23,000 shares of its preferred stock; the applications having been consolidated for the purpose of hearing; a public hearing having been held on said applications pursuant to appropriate notice;[1] and the Commission having considered the record in these matters and having made and filed its findings and opinion herein;

*It is ordered*, That, in accordance with and for the purposes represented by the said applications, the sales and acquisitions of securities and retirement of the preferred stock be, and the same hereby are, approved, subject to the following terms and conditions:

(a) That within ten days after the sale by American States Utilities Corporation of its interests in Kellogg Power & Water Company and Hermiston Light & Power Company, and its acquisition of its preferred stock, American States Utilities Corporation shall file with this Commission a certificate of notification showing that such sales and acquisitions have been effected in accordance with the terms and conditions of and for the purposes represented by the applications and containing a list of all tenders received and a list of all tenders accepted;

(b) That American States Utilities Corporation, or the transfer agent, Baltimore National Bank, shall mail to every known preferred stockholder a letter advising him of the privilege of tendering, enclosing a return addressed envelope marked "Tenders," and shall make or cause to be made to preferred stockholders prior to or simultaneously with the sending of such letters, such disclosures as may be necessary or desirable for the purpose of enabling preferred stockholders to determine whether or not to tender: *Provided, however*, That American States Utilities Corporation shall submit to the Commission at least five days prior to the inviting of tenders, true copies of the letter and disclosures inviting such tenders and within said period the Commission reserves the right to order American States Utilities Corporation to make such changes as it considers necessary in the public interest and in the interest of investors and consumers;

(c) That the acquisition of Hermiston Light & Power Company by International Utilities Corporation and Ralph Elsman, Liquidating Trustee, be subject to the stipulation entered into by International Utilities Corporation, the Liquidating Trustee, and American States Utilities Corporation, (1) that if the properties or securities of Hermiston Light & Power Company are not sold at the end of a two year period following the date of the Commission's order in this proceeding to a third person or company unaffiliated with International Utilities Corporation, the Liquidating Trustee, or American States Utilities Corporation, then the Liquidating Trustee, or his successor or successors, and International Utilities Corporation shall request the Commission to apply to a court, in accordance with the provisions of subsection (f) of section 18 of the Public Utility Holding Company Act of 1935, to enforce a sale or other disposition of the securities or assets of Hermiston Light & Power Company; and if the Commission determines to comply with such request the Commission may request the court to appoint a trustee or trustees to sell the aforesaid securities or assets; (2) that any application or plan filed under Section 11 (e) of the Public Utility Holding Company Act of 1935 by International Utilities Corporation shall provide for the sale or disposition of the securities or assets of Hermiston Light & Power Company to a third person or company unaffiliated with International Utilities Corporation, the Liquidating Trustee, or American States Utilities Corporation, not later than at the end of a two year period following the date of the Commission's order in this proceeding; (3) that if the Commission shall institute any proceeding pursuant to Section 11 (b) (1) to which International Utilities Corporation shall be a party, the Commission may require International Utilities Corporation to divest itself of any interest, direct or indirect, in said Hermiston Light & Power Company, provided that no such order shall require such sale or disposition prior to the end of a two year period following the date of the Commission's order in this proceeding; and,

(d) That the Commission reserve jurisdiction as to the reasonableness of the tender price by International Utilities Corporation, General Water Gas & Electric Company, and Securities Corporation General; and that International Utilities Corporation, General Water Gas & Electric Company, and Securities Corporation General notify the Commission of their tender price or prices five days prior to the closing date for tenders solicited by American States Utilities Corporation during which period the Commission reserves the right to issue an order to International Utilities Corporation, General Water Gas & Electric Company, and Securities Corporation General to show cause why their tender price or prices are not unreasonable.

By the Commission.

[File No. 43-221]

IN THE MATTER OF THE KANSAS POWER COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

The Kansas Power Company, a corporation organized in the state of Kansas and a direct subsidiary of Inland Power & Light Corporation, a registered holding company presently in reorganization proceedings under Section 77B of the Bankruptcy Act and an indirect subsidiary of The Commonwealth Light & Power Company, a registered holding company (also in reorganization under Section 77B) and of The Middle West Corporation, also a registered holding company, having filed a declaration, and amendments thereto, pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale of $5,000,000 principal amount of its First Mortgage Bonds, Series A, 4%, due July 1, 1964, and $600,000 principal amount 3½ unsecured serial notes;

A public hearing having been held after appropriate notice;[1] no member of the public having appeared or requested an opportunity to be heard; the declarant having waived the trial examiner's report, the right to have prepared and submitted to it proposed findings of fact or requests for findings of fact, the right to file a brief and the right to oral argument before the Commission; the Commission having examined the record in this matter and having made and filed its findings and opinion herein;

*It is ordered*, That such declaration be and become effective forthwith, subject, however, to the following conditions:

(1) That Fifteen Percent (15%) of the declarant's annual gross operating revenue, including revenues from plants leased to others, be expended for maintenance and/or credited to a depreciation reserve subject to any rule, regulation or order of any Federal or State regulatory commission or authority having jurisdiction in the premises;

(2) That all matters in connection with said declaration shall be performed in all respects as set forth in and for the purposes represented by said declaration, as amended; and

(3) That within ten days after the issue and sale of the aforesaid bonds and notes the declarant shall file with this commission a certificate of notification showing that the issuance and sale of the aforesaid bonds and notes have been effected in compliance with the terms and conditions of and for the purpose represented by said declaration, as amended, and in accordance with the terms of this order.

By the Commission.

[File No. 32-163]

IN THE MATTER OF CENTRAL OHIO LIGHT & POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on August 1, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 27, 1939.

The matter concerned herewith is in regard to an application by Central Ohio Light & Power Company, a subsidiary of Crescent Public Service Company, a registered holding company, pursuant to Section 6 (b) of the Act, requesting an exemption from Section 6 (a) thereof, in regard to the proposed issue and sale by the applicant of (1) its First Mortgage 4% Bonds, Series C, due August 1, 1964, in the principal amount of $4,100,000, (2) its 3½% Serial Notes due August 1, 1940, to August 1, 1944, in the principal amount of $500,000, and (3) 2,200 shares of its $6 Preferred Shares (Cumulative), no par value. Applicant states that it proposes to use the net proceeds from the sale of the aforesaid securities (a) to pay off its presently outstanding First Mortgage Bonds and Secured Notes, aggregating $4,350,000, (b) to pay off certain miscellaneous indebtedness aggregating $304,450.77, (c) to reimburse its treasury for capital expenditures resulting from additions, improvements, or betterments to its plant and property heretofore made by it, and (d) to defray the expenses incurred by it in connection with the sale of the aforesaid securities. The applicant further states that while no firm commitment has been made, it is expected that E. H. Rollins & Sons, Incorporated, will head the selling group, will have the major participation in the issue of Bonds and will underwrite the entire issues of Serial Notes and Preferred Shares. It is also stated in the application that it is expected that Halsey Stuart & Company, Inc., Central Republic Company and possibly other investment houses will participate in the underwriting of the Bonds. The price to the public and the underwriting discount or commission are to be supplied by amendment.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of July, A. D. 1939.

IN THE MATTER OF NEW YORK STATE ELECTRIC & GAS CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on July 20, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 19th, 1939.

The matter concerned herewith is in regard to an application by New York State Electric & Gas Corporation, a subsidiary of NY PA NJ Utilities Company, a registered holding company, pursuant to section 6 (b) for exemption from the provisions of section 6 (a) of the issue and sale of its note in the principal amount of $325,000 bearing interest at the rate of 2.73% to Rural Electrification Administration. The note, to be secured by the pledge of applicant's First Mortgage Bonds, 4% Series due 1965 in an aggregate principal amount of not in excess of $425,000, is to be dated as of the date of issue thereof, and is to mature in thirty-nine equal installments. The first installment is to be payable one year after the date of the note and the remaining installments on each semi-annual interest payment date to maturity. It is stated that the New York State Public Service Commission by order dated June 20, 1939 authorized the issuance and sale by the applicant of said note and the issuance of said First Mortgage Bonds, 4% Series due 1965, to be pledged as collateral security therefor.

By the Commission.

IN THE MATTER OF IOWA PUBLIC SERVICE COMPANY

NOTICE OF AND ORDER FOR HEARING

A declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on August 2, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue N.W., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 28, 1939.

The matter concerned herewith is in regard to a declaration filed pursuant to Section 7 of the Public Utility Holding Company Act of 1935 by Iowa Public Serivce Company, a public utility company, registered holding company, and subsidiary of Sioux City Gas and Electric Company, a registered holding company, regarding the issue and sale of $14,250,000 aggregate principal amount of First Mortgage Bonds, 3¾% Series, due 1969, and the issuance of a 3% Promissory Note in an aggregate principal amount not to exceed $800,000, maturing not more than nine months after date, to The Commercial National Bank and Trust Company, as evidence of a loan of such amount.

It is stated that the proceeds of such issue and sale, and loan will be applied to the redemption of the presently outstanding $11,916,000 principal amount of the declarant's First Mortgage Gold Bonds, 5% Series, due 1957; to the redemption of the presently outstanding $2,300,000 principal amount of the declarant's First Mortgage Gold Bonds, 5½% Series, due 1959; to the redemption of $18,500 principal amount, and the retirement at maturity of $17,500 principal amount of presently outstanding Clarion Municipal Light Company First Mortgage Gold Bonds, 6%, due serially from November 1, 1939, to November 1, 1940; to the payment of the premium on the Bonds redeemed; the expenses of the issuance and sale of the proposed new Bonds; and the payment of duplicate interest.

It is stated that the proposed new Bonds will be sold to a syndicate of underwriters which may be headed by A. C. Allyn & Company, Incorporated, but whose participation in the proposed issue will not exceed 5% of the total offering and that A. C. Allyn & Company, Incorporated, will not receive any commission or remuneration either as underwriter, syndicate manager or otherwise, other than an underwriting fee in the same amount as other underwriters in the proposed syndicate. It is stated that the price to be received by the declarant for such proposed Bonds, the underwriting spread and price to the public have not as yet been determined and will be supplied by amendment.

It is stated that no State commission nor State securities commission has jurisdiction over the declarant in connection with the security transaction proposed above.

By the Commission.

## AGRICULTURAL MARKETING SERVICE

PART 28 (SUB-PART)—AMENDMENT NO. 1 TO PUBLIC NOTICE ESTABLISHING STANDARDS FOR GRADES OF COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES WITHIN THE UNITED STATES

By virtue of the authority vested in the Secretary of Agriculture by the Act of Congress entitled "An Act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1940, * * * and for other purposes" (Public No. 159, 76th Congress), I, H. A. Wallace, Secretary of Agriculture do hereby prescribe, publish, and give public notice of the following amendment to the public notice of June 7, 1938,[1] establishing standards for grades of cottonseed sold or offered for sale for crushing purposes within the United States:

In section 3 strike out paragraph (a) and substitute therefor the following:

"(a) *Superior quality cottonseed.*—Cottonseed that have a quantity index of not less than 103 when calculated according to section 2, and that contain not more than one-half of one percent of foreign matter, 9 percent but not more than 10 percent of moisture, and not more than one-half of one percent of free fatty acids in the oil in the seed, shall be known as superior quality cottonseed and shall have a quality index of 102."

(Regulations of the Secretary of Agriculture, June 7, 1938)

Done at Washington, D. C. this 18th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE, *Secretary of Agriculture.*

### BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

[B.E.P.Q.—Lifting Q. 65]

NOTICE OF LIFTING OF WOODGATE RUST QUARANTINE

EFFECTIVE ON AND AFTER JULY 31, 1939

I, M. L. Wilson, Acting Secretary of Agriculture, under authority conferred by the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended by the Act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), do hereby remove and revoke the quarantine placed by Notice of Quarantine No. 65 (Sec. 301.65) upon the State of New York on account of the Woodgate rust, and do also revoke the rules and regulations supplemental thereto, as amended, such removal and revocation to take effect on July 31, 1939.

Done at the city of Washington this 17th day of July 1939.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] M. L. WILSON, *Acting Secretary of Agriculture.*

and (2) to change certain provisions of such rules. The amendments shall take effect upon the issuance of this order and the filing of the same with the Archivist of the United States for publication in the FEDERAL REGISTER.

(a) The caption of said procedural regulations is hereby amended to read as follows:

TITLE 21—FOOD AND DRUGS

FOOD AND DRUG ADMINISTRATION

PROMULGATION OF RULES OF PROCEDURE FOR HEARINGS REQUIRED UNDER SECTION 701 (E) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT EXCEPT WITH REFERENCE TO REGULATIONS CONTEMPLATED BY SECTION 404 (A) OF THE ACT

(b) Sections 1, 2, 3, and 7 of Article II of said procedural regulations are hereby amended to read as follows:

§ 1 *Hearings under Section 701 (e) of the Act.* Whenever the Secretary, on his own initiative, or upon application of any interested industry or substantial portion thereof stating reasonable grounds therefor, shall make a proposal to issue, amend, or repeal any regulation contemplated by any of the following sections of this act: 401, 403 (j), 406 (a) and (b), 501 (b), 502 (d), 502 (h), 504, and 604, a public hearing shall be held upon such proposal.

§ 2 *Notice of hearing.* (a) The Secretary shall give appropriate notice of the hearing. The notice shall set forth the proposal in general terms and specify the time and place for the public hearing to be held thereon not less than thirty days after the date of the notice, except that the public hearing on regulations under section 404 (a) of the Act may be held within a reasonable time, to be fixed by the Secretary, after notice thereof.

(b) Notice of hearing under section 701 (e) of the Act except with reference to any regulation contemplated by section 404 (a) of the Act shall be given by filing the same with the Archivist of the United States for publication in the FEDERAL REGISTER.

Section 3 of Article III is hereby amended to read as follows:

*Transcript of the evidence.* Testimony given at a hearing shall be reported verbatim. All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall be marked for identification and, upon satisfactory showing of their authenticity, relevancy, and materiality, shall be, in the discretion of the presiding officer, received and marked as exhibits in evidence. Such exhibits shall, if possible under the circumstances, be submitted in quintuplicate and in typewritten, printed, photostat or mimeographed form. In case the required number of copies are not made available, the presiding officer shall exercise his discretion as to whether said exhibit shall be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the presiding officer. Where the testimony of a witness refers to a statute, or to a report or document, the presiding officer shall, after inquiries relating to the identification of such statute, report or document, determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. Where relevant and material offered in evidence is embraced in a report or document containing immaterial or irrelevant matter, such immaterial and irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the presiding officer.

§ 7 *Issuance of suggested findings of fact, conclusions and order; transmittal of record—Order of procedure.* The presiding officer, within a reasonable time after the termination of the period allowed for the filing of written arguments, proposed findings of fact, or both, as provided in section 4 of this article, shall prepare, upon the basis of the evidence received at the hearing, suggested findings of fact, conclusions and order, which shall be served upon the interested persons whose appearances were entered at the hearing by publication in the FEDERAL REGISTER and by mailing a copy of such issue of the FEDERAL REGISTER to each of them by registered mail. Within ten days after the receipt of such copy of the FEDERAL REGISTER, any such interested person who wishes to object to any matter set out in the suggested findings of fact, conclusions and order shall transmit such objection in writing to the Hearing Clerk. At the same time, such interested persons shall transmit in writing to the Hearing Clerk a brief statement concerning each of the objections taken to the action of the presiding officer at the hearing, as set out in section 1 of this article, upon which he wishes to rely, referring, where relevant, to the pages of the transcript of evidence. The presiding officer shall then transmit to the Secretary the record of the proceedings. Such record shall include: a transcript of the evidence taken at the hearing, such written arguments and proposed findings of fact as may have been filed in connection with the hearing, the suggested findings of fact, conclusions and order of the presiding officer, and the objections filed thereto, if any.

In testimony whereof, I have hereunto set my hand and caused the official seal of the United States Department of Agriculture to be affixed hereto on this 18th day of July 1939, in the City of Washington, District of Columbia.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

TITLE 29—LABOR

CHILDREN'S BUREAU

[Regulation No. 12]

CHILD LABOR

PART 402—ACCEPTANCE OF STATE CERTIFICATES

JULY 17, 1939.

§ 402.9 *Withdrawal of designation of State.* Pursuant to the provisions of section 401.5 [1] the designation of the State of South Carolina as a State in which State age, employment, or working certificates or permits shall have the same force and effect as Federal certificates of age under the Fair Labor Standards Act of 1938, made effective by sections 402.5 [2] and 402.7,[3] is hereby withdrawn. This withdrawal shall become effective on July 24, 1939, but shall not affect the validity of any certificate issued by or under the supervision of the Commissioner of the Department of Labor of the State of South Carolina between November 22, 1938, and July 24, 1939, pursuant to the provisions of sections 401.5, 402.5, and 402.7 referred to above.

[SEAL] KATHARINE F. LENROOT,
*Chief of the Children's Bureau.*

TITLE 45—PUBLIC WELFARE.

NATIONAL YOUTH ADMINISTRATION

[Administrative Order No. 1]

REGULATIONS RELATING TO THE PART-TIME EMPLOYMENT OF OUT-OF-SCHOOL YOUTH ON PROJECTS OF THE NATIONAL YOUTH ADMINISTRATION

By virtue of and pursuant to the authority vested in the Administrator of the National Youth Administration by the Emergency Relief Appropriation Act of 1939, approved June 30, 1939, the following rules and regulations are prescribed.

PART I—DEFINITIONS

§ 1 The term "project" as used herein shall mean projects or portions of projects, for the employment and training of out-of-school youth, which are financed in whole or in part from funds appropriated to the National Youth Administration by the Emergency Relief Appropriation Act of 1939.

§ 2 The term "project employees" as used herein shall mean all persons engaged upon projects and paid by means of a payroll payment from funds authorized for the operation of such projects. Project employees are further defined as follows:

(a) The term "youth employees" as used herein shall mean certified persons between the ages of 18 and 24 years inclusive who are engaged upon a part-time basis on projects and who are paid by means of payroll payments from funds authorized for the operation of such projects.

(b) The term "project supervisory employees" as used herein shall mean persons in supervisory positions engaged upon projects who are paid upon a per diem or monthly basis by means of payroll payments from funds authorized for the operation of such projects.

PART II—HOURS OF WORK

§ 3 The State Youth Administrator shall be responsible for determining the hours of work for project employees in accordance with the provisions hereinafter prescribed.

§ 4 Hours of project work for youth employees shall not exceed 8 hours per day, 40 hours per week, and 100 hours per month, except in the case of:

(a) Such projects, portions of projects, or areas as the National Youth Administrator, or his authorized representative, may hereinafter exempt;

(b) An emergency involving the public welfare or to protect work already done on a project when so authorized by the State Youth Administrator;

(c) Making up time lost due to conditions which in the judgment of the State Youth Administrator warrant authorizing youth employees to make up lost time; or

(d) Such projects, portions of projects, or areas as have heretofore been exempted by proper authority, provided that the exemptions remain applicable after June 30, 1939, to the specific projects, portions of projects, or areas for which they were authorized.

§ 5 Youth employees may be required to participate in a program of related training, which may be included in their monthly assigned hours, provided that the total assigned hours do not exceed 100 hours per month. Within the maximum assigned hours provided herein, youth employees shall be considered in payroll status for the entire period during which they are under the supervision of the National Youth Administration.

§ 6 The hours of work for project supervisory employees shall be established by the State Youth Administrator in accordance with the requirements of the project to which the employee is assigned.

PART III—MONTHLY EARNINGS AND PAYMENT FOR SERVICES

§ 7 The State Youth Administrator is authorized and directed to establish per diem or monthly earnings for project supervisory employees in accordance with the wages customarily paid for work of a similar nature in the same locality. Earnings for project supervisory employees established on a per diem or monthly salary basis are subject to the following conditions:

(a) Project supervisory employees, who are assigned to work for a period of less than 100 hours per payroll month or who are assigned to work for indefinite periods per payroll month, shall be compensated upon a per diem basis of payment from funds authorized for the operation of projects. Project supervisory employees paid on a per diem basis shall be paid for their actual days of service.

(b) Project supervisory employees, who are assigned to work for definite schedules of not less than 100 hours per payroll month shall be compensated for their services upon a monthly salary basis from funds authorized for the operation of projects. For project supervisory employees paid on a monthly salary basis, deductions for voluntary absence from duty shall be made in the amount of one-thirtieth of the monthly salary for each day of voluntary absence. However, no deduction shall be made for any day or days upon which the employee is not required to work. Deductions for voluntary absence from duty for a portion of a day shall be made in an amount equal to one-fourth the deduction, or multiple thereof, made for absence during a full day.

§ 8 The schedule of monthly earnings hereinafter prescribed shall be applicable to youth employees, except in the case of:

(a) Such projects, portions of projects, or areas as the National Youth Administrator, or his authorized representative, may hereinafter exempt;

(b) Making up time lost, or in the case of an emergency, as provided in Section 4; or

(c) Such projects, portions of projects, or areas as have heretofore been exempted by proper authority, provided that the exemptions remain applicable after June 30, 1939, to the specific projects, portions of projects, or areas for which they were authorized.

*Schedule of Monthly Earnings for Part-Time Work*

The schedule of monthly earnings applicable to any county shall be based upon the 1930 population of the largest municipality within the county in accordance with the following schedule:

| Wage regions [1] | Population over 25,000 | Population under 25,000 |
|---|---|---|
| | Unskilled work | |
| Region I | 18 | 14 |
| Region II | 16 | 14 |
| Region III | 14 | 12 |
| | Intermediate work | |
| Region I | 21 | 17 |
| Region II | 18 | 15 |
| Region III | 16 | 13 |
| | Skilled work | |
| Region I | 25 | 20 |
| Region II | 23 | 18 |
| Region III | 21 | 16 |
| | Professional and technical work | |
| Region I | 25 | 23 |
| Region II | 24 | 21 |
| Region III | 24 | 19 |

[1] Wage Regions include the following States:
Region I. Arizona, California, Colorado, Connecticut, Idaho, Illinois, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Washington, Wisconsin, Wyoming.
Region II. Delaware, District of Columbia, Kansas, Kentucky, Maryland, Missouri, North Carolina, Oklahoma, Virginia, West Virginia.
Region III. Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, South Carolina, Tennessee, Texas.

§ 9 The several State Youth Administrators are authorized to make adjustments of not to exceed fifty cents (50¢) above or below the schedule of earnings as prescribed in Section 8 to avoid the computation of fractional payments of less than one cent (1¢) or the assignment of hours of work which involve partial hours during any monthly pay period.

§ 10 It shall be the responsibility of each State Youth Administrator to issue State Youth Administrator's Orders which shall constitute a schedule of assigned hours of work and monthly earnings for each class of youth employee in each county in which projects are operated. Where exemptions are authorized, supplemental schedules may be issued under the State Youth Administrator's Orders to cover special determinations for individual projects within a county or for subdivisions within a county.

§ 11 Project employees if injured in the performance of duty and unable to work as a result thereof shall be entitled to receive payment of compensation under the provisions of the Act of February 15, 1934 (48 Stat. 351) as amended.

§ 12 Wages paid by the Federal Government may not be pledged or assigned, and any purported pledge or assignment shall be null and void.

PART IV—CONDITIONS OF EMPLOYMENT

§ 13 The certification of need of youth employees shall be made by public relief agencies approved by the State Youth Administrator, or, in lieu thereof, shall be the responsibility of the State Youth Administrator or his authorized representative. For the purpose of certification, a youth employee shall be defined as needy if he is:

(a) A member of a family whose income is insufficient to provide the basic requirements of all members of the family, including the youth member, regardless of whether the family is receiving or eligible for any form of public assistance; or

(b) Without family connections and his income is insufficient to provide his basic requirements.

§ 14 No person under the age of 18 years, or whose age is 25 years or more, except project supervisory employees, and no one whose physical condition is such as to make his employment dangerous to his health or safety, or to the health or safety of others, may be employed on a project. This paragraph shall not be construed to operate against the employment of physically handicapped persons, otherwise employable, where such persons may be safely assigned to work which they can ably perform.

§ 15 All work projects shall be conducted in accordance with safe working conditions, and every effort shall be made for the prevention of accident.

§ 16 No person shall be employed on any project until such person has made an affidavit as to his United States citizenship. No alien shall be given employment or continued in employment on any project, even though such alien may have filed a declaration of intention to become an American citizen.

§ 17 No person shall be employed or continued in employment if his work habits are such or his work record shows that he is incapable of performing satisfactorily the work to which he may be assigned.

§ 18 No person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States through force or violence shall be eligible for any employment which is compensated after September 30, 1939, from funds appropriated to the National Youth Administration.

§ 19 No project supervisory employee may be employed or continued in employment unless such person executes an oath of office before engaging in project employment, or prior to August 1, 1939, in the case of any person employed before that date who has not taken an oath of office.

§ 20 Project employees certified as in need shall be expected to accept a bona fide offer of public or private employment provided that:

(a) The project employee is capable of performing such work;

(b) The wage for such employment is not less than the prevailing wage for such work in the community;

(c) Such employment is not in conflict with established union relationships; and

(d) Such employment provides reasonable working conditions.

No project employee certified as in need who refuses a bona fide offer of private employment under the conditions provided in this section shall be retained in employment for the period such private employment would be available. However, a worker shall be entitled to immediate resumption of his previous employment status if he is still in need and if he has lost his private employment through no fault of his own. Project employees awaiting assignment who refuse to accept private employment shall be ineligible for employment on any project for the period during which the private employment would be available.

§ 21 All persons paid from funds appropriated to the National Youth Administration shall observe the following rules relating to political activities:

(a) No person, directly or indirectly, shall promise any employment, position, work, compensation, or other benefit provided or made possible under the program of the National Youth Administration to any person as consideration, favor, or reward for any political activity or for the support of or opposition to any candidate or any political party in any election.

(b) No person shall deprive, attempt to deprive, or threaten to deprive by any means, any person of any employment, position, work, compensation, or other benefit provided or made possible under the program of the National Youth Administration on account of race, creed, color, or any political activity, support of, or opposition to any candidate or any political party in any election.

(c) No person shall knowingly solicit or knowingly be in any manner concerned in soliciting any assessment, subscription or contribution for the campaign expenses of any individual or political party from any person entitled to or receiving compensation or employment provided for by the program of the National Youth Administration.

(d) No person employed in any administrative or supervisory capacity by any agency of the Federal Government whose compensation or any part thereof is paid from funds appropriated to the National Youth Administration shall use his official authority or influence for the purpose of interfering with an election or affecting the results thereof. While such persons shall retain the right to vote as they please and to express privately their opinions on all political subjects, they shall take no active part directly or indirectly in political management or in political campaigns or in political conventions. Any persons who violate the provisions of this section shall be subject to immediate discharge and thereafter such persons shall not be eligible for any employment which is compensated from funds appropriated to the National Youth Administration.

(e) No person employed in any administrative or supervisory capacity may be a candidate for any state, district, county, or municipal office (such office requiring full time of such person and to which office a salary or per diem attaches, in any primary, general or special election or who is serving as a campaign manager or assistant thereto for any such candidate.

§ 22 Every person of legal age who works for the National Youth Administration, whatever his job, has a right to vote in any election, for any candidate he chooses. When the hours during which polling places are open or any other conditions prevent employees from freely exercising their voting privileges, scheduled hours of work may be adjusted to provide the necessary time for this purpose. Project employees shall not be paid for any allowance of time during which to vote, but they shall be permitted through a rescheduling of hours to work their full quota of hours during the pay-roll month in which the time off is granted.

PART V—ASSIGNMENT, CLASSIFICATION, AND SEPARATION

§ 23 The State Youth Administrator or his authorized representative shall be responsible for the assignment, classification, transfer, and termination of project employees paid from funds appropriated to the National Youth Administration. Project employees shall be registered with employment offices designated by the United States Employment Service.

PART VI—EFFECTIVE DATE

§ 24 These rules and regulations shall become effective immediately and shall supersede Administrative Order No. 64[1] of the Works Progress Administration and National Youth Administration, dated July 9, 1938, which is hereby rescinded.

AUBREY WILLIAMS,
*Administrator.*

1.354 Additional statements.

*Promulgated under the authority contained in Sec. 4 (i) 48 Stat. 1066; 47 U.S.C. 154 (i).

†Adopted by the FCC on July 12, 1939, to become effective August 1, 1939.

Sec.
1.355 Installation or removal of apparatus.
1.356 Extension of time for construction.
1.357 License following construction permit.
1.358 Where construction permit not required.
1.359 Modification of license.
1.360 Renewal of license.
1.361 Financial statements.
1.362 Filing directed by Commission.
1.363 Temporary extension of station licenses.
1.364 Assignment or transfer of control.
(a) General.
(b) Broadcast.
(c) Other than broadcast.
1.365 Special temporary authorizations.
1.366 Special service authorizations.
1.367 Inconsistent or conflicting applications.
1.368 Multiple applications; broadcast service.
1.369 Reptitious applications.
(a) Broadcast services.
(b) Other radio services.
1.370 Pending appeal.

ACTION ON APPLICATIONS

1.381 Partial grants.
1.382 Designation for hearing.

ANSWERS TO NOTICES OF VIOLATION

1.391 Under Title III of the Act.

REVOCATION AND MODIFICATION OF STATION LICENSES

1.401 Revocation.
1.402 Modification.
(a) Order to show cause.
(b) Contents of order to show cause.
(c) Failure to appear.

SUSPENSION OF OPERATOR LICENSES

1.411 Order of suspension.
1.412 Proceedings.

SPECIAL PROVISIONS RELATING TO COMMON CARRIERS

Complaints Under Title II of the Act

1.421 Formal or informal.
1.422 Informal complaints; substance.
1.423 Action on informal complaints.
1.424 Resubmission; six months' rule.
1.425 Formal complaints; requirements.
1.426 Statement of issues; joinder of causes of complaint.
1.427 Notice of complaints.
1.428 Charges, etc.; specific references.
1.429 Separate statement of each provision violated.
1.430 Allegations; certainty.
1.431 Challenge of general rate adjustments; reparation.
1.432 Discrimination specified.
1.433 Preference or prejudice.
1.434 Reparation; prayer for.
1.435 Limitations; damages pendente lite.
1.436 Supplemental complaints.
(a) General.
(b) Seeking damages.
1.437 Cross complaints.
1.438 Answers to complaints and petitions.
1.439 Answers to petitions or amended complaints.

EXTENSIONS OF CARRIER FACILITIES

1.451 Applications under Section 214.
(a) Contents of application.
(b) Exhibits required.
(c) Additional information.
(d) Copies required.
(e) Exceptions.
(1) Emergency service.
(2) Temporary service.
(3) Small construction projects.
1.452 Applications under Section 221 (a).
(a) Contents of application.
(b) Supporting data required with applications.
(c) Copies required.

ORDERS TO SHOW CAUSE

1.461 Orders instituting action under Title II of the Act.
1.462 Answer to order to show cause.

PROTESTS OF VALUATIONS

1.471 Tentative valuations.

SUSPENSION OF TARIFF SCHEDULES

1.481 Under Section 204 of the Act.

SERVICE AND NUMBER OF COPIES

1.491 Service by the Commission.

ADMINISTRATIVE PROVISIONS

§ 1.1 *Offices; hours.* The principal office of the Commission shall be located at Washington, D. C., and all communications to it shall be addressed to the Secretary, Washington, D. C., unless otherwise specifically directed. The hours of the Commission are from 8:30 a. m. to 4 p. m., Monday to Friday, inclusive, and on Saturday from 8:30 a. m. to 12:30 p. m., except on legal holidays.*†

§ 1.2 *Meetings.* All meetings of the Commission, unless otherwise determined by a majority of the members thereof, shall be held at the principal office of the Commission.*†

§ 1.3 *Minutes.* The minutes of a meeting of the Commission shall be the official record of any action taken therein, and shall be kept by, and in the office of, the Secretary.*†

§ 1.4 *Authentication of documents.* All orders, permits, licenses, or other instruments of authorization made, issued, or granted by the Commission, shall, unless otherwise specifically provided by order of the Commission, be signed by the Secretary in the name of the Commission and authenticated by the Seal of the Commission.*†

§ 1.5 *Inspection of records.* Subject to the provisions of Sections 4 (j), 412 and 606 of the Act, the files of the Commission shall be open to inspection as follows:

(a) Tariff schedules required to be filed under Section 203 of the Act and annual and monthly reports required to be filed under Section 219 of the Act.

(b) All applications and amendments thereto filed under Title II and Title III of the Act, including all documents and exhibits filed with and made a part thereof; authorizations and certifications issued upon such applications; all pleadings, depositions, exhibits, transcripts of testimony, examiners' reports, exceptions, briefs, proposed reports or findings of fact and conclusions, minutes, and orders of the Commission.

(c) Other files in the discretion of the Commission upon written request describing in detail the documents to be inspected and the reasons therefor.*†

§ 1.6 *Certified copies; requests for; costs.* Copies of any documents subject to inspection under the provisions of Sec. 1.5 will be prepared and certified by the Secretary, under seal, on written request, specifying the exact documents, the number of copies desired, and the date on which the same will be required: *Provided, however,* That such request must be made so as to permit a reasonable time for the preparation of such copies: *And provided further,* That any cost incurred in the preparation of such copies shall be prepaid by the person making application therefor.*†

§ 1.7 *Official reporter; transcript.* The Commission will designate from time to time an official reporter for the taking down and transcribing of its proceedings. No transcript of the testimony taken, or argument had, at any hearing will be furnished by the Commission, but will be open to inspection under Sec. 1.5. Such transcript, if desired, must be obtained from the official reporter upon payment of the charges therefor.*†

§ 1.8 *Person, defined.* Wherever in these rules the term "person" is used, it shall include an individual, partnership, association, joint-stock company, trust, or corporation.*†

§ 1.9 *Computation of time.* In computing any period of time prescribed or allowed by these rules, by order of the Commission, or by any applicable statute, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Sunday or a legal holiday in which event the period runs until the end of the next day which is neither a Sunday nor a holiday. When the period of time prescribed or allowed is less than 7 days, intermediate Sundays and holidays shall be excluded in the computation. A half holiday shall be considered as other days and not as a holiday.*†

§ 1.10 *Additional time to parties in certain cases.* Where, under these rules, unless otherwise expressly provided, any limitation is made as to the time within which any document is required to be filed, or any procedural step is required to be taken in connection with any hearing, parties who are residents of Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, and California shall have an additional period of five days; and parties who reside beyond the confines of the continental United States shall have an additional period of twenty days within which to file such document or take such other procedural step: *Provided, however,* That this rule shall not apply to any limitation as to time fixed by statute.*†

§ 1.11 *Documents in foreign languages.* Every document, exhibit, or other paper written in a language other than English, which shall be filed in any proceeding before the Commission or in response to any order of the Commission unless expressly waived therein, shall be filed in the language in which it is written, together with an English translation thereof duly verified under oath to be a true translation. Each copy of every such document, exhibit, or other paper filed, shall be accompanied by a separate copy of the translation.*†

§ 1.21 *Suspension, amendment, etc. of rules.* The rules and regulations of the Commission may be suspended, revoked, modified, amended, or supplemented, in whole or in part, at any time by the Commission.*†

PERSONAL APPEARANCES; PRACTITIONERS

§ 1.31 *Appearances.* Any individual, receiver or trustee may appear and be heard in person or by attorney. A partnership may appear and be represented by any member thereof or by attorney. A corporation, association, joint-stock company, or trust, may appear only by attorney.*†

§ 1.32 *Authority for representation.* Any person, in a representative capacity, transacting business with the Commission, may be required to show his authority to act in such capacity.*†

§ 1.33 *Persons who may be admitted to practice.* Attorneys at law admitted to practice before any court of the United States, the District of Columbia, or the highest court of any State or Territory, upon application may be admitted to practice before the Commission. An attorney at law from any place other than the District of Columbia may, in the discretion of the Commission or the official presiding at any hearing, be admitted for a particular case in which he may be employed.*†

§ 1.34 *Applications for admission.* Applications for admission to practice shall be on a form prescribed and provided by the Commission. (See Appendix No. 1) *†

§ 1.35 *Oath.* No person shall be admitted to practice before the Commission until he shall have subscribed to an oath or affirmation that he will demean himself as a practitioner before the Commission, uprightly and according to law; and that he will support the Constitution and laws of the United States and will conform to the Rules and Regulations of the Commission.*†

§ 1.36 *Suspension; disbarment.* The Commission may censure, suspend, disbar, or revoke the right of any person who has been admitted to practice before it if it finds that such person has violated his oath taken upon admission; or has, in obtaining admission, concealed any material facts with reference to his legal qualifications, professional standing, character or integrity, or has failed to conform to recognized standards of professional conduct; *Provided, however,* That before any member of the bar of this Commission shall be censured, suspended, disbarred, or his right to practice before the Commission revoked, charges shall be preferred by the Commission against such practitioner and he shall be afforded an opportunity to be heard thereon.*†

§ 1.37 *Register of practitioners.* A register will be maintained by the Commission in which will be entered the names of all persons entitled to practice before the Commission. Only individuals will be admitted or recognized.*†

§ 1.38 *Former employees.* No member, officer or employee of the Commission shall, within two years after his service with the Commission is terminated, appear as attorney before the Commission in any cause or application which he has handled or passed upon while in the service of the Commission.*†

§ 1.39 *Appearance blanks.* Each attorney representing a party to any proceeding shall enter his appearance, in duplicate, on the form prescribed for the purpose by the Commission prior to participating in such proceeding, which appearance shall be made a part of the record. (See Appendix No. 2) *†

PARTIES

§ 1.51 *Parties, defined.* The term "party" shall include any person, body politic, municipal organization, or State Commission. Parties to proceedings will be designated as applicants, complainants, defendants, petitioners, interveners, protestants, or respondents.*†

§ 1.52 *Applicant.* The term "applicant" means a party applying for a certificate, certification, permit, license, or such other instrument of authorization as the Commission is empowered to grant, and for which an application is required.*†

§ 1.53 *Complainant.* The term "complainant" means a party who complains to the Commission of anything done or omitted to be done by any common carrier subject to the Act in violation of the provisions thereof.*†

§ 1.54 *Intervener.* The term "intervener" means a party who, upon petition, has been permitted to become a party to any proceeding before the Commission.*†

§ 1.55 *Protestant.* The term "protestant" means a party opposing the schedules under suspension in investigation and suspension proceedings, or a party who files a protest to a tentative valuation in valuation proceedings.*†

§ 1.56 *Petitioner.* The term "petitioner" means a party other than as defined above seeking relief within the jurisdiction of the Commission.*†

§ 1.57 *Defendant.* The term "defendant" means a common carrier subject to the Act against whom a complaint has been filed of anything done or omitted to be done in violation of the provisions of the Act.*†

§ 1.58 *Respondent.* The term "respondent" means a party against whom the Commission has, on its own motion, instituted an inquiry, investigation, revocation, suspension, modification, cancellation, or other proceeding.*†

§ 1.59 *Receiver or trustee of carrier.* The receiver or trustee of any common carrier subject to the Act shall be made a part to any proceeding in which such carrier is a party.*†

§ 1.60 *Substitution of parties.* The Commission in a proper case may order a substitution of parties; in case of death of a party, upon suggestion thereof; and in other circumstances, for good cause shown, upon petition.*†

APPLICATIONS AND AMENDMENTS—GENERAL

§ 1.71 *Applications made on prescribed forms; exceptions.* Each application for an instrument of authorization shall comply with the Commission's Rules and Regulations and shall be made in writing, subscribed and verified as provided in Section 1.121, on a form furnished by or in the manner prescribed by the Commission: *Provided, however,* That in emergency cases the Commission may waive the requirements of formal application with respect to applications for other than radio licenses and for licenses, renewals, or modification thereof for stations on vessels or aircraft of the United States, pursuant to Section 308 (a) of the Act. Separate application shall be filed for each instrument of authorization requested: *Provided, however,* That in cases arising in services other than broadcast where a single licensee holds a number of licenses which are identical in their terms or which are identical in their terms with the exception of station locality, and in other cases in the discretion of the Commission, a single application may be filed for renewal or modification of such licenses, where such single application sets forth in detail and in unmistakable language, an accurate description of the individual licenses sought to be renewed or modified: *Provided, further,* That in cases where an applicant desires a modification of a rule or regulation, he shall submit a formal petition setting forth the desired change and the reasons in support thereof. The required forms may be obtained from the Commission or from any of its field offices. (For a list of such offices and related geographical districts, see Appendix No. 3) *†

§ 1.72 *Defective applications.* Any application which is not filed in accordance with the Commission's regulations will be considered defective. If an applicant, by specific request of the Commission is required to file any documents or information not included in the prescribed application forms, a failure to comply therewith shall constitute a defect in the application. Such defective application will not be considered by the Commission, but will be returned to the applicant by the Secretary, with a brief statement of the respect in which it is defective.*†

§ 1.73 *Amendments and dismissals; when allowed.* Any application may be amended or dismissed without prejudice as a matter of right prior to the designation of such application for hearing. Thereafter, requests to amend or dismiss without prejudice will be considered only upon written motion served upon all parties of record, as provided in Sec. 1.141.

When leave to amend has been granted after an application has been designated

for hearing, the application will be removed from the hearing docket and reconsidered by the Commission, and, when necessary, the amended application will be redesignated for hearing at a subsequent time.*†

§ 1.74 *Form of amendments.* Any amendment to an application shall be subscribed, verified, and submitted in the same manner, and with the same number of copies, as was the original application.*†

§ 1.75 *Amendments ordered.* The Commission may, upon its own motion or upon motion of any party to the proceeding, order the applicant to amend his application so as to make the same more definite and certain.*†

AMENDMENTS TO PLEADINGS

§ 1.91 *Time for filing; disposition.* Any pleading may be amended as a matter of right if filed with the Commission not less than thirty days prior to the date set for hearing in the proceeding in which the pleading is filed. Thereafter, requests for leave to amend will be considered only upon written motion. Amendments, amended pleadings, or requests for leave to amend must be served upon all parties of record as provided in Sec. 1.141 prior to filing. Amendments to applications may be determined only as provided in Sec. 1.73.*†

PETITIONS AND COMPLAINTS

§ 1.101 *General.* Petitions for relief under the jurisdiction of the Commission shall set forth clearly and concisely the petitioner's interest and the facts supporting the relief sought. (See also third proviso, Sec. 1.71) *†

§ 1.102 *Intervention.* Petitions for intervention must set forth the grounds of the proposed intervention, the position and interest of the petitioner in the proceeding, the facts on which the petitioner bases his claim that his intervention will be in the public interest and must be subscribed and verified in accordance with Sec. 1.122. The granting of a petition to intervene shall have the effect of permitting intervention before the Commission but shall not be considered as any recognition of any legal or equitable right or interest in the proceeding. The granting of such petition shall not have the effect of changing or enlarging the issues which shall be those specified in the Commission's notice of hearing unless on motion the Commission shall amend the same.*†

§ 1.103 *Complaints.* Communications to the Commission complaining of anything done, or omitted to be done, in contravention of the provisions of the Act, except formal and informal complaints filed under "Special Provisions Relating to Common Carriers" hereof, may, in the discretion of the Commission, be investigated or otherwise acted upon in any manner the Commission may deem expedient; but such communications shall not be deemed to be either formal or informal complaints within the meaning of these rules, irrespective of any action taken thereon by the Commission.*†

SUBSCRIPTION AND VERIFICATION

§ 1.121 *Applications; amendments.* Each application or amendment thereto shall be personally subscribed and verified: (1) By the party filing such application or amendment, or by one of the parties, if there be more than one; (2) by an officer of the party filing the application or amendment if the party be a corporation; *Provided, however,* That subscription and verification may be made by the attorney for the party (1) in case of physical disability of the party, or (2) his absence from the continental United States. If it be made by a person other than the party, he must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why it is not made by the party.*†

§ 1.122 *Pleadings.* All pleadings (not including applications or amendments thereto) filed by any party represented by an attorney, shall be signed by at least one attorney of record in his individual name, whose address shall be stated. A party who is not represented by an attorney shall sign and verify his pleading and state his address. Except when otherwise specifically provided by rule or statute, pleadings signed by the attorney for a party need not be verified or accompanied by affidavit. The signature of an attorney constitutes a certificate by him that he has read the pleading; that to the best of his knowledge, information, and belief there is good ground to support it; and that it is not interposed for delay. If a pleading is not signed or is signed with intent to defeat the purpose of this rule, it may be stricken as sham and false and the matter may proceed as though the pleading had not been served. For a wilful violation of this rule an attorney may be subjected to appropriate disciplinary action. Similar action may be taken if s c a n d a l o u s or indecent matter is inserted.*†

SPECIFICATIONS AS TO DOCUMENTS AND PLEADINGS

§ 1.131 *Papers, general.* All papers filed in any proceeding shall, unless otherwise specifically provided herein, be on paper 8½ x 13 or 14 inches, with left-hand margin not less than 1½ inches wide; *Provided,* That this requirement shall not apply to original documents, or admissible copies thereof, offered as exhibits: *And provided further,* That specially prepared exhibits may be submitted on paper of a width of 13 or 14 inches, of any length with a lefthand margin of 1½ inches on the 13 or 14 inch dimension. The impression shall be on one side of the paper only and shall be double-spaced, except that long quotations shall be single-spaced and indented. All papers, except charts and maps, shall be typewritten or prepared by mechanical processing methods, other than letter press or printed. The foregoing shall not apply to official publications. All copies must be clearly legible.*†

§ 1.132 *Briefs.* Briefs may be printed, typewritten, mimeographed or multigraphed, provided, however, that printed briefs shall be in 10 or 12-point type, on good unglazed paper, 5⅞ inches wide by 9 inches long, with inside margin not less than 1½ inches wide, and with double-leaded text and single-leaded citations.*†

SERVICE OF DOCUMENTS; COPIES

§ 1.141 *Service, proof of service.* All pleadings, petitions, motions, or other documents (other than applications under Title II, formal complaints, supplemental complaints, cross-complaints and amended complaints) filed in any proceeding shall be served by the party filing the same upon all parties of record, as follows:

Service upon common carriers shall be made as provided in Section 413 of the Communications Act of 1934, as amended.

In all other cases whenever under these rules service is required or permitted to be made upon a party, and such party is represented by an attorney of record in the proceeding, the service shall be made upon the attorney. Service upon the attorney or upon a party shall be made by delivering a copy to him or by mailing it to him at his last known address. Delivery of a copy within this rule means: handing it to the attorney or to the party; or leaving it at his office with his clerk or other person in charge thereof; or, if there is no one in charge, leaving it in a conspicuous place therein, or, if the office is closed or the person to be served has no office, leaving it at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein. Service by mail is complete upon mailing.

Proof of service as provided in the foregoing shall be made by appropriate affidavit describing the service which shall be attached to the original and copies of which shall be attached to all copies filed with the Commission. If service has been made by delivery of a copy to the attorney, written acknowledgement thereof on the original filed will be considered proof of service; in such case an appropriate notation of such acknowledgement shall be made on all copies filed.*†

§ 1.42 *Copies.* A party filing a petition or motion that, under Sec. 1.251, will be placed on the Motions Docket for action will furnish an original and eight copies thereof. An original and fourteen copies of all other pleadings or documents must be filed unless otherwise specifically provided for in these rules.*†

PROOF OF OFFICIAL RECORD

§ 1.151 *Authentication of copy.* An official record, or entries therein when admissible for any purpose, may be evidenced by an official publication thereof or by a copy attested by the officer having legal custody of the record, or by his deputy, and accompanied with a certificate that such officer has the custody. If the office in which the record is kept is within the United States or within a territory or insular possession subject to the dominion of the United States, the certificate may be made by the judge of a court of record of the district or political subdivision in which the record is kept, authenticated by the seal of the court, or may be made by any public officer having a seal of office having official duties in the district or political subdivision in which the record is kept, authenticated by the seal of his office. If the office in which the record is kept is in a foreign state or country, the certificate may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent or by any officer in the foreign service of the United States stationed in the foreign state or country in which the record is kept, and authenticated by the seal of his office.*†

§ 1.152 *Proof of lack of record.* A written statement signed by an officer having the custody of an official record or by his deputy that after diligent search no record or entry of a specified tenor is found to exist in the records of his office accompanied by a certificate as above provided, is admissible as evidence that the records of his office contain no such record or entry.*†

§ 1.153 *Other proof.* This rule does not prevent the proof of official records or of entry or lack of entry therein by any method authorized by any applicable statute or by the rules of evidence at common law.*†

SUBPOENAS

§ 1.171 *Who may sign and issue.* Subpoenas requiring the attendance and testimony of witnesses, and subpoenas requiring the production of any books, papers, schedules of charges, contracts, agreements, and documents relating to any matter under investigation or hearing may be signed and issued as follows: (a) Hearings before the Commission en banc; By any Commissioner; (b) Hearings before any designated officer; (1) By any Commissioner; (2) The officer designated to hear a case may sign and issue subpoenas in that case; (c) In other cases: By any Commissioner.*†

§ 1.172 *Requests; verification and content.* Unless directed by the Commission upon its own motion, subpoenas will be issued only upon request in writing. Requests for subpoenas to compel witnesses to produce documentary evidence must be subscribed and verified in accordance with Sec. 1.122 and must specify with particularity the books, papers, or documents desired, and the facts expected to be proved thereby.*†

§ 1.173 *Witness fees.* Witnesses who are subpoenaed and respond thereto are entitled to the same fees including mileage as are paid for like service in the courts of the United States, such fees to be paid by the party at whose instance the testimony is taken at the time the subpoena is served.*†

§ 1.174 *Service of subpoenas; return.* (a) A subpoena may be served by a United States marshal or his deputy or by any other person who is not a party and is not less than eighteen years of age. Service of a subpoena upon a person named therein shall be made by delivering a copy thereof to such person and by tendering to him the fees for one day's attendance and the mileage allowed by law. When the subpoena is issued on behalf of the United States or an officer or agency thereof, fees and mileage need not be tendered.

(b) If made by any other person, such person shall make affidavit thereof, stating the date, time, and manner of service; and return such affidavit on, or with, the original subpoena in accordance with the form thereon. In case of failure to make service the reasons for the failure shall be stated on the original subpoena. In making service, the original subpoena shall be exhibited to the person served, shall be read to him if he is unable to read, and a copy thereof shall be left with him. The original subpoena, bearing or accompanied by the required return, affidavit, or statement, shall be returned forthwith to the Secretary of the Commission, or, if so directed on the subpoena, to the presiding officer before whom the person named in the subpoena is required to appear.*†

HEARINGS

§ 1.191 *Classes.* Hearings before the Commission may be formal or informal.*†

INFORMAL HEARINGS

§ 1.192 *I n f o r m a l; procedure.* The Commission may upon petition by any person or upon its own motion hold such informal hearings as it may deem necessary from time to time in connection with the investigation of any matter which it has power to investigate under the law, or for the purpose of obtaining information necessary or helpful in the determination of its policies, the carrying out of its duties, or the formulation or amendment of its Rules and Regulations. For such purposes it may subpoena witnesses and require the production of testimony as in formal hearings but the procedure to be followed shall be informal and such as in the opinion of the Commission will best serve the purposes of such hearing.*†

FORMAL HEARINGS

§ 1.193 *Hearing date on related matters.* In fixing dates for hearings the Commission will, so far as practicable, endeavor to fix the same date for separate hearings (a) on all related matters which involve the same applicant, or arise out of the same complaint or cause; and (b) for separate hearings on all applications which by reason of the privileges, terms, or conditions requested present conflicting claims of the same nature.*†

§ 1.194 *Consolidation of cases.* The Commission, upon motion, or upon its own motion, will, where such action will best conduce to the proper dispatch of business and to the ends of justice, consolidate for hearing (a) any cases which involve the same applicant or arise from the same complaint or cause, or (b) any applications which by reason of the privileges, terms, or conditions requested present conflicting claims of the same nature.*†

§ 1.195 *Communications relating to applications.* There will be maintained in the office of the Secretary of the Commission a record of all communications received by the Commission relating to the merits of any application pending before the Commission requesting the granting, renewal, modification, or revocation of any license or construction permit, certificate of convenience and necessity or rate schedule. Such record shall show the name and address of the person asking the statement and the substance of such statement. When the date of hearing has been set, if the matter is designated for hearing, the Secretary shall notify all persons shown by the records to have communicated with the Commission regarding the merits of such matter in order that such persons will have an opportunity to appear and give evidence at such hearing, provided, that in the case of communications bearing more than one signature notice shall be given to the person first signing unless the communication clearly indicates that such notice should be sent to some one other than such person.

No such person shall be precluded from giving any relevant material and competent testimony at such hearing because he lacks a sufficient interest to justify his intervention as a party in the matter.

No such communication will be considered by the Commission in determining the merits of any such matter nor shall any such communication be considered by any examiner unless it has been introduced into evidence at the hearing and appears as a part of the record. The admissibility of any such communication or the Secretary's record of any such communication shall be governed by the applicable rules of evidence, and no such communication shall be admissible on the basis of a stipulation unless Commission's counsel as well as counsel for all of the parties shall join in such stipulation.

Such communications, however, may be considered by the Commission if circumstances warrant in deciding whether or not a matter shall be set down for hearing in cases where in the absence of such communication no hearing would be required by the Commission.*†

§ 1.196 *Notice of hearing under Part I of Title III.* In cases arising under Part I of Title III of the Act notice of applications received and action thereon shall be given in the following manner:

(a) By publishing the notice of hearing in the FEDERAL REGISTER not less than thirty days in advance of the hearing date;

(b) Notice of the filing of all applications under Part I of Title III of the Act and of the date fixed for hearing on such applications shall be published weekly in the office of the Commission and posted in the office of the Secretary and such lists shall be mailed to all persons who, in writing, request this service.*†

§ 1.197 *Notice of hearing under Title II or Part II of Title III.* In cases arising under Title II or Part II of Title III of the Act, except if specific provision is made by statute or by these rules for actual or constructive notice, the Commission shall give or require reasonable notice.*†

CONTINUANCES; EXTENSIONS

§ 1.201 *Continuances and extensions.* Continuance in respect to any proceeding or hearing pending before the Commission and extensions of time for making any filing or performing any act required or allowed to be done within a specified time may be granted upon motion for good cause shown, except where the time for performance or filing is limited by statute.*†

§ 1.202 *Postponement or change of place.* The Commission or the presiding officer at a hearing may, after opening any hearing pursuant to notice, recess or adjourn the same for such time as may be necessary, or change the place thereof.*†

§ 1.203 *Motions involving delay.* Requests for continuance shall show diligence by the moving party and shall be made at such time and in such manner as to avoid unnecessary hardship or expense to the parties to the proceeding. Such motions shall show service upon all parties as provided in Sec. 1.141.*†

ORDER OF PROCEDURE

§ 1.204 *Order of procedure.* At hearings on complaints, petitions, applications, or other proceedings for instruments of authorization which the Commission is empowered to issue, the complainant, petitioner, or applicant as the case may be, shall open and close. At hearings on investigation and suspension proceedings under Title II of the Act, the respondent whose tariffs are under suspension shall open and close. At hearings in all other investigations, the party to whom the order to show cause was issued shall open and close. At hearings under Title III of the Act on revocations and suspension of operator licenses or modifications of licenses under Section 312 (b) of the Act, or other like proceedings instituted by the Commission, the Commission shall open and close. In hearings upon a consolidated record, the Commission or presiding officer shall designate the order of presentation. Interveners shall follow the party in whose behalf intervention is made, and in all cases where the intervention is not in support of an original party, the Commission, or presiding officer, shall designate at what stage such interveners shall be heard.*†

EVIDENCE

§ 1.211 *Rules of evidence.* Except as otherwise provided herein, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern formal hearings before the Commission: *Provided, however,* That such rules may be relaxed in any case where the ends of justice will be better served by so doing.*†

§ 1.212 *Cumulative evidence.* The introduction of merely cumulative evidence shall be avoided, and the number of witnesses that may be heard in behalf of a party on any issue may be limited.*†

§ 1.213 *Further evidence during hearing.* At any stage of a hearing, the presiding officer may call for further evidence upon any issue and may require such evidence to be presented by any party to the proceeding.*†

§ 1.214 *Documents containing matter not material.* Where material and relevant matter offered in evidence is embraced in a document containing other matter not material or relevant, and not intended to be put in evidence, such document will not be received, but the party offering the same shall present to opposing counsel, and to the Commission, the original document, together with true copies of such material and relevant matter taken therefrom, as it is desired to introduce. Upon presentation of such matter in proper form, it may be received in evidence, and become a part of the record: *Provided, however,* That opposing counsel shall be afforded an opportunity to introduce in evidence, in like manner, other portions of such document if found to be material and relevant.*†

§ 1.215 *Copies of exhibits.* No document or exhibit, or part thereof shall be received as, or admitted in, evidence unless offered in duplicate. In addition, when exhibits of a documentary character are to be offered in evidence, copies must be furnished to opposing counsel unless the presiding officer otherwise directs. Whenever practicable the parties should interchange copies of exhibits before or after commencement of the hearing.*†

§ 1.216 *Mechanical reproductions as evidence.* Unless offered for the sole purpose of attempting to prove or demonstrate sound effect, mechanical or physical reproductions of sound waves shall not be admitted in evidence. Any party desiring to offer any matter alleged to be contained therein or thereupon shall have such matter typewritten on paper of the size prescribed by the rules of the Commission, and the same shall be identified and offered in duplicate in the same manner as other exhibits.*†

§ 1.217 *Tariffs as evidence.* In case any matter contained in a tariff schedule on file with the Commission is offered in evidence, such tariff schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity (tariff and page number) in such manner as to be readily identified, and may be received in evidence by reference subject to check with the original tariff schedules so on file.*†

DEPOSITIONS

§ 1.221 *Request for orders to take; time of filing; contents.* The Commission either on its own motion, or on formal notice of a party to a proceeding, will issue an order to take a deposition. Motions to take depositions shall be filed with the Commission not less than twenty-five days before the proposed date for taking of the depositions, and shall set forth the names and addresses of the witnesses, a specific statement as to each witness of the matters and facts concerning which it is expected such witness will testify, the place where, the time when, the officer before whom, and the cause or reason why such deposition should be taken. Such motion shall be subscribed and verified as provided in Section 1.122, and shall be accompanied by proof of service and by the proposed order in a sufficient number of copies to be served on all parties. If said order is allowed, the Secretary shall mail a copy thereof to all parties to the proceeding at least fifteen days prior to the date fixed for the taking of testimony.*†

§ 1.222 *Contents of order.* The order issued authorizing the taking of a deposition shall state the name and address of each witness, the matters and facts concerning which it is expected such witness will testify, the place where, the time when, and the designated officer before whom the witness is to testify as provided in Section 409 (e) of the Act.

§ 1.223 *Record of examination; oath; objections.* The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by some one acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.*†

§ 1.224 *Submission to witness; changes; signing.* When the testimony is fully transcribed the deposition of each witness shall be submitted to him for examination and shall be read to or by him. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress the Commission holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.*†

§ 1.225 *Certification and filing by officer; copies.* The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and that said officer is not of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. He shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly send the original and one copy thereof together with the original and one copy of all exhibits by registered mail to the Secretary of the Commission.*†

§ 1.226 *Waiver of objections.* Objections to the form of question and answer shall be made before the officer taking the depositions, and if not so made, shall be deemed waived: *Provided, however,* That if no representative of the Commission is present at the taking of the deposition of any witness, such deposition shall be received in evidence at the hearing when offered subject to such legal objection by the Commission as may be proper.*†

§ 1.227 *Time of filing.* All depositions shall be filed with the Commission not later than five days before the date of the hearing in which they are to be offered as evidence, and Section 1.10 shall not apply or in any wise serve to extend this time: *Provided, however,* That the presiding officer at any hearing may, on motion which shall show diligence on the part of the moving party, waive the requirements of this rule.*†

§ 1.228 *Inclusion in record.* No deposition shall constitute a part of the record in any proceeding until received in evidence at a hearing, unless otherwise order by the Commission*†

CONDUCT OF HEARINGS

§ 1.231 *Conduct of hearings.* Except for hearings before the Commission en banc the Commission will provide for the conduct of each hearing by a specific order of reference and unless otherwise specified in such order:

(a) *Authority of presiding officer.* The presiding officer at the hearing shall have authority to administer oaths, examine witnesses, and receive evidence at any place in the United States designated by the Commission, and to rule upon the admissibility of evidence and other matters that normally and properly arise in the course of the hearing, but shall have no power to decide any motion to dismiss the proceeding or other motion which involves final determination of the merits of the proceeding.

(b) *Transcript filed with Secretary.* After the close of the hearing the complete transcript of testimony taken, together with any exhibits and any briefs or memoranda of law filed theretofore on behalf of any party, shall be filed in the office of the Secretary of the Commission.

(c) *Corrections to transcripts.* Suggested corrections to transcripts of records shall be considered only if offered within ten days after the date the transcript is filed with the Commission. Suggested corrections shall be served upon all other parties participating in the proceeding as provided in Section 1.141 prior to the filing with the Commission. The presiding officer at the hearing shall have authority to act upon motions to correct the record.

(d) *Findings proposed by parties.* Within twenty days from the filing of the transcript of record of the hearing, each party to the proceeding shall file with the Commission proposed findings of fact and conclusions which shall be served upon all parties participating in the hearing in the manner provided in the Section 1.141. Failure to file proposed findings of fact and conclusions by any such party within the time so required, shall be deemed a waiver by such party of any right of further participation in the proceeding, including oral argument if any is held.

(e) *Contents of findings proposed by parties.* Such proposed findings of fact shall be set forth in serially numbered paragraphs and shall set out in detail and with particularity all basic evidentiary facts developed by the evidence, (with appropriate citations to the transcript of record or exhibits relied on) supporting the conclusions proposed by the party filing same. Proposed conclusions shall be separately stated. Proposed findings of fact and conclusions submitted by a person other than an applicant may be limited to those issues in connection with the hearing which affect the interests of such person. Such proposed findings and conclusions may be accompanied by briefs or memoranda of law.

(f) *Proposed decision of Commission.* The Commission will thereafter enter its proposed report or findings of fact and conclusions: *Provided, however,* That if the Proposed Findings of Fact and Conclusions filed by the parties present no substantial conflict, and the Commission is in accord with the ultimate conclusions proposed, it will, if it deems such action will best conduce to the proper dispatch of business and to the ends of justice, issue a final order with or without findings of fact and conclusions in lieu of issuing its Proposed Findings of Fact and Conclusions in accordance with this paragraph.

(g) *Exceptions; oral argument.* Within twenty days from the filing of the Commission's proposed report or findings of fact and conclusions the parties to the proceeding may file exceptions to the same which shall point out with particularity alleged errors in said report or findings of fact and conclusions and shall contain specific reference to the page of the transcript of hearing or exhibit on which the exception is based, such exceptions shall be accompanied by a memorandum brief in support thereof, and may request oral argument.

(h) *Reply briefs.* Reply memorandum briefs may be filed by any party to the proceeding within thirty days from the filing of the Commission's proposed report or findings of fact and conclusions. If no request for oral argument is made within said thirty-day period all parties will be considered as waiving any right thereto.

(i) *Service of exceptions or briefs.* At or prior to the date fixed for the filing of any exceptions, memorandum brief, or request for oral argument, the party filing the same shall serve at least one copy thereof, as provided in Section 1.141, upon all other parties to the proceeding, and no exceptions or memorandum brief will be accepted or considered by the Commission unless accompanied by an affidavit showing this requirement has been met.

(j) *Request for oral argument; waiver.* Within five days of the filing with the Commission of a request for oral argument by any party to a proceeding all parties to such proceeding shall file written notice of desire to appear and participate in such oral argument. In the absence of the filing of such written notice by any party his right to oral argument will be considered as waived.

(k) *Number of copies.* Fifteen copies of any proposed findings of fact and conclusions, exceptions, or memorandum briefs filed in connection with any hearing shall be filed with the Commission.*†

§ 1.232 *Hearings before more than one person.* The authority to perform any act in connection with a hearing vested in a "presiding officer" under these rules shall be vested in a majority of the persons conducting the hearing if the hearing is conducted by more than one person.*†

MOTIONS DOCKET

§ 1.251 *Matters to be heard.* All motions, petitions, or matters in cases designated for formal hearing, excepting motions and petitions requesting final dis-

position of a case on its merits, those having the nature of an appeal to the Commission, and those requesting change or modification of a final order made by the Commission, shall be placed upon the Motions Docket for hearing.*†

§ 1.252 *Proposed orders.* All motions or petitions shall be accompanied by a proposed order or orders which, if the relief requested is granted, may be entered in the docket of the proceeding so as to evidence all action taken on the motion or petition.*†

§ 1.253 *Time of calling; continuances.* The Motions Docket will be called at the offices of the Commission at such times as the Commission may designate, and the presiding officer shall have the authority to continue any motion, petition, or other matter presented, to a future date, and may, proper notice having been given, hear any motion at any time.*†

§ 1.254 *Time for filing motions.* No such motion, petition or other matter presented shall be called, considered, or determined in the absence of consent by all parties unless the same shall have been on file, accompanied by proof of service upon all interested parties, with the Commission for a period of *five* days: *Provided, however,* That all petitions, motions, or other matters involving parties residing in the states set out in Section 1.10 or residing beyond the continental limits of the United States shall not be called, considered, or determined in the absence of consent of all parties until the expiration of *seven* days.*†

§ 1.255 *Oppositions; right to be heard.* During the time specified in Section 1.254, any party in interest shall have the right to file an opposition thereto. Such opposition shall show service on the petitioner or moving party. Parties filing oppositions shall have the right to be heard on the day designated for hearing of the motion, petition, or other matter against which the opposition is directed. Any party desiring to waive oral argument on any motion, or opposition thereto, may indicate such desire by an appropriate notation or by a statement to that effect upon the call of the docket. In case oral argument is waived by any party, such motion or opposition shall be considered together with any memoranda or briefs which may be filed in support thereof; and the waiving of oral argument by any party shall not preclude the holding of oral argument by any other party desiring same.*†

§ 1.256 *Adverse ruling; exceptions.* Where a ruling on any petition, motion, or other matter is adverse to an interested party, said interested party may except thereto, and when the matter comes on for the hearing of the evidence, he shall state into the record at such hearing that he reserves an exception to the ruling made by the presiding officer of the Motions Docket and request that such exception be noted and carried forward in the record. In the event such interested party fails to note his exception taken at the time ruling was made by the presiding officer of the Motions Docket, such exception shall be considered waived. Within two days from the date of any ruling on any petition, motion, or other matter by the presiding officer of the motions docket, any interested party may petition for a review of such ruling by a quorum of the Commission, such petition for review shall not be essential for the preservation of any exception taken.*†

REHEARINGS

§ 1.271 *Petitions; contents.* Any party whose interests are aggrieved or adversely affected by any decision, order or requirement of the Commission may file a petition for rehearing of the same or any matter determined therein as provided in Section 405 of the Act. Such petition for rehearing may request (1) reconsideration, either in cases decided after hearing or in cases of applications granted without hearing under Title III of the Act; (2) reargument; (3) reopening of the proceeding; (4) amendment of any finding, or (5) other relief. Such petition shall be specific as to the form of relief sought and, subject to this requirement, may contain alternative requests. Each such petition shall state with particularity in what respect the decision, order or requirement or any matter determined therein is claimed to be unjust, unwarranted or erroneous, and with respect to any finding of fact must specify the pages of record relied on. Where the existence of newly discovered evidence is claimed, the petition must be accompanied by a verified statement of the facts, together with the facts relied on to show that the petitioner with due diligence could not have known or discovered such facts at the time of the hearing.*†

§ 1.272 *Subscription and service.* Each petition for rehearing shall be subscribed as provided in Section 1.122 and served upon all parties participating in the hearing in the manner provided in Section 1.141. In case the petition seeks reconsideration of a decision, order or requirement made without a hearing, the party filing the petition shall serve the same in the manner provided in Section 1.141 upon the party or parties to whom such decision, order or requirement was directed.*†

§ 1.273 *Opposition.* An opposition to any petition for rehearing may be filed within ten days after the filing of such petition, and shall be subscribed and verified as provided in Section 1.122 and served upon all parties participating in the hearing in the manner provided in Section 1.141.*†

§ 1.274 *Special calendar when granted.* In case any petition for rehearing is granted, whether the taking of additional testimony is ordered or otherwise, the case shall be placed upon a special calendar and consideration of the same shall be expedited.*†

SPECIAL PROVISIONS RELATING TO RADIO APPLICATIONS UNDER PART I OF TITLE III OF THE ACT

§ 1.351 *Place of filing; number of copies.* Each application for construction permit or station license, and all papers incorporated therein and made a part thereof, with respect to the number of copies and place of filing, shall be submitted as follows:

| *Class of station* | *Number of application forms required and method of filing* |
|---|---|
| a. All classes of Alaskan stations, except broadcast and amateur. | 3 copies via Inspector in Charge, radio district No. 14, Seattle, Wash. |
| b. Aircraft | 1 copy direct to Washington, D. C. |
| c. Geophysical | 1 copy direct to Washington, D. C. |
| d. Portable (all classes, except amateur) | 2 copies direct to Washington, D. C. |
| e. Ship | 1 copy direct to Washington, D. C. |
| f. All other classes, except amateur | 2 copies direct to Washington, D. C. |
| g. Amateur | 1 copy to be sent as follows: (a) to proper district office if it requires personal appearance for operator examination under direct supervision from that office; (b) direct to Washington, D. C., in all other cases, including examinations for class C privileges.*† |

§ 1.352 *Contents.* Each application shall be specific with regard to frequency or frequencies, power, hours of operation, equipment, location of the station, and other information required by the application forms. An application for broadcast facilities in the band 550 kilocycles to 1600 kilocycles shall be limited to one specific frequency. An application for radio station construction permit or license requesting alternate facilities will not be accepted.*†

§ 1.353 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial and other qualifications, and as to all matters and things required to be disclosed by the application forms.*†

§ 1.354 *Additional statements.* In addition the Commission may require an applicant to submit such documents and written statements of fact, under oath, as in its judgment may be necessary.*†

§ 1.355 *Installation or removal of apparatus.* Applications for construction permit or modification thereof, involving removal of existing transmitting apparatus and/or installation of new transmitting apparatus, shall be filed at least sixty days prior to the contemplated removal and/or installation.*†

§ 1.356 *Extension of time for construction.* Any application for extension of time within which to commence and/or complete construction of a station shall be filed at least thirty days prior to the expiration date of such permit: *Provided, however,* That any such application filed within less than thirty days may be accepted upon satisfactory showing to the Commission of sufficient reasons for the delay in filing such application. No application for reinstatement of a permit already forfeited will be granted, except upon a satisfactory showing to the Commission of sufficient reasons for the delay in filing such application.*†

§ 1.357 *License following construction permit.* In all cases where a construction permit is required by Section 319 of the Act for the construction of a station, the application for station license (or for station license or modification thereof, if for station other than broadcast) shall be filed by permittee prior to service or program tests.*†

§ 1.358 *Where construction permit not required.* Each application for new license, except amateur, where a construction permit is not a prerequisite thereto, shall be filed at least sixty days prior to the contemplated operation of the station: *Provided, however,* That in emergency and for good cause shown, the Commission may waive the requirements of this rule.*†

§ 1.359 *Modification of license.* An application for modification of license, except amateur, and except as otherwise provided by these rules, may be filed for change in frequency, change in operating power where no construction is necessary, change in hours of operation, and for change in name of licensee where no change in ownership or control is involved. In case of a broadcast station, an application for modification of license may be filed for change in location of main studio. In case of all stations other than broadcast, an application for modification of license may be filed for change in points of communication, change in nature of authorized service, and to cover an outstanding construction permit where the station is already licensed. Except when filed to cover construction permit, each application for modification of license shall be filed at least sixty days prior to the contemplated modification of license: *Provided, however,* That in emergencies and for good cause shown, the requirements hereof may be waived in so far as time for filing is concerned.*†

§ 1.360 *Renewal of license.* Unless otherwise directed by the Commission, each application for renewal of license shall be filed at least sixty days prior to the expiration date of the license sought to be renewed. No application for renewal of license of a standard broadcast station will be considered unless there is on file with the Commission, the balance sheet and income statement currently required by Section 1.361, reference to which by date and file number shall be included in the application.*†

§ 1.361 *Financial statements.* Each licensee of a standard broadcast station shall file with the Commission on or before March 1 of each year on Forms 705 and 706, or such other forms as may be prescribed by the Commission, a balance sheet showing the financial condition of the licensee as of December 31 of the preceding year and an income statement for the preceding calendar year. Each such form shall be subscribed as provided in Section 1.121.*†

§ 1.362 *Filing directed by Commission.* Whenever the Commission regards an application for a renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.*†

§ 1.363 *Temporary extension of station licenses.* Where there is pending before the Commission any application, investigation, or proceeding which, after hearing, might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing license, the Commission may, in its discretion, grant a temporary extension of such license: *Provided, however,* That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, and necessity beyond the express terms of such temporary extension of license: *And provided further,* That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceeding.*†

§ 1.364 *Assignment or transfer of control*—(a) *General.* An application for consent to assignment of a construction permit or license, or for consent to transfer of control of a corporation holding a construction permit or license, shall be filed with the Commission at least sixty days prior to the contemplated effective date of assignment or transfer of control. If the assignment or transfer is voluntary, the appropriate application shall be fully executed by all parties and, if involuntary, by assignee or transferee only.

(b) *Broadcast.* With each such application, involving any standard broadcast station construction permit or license, there shall be submitted under oath or affirmation all information required to be disclosed by the application forms prescribed by the Commission, together with such other information under oath or affirmation as the Commission may require.

(c) *Other than broadcast.* In all classes of applications for consent to assignment of construction permit or license or for consent to transfer of control of a corporation holding a construction permit or license, other than those prescribed in paragraph (b), the Commission may require the furnishing of such information as in its discretion is deemed necessary.*†

§ 1.365 *Special temporary authorizations.* (a) Special temporary authority may be granted for the operation of a station for a limited time, or in a manner and to an extent or for service other or beyond that authorized in an existing license upon proper application therefor;[1] *Provided, however,* That no such request will be considered unless:

(1) It is received by the Commission at least ten days previous to the date of proposed operation: *Provided, however,* That any such request received within less than ten days may be accepted upon due showing of sufficient reasons for the delay in submitting such request;

(2) Full particulars as to the purpose for which the request is made are stated.

(b) If the request is for operation of a standard broadcast station, the following additional requirements shall apply:

(1) No such authority may be granted to a person other than the licensee of an existing standard broadcast station.

(2) The request shall be limited to a definite or temporary period or periods for the transmission of programs or events which are not recurrent, and approval thereof will not be granted for a period in excess of thirty days.

(3) The request shall show that it has been seasonably submitted to other stations whose operations may be affected (to be determined as indicated below), and the date on which such request was so submitted, which such stations shall submit direct to the Commission waiver of objection to the granting thereof or a statement of the nature of any objections that such stations may desire to interpose:

(4) If the request is for operation upon a clear channel, showing required above shall be made with respect to the Class I station or stations on the channel.

(5) If the request is made by time sharing station, the showing required above shall be made with respect to the station or stations with which time is shared;

(6) In any case, the showing required above must be made with respect to any station on the same or adjacent channels when any such station is located within the interference range of the station making the request to be determined by the "Standards of Good Engineering Practice Concerning Standard Broadcast Stations."

(7) Waiver of objections, or statement of objections, when furnished under this rule, shall be forwarded direct to the Commission by the responding station, and in the case of waiver shall show whether the waiver covers simultaneous operation or whether the station is giving up the time sought by the applicant. Where it appears that the proposed oper-

[1] Informal Applications.

ation has been seasonably submitted to the station or stations referred to in subparagraphs (4), (5), and (6), above, and no reply has been received, it will be considered that such stations have waived any objections to the granting of the request.*†

§ 1.366 *Special Service Authorizations.* Special Service Authority may be issued to the licensee of a standard broadcast station for a service other or beyond that authorized in its existing license for a period not exceeding that of its existing license upon proper application therefor,[3] and satisfactory showing in regard to the following, among others:

(a) That the requested operation may not be granted on a regular basis under the existing rules governing the operation of standard broadcast stations;

(b) That experimental operation is not involved as provided for by Part 3, Section 3.32, of the Rules and Regulations;

(c) That public interest, convenience, and necessity will be served by granting the authorization requested.*†

§ 1.367 *Inconsistent or conflicting applications.* When an applicant has an application pending and undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf or for the benefit of said applicant, will be accepted for consideration.*†

§ 1.368 *Multiple applications; broadcast service.* In the broadcast service, while there is one application for new or additional facilities pending for a standard, international, television, facsimile, high frequency or experimental broadcast station, the Commission will not consider another application for new or additional facilities for a station of the same class (as given above) to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest. Two such applications may not be filed simultaneously.*†

§ 1.369 *Repetitious applications.*—(a) *Broadcast services.* In the broadcast service, where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new standard, international, television, facsimile, high frequency, or developmental broadcast station, or for an extension or enlargement of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class (as given above) to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of twelve months from the effective date of the Commission's order.

(b) *Other radio services.* In any other radio service, where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new station, or for an extension or enlargement of service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider a like application involving service of the same kind to the same area by the same applicant, or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of twelve months from the effective date of the Commission's order: *Provided, however,* That the Commission may waive the requirements of this rule in situations affecting safety of life or property.*†

§ 1.370 *Pending appeal.* Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.*†

ACTION ON APPLICATIONS

§ 1.381 *Partial grants.* Where any application is granted in part, or with any privileges, terms, or conditions other than those requested, without a hearing thereon, the action of the Commission shall be considered as granting such application unless the applicant shall, within twenty days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written request for a hearing with respect to the part, or with respect to the privileges, terms, or conditions, not granted. Upon receipt of such request, the Commission will vacate its original action upon the application and set the application for hearing in the same manner as other applications are set for hearing, and the applicant and other parties in interest will be notified thereof.*†

§ 1.382 *Designation for hearing.* In cases where an application for radio facilities is proper upon its face but the Commission is unable to determine upon examination of the same that the granting of such application, either in whole or in part, would serve public interest, convenience or necessity, the Commission will designate the same for hearing and the following procedure will govern it:

(a) The Secretary shall forthwith mail a written notice to the applicant setting forth the action of the Commission designating the application for hearing, together with such statement of the Commission's reasons therefor as shall be appropriate to the nature of the application.

(b) In order to avail himself of the opportunity to be heard the applicant, in person or by his attorney, shall, within fifteen days of the mailing of the notice of designation for hearing by the Secretary file with the Commission one additional copy of the application and all papers incorporated as a part thereof, and a written appearance stating that he will appear and present evidence on the issues specified in the statement of reasons furnished by the Commission on such date as may be fixed for the hearing.*†

ANSWERS TO NOTICES OF VIOLATION

§ 1.391 *Under Title III of the Act.* Any licensee receiving official notice of a violation of the terms of the Communications Act of 1934, any legislative act, Executive Order, treaty to which the United States is a party, or the Rules and Regulations of the Federal Communications Commission, shall, within three days from such receipt, send a written answer direct to the Federal Communications Commission at Washington, D. C., and a copy thereof to the office of the Commission originating the official notice when the originating office is other than the office of the Commission in Washington, D. C.: *Provided, however,* That if an answer cannot be sent nor an acknowledgment made within such three day period by reason of illness or other unavoidable circumstances, acknowledgment and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be complete in itself and shall not be abbreviated by reference to other communications or answers to other notices. If the notice relates to some violation that may be due to the physical or electrical characteristics of transmitting apparatus, the answer shall state fully what steps, if any, are taken to prevent future violations, and if any new apparatus is to be installed, the date such apparatus was ordered, the name of the manufacturer, and promised date of delivery. If the installation of such apparatus requires a construction permit, the file number of the application shall be given, or if a file number has not been assigned by the Commission, such identification as will permit of ready reference. If the notice of violation relates to some lack of attention or improper operation of the transmitter, the name and license number of the operator in charge shall be given.*†

REVOCATION AND MODIFICATION OF STATION LICENSES

§ 1.401 *Revocation.* Whenever the Commission shall institute a revocation proceeding against the holder of any radio station construction permit or license under Section 312 (a), it shall initiate said proceeding by serving upon said licensee an order of revocation effective not less than fifteen days after written notice thereof is given the licensee. The order of revocation shall contain a statement of the grounds and reasons for such proposed revocation and a notice of the licensee's right to be heard by filing with the Commission a written request for hearing within fifteen days after receipt of said order. Upon the filing of such written request for hearing by said licensee the order of revocation shall stand suspended and the Commission will set a time and place for hearing and shall give the licensee and other interested parties notice thereof. If no request for hearing on any order of revocation is made by the licensee against whom such an order is directed within the time hereinabove set forth, the order of revocation shall become final and effective without further action of the Commission. When any order of revocation has become final, the person whose license has been revoked shall forthwith deliver the station license in question to the inspector in charge of the district in which the licensee resides.*†

§ 1.402 *Modification—(a) Order to show cause.* Whenever the Commission shall determine that public interest, convenience, and necessity would be served, or any treaty ratified by the United States will be more fully complied with, by the modification of any radio station construction permit or license either for a limited time, or for the duration of the term thereof, it shall issue an order for such licensee to show cause why such construction permit or license should not be modified.

(b) *Contents of order to show cause.* Such order to show cause shall contain a statement of the grounds and reasons for such proposed modification, and shall specify wherein the said construction permit or license is required to be modified. It shall require the licensee against whom it is directed, to be and appear at a place and time therein named, in no event to be less than thirty days from the date of receipt of the order to show cause why the proposed modification should not be made and the order of modification issued.

(c) *Failure to appear.* If the licensee against whom the order to show cause is directed does not appear at the time and place provided in said order, a final order of modification shall issue forthwith.*†

SUSPENSION OF OPERATOR LICENSES

§ 1.411 *Order of suspension.* No order of suspension of any operator's license shall take effect until fifteen days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee who may make written application to the Commission at any time within said fifteen days for a hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have fifteen days in which to mail the said application. In the event that physical conditions prevent mailing of the application at the expiration of the fifteen-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be held in abeyance until the conclusion of the hearing which shall be conducted under such rules as the Commission shall deem appropriate. Upon the conclusion of said hearing the Commission may affirm, modify, or revoke said order of suspension.*†

§ 1.412 *Proceedings.* Proceedings for the suspension of an operator's license shall in all cases be initiated by the entry of an order of suspension. Respondent will be given notice thereof together with notice of his right to be heard and to contest the proceeding. The effective date of the suspension will not be specified in the original order but will be fixed by subsequent motion of the Commission in accordance with the conditions specified above. Notice of the effective date of suspension will be given respondent, who shall send his operator license to the office of the Commission in Washington, D. C., on or before the said effective date, or, if the effective date has passed at the time notice is received, the license shall be sent to the Commission forthwith.*†

SPECIAL PROVISIONS RELATING TO COMMON CARRIERS

*Complaints Under Title II of the Act*

§ 1.421 *Formal or informal.* Complaints filed under Title II of the Act may be either formal or informal.*†

§ 1.422 *Informal complaints; substance.* No form of informal complaint is prescribed, but it must be in writing, subscribed, and verified by the complainant. The complaint shall state the name and address of the complainant, the name of the carrier against whom the complaint is made, and shall state as definitely as possible the basis or reason for the complaint.*†

§ 1.423 *Action on informal complaints.* Upon receipt of an informal complaint properly drawn and executed, the Commission will, if its nature warrants, take the question up by correspondence with the carrier complained of in an endeavor to bring about satisfaction. Such correspondence with the carrier shall call upon it either to satisfy the complainant or advise the Commission of its refusal or inability to do so within such time as may be prescribed. If the carrier satisfies the complainant, it shall immediately notify the Commission and file with it proof of satisfaction; whereupon the complaint will be dismissed. If the carrier refuses or is unable to satisfy the complainant within the time prescribed, it shall so notify the Commission, which decision the Commission will forthwith give notice of to the complainant.*†

§ 1.424 *Resubmission; six months' rule.* When an informal complaint has not been satisfied pursuant to the foregoing rule, the complainant may either file a formal complaint or resubmit his informal complaint within six months from the date of the Commission's notice; *Provided, however,* That such resubmitted informal complaint must contain new material matter upon the same cause of action. The procedure prescribed herein for the handling of informal complaints will be followed in case of resubmitted informal complaints. If such resubmitted informal complaint or a formal complaint is filed with the Commission within the six months' period, such resubmission or filing will be deemed to relate back to the date of the filing of the original informal complaint. But reference to the original date of the informal complaint must be made in such resubmission or in the formal complaint filed.*†

§ 1.425 *Formal complaints; requirements.* Formal complaints shall contain the names of all parties complainant and defendant in full, without abbreviations, the address of each complainant, and the name and address of his attorney, if represented by attorney, and shall be subscribed and verified by the complainant as provided in Section 1.122. (See Appendix No. 4 for form of formal complaint)*†

§ 1.426 *Statement of issues; joinder of causes of complaint.* Formal complaints shall be so drawn as to advise the Commission and the defendant fully wherein the provisions of the Act, or an order, rule, or regulation of the Commission, have been violated, the facts claimed to constitute such violation, and the relief sought. Two or more grounds of complaint involving the same principle, subject, or state of facts may be included in one complaint, but should be separately stated and numbered.*†

§ 1.427 *Notice of complaints.* Upon receipt of any formal complaint against any common carrier subject to the Act, the Commission will forward a copy of the same to such carrier together with a notice of the filing thereof, which notice shall contain an order of the Commission calling upon the carrier to satisfy the complaint or answer the same in writing within the time specified in said notice, which in no event shall be less than thirty days.*†

§ 1.428 *Charges, etc.; specific references.* The several charges, classifications, regulations, or practices complained of shall be set out by specific references to schedules of charges and classifications, and also the particular regulations or practices whenever that is possible.*†

§ 1.429 *Separate statement of each provision violated.* When a violation of more than one provision of a section of the Act is alleged, such violation shall be separately stated with respect to each provision of the Act claimed to be violated.*†

§ 1.430 *Allegations; certainty.* In case recovery of damage is sought, the complaint should contain appropriate

[3] Formal Application required, see "Standards of Good Engineering Practice Concerning Standard Broadcast Stations" for form number.

allegations showing such data as will serve to identify, with reasonable certainty, the communications or transmissions, or other services, in respect of which recovery is sought, and shall state (1) that the complainant makes claim for reparation; (2) the name and address of each individual claimant asking reparation; (3) the name and address of defendants against which claim is made; (4) the communications, transmissions, or other services rendered, the charge applied thereto, the date when charges were paid, by whom paid, and by whom borne; (5) the period of time within which, or the specific dates when such communications, transmissions, or other services were rendered; (6) points of origin and reception of such communications or transmissions, and if the damages sought to be recovered are for services other than communications or transmissions, then the allegations of the complaint shall state the nature and extent of such services, the date or dates when rendered, when paid for, and by whom borne; (7) nature and amount of injury sustained by each claimant; (8) if reparation is sought on behalf of others than the complainant, in what capacity or by what authority complaint is made in their behalf; and (9) that claimant has not filed suit in any court on the basis of the same claim.*†

§ 1.431 *Challenge of general rate adjustments; reparation.* If a general rate adjustment is challenged in the complaint, or many communications and transmissions or points of origin and reception are involved, the Commission will find and determine in its report the issues as to violation of the Act, injury thereby to complainant, and right to reparation. The Commission will afford the parties opportunity to agree or make proof respecting the communications, transmissions, or other services, and amount of reparation due under its findings, before entering its order awarding reparation. In such cases, authenticated schedule of charges, receipts, statements, and other exhibits bearing on details of such communications, transmissions, or other services, for which reparation is claimed, and the amount claimed (separately stated with respect to each communication, transmission, or other service rendered), need not be produced at the hearing unless called for or needed to develop other pertinent facts.*†

§ 1.432 *Discrimination specified.* In case unjust or unreasonable discrimination is alleged, the charge, practice, classification, regulation, facility, or service complained of must be clearly specified.*†

§ 1.433 *Preference or prejudice.* In case undue or unreasonable preference, advantage, or prejudice is alleged, the particular person, company, firm, corporation, locality, or description of traffic affected thereby, and the particular preference or prejudice or disadvantage, relied upon as constituting a violation, shall be clearly specified.*†

§ 1.434 *Reparation; prayer for.* Reparation will not be awarded upon a complaint unless specifically prayed for, except under unusual circumstances and for good cause shown. Reparation may be awarded, however, upon a supplemental complaint based upon the finding of the Commission in the original proceeding.*†

§ 1.435 *Limitations; damages pendente lite.* The Commission will consider as in substantial avoidance of the statute of limitations, a complaint in which the complainant alleges that the matters complained of, if continued in the future, will constitute violations of the Act in the particulars and to the extent indicated, and prays reparation accordingly as to charges which shall be paid and borne by complainant on all communications, transmissions, or other services affected thereby occurring during the pendency of the proceeding.*†

§ 1.436 *Supplemental complaints*—(a) *General.* Supplemental complaints may be tendered for filing by the parties complainant, against the parties defendant, setting forth any causes of action under the Act alleged to have accrued in favor of the complainants and against the defendants since the filing of the original complaint.

(b) *Seeking damages.* If recovery of damages is sought by supplemental complaint, it must be filed with the Commission within the statutory periods stated in Section 415 of the Act.*†

§ 1.437 *Cross complaints.* Cross complaints alleging violations of the Act by other carriers, parties to the proceeding, or seeking relief against them under the Act, may be tendered for filing by defendants with their answers and, upon leave granted, will be filed and served by the Commission in the manner provided for serving complaints.*†

§ 1.438 *Answers to complaints and petitions.* Any party upon whom a copy of a complaint, petition, or cross complaint is filed under Title II of the Act, shall file answer within thirty days after service of the complaint. Such answer shall be subscribed by the party answering as provided in Section 1.122, and shall be so drawn as to advise the parties and the Commission fully and completely of the nature of the defense, and shall admit or deny specifically and in detail all material allegations of the complaint. Collateral or immaterial issues shall be avoided in answers and every effort shall be made to narrow the issues. Matters alleged as affirmative defenses shall be separately stated and numbered. Any defendant failing to file and serve answer within the time and in the manner prescribed will be deemed in default, and the Commission will issue an appropriate order. (Counterclaims and set-offs against users of service supplied by carriers are not within the jurisdiction of the Commission.) This section does not apply to protests or applications seeking suspensions of proposed tariff schedules.*†

§ 1.439 *Answers to petitions or amended complaints.* In proceedings under Title II, answers to petitions for intervention, or to amended complaints filed and served upon leave granted, need not be separately made unless the defendant so elects, and defendant's answer to the complaint will be deemed its answer to the petition in intervention.*†

*Extensions of Carrier Facilities*

§ 1.451 *Applications under Section 214.* Application for an authorization under Section 214 of the Act shall be submitted as follows:

(a) *Contents of application.* Each application shall contain in narrative form the following information: (1) The exact name and address of each applicant; (2) a statement as to whether the applicant is a carrier subject to the Act, or a corporation organized to construct, acquire or operate interstate wire communication properties, but not as yet an operating company; (3) a statement as to whether the application is for an extension (by construction, purchase, lease or otherwise) of service into territory not currently served by the applicant, or is for the supplementing of existing facilities of the applicant, or for temporary or emergency service (giving the estimated period of time for which the application is made); (4) the reasons, briefly stated, why the present or future public convenience and necessity require, or will require, the proposed construction, acquisition (by purchase, lease or otherwise), or operation; (5) the name, title and post office address of the officer to whom correspondence concerning the application is to be addressed; (6) the government, state or territory under the laws of which each corporate applicant was organized; (7) description of the facilities for the construction, acquisition or operation of which authorization is requested, including details of construction or acquisition with allocation of ownership, economic justification, traffic data (including data as to message loads and toll circuit requirements for past periods and estimates for the future), summary of construction estimate (including outside plant, repeaters, carrier equipment and associated equipment, and the cost to each participant), quantities and cost of major materials, amount of labor and cost of same, and a description of existing facilities; (8) a description of the manner and means by which services of a similar character are now being rendered by the applicant and others in the area proposed to be served; (9) statement of the accounting to be performed in connection with the proposed project.

(b) *Exhibits required.* Each copy of such application shall be accompanied by a map or sketch showing: (1) Route of proposed extension, including all proposed branches; (2) type and ownership of wire structures (open wire, aerial cable, underground cable, etc.); (3) existing facilities in vicinity, indicating type and ownership of same; (4) facilities to be removed; (5) cities, towns and villages along routes indicated on map or sketch and approximate population of each and route mileage between them; (6) location of present and proposed telephone central offices and other related telephone toll center locations; (7) existing and proposed repeater points; (8) other geographic facts pertinent to a consideration of the application, including state and county boundary lines through which the proposed facilities will extend; (9) topographical features which may require special consideration or added cost.

(c) *Additional information.* The applicant shall furnish any additional information which the Commission may require after a preliminary examination of the application.

(d) *Copies required.* The Commission shall be furnished with the number of copies required by Sec. 1.491 of the rules.

(e) *Exceptions.* Requests for authorization for emergency service, temporary service, or for the supplementing of existing facilities through construction involving an expenditure of $7,500 or less, may be made as hereinafter provided without regard to the other provisions of this rule.

(1) *Emergency service.* Emergency service may be authorized on request made by letter or telegram describing the service and facilities involved and stating the nature and extent of the emergency.

(2) *Temporary service.* Temporary service, to be rendered by means of leased facilities for a period not exceeding four months, to points already directly served by the applicant with the same type of service, may be authorized, upon informal request to the Commission made not less than thirty days prior to establishment of the proposed service, setting forth the type of facilities to be leased, the route mileage thereof, the termini of the facilities proposed to be leased, the points to be served, how these points are now being served by the applicant, the dates on which service is to begin and terminate, the need for the proposed service and the rentals and other consideration involved. The authority so requested shall be deemed to be granted unless, during the thirty-day period, the Commission shall call upon the carrier for a formal application in accordance with paragraphs (a), (b), (c), and (d) of this rule.

(3) *Small construction projects.* Applications for authority to supplement existing facilities by construction, between points already directly served by the applicant with the same type of service, where the estimated cost of the proposed construction is not more than $7,500, may be authorized upon informal request to the Commission made not less than (30) days prior to the commencement of the proposed construction, and the authority shall be deemed to be granted unless during said thirty-day period the Commission shall call upon the carrier for a formal application in accordance with paragraphs (a), (b), (c), and (d) of this rule. The informal request for authorization shall state

(i) the exact points between which the construction is proposed;

(ii) the need for the proposed construction;

(iii) a description of the nature of the proposed construction;

(iv) the estimated cost of the proposed construction;

(v) the route miles involved in the construction project.

Within 60 days after the completion of the construction authorized, the applicant shall file with the Commission a report stating the date of completion, together with the total construction cost of the project authorized. The informal authorization herein provided shall not be construed as a finding by the Commission that the public convenience and necessity require the construction authorized or as an approval by the Commission of the amounts expended or the accounting performed in connection therewith.*†

§ 1.452 *Applications under Section 221 (a).* Application for a certificate under Section 221 (a) shall be submitted as follows:

(a) *Contents of application.* Each application shall contain in narrative form the following information: (1) The exact name and address of each applicant; (2) a statement as to whether each applicant is a carrier subject to the Act and what change or changes in status will result from the consummation of the proposed transaction; (3) the name, title and post office address of the officer to whom correspondence in regard to the application should be addressed; (4) the government, state or territory under the laws of which each corporate applicant was organized; (5) detailed description of the property to be acquired, consolidated, or merged, and a brief history of such property; (6) in a proposed consolidation or merger, the name of the company resulting therefrom, the capitalization proposed therefor, and the amount and class of capital stock and other securities proposed to be issued; (7) the manner in which the properties, or control, will be acquired and the consideration, in money and otherwise, to be paid by each applicant; (8) statement of action of stockholders and directors of each applicant approving the proposed transaction, giving date and place of each meeting; (9) facts as to any intercorporate relations through holding companies, ownership of securities or otherwise, between the applicants, or any of them; (10) reasons in general why the proposed transaction will be of advantage to the persons to whom service is to be rendered and in the public interest; (11) the extent to which the facilities to be acquired or controlled (by purchase, lease or otherwise) parallel, or are competitive with, the facilities of the proposed purchaser or others; (12) a statement as to whether the proposed transaction has been presented to the regulatory authority of each state in which the property is situated and, if so, with what results.

(b) *Supporting data required with applications.* There shall be filed with and made a part of the original of each application under Section 221 (a) the following: (1) One copy of the charter, articles of incorporation and the by-laws of each applicant, duly certified; (such copies as are already on file with the Commission may be incorporated in the application by reference) (2) one copy of resolutions of the stockholders or directors of each of the applicants approving the proposed transaction, such resolutions to be properly attested and accompanied by appropriate excerpts from the minutes, showing the number of votes cast for and against each such resolution; (3) map or sketch indicating the facilities of each telephone carrier in the area involved, and the location and ownership of exchange and toll properties before and after consummation of the proposed transaction; (4) a recent balance sheet and an income statement of each party involved; (5) a statement showing the book cost and related reserve amounts with respect to the plant items to be acquired unless all of the telephone plant is included in the proposed acquisition, consolidation or merger; (6) copy of any contract or contracts, exclusive of right-of-way and attachment contracts, entered into between the applicants, or any of them, with respect to any of the telephone properties or service included in the proposed transaction; (7) any additional facts or reasons in support of the application.

(c) *Copies required.* Copies as provided for in Sec. 1.491 shall be furnished to the Commission. *Provided, however,* That two additional copies shall be furnished for each additional state in which such property is located.*†

*Orders To Show Cause*

§ 1.461 *Orders instituting action under Title II of the Act.* Whenever the Commission shall institute a proceeding within its jurisdiction under Title II of the Act against any common carrier, it may commence such action by serving upon the carrier an order to show cause. Said order shall contain a statement of the particulars and matters upon which the Commission is inquiring, and the reasons for such action, and shall call upon the carrier to be and appear before the Commission at a place and time therein stated, and then and there answer and give evidence upon the matters

specified in said order. The Commission may, however, require in said order, that the carrier file with the Commission its verified answer to the order to show cause, on or before a day certain, prior to the hearing date therein fixed, in no event less than thirty days after service of the order: *Provided, however,* That the Commission may include in an order to show cause any further provisions which it may deem necessary and which are within its jurisdiction under the Act. Nothing in this rule shall be construed to limit the authority of the Commission to institute or conduct any investigation or inquiry within its jurisdiction in any other manner or according to any other procedure which it may deem necessary or proper.*†

§ 1.462 *Answer to order to show cause.* Any carrier, upon whom an order to show cause has been served under Section 1.461 shall respond to the same by filing its answer within the time specified in said order. Such answer shall be subscribed in the manner provided in Section 1.122, shall be drawn so as specifically to admit or deny the charges or allegations which may be made in said order, and so as to advise the Commission fully and completely upon the matters and things inquired of.*†

*Protests of Valuations*

§ 1.471 *Tentative valuations.* Protests in opposition to a tentative valuation, under the provisions of Title II of the Act, shall be subscribed and verified by the protestant and shall contain a concise statement of the essential elements of the protest with particularity to the matters concerning which protest is made. Each object of protest shall be set up as a separate item in a separately numbered paragraph and the protest shall also include a statement of the protestant's interest in the matter in controversy.*†

*Suspension of Tariff Schedules*

§ 1.481 *Under Section 204 of the Act.* Suspensions of tariff schedules under Section 204 of the Act will not ordinarily be considered unless protest and application therefor is made in writing or by telegram at least 10 days before the effective date named in the schedule. Applications for suspensions must indicate the schedule affected by its Federal Communications Commission number and give specific reference to the items against which protest is made, together with a statement of the grounds thereof. If such application is made by telegram, the telegram must be followed and confirmed by application in writing and the telegram should succinctly state the substance of the matters to be set forth in the written application. Sixteen copies of each written application must be furnished to the Commission.*†

*Service and Number of Copies*

§ 1.491 *Service by the Commission.* Applications under Title II of the Act, formal complaints, supplemental complaints, cross complaints, and amended complaints, will be served by the Commission and copies of each shall be furnished in sufficient number so as to provide the Commission with 15 copies for its use, and a copy for each party to the proceeding.

Service by the Commission upon common carriers shall be by leaving a copy of any document requiring service with the designated agent of such carrier at his office or usual place of residence in the District of Columbia, and if no such agent is designated, then service may be made by posting such notice, process, order, decision, or pleading in the office of the Secretary of the Commission.*†

APPENDIX NO. 1

*Application for Admission to Practice Before the Commission Under Section 1.34*

I, _____ hereby apply for admission to practice before the Federal Communications Commission under Section 1.34 of the rules of practice of the Commission, and submit the following:

1. I reside at _____, _____
(Street number)
_____ (City) _____ County, State of _____

My office address is _____
(Street number)
_____, _____ County, State of _____

2. I was admitted to practice as an attorney at law by the _____ Court of _____ on the _____ day of _____, 19..., and am now a member of the bar of that court; I have never been suspended or disbarred from practice before any court (state here any exception) _____

_____
(Signature of applicant)

STATE OF _____,
*County of* _____ *ss:*

_____ being first duly sworn, on his oath deposes and says: I am the person named in the foregoing application for admission to practice before the Federal Communications Commission, and that the statements of facts therein contained are true.

_____
(Signature of applicant)

Subscribed in my presence, and sworn to before me, this _____ day of _____, 19...

_____
[SEAL] _____
(Title)

Commission expires _____

CLERK'S CERTIFICATE

I, _____, clerk of the _____ court of _____, hereby certify that _____, the above-named applicant for admission to practice before the Federal Communications Commission, is duly admitted to practice as an attorney at law by the said court, and is now in good standing as a member of the bar of said court.

Dated this _____ day of _____, 19...

_____
[SEAL] _____
(Clerk of said court)

*Please note carefully:*

§ 1.33 *Persons who may be admitted to practice.* Attorneys at law admitted to practice before any court of the United States, the District of Columbia, or the highest court of any State or Territory, upon application may be admitted to practice before the Commission. An attorney at law from any place other than the District of Columbia may, in the discretion of the Commission or the official presiding at any hearing, be admitted for a particular case in which he may be employed.

If this certificate is not from a Court of the United States or the District of Columbia, *then it must be from the highest court of the State or Territory, or the applicant must furnish evidence that his admission entitles him to practice before the highest court of such State or Territory.*

APPENDIX NO. 4

*Approved Forms*

(These forms may be used in cases to which they are applicable, with such alterations as the circumstances may render necessary.)

*Complaint*

BEFORE THE FEDERAL COMMUNICATIONS COMMISSION

WASHINGTON, D. C.

Docket No. ------

[To be inserted by the Secretary of the Commission]

COMPLAINANT
v.
DEFENDANT

The complainant (here insert full name of each complainant and if a corporation the corporate title of such complainant) respectfully shows:

(1) That (here state occupation and post-office address of each complainant).

(2) That (here insert the full name, occupation, and post-office address of each defendant).

(3) That (here insert fully and clearly the specific acts or things complained of together with such facts as are necessary to give a full understanding of the situation).

Wherefore, complainant asks (here state specifically the relief desired).

Dated at _____ this ------ day of _____, 19...

_____
(Name of each complainant)

_____
(Name and address of attorney, if any)

*Form of Verification*

_____, being first duly sworn, on oath, deposes and says: one of the complainants in the above-entitled matter; that he has read the within and foregoing complaint and knows the contents thereof, and that the matters and things therein stated are true of his own knowledge, save

and except those matters therein stated on information and belief, and as to those he believes them to be true.

IN THE MATTER OF JOHN EDWARD ALDRED, ET AL.

ORDER REOPENING HEARING

JULY 14, 1939.

Commissioners: Clyde L. Seavey, Chairman; Basil Manly, Leland Olds, John W. Scott. Claude L. Draper, not participating.

It appearing to the Commission that:

(a) Hearings were held in the above matter at Washington, D. C., September 1, 2, 8, 9, 14, 15, October 20, 31, and November 15, 1938, before Edward B. Marsh, Examiner, upon the requests of applicants for approval to hold certain positions as officers and directors; and that on said last named date hearings were adjourned subject to the further order of the Commission;

(b) It is in the public interest that the proceedings in the above designated matters be reopened and reconvened for the purpose of receiving further evidence.

The Commission orders that:

The above entitled matters be and the same are reopened and reconvened for the purpose of receiving further testimony and additional evidence at 10:00 a. m. on the 14th day of September, 1939, at the Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

By the Commission.

[Docket No. IT-5494]

IN THE MATTER OF SAFE HARBOR WATER POWER CORPORATION

ORDER FIXING DATE FOR HEARING

JULY 14, 1939.

Commissioners: Clyde L. Seavey, Chairman; Basil Manly, Leland Olds, John W. Scott. Claude L. Draper, not participating.

It appearing to the Commission that:

(1) The Safe Harbor Water Power Corporation, hereinafter called Safe Harbor Company, owns and operates a hydroelectric development on the Susquehanna River in York and Lancaster Counties, Pennsylvania, under license from this Commission, designated as Project No. 1025;

(2) On June 1, 1931, the Safe Harbor Company entered into an agreement with the Consolidated Gas Electric Light and Power Company of Baltimore, hereinafter called the "Baltimore Company," and the Pennsylvania Water and Power Company, hereinafter called the "Holtwood Company," under which the Baltimore Company and the Holtwood Company became entitled to all the capacity and energy available from the initial 6-unit development of the Safe Harbor Company and all or a large part of that energy is being transmitted in interstate commerce;

(3) Under this agreement the total combined annual payments for power and energy for the calendar years 1933 to 1937, inclusive, to be made by the Baltimore Company and the Holtwood Company to the Safe Harbor Company were fixed at $1,450,000, $1,600,000, $1,800,000, $2,000,000 and $2,500,000, respectively. Beginning January 1, 1938, the annual payments equal the amount which is required to yield to Safe Harbor Company a net income of 7 percent, after deducting all reasonable operating expenses, on its accumulated actual, legitimate, original investment in the initial development, averaged for the year in question, without regard to the amount of power actually furnished;

(4) On November 9, 1937, the Commission, on its own motion, instituted an investigation to determine whether this agreement, under which the Safe Harbor Company sells all its energy, violated any provision of the Federal Power Act or any rule, regulation or order of the Commission thereunder, and this investigation has been completed for rate-making purposes.

The Commission orders that:

A public hearing be held on September 18, 1939, at 10 o'clock a. m. in the hearing room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., to enable the Commission to decide (a) whether the agreement under which the Safe Harbor Company sells all its energy violates any of the provisions of Parts I and III of the Federal Power Act or any rule, regulation or order of the Commission thereunder; (b) whether any rates and charges made or received by the Safe Harbor Company for the sale of electric energy to the Baltimore Company and Holtwood Company under the agreement of June 1, 1931, which is designated on the Commission's records as "Safe Harbor Water Power Corporation Rate Schedule F. P. C. No. 1," or any rules, regulations and practices pertaining to such charges, are unjust, unreasonable, or unduly discriminatory; and (c) determine the just and reasonable rates to be made effective herein and fix the same by order.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 39-2618; Filed, July 18, 1939; 9:07 a. m.]

---

[Project No. 1025]

IN THE MATTER OF SAFE HARBOR WATER POWER CORPORATION

ORDER FIXING DATE FOR HEARING

JULY 14, 1939.

Commissioners: Clyde L. Seavey, Chairman; Basil Manly, Leland Olds, John W. Scott. Claude L. Draper, not participating.

It appearing to the Commission that:

(1) On March 7, 1938, Safe Harbor Water Power Corporation filed its supplemental claim No. 1 with the Federal Power Commission, setting forth the claimed actual, legitimate, original cost of additions, betterments and retirements for the period from January 1, 1933, to December 31, 1936, inclusive;

(2) On August 20, 1938, Safe Harbor Water Power Corporation filed a second supplemental claim of the actual, legitimate, original cost of additions, betterments and retirements for the calendar year 1937;

(3) On July 6, 1939, there was served upon the Safe Harbor Water Power Corporation the Accounting and Engineering Reports of the Commission's staff with respect to the claimed actual, legitimate, original cost of the additions, betterments and retirements of fixed capital of the Safe Harbor project for the period January 1, 1933, to December 31, 1937.

(4) The letter accompanying the Staff's Accounting and Engineering Reports advised the Safe Harbor Water Power Corporation that it would be permitted to file a protest to the staff reports on or before August 11, 1939. The matters involved in the determination of the actual legitimate original cost of additions, betterments and retirements for the period January 1, 1933, to December 31, 1937, of the Safe Harbor project No. 1025, Safe Harbor Water Power Corporation, licensee, are now at issue.

The Commission orders that:

A public hearing in said matter be held on September 11, 1939, at 10 o'clock a. m., in the hearing room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

By the Commission.

## INTERSTATE COMMERCE COMMISSION.

ORGANIZATION SCHEDULE AND ASSIGNMENT OF WORK AND FUNCTIONS OF THE COMMISSION

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 8th day of July, A. D. 1939.

The order of May 8, 1939,[1] adopting an organization schedule and assignment of work and functions of the Commission, amended in certain respects, making same read as follows:

Section 17 of the Interstate Commerce Act, as amended (U.S.C. title 49, sec 17) and other provisions of law being under consideration, the following order was duly adopted:

*Ordered:* Effective July 1, 1939, except as may be otherwise provided herein, the following organization schedule and assignment of work and functions shall be in force:

DIVISIONS OF THE COMMISSION

That there be formed five divisions of the Commission, known, respectively, as divisions one, two, three, four, and five, consisting of three members each.

As provided by section 17 of the Interstate Commerce Act, as amended, in conformity with and subject to the order or orders of the Commission in the premises, each division so constituted shall have power and authority by a

[1] 4 F.R. 2385 DI.

majority thereof to hear and determine, order, certify, report, or otherwise act as to any of said work, business, or functions so assigned or referred to it for action by the Commission; and in respect thereof the division shall have all the jurisdiction or powers now or then conferred upon the Commission, and be subject to the same duties and obligations.

Each division with regard to any case or matter assigned to it, or any question brought to it under this delegation of duty and authority, may call upon the whole Commission for advice and counsel, or for consideration of any case or question by an additional Commissioner or Commissioners assigned thereto; and the Commission may recall and bring before it as such any case, matter or question so allotted or assigned and may either dispose of such case, matter, or question itself, or may assign or refer the matter to the same or another division.

In respect to any case or matter assigned to a division in which it appears desirable that an additional Commissioner or Commissioners should act with the members constituting a division of the Commission, the Chairman of the Commission is authorized to enter an order or orders for the Commission, from time to time, adding an additional Commissioner or Commissioners to any such division for the purposes indicated in such order.

Each division may, for the more convenient dispatch of business assign or refer to an individual Commissioner, a member of such division, any matter assigned or referred to such division, subject to the limitations provided in section 17 (6) of the act.

ASSIGNMENT OF DUTIES TO DIVISIONS

That work, business, and functions of the Commission[1] be assigned and referred to the respective divisions for action thereon, as follows:

*Division One*

General conduct of administrative matters not otherwise assigned or reserved.

Section 20 (1) to (10), inclusive, relating to the reports, records, and accounts of carriers under Part I.

Section 204 (a) (1), (2), and (4); and Section 220; and Section 222 (b), (d), and (g), so far as those sections relate to reports, records, and accounts of carriers under Part II.

Sections 1 (21), 5 (5), 6 (10), 10, 15 (11) and (12), 16 (8) to (12), inclusive; 20a (11) and (12), 26 (h), of Part I, and Section 222 of Part II, and the Elkins Act, as amended, so far as relating to discovery and enforcement of penalties for violations of provisions of law.

Section 13 (3) of Part I, so far as relating to the institution of investigations specified in that paragraph, on the petition of the carrier or carriers concerned.

Matters coming from the Bureau of Personnel Supervision and Management, under Executive Order No. 7916, of June 24, 1938, and amendatory and supplementary Executive orders, and matters assigned to the present Committee on Salaries and Personnel by the order of the Commission of October 12, 1935, as amended October 12, 1936.

Matters coming from the Bureau of Inquiry under Part I, the Elkins Act, and acts supplemental thereto, and the Clayton Antitrust Act, as amended, and from the Section of Law and Enforcement of the Bureau of Motor Carriers, so far as relating to the discovery of derelictions and enforcement of penal provisions of Part II.

Admission, disbarment, and suspension of practitioners before the Commission, under Rule I–B of the Rules of Practice.

*Division Two*

Section 25, relating to the schedules of rates of water carriers in foreign commerce.

Section 4, relating to long-and-short haul and aggregate-of-intermediates rates, and relief therefrom.

Section 6, except paragraph (13), relating to schedules of carriers, and sections 217 and 218, tariffs of common carriers and schedules of contract carriers, including, among other matters, applications thereunder, forms and specifications, and questions turning upon the construction or application thereof.

Section 15 (7) of Part I, and Sections 216 (g) and 218 (c) of Part II, relating to the disposition of applications for suspension of schedules or parts thereof, including authority to institute investigations into rates, fares, practices, and charges of carriers under Part I, and rates, fares, and charges under Part II, as ancillary to a proceeding of investigation and suspension.

Section 6 (13) (b), (c), and (d) of the Interstate Commerce Act and section 11 (d) of the Panama Canal Act, U.S.C., t. 49, Sec. 51, relating to the establishment, under the additional authority conferred upon the Commission by the Panama Canal Act, of through routes and joint rates, and proportional rates to or from ports, and through rail and water arrangements in foreign commerce.

Section 19a, relating to the valuation of the property of carriers.

Section 20 (11) of Part I and Section 219 of Part II, so far as relating to the authorization of released rates and ratings.

Section 3 (2), so far as relating to the prescription of rules governing the delivery of freight and the settlement of rates and charges, and to prevent unjust discrimination, under Part I.

Section 22 (1), so far as relating to reduced rates in case of calamitous visitation, and for the improvement of housing standards (and other purposes).

Standard Time Act of March 19, 1918, as amended, U.S.C., t. 15, Secs. 261–265, inclusive.

Matters coming from the Board of Reference, relating to instructions concerning the informal consideration of unusual matters and cases for which there is no governing precedent.

Matters coming from the Bureau of Informal Cases.

*Division Three*

Air Mail Act of June 12, 1934, as amended, and so far as not repealed or work devolving upon the Commission remains incomplete.

Civil Aeronautics Act of 1938, approved June 23, 1938, U.S.C., t. 49, Sec. 643, so far as relates to action as members of a joint board, as may be directed by the Chairman of the Commission.

Section 1 (9) to (17), inclusive, relating to switch connections, car-service, and emergency directions with respect thereto.

Section 5 (1), relating to the pooling of traffic or operations of railroads.

Section 3 (4), relating to requirement of common use of terminals, and compensation therefor.

Section 6 (13) (a) of the Interstate Commerce Act, and Section 11 (d) of the Panama Canal Act, relating to the additional jurisdiction over rail and water traffic conferred upon the Commission by the Panama Canal Act, U.S.C., t. 49, Sec. 51, with respect to physical connections between rail lines and docks; and section 201 (c), Transportation Act, 1920, as amended, U.S.C., t. 49, Sec. 141 (c).

Section 15 (10), relating to the direction of the routing of unrouted traffic.

Section 15 (13), relating to fixation of reasonable allowances to the owner of property transported for transportation services rendered, and Ex Parte No. 11, The Tap Line Case.

Section 26 (a)–(g), inclusive, as amended, relating to the installation and maintenance of safety devices and carriers by railroad, other than enforcement of penalties.

Section 1 (21) (other than enforcement of penalties), so far as relating to the compulsory construction of new roads or procurements of additional facilities.

Matters arising under the Transportation of Explosives and Dangerous Articles Act, Safety Appliance Acts, Locomotive Inspection Act, Ash Pan Act, Medals of Honor Act, Railroad Retirement Act of 1937, Carriers Taxing Act of 1937, Railroad Unemployment Insurance Act, the Railway Labor Act as respectively amended; the Block Signal Resolution of June 30, 1906, and Sundry Civil Appropriation Act of May 27, 1908; Postal Service Acts, U.S.C., t. 39, c. 6, 12, 13, 14, and 15, so far as those acts relate to duties of the Commission.

*Divisions two and three alternately*, in monthly rotation, commencing with July 1, 1939.

All cases not otherwise herein assigned or referred to another division or reserved to the Commission, arising under Part I, and all cases involving rates, fares, or charges arising under Part II, which cases (a) have involved the taking of testimony at public hearings, and are set to be argued orally before one of such divisions, or (b) are submitted without oral argument, but which have involved the taking of testimony at public hearings.

*Division Four*

Section 1 (18) to (20), inclusive, relating to certificates of convenience and necessity under Part I.

Section 5 (2) to (17), inclusive (other than enforcement of penalties), under Part I; and Section 213 (other than the enforcement of penalties), and 210a (b) of Part II, relating to the consolidation, merger, purchase, lease, operating contracts, and acquisition of control of carriers, and to non-carrier control.

Sections 20a and 214 (other than the enforcement of penalties), relating to the issuance and approval of securities of carriers under Parts I and II, and Sec. 20a (12) to the holding of interlocking positions as director or officer under Part I.

Inland Waterways Corporation Act (U.S.C., t. 49, Sec. 153), as amended, so far as relating to the issuance of certificates of convenience and necessity.

The Uniform Bankruptcy Act, as amended, U.S.C., t. 11, relating to the reorganization of corporations subject to the exercise of the regulatory powers of the Commission.

Matters arising under the Reconstruction Finance Corporation Act, as amended, and under Section 20 of Title II of the Emergency Relief and Construction Act of 1932, as amended.

Matters arising under the Clayton Antitrust Act, as amended (other than enforcement of penalties).

*Division Five*

Part II of the act (Motor Carrier Act, 1935), as amended, including authority to institute, conduct and determine investigations into motor carrier practices, except as to matters hereinbefore specially assigned or referred to other divisions, and except the formulation of Proposed Tariff Circular No. 3 for motor carriers, which is hereby reserved for disposition by Division 5 as at present constituted.

Any procedural question requiring Commission action in connection with unassigned cases may be disposed of by any of the divisions.

Each division may determine the time and place for its conferences and determine its order of business.

From such assignment of work there shall be reserved for consideration and disposition by the Commission (1) all general investigations heretofore entered upon and hereafter instituted, except as hereinbefore otherwise provided; (2) all applications for rehearing, reargument or other reconsideration and all cases before the Commission for reconsideration, except as hereinafter otherwise provided; and there shall also be excepted from this assignment of work all cases heretofore submitted prior to July 1, 1939, on oral argument, either to the Commission or to a division thereof, or submitted to the Commission and specially referred to a division; and cases submitted for decision prior to July 1, 1939, without oral argument in which drafts of final reports were under consideration by the Commission or a division thereof on June 30, 1939; all procedural and administrative matters in the nature of unfinished business pending before the Commission or a division thereof on June 30, 1939; the various cases enumerated in any previous order of the Commission as reserved for consideration and disposition by the Commission; and all cases otherwise especially assigned.

Unless otherwise ordered by the Commission, any Commissioner who is transferred from a division shall continue as a member of such division for the disposition of cases submitted on oral argument prior thereto or those in which drafts of final reports are under consideration and all procedural and administrative matters in the nature of unfinished business, in lieu of the Commissioner designated to serve as a regular member of the division.

ASSIGNMENT OF DUTIES TO INDIVIDUAL COMMISSIONERS AND TO BOARDS OF EMPLOYEES

That the following portions of the work, business, and functions of the Commission, be assigned and referred to individual Commissioners and to boards composed of an employee of the Commission as herein designated.

*To the Individual Members of Divisions Two and Three*

In rotation, in each month, to the members of the particular division which, according to the assignment heretofore made, is designated to receive submissions of rate, etc., cases in that month: (a) shortened procedure cases under Rule of Practice X-A, submitted without oral argument during the month; and (b) shortened procedure cases assigned for oral argument during the month.

*To Individual Members of the Commission*

The Commissioner to whom the Bureau of Traffic reports: (a) special permissions or other permissible waivers of rules regarding schedules of rates, etc., filed in that Bureau or in the Bureau of Motor Carriers under Sections 217 (c) and 218 (a); (b) released rates applications under Section 20 (11); (c) Ex Parte No. 13, with respect to tariff files; and (d) reduced rates authorizations in cases of calamitous visitation under Section 22 (1).

The Commissioner to whom the Bureau of Accounts reports: distribution of carriers accounts and spreading of items over periods of time; and prescription of depreciation rates and modification thereof as to individual carriers, under Section 20 (5).

The Commissioner to whom the Bureau of Service reports: uncontested matters relating to the transportation of explosives and other dangerous articles.

The Commissioner to whom the Bureau of Locomotive Inspection reports: uncontested matters arising under the Boiler Inspection Act, as amended.

The Commissioner to whom the Bureau of Safety reports: uncontested matters under Section 26; the Safety Appliance Acts, as amended; and the Hours of Service Act, as amended.

The Commissioner to whom the Bureau of Finance reports: applications under Section 20a (12) for authority to hold the position of officer or director of more than one corporation, when all the corporations are part of the same system.

The Commissioner to whom the Bureau of Informal Cases reports: applications and complaints on the special docket.

The Commissioner to whom the Bureau of Inquiry reports: the reference of cases involving supposed violations of law, under either Part I or Part II of the Act, the Elkins Act, or related acts, to the Department of Justice for investigation and possible prosecution.

In each of the foregoing delegations and assignments to an individual Commissioner to whom the Bureau reports, it is contemplated that in event of his absence or disability the senior Commissioner of the division which has jurisdiction of the subject matter who is present shall act instead of the Commissioner above designated.

The Chairman of the respective divisions: merely procedural matters in any formal case or pending matter, and extensions of time for compliance with orders (except in investigations on the Commission's own motion), in any such case or matter, when the subject matter or particular proceeding has been or is assigned or referred to the division.

In respect of all such matters, petitions for reconsideration or for rehearing of any order or decision of an individual Commissioner as herein authorized shall be initially passed upon by the division to which the general subject is referred, and if the general subject has not been referred to a division, then by the Commission.

All such petitions shall be governed by the general rules of practice of the Commission.

BUREAUS OF THE COMMISSION

That the Bureaus of the Commission shall report as follows: (a) with respect

[1] References are to sections of the Interstate Commerce Act, Parts I and II, as amended, unless otherwise shown.

to administrative matters, including personnel and salaries matters, to Division one, through the Commissioner to whom the Bureau reports; (b) with respect to matters of policy and functioning, through the Commissioner to whom the Bureau reports, to the Division or to the Commission, as set forth below:

| Bureaus of the Commission | Reports through— | To— |
|---|---|---|
| Accounts | Commissioner in charge. | Division one. |
| Administration | Chairman, ex officio. | Division one. |
| Finance | Commissioner in charge. | Division four. |
| Formalcases: Generally matters pending before divisions. | Commissioner in charge. | Commission. |
| | Chairman of division. | Division. |
| Informal cases | Commissioner in charge. | Division two. |
| Inquiry | Commissioner in charge. | Division one. |
| Law | Commissioner in charge. | Commission. |
| Locomotive inspection. | Commissioner in charge. | Division three. |
| Motor carriers: | | |
| Tariff matters. | Commissioner in charge. | Division five. |
| Finance matters. | Commissioner in charge. | Division two. |
| | Commissioner in charge. | Division four. |
| Personnel supervision and management. | Chairman, ex officio. | Division one. |
| Safety | Commissioner in charge. | Division three. |
| Service | Commissioner in charge. | Division three. |
| Statistics | Commissioner in charge. | Commission, except as to matters assigned to division one. |
| Traffic | Commissioner in charge. | Division two. |
| Valuation | Commissioner in charge. | Division two. |

STANDING COMMITTEES OF THE COMMISSION

That the work formerly assigned to standing committees of the Commission be reassigned as follows:

| Present committees: | *Reassigned to* |
|---|---|
| Salaries and Personnel | Division one. |
| Finance | Division one. |
| Cooperation with State Commissions | Division one. |
| Organization | Division one. |
| Building and Assignment of Space | Division one. |
| Admissions to Practice | Division one. |
| Reporting | Division one. |
| Rules | Committee on Rules and Reports. |
| Reports | Committee on Rules and Reports. |
| Legislation | Committee on Legislation. |
| Annual Report | Division one. |

The foregoing committees shall consist of three members each, appointed by the Commission, which shall designate the Chairman thereof. The Chairman may designate a Commissioner to fill a vacancy on any Committee until the Commission otherwise orders.

REHEARING AND FURTHER PROCEEDINGS

For the proper and more convenient dispatch of business, and to the ends of justice, the following regulations of the conduct of proceedings are adopted (in addition to those governing the parties, as set out in the Rules of Practice), in respect of rehearings, reconsiderations, further hearings, and supplementary proceedings, whom upon the application of any party to the decision, order, or requirement of a division of the Commission.

The application (and any supporting or opposing documents) when submitted shall be considered by the division: if the division grants the same, the application will stand as granted by the division and denied by the Commission, and further proceedings will be before the division and under its direction. Any further decision, order, or requirement of the division shall be subject to application for rehearing as provided in the act. If the division does not grant the application, the application (and supporting or opposing documents) will be considered by the Commission, which in its discretion will determine if sufficient reason for granting a rehearing or taking any other action has been made to appear.

By the Commission.

[Order No. 27365]

FREIGHT FORWARDING INVESTIGATION

TRANSPORTATION OF CONSOLIDATED CARLOAD FREIGHT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 13th day of July, A. D. 1939.

The Commission having under consideration the subject of the rates, charges, rules, regulations, and practices of common carriers by motor vehicle with respect to the transportation of freight for forwarding companies, and the relation between said common carriers and persons or corporations engaged in the freight-forwarding business:

*It is ordered*, That the Commission, upon its own motion, enter upon an investigation into and concerning the practices of common carriers by motor vehicle of carrying forward charges of forwarders as advances on outbound billing, with the view of determining whether the rates, charges, rules, regulations, and practices of said common carriers, or any of them, are inconsistent with honest, economical, and efficient management, or are unjust, unreasonable, or in any respect in violation of law, and of making such findings and orders in the premises, and of prescribing such just, reasonable, and lawful rates, charges, rules, regulations, or practices, and of taking such other and further action as the facts and circumstances may appear to warrant.

*It is further ordered*, That this order be served upon all common carriers by motor vehicle subject to Part II of the Interstate Commerce Act, and that such carriers be, and they are hereby, made respondents to this proceeding, and that notice to the public be given by posting a copy of this order in the office of the Secretary of the Commission.

*And it is further ordered*, That this proceeding be assigned for hearing at such times and places as the Commission may hereafter direct.

By the Commission.

IN THE MATTER OF BRADDOCK LIGHT & POWER COMPANY, INCORPORATED

ORDER EXEMPTING ISSUE AND SALE OF CAPITAL STOCK

Braddock Light & Power Company, Incorporated, a subsidiary of The North American Company, through two intermediate sub-holding companies, Washington Railway and Electric Company and The Washington and Rockville Railway Company of Montgomery County, which latter three companies are registered holding companies, having filed an application pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of Section 6 (a) thereof, of the issue and sale by said applicant of 5,000 additional shares of Capital Stock without nominal or par value; said Capital Stock to be sold at a private sale to The Washington and Rockville Railway Company of Montgomery County, the immediate parent of the applicant, at a price of $10 per share; a public hearing having been held upon said application after appropriate notice;[1] the Commission having considered the record in this matter and having made and filed its findings and opinion herein:

*It is ordered*, That the issue and sale of the said Capital Stock be, and hereby are exempted from the provisions of Section 6 (a) of the Public Utility Holding Company Act of 1935; subject, however, to the following conditions:

(1) That the issue and sale of the Capital Stock shall be in compliance with the terms and conditions of, and for the purposes represented by said application; and

(2) That such exemption shall immediately terminate without further notice or order of this Commission if, at any time, the State Corporation Commission of Virginia shall revoke, rescind, amend or otherwise alter the effectiveness of its order approving the securities; and

(3) That within ten days after the issue and sale of the Capital Stock, the applicant shall file with this Commission a certificate of notification showing that such issue and sale have been effected in accordance with the terms and conditions and for the purposes represented by said application.

By the Commission.

IN THE MATTER OF IOWA-NEBRASKA LIGHT AND POWER COMPANY AND CONTINENTAL GAS & ELECTRIC CORPORATION

ORDER MAKING DECLARATION EFFECTIVE AND APPROVING ACQUISITION OF STOCK

Iowa-Nebraska Light and Power Company (hereinafter called "Iowa-Nebraska"), a registered holding company, a subsidiary of Continental Gas & Electric Corporation (hereinafter called "Continental"), also a registered holding company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and/or sale of (1) its Secured Promissory Note in the principal amount of $2,000,000 to The Chase National Bank of the City of New York, at par, said Note to bear interest at the rate of 2¾% per annum, and to be payable in quarterly installments of $100,000 each, the last installment to mature five years after the date of issue; (2) its First Lien and Refunding Mortgage 5% Bonds, Series C, due March 1, 1969, in the principal amount of $3,000,000, to be pledged as collateral security for said Note; and (3) 20,000 shares of its Common Stock ($100 par value) to its parent, Continental; and Continental, a subsidiary of The United Light and Railways Company, which in turn is a subsidiary of The United Light and Power Company, both registered holding companies, having filed an application pursuant to Section 10 (a) (1) of the Act for approval of the acquisition of the aforesaid 20,000 shares of Common Stock ($100 par value) of Iowa-Nebraska;

A public hearing on said declaration and application, as amended, having been duly held after appropriate notice,[1] the record in this matter having been considered, and the Commission having made its findings herein:

It is ordered:

(1) That the declaration filed by Iowa-Nebraska under Section 7 regarding the issue and/or sale of its Secured Promissory Note in the principal amount of $2,000,000, its First Lien and Refunding Mortgage 5% Bonds, Series C, in the principal amount of $3,000,000, and 20,000 shares of its Common Stock ($100 par value), be and become effective forthwith, and

(2) That the application filed by Continental under Section 10 (a) (1) for approval of the acquisition of the aforesaid 20,000 shares of Common Stock ($100 par value) of Iowa-Nebraska be and the same is hereby approved,

*Provided*, and this order is entered upon the following express conditions:

(1) That the issue and/or sale of the aforesaid securities, and the acquisition of said shares of Common Stock, shall be effected in accordance with the terms and conditions of and for the purposes represented by the declaration and application, as amended;

(2) That prior to or coincident with the making of the loan to be evidenced by said Secured Promissory Note, The Chase National Bank of the City of New York shall submit its resignation as successor trustee under an Indenture, dated December 1, 1901, between Lincoln Gas & Electric Light Company and The Trust Company of America, as Trustee, and that there shall be filed with this Commission, within thirty (30) days after the making of such loan, conformed copies of all legal documents executed in connection with its resignation and in connection with the appointment of a successor trustee.

By the Commission.

IN THE MATTER OF MILWAUKEE GAS LIGHT COMPANY, ET AL.

ORDER PURSUANT TO SECTIONS 7, 10 AND 12 AND RULES UNDER THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

Wauwatosa Gas Company, West Allis Gas Company, Lakeshore Gas Company, and Wisconsin Eastern Gas Company, subsidiaries of American Light & Traction Company, a registered holding company, having filed a joint application pursuant to Rule U-12F-1 seeking approval of the sale of their physical properties

[1] 4 F.R. 2490 DI.

[1] 4 F.R. 2064, 2251 DI.

and other assets to Milwaukee Gas Light Company, also a subsidiary of American Light & Traction Company; the same applicants having filed an application pursuant to Section 10 (a) (1) seeking approval of the acquisition by each of them of Common Stock of Milwaukee Gas Light Company in payment for said physical properties and other assets; and Milwaukee Gas Light Company having filed an application pursuant to Section 6 (b) or in the alternative a declaration pursuant to Section 7 in regard to the issuance of Common Stock in payment for said physical properties and other assets;

Wauwatosa Gas Company, West Allis Gas Company, Lakeshore Gas Company, and Wisconsin Eastern Gas Company having filed applications pursuant to Section 6 (b) or in the alternative declarations pursuant to Section 7 relative to the issuance as a stock dividend to American Light & Traction Company of shares of their respective Common Stocks equal in par amount to the largest amounts in even hundreds of dollars in their respective earned surplus accounts and relative to the issuance of shares of their respective Common Stocks equal in par amount to their respective indebtedness to American Light & Traction Company; and American Light & Traction Company having filed an application pursuant to Section 10 (a) (1) seeking approval of its acquisition of the above mentioned Common Stock; and

American Light & Traction Company having filed an application pursuant to Rule U–12D–1 seeking approval of the sale by it at par to Milwaukee Gas Light Company of 33,862 shares of Common Stock of the latter company and the contribution by it to Milwaukee Gas Light Company of 42,000 shares of the Common Stock of the latter company; and an application pursuant to Rule U–12C–1 by Milwaukee Gas Light Company seeking approval of the acquisition of the above mentioned shares of its Common Stock;

A hearing on such matters having been held[1] after appropriate notice and by stipulation a consolidated record made; the applicants and declarants having waived the right to have submitted to them a report by the Trial Examiner; to have submitted to them proposed findings of fact by the Commission; to file a brief and to oral argument before the Commission prior to the making of findings of fact and the entry of orders herein by the Commission; the record in this matter having been examined; and the Commission having made and filed its findings;

*It is ordered*, That the joint application by Wauwatosa Gas Company, West Allis Gas Company, Lakeshore Gas Company, and Wisconsin Eastern Gas Company pursuant to Rule U–12F–1 seeking approval of the sale of their physical properties and other assets is hereby approved; that the application pursuant to Section 10 (a) (1) by the same applicants seeking approval of the acquisition by each of them of the Common Stock of Milwaukee Gas Light Company is approved; and that the declaration pursuant to Section 7 by Milwaukee Gas Light Company relative to its issuance of Common Stock may become effective;

*It is further ordered*, That the declarations filed pursuant to Section 7 by Wauwatosa Gas Company, West Allis Gas Company, Lakeshore Gas Company, and Wisconsin Eastern Gas Company relative to the issuance of their respective Common Stock to American Light & Traction Company may become effective; and that the application filed by American Light & Traction Company pursuant to Section 10 (a) (1) seeking approval of its acquisition of such Common Stock is approved; and

*It is further ordered*, That the application pursuant to Rule U–12D–1 filed by American Light & Traction Company for the approval of the sale and contribution to Milwaukee Gas Light Company of 33,862 and 42,000 shares respectively of Common Stock of Milwaukee Gas Light Company is approved; and that the application pursuant to Rule U–12C–1 by Milwaukee Gas Light Company seeking approval of the acquisition of such stock is approved; and

*It is further ordered*, That this order be subject to the following conditions:

(1) That the various steps involved in the applications and declarations shall be carried out and effected in accordance with the terms and conditions of and for the purposes represented by said applications and declarations;

(2) That within ten days after the issue, sale and disposition of the securities involved in these transactions and the transfer of the physical property and other assets the applicants and declarants shall file with this Commission a certificate of notification showing that the issue, sale and disposition of said securities and the transfer of said physical property and other assets have been effected in accordance with the terms and conditions of and for the purposes represented by said applications and declarations.

IN THE MATTER OF NORTHWESTERN WISCONSIN ELECTRIC COMPANY

ORDER GRANTING EXEMPTION

Northwestern Wisconsin Electric Company, a subsidiary company of American Utilities Service Corporation, a registered holding company, having duly filed with this Commission an amended application pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of Section 6 (a) of the Act of the issue and sale by the applicant of $125,000 principal amount of its First Mortgage 5% Sinking Fund bonds, Series A, to be dated May 1, 1939 and to mature May 1, 1954; and

A hearing on said amended application having been duly held[1] after appropriate notice; the record in this matter having been examined; and the Commission having made and filed its findings herein:

*It is ordered*, That the issue and sale of the aforesaid securities be, and the same hereby are, exempted from the provisions of Section 6 (a) of the Public Utility Holding Company Act of 1935, subject, however, to the following conditions:

(1) That the issue and sale of the bonds shall be in compliance with the terms and conditions of and for the purposes represented by said application as amended; and

(2) That such exemption shall immediately terminate without further order of this Commission if, at any time, the authorization by the Public Service Commission of Wisconsin shall be revoked or shall otherwise terminate; and

(3) That within 10 days after the issue and sale of any of the bonds the applicant shall file with this Commission a certificate of notification showing that such issue and sale have been effected in accordance with the terms and conditions of, and for the purposes represented by, said application as amended.

IN THE MATTER OF WEST PENN POWER COMPANY

ORDER APPROVING APPLICATIONS AND MAKING DECLARATION EFFECTIVE

West Penn Power Company, a subsidiary company of American Water Works and Electric Company, Incorporated, a registered holding company, having filed an application pursuant to Section 6 (b) and a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale of 297,077 shares of 4½% Preferred Stock, par value $100 per share, cumulative, and $3,200,000 aggregate principal amount of Ten-Year Promissory Notes due in equal annual installments during the ten years after the issue thereof, and having also filed an application pursuant to Rule U–12C–1 (b) promulgated pursuant to Section 12 (d) of said Act for the approval of the acquisition, retirement or redemption of certain of its securities;

A public hearing having been held on said applications and declaration after appropriate notice;[1]

Said West Penn Power Company, prior to the entry of the Commission's findings, opinion and order herein having waived its right to a Trial Examiner's report, submission of proposed findings of fact by the Commission, or requested findings of fact by counsel for the Commission, the filing of briefs and oral argument; the Commission having considered the record in this matter and having made and filed its findings and opinion herein;

*It is ordered*, That said applications be approved and that said declaration be and become effective forthwith, subject, however, to the following conditions:

1. That, until further order of the Commission, so long as the Company shall remain subject to the jurisdiction of the Commission, if any shares of the 4½% Preferred Stock are then outstanding, the Company shall not pay any dividends on or make any other distributions to the holders of shares of its common stock if, after giving effect to such payment or distribution, the capital of the Company represented by its common stock, together with its surplus, as then stated on its books of account, shall in the aggregate be less than $27,750,000. This condition shall cease to be of any force or effect if the Commission shall at any time hereafter adopt or enter a rule, regulation or order under Section 12 (c) of the Act or otherwise (other than Rule U–12C–2 as now in effect), which shall be applicable to the Company, limiting the right of companies to pay dividends on their common stock with reference to maintaining an equity junior to outstanding preferred or preference stocks. The Commission reserves jurisdiction to revoke or modify this condition at any time on application of the company.

2. That within ten days after the issue and sale of the securities in question the Company shall file with this Commission a certificate of notification giving the following information: (1) That the issue and sale of said securities and the disposition of the proceeds thereof shall have been done in the manner and for the purposes represented by the applications and declaration as amended; (2) the number of shares acquired by virtue of the exchange offer; and (3) the number of shares sold to the underwriters.

By the Commission.

[File No. 44–30]

IN THE MATTER OF CHARLES TRUE ADAMS, TRUSTEE OF THE ESTATE OF UTILITIES POWER & LIGHT CORPORATION, DEBTOR AND CENTRAL STATES POWER & LIGHT CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 12 (c) and Rule U–12C–1 of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties;

*It is ordered*, That a hearing on such matter be held on August 2, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Edward C. Johnson or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 28, 1939.

The matter concerned herewith is in regard to the sale by Central States Power & Light Corporation to Fleming Blanchard McCurdy of Halifax, Nova Scotia, Canada, pursuant to an agreement of January 31, 1939, of certain securities, including notes and accounts receivable of Canada Electric Company, Limited, The Eastern Electric and Development Company, Limited, Moncton Electricity and Gas Company, Limited, and Maritime Coal, Railway and Power Company, Limited. The securities, including notes and accounts receivable, of the latter company are not now owned by Central States Power & Light Corporation but are owned by Utilities Power & Light Corporation, Limited, and the Estate of Utilities Power & Light Corporation. The latter two companies have agreed that they will transfer to Central States Power & Light Corporation the securities which may be owned by them which are deliverable to McCurdy under the terms of the agreement of January 31, 1939, upon payment of $38,200 which is the value placed upon such securities by Jay Samuel Hartt.

For these Canadian securities the purchaser will pay to the vendor at least $1,264,000 principal amount of First Mortgage and First Lien Gold Bonds 5½% Series, due January 1, 1953, issued by Central States Power & Light Corporation, with all unpaid interest coupons attached (which is the amount McCurdy now owns) and $1,964,731.03 in cash: *Provided, however*, That said cash sum may be varied dependent upon certain conditions more fully set forth in the January 31, 1939 agreement, including the condition that Central States Power & Light Corporation may request McCurdy to solicit tenders of Central States Power & Light Corporation First Mortgage and First Lien Gold Bonds 5½% Series, due January 1, 1953, and McCurdy agrees to pay over and deliver such bonds tendered and to that extent the amount of cash payable shall be reduced. The purchase price is to be increased by the sum of $250 per day for each day by which the transaction may be closed precedes September 30, 1939: *Provided, however*, That the aggregate increase in this regard shall not exceed $15,000.

The purchase and sale will not become finally effective without the prior approval of the District Court of the United States for the Northern District of Illinois, Eastern Division.

By the Commission.

IN THE MATTER OF PRESSED METALS OF AMERICA, INC.

ORDER FIXING EFFECTIVE DATE OF AMENDMENTS TO REGISTRATION STATEMENT AND DISMISSING STOP ORDER PROCEEDINGS

The Commission, having due regard to the public interest and the protection of investors, and the amendments filed on April 4, May 25, and June 16, 1939, to the registration statement under the Securities Act of 1933, as amended, of the above-named registrant not appearing to be incomplete or inaccurate in any material respect upon their face,

*It is ordered*, That the effective date of such amendments shall be July 17, 1939, and

*It is further ordered*, That a certain stop order proceeding heretofore instituted and until now pending with respect to the said registration statement be and the same is hereby dismissed.

Attention shall be directed to the provisions of Section 23, Securities Act of 1933, which follow: "Neither the fact that the registration statement for a security has been filed or is in effect nor the fact that a stop order is not in effect with respect thereto shall be deemed a finding by the Commission that the registration statement is true and accurate on its face or that it does not contain an untrue statement of fact or omit to state a material fact, or be held to mean that the Commission has in any way passed upon the merits of, or given approval to, such security. It shall be unlawful to make or cause to be made, to any prospective purchaser any representation contrary to the foregoing provisions of this section."

By direction of the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of July, A. D. 1939.

[Files No. 46–88 and 32–78; 46–89 and 56–47]

IN THE MATTER OF WASHINGTON GAS LIGHT COMPANY AND WASHINGTON AND SUBURBAN COMPANIES

NOTICE OF AND ORDER FOR HEARING

Applications pursuant to sections 6 (b), 10 (a) (1) and 12 (d) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties;

It is ordered, That a hearing on such matter be held on July 27, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Daniel J. Dempsey or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 24, 1939.

The matter concerned herewith is in regard to the proposed issue by Washington Gas Light Company, a subsidiary company of Washington and Suburban Companies, a registered holding company, of 35,000 shares of the no par value common stock of said applicant and the sale thereof to said Washington and Suburban Companies in consideration of the transfer to said Washington Gas Light Company by said Washington and Suburban Companies of certain securities of Washington Suburban Gas Company and of Alexandria Gas Company, to wit:

Washington Suburban Gas Company—

(1) 8,600 shares of Common Stock, without par value,

(2) $231,000 principal amount of First Mortgage Gold Bonds, 6½% Series due 1948,

(3) $271,927.37 principal amount of a promissory note,

(4) $15,001 aggregate principal amount of open account indebtedness representing cash advances.

Alexandria Gas Company—

(1) 2,500 shares of Capital Stock, without par value,

(2) Promissory notes aggregating the principal amount of $687,900,

(3) Unpaid interest on said notes accrued prior to February 1, 1939.

The applications of Washington and Suburban Companies relate specifically to the proposed acquisition by it of certain common stock of Washington Gas Light Company and to the proposed disposition by it of said securities of Washington Suburban Gas Company and Alexandria Gas Company to said Washington Gas Light Company. The applications of Washington Gas Light Company relate not only to said issue and sale of stock but also to the acquisition of the securities to be acquired by it in exchange therefor.

By a previous Notice of and Order for Hearing, dated January 18, A. D., 1938, the above mentioned applications, with the exception of the application of Washington and Suburban Companies relative to the disposition of the securities proposed to be transferred by it to Washington Gas Light Company, were set for hearing on February 3, 1938, upon which date said hearing was duly continued subject to call, and since the date of said previous order, the application last specifically described as well as certain amendments to the applications herein described have been filed.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

### EXECUTIVE ORDER

AMENDING THE FOREIGN SERVICE REGULATIONS OF THE UNITED STATES

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes of the United States (22 U.S.C. § 132), it is ordered that the Foreign Service Regulations of the United States be, and they are hereby, amended by prescribing the following as Chapter II thereof:

CHAPTER II—DIPLOMATIC AND CONSULAR BRANCHES OF THE FOREIGN SERVICE

II–1. *Diplomatic officers.*—(a) *Definition.* The term "diplomatic officers" shall include ambassadors, ministers (whether plenipotentiary or resident), diplomatic agents, chargés d'affaires, chargés d'affaires *ad interim*, counselors of embassy or legation, and secretaries of embassy or legation.

(b) *Functions.* Diplomatic officers shall perform the following functions within the countries to which they are accredited:

(1) Establish and maintain friendly relations between the Government and people of the United States and the government and people of the country to which they are accredited

(2) Keep the Government of the United States informed regarding political and economic developments abroad, particularly those affecting its interests

(3) Extend protection to American citizens and promote just American interests in every proper manner

(4) Interpret faithfully the viewpoint of the American Government in any question at issue.

II–2. *Diplomatic representatives.* The term "diplomatic representatives" shall denote the following classes of diplomatic officers:

(a) Ambassadors extraordinary and plenipotentiary, and special and high commissioners with the rank of ambassadors extraordinary and plenipotentiary

(b) Envoys extraordinary and ministers plenipotentiary, and special and high commissioners with the rank of envoys extraordinary and ministers plenipotentiary

(c) Ministers resident

(d) Chargés d'affaires commissioned by the President as such and accredited by the Secretary of State to the Minister for Foreign Affairs of the government to which they are sent.

II–3. *Preliminaries before departure for post.* After the appointment of a diplomatic representative and the filing of the prescribed oath of office, he shall be given his commission, furnished with his credentials and other necessary papers, and given such general and special instructions as the Secretary of State may deem necessary for his guidance.

II–4. *Presentation of credentials.* Upon the arrival at the seat of mission, the newly appointed diplomatic representative shall request, through the actual incumbent of the mission, an informal conference with the Minister for Foreign Affairs, or such other officer of the government to which he is accredited as may be found authorized to act in the premises, in order to arrange for his official reception. He shall at the same time, in his own name, address a formal note to the Minister for Foreign Affairs, communicating the fact of his appointment and requesting the designation of a time and place for presenting his letter of credence and the letter of recall of his predecessor.

When the representative is accredited by the President to the Chief of State, he shall, on requesting audience for the purpose of presenting the original sealed letter of credence in person, communicate to the Minister for Foreign Affairs the open office copy thereof accompanying his original instructions.

If the diplomatic representative be of the rank of chargé d'affaires, bearing a letter of credence addressed to the Minister for Foreign Affairs, he shall, on addressing to the Minister the formal

note, convey to him the office copy of his letter of credence and shall await the Minister's pleasure for presentation of the original.

A copy of each letter of credence shall be prepared and placed in the files of the mission.

II–5. *Entry upon official duties.* The official duties of a diplomatic representative begin on the day of his formal reception by the Chief of State, or in the case of the chargé d'affaires by the Minister for Foreign Affairs. If the formal audience of reception is delayed, the Minister for Foreign Affairs may arrange for the transaction of diplomatic business with the new representative pending such reception.

II–6. *Procedure to be observed when visiting a neighboring capital.* When a diplomatic officer of the United States abroad visits the capital of a third country, he shall at once make his presence known to the representative of the United States by calling on him. If his stay is to be more than transitory, he shall call on the representative of the country to which he is accredited.

Any calls upon officials of the country, except those of a purely personal character, shall be made only upon the recommendation of the resident American representative.

II–7. *Resignation of diplomatic representative.* The resignation of a diplomatic representative shall be tendered to the President, but the despatch transmitting such resignation shall be addressed to the Secretary of State.

II–8. *Consular officers.* The term "consular officers" shall include consuls general, consuls, Foreign Service officers commissioned as vice consuls, language officers, vice consuls, and consular agents.

II–9. *Official recognition of consular officers.*—(a) *Exequatur.* Upon the assignment of a consular officer, his commission shall be transmitted to the diplomatic representative accredited to the government within whose jurisdiction the consular office is situated, with instructions to apply for an exequatur. When obtained, the exequatur, together with the commission, shall be transmitted by the diplomatic representative to the consulate to which the officer is assigned through the supervisory consulate general, if there is one.

If there is no diplomatic representative of the United States stationed in the country of assignment, the Department of State shall make other arrangements for procuring the exequatur.

(b) *Provisional recognition.* Upon the receipt of telegraphic or written instructions from the Department of State, the diplomatic representative shall request the government to which he is accredited for provisional recognition for either principal or subordinate consular officers. The date on which the request for recognition is communicated to the Foreign Office and the date of final recognition shall be communicated to the supervising consul general, if there is one, and to the consular office of assignment.

II–10. *Entry on duties.* A consular officer may enter upon his official duties upon the receipt of his exequatur or, when directed by the Department of State, without an exequatur upon the receipt of provisional recognition from the proper authorities.

*Cancellation of Portions of Regulations*

The following provisions of the Foreign Service Regulations of the United States are hereby canceled:

### TITLE 7—AGRICULTURE

### AGRICULTURAL MARKETING SERVICE

PART 61—AMENDMENT NO. 1 TO RULES AND REGULATIONS OF THE SECRETARY OF AGRICULTURE GOVERNING INSPECTION, SAMPLING, AND CERTIFICATION OF COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES

By virtue of the authority vested in the Secretary of Agriculture by the Act of Congress entitled "An Act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1940, * * * and for other purposes" (Public No. 159, 76th Congress), I, H. A. Wallace, Secretary of Agriculture do hereby prescribed, publish and give public notice of the following amendment to the rules and regulations of the Secretary of Agriculture heretofore promulgated [1] to govern the inspection, sampling, and certification of cottonseed sold or offered for sale for crushing purposes:

In regulation 2 strike out section 6 and substitute therefor the following:

[1] 3 F.R. 1361 DI.

"§ 61.8 (Reg. 2, Sec. 6) *Application for review.* In case of dispute in which a review is desired of the grading of any sample of cottonseed covered by a valid certificate issued by a licensed cottonseed chemist, application therefor shall be filed with or mailed to the designated agent of the Chief of Agricultural Marketing Service within one week after the date of the original certificate, whereupon the licensed chemist issuing the certificate shall immediately surrender to the agent of the Chief of Agricultural Marketing Service the retained portion of the original sample, together with such records as may be required, for the determination of the true grade. Such agent shall assign to such retained portion an official identification number and submit it to another licensed chemist for reanalysis. Should the grade found on reanalysis differ from the original by not more than plus or minus one full grade, the original grade shall be considered the true grade. Should the reanalysis indicate a grade differing more than plus or minus one full grade from the original, all work sheets involved shall be submitted to the Chief of Agricultural Marketing Service or his designated agent who shall determine the correct grade."

In regulation 3 strike out section 2 and substitute therefor the following:

"§ 61.11 (Reg. 3, Sec. 2) *Examination of applicant.* Each applicant for a license as a chemist and each licensed chemist shall when requested submit to an examination or test to show his ability to analyze and grade cottonseed. His failure to pass such test may be considered sufficient ground for withholding the issuance to him of a license or of a renewal of a license."

§ 61.46 (Reg. 5, Sec. 4) *Fees for review of grading of cottonseed.* For the review of the grading of any lot of cottonseed in accordance with section 61.8 (Reg. 2, Sec. 6) the fee shall be $3.00. Remittance to cover such fee, in the form of a certified check, draft, or money order payable to the Treasurer of the United States, shall accompany each application for review. Of each such fee collected $1.00 shall be covered into the Treasury as miscellaneous receipts and $2.00 disbursed to the licensed chemist designated by an agent of the Chief of Agricultural Marketing Service to make the reanalysis of such seed." (Regulations of the Secretary of Agriciture, June 7, 1938)

Done at Washington, D. C., this 18th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Mailing, etc., in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, to agents or to distributors or members of the public, push or pull cards, punchboards, or other lottery devices so prepared or printed as to enable said persons to sell or distribute any merchandise by the use thereof, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, any merchandise by the use of push or pull cards, punchboards or other lottery devices, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

§ 3.6 (a) (7) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Direct dealing advantages:* § 3.6 (a) (22) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer—Manufacturer:* § 3.80 (q) *Securing agents or representatives falsely or misleadingly—Seller status, advantages or connections:* § 3.96 (b) (5) *Using misleading name—Vendor—Producer or laboratory status of dealer.* Representing, in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, that respondent is a manufacturer of said products or sells said products at factory prices which eliminate the middleman, unless and until he owns and operates, or directly and absolutely controls, the factory or plant wherein said products are manufactured by him, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

§ 3.6 (cc) (3) *Advertising falsely or misleadingly—Source or origin—Maker:* § 3.80 (r) *Securing agents or representatives falsely or misleadingly—Source or origin of product:* § 3.87 (h) *Simulating competitor or his product—Trade name of competitor's product.* Representing, directly or by inference, in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, through the use of the trade name "R. C. A.", or any colorable simulation thereof, or in any other manner, that radios manufactured by manufacturers other than Radio Corporation of America are "R. C. A." radios or are made by the Radio Corporation of America, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

§ 3.6 (gg) *Advertising falsely or misleadingly—Value:* § 3.80 (e) *Securing agents or representatives falsely or misleadingly—Demand or business opportunities.* Representing, in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, that the purchasers of respondent's products obtain a saving of 50%, or any other amount, when such is not the fact, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

§ 3.6 (i) *Advertising falsely or misleadingly—Free goods or service:* § 3.72 (e) *Offering deceptive inducements to purchase—Free goods:* § 3.80 (t) *Securing agents or representatives falsely or misleadingly — Terms and conditions.* Using, in connection with offer, etc., in commerce, of clocks, radios, silverware sets, fountain pens or pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, the term "free", or any other term or terms of similar import or meaning, to describe or refer to merchandise furnished by respondent to his agents or representatives for distribution to their customers when said agents or representatives are required to pay for such merchandise or to procure the sale of other article of merchandise or to perform other services in connection with obtaining such merchandise, prohibited. (Sec. 5, 38 Stat.

719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Silver Manufacturing Company, etc., Docket 3211, July 7, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

IN THE MATTER OF JAMES I. SILVER, INDIVIDUALLY AND TRADING AS SILVER MANUFACTURING COMPANY, SILVER SALES COMPANY, AND WORLD-WIDE RADIO COMPANY

ORDER TO CEASE AND DESIST

This proceeding having been heard [1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before William C. Reeves, an examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, brief filed herein by counsel for the Commission (respondent having filed no brief, and oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, James I. Silver, individually and trading under the names of Silver Manufacturing Company, Silver Sales Company, and World-Wide Radio Company, or trading under any other name or names, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of clocks, radios, silverware sets, fountain pens, fountain pen and pencil sets, bedspreads, blankets, electric irons, or any other merchandise, in commerce, as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Supplying to or placing in the hands of others push or pull cards, punchboards, or other lottery devices for the purpose of enabling such persons to dispose of or sell any merchandise by the use thereof;

(2) Mailing, shipping, or transporting to agents or to distributors or members of the public push or pull cards, punchboards, or other lottery devices so prepared or printed as to enable said persons to sell or distribute any merchandise by the use thereof;

(3) Selling or otherwise disposing of any merchandise by the use of push or pull cards, punchboards or other lottery devices;

(4) Representing that respondent is a manufacturer of said products or sells said products at factory prices which eliminate the middleman, unless and until he owns and operates or directly and absolutely controls the factory or plant wherein said products are manufactured by him;

(5) Representing, directly or by inference, through the use of the trade name "R. C. A.", or any colorable simulation thereof, or in any other manner, that radios manufactured by manufacturers other than Radio Corporation of America are "R. C. A." radios or are made by the Radio Corporation of America;

(6) Representing that the purchasers of respondent's products obtain a saving of 50%, or any other amount, when such is not the fact;

(7) Using the term "free" or any other term or terms of similar import or meaning to describe or refer to merchandise furnished by respondent to his agents or representatives for distribution to their customers when said agents or representatives are required to pay for such merchandise or to procure the sale of other articles of merchandise or to perform other services in connection with obtaining such merchandise.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[Docket No. 3754]

IN THE MATTER OF WYETH CHEMICAL COMPANY

§ 3.6 (x) *Advertising falsely or misleadingly—Results.* Representing, in connection with offer, etc., in commerce, of respondent's corn and callous "Freezone", or other similar preparation, that said product will cure corns or callouses or prevent the formation or recurrence thereof, or will promptly stop the pain caused by corns or prevent the recurrence of such pain, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Wyeth Chemical Company, Docket 3754, July 7, 1939]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Disseminating, etc., in connection with offer, etc., in commerce, of respondent's corn and callous "Freezone", or other similar preparation, any advertisements, by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase of respondent's said "Freezone" or other similar preparation, which advertisements represent, directly or through implication, that corns have roots or that the preparation "Freezone" will remove the roots of corns or will deaden pain caused by corns or will prevent the recurrence of corns, or that an entire corn can be removed by the use of the fingers by reason of one application of such preparation, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Wyeth Chemical Company, Docket 3754, July 7, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

ORDER TO CEASE AND DESIST

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of the respondent, and a stipulation as to the facts entered into between the respondent herein and W. T. Kelley, Chief Counsel for the Commission, which provides, among other things, that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondent herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, Wyeth Chemical Company, a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as commerce is defined by the Federal Trade Commission Act, of a preparation for the removal of corns or callouses now designated as "Freezone", or of any other preparation containing substantially the same ingredients or possessing similar therapeutic properties whether sold under the name of "Freezone" or under any other name or names, do forthwith cease and desist from:

1. Representing that said product, when used, will cure corns or callouses or prevent the formation or recurrence of corns or callouses.

2. Representing that said product, when used, will promptly stop the pain caused by corns or prevent the recurrence of pain caused by corns.

3. Disseminating, or causing to be disseminated, any advertisement by means of the United States mails or in commerce, as commerce is defined in the Federal Trade Commission Act, by any means, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of a preparation for the removal of corns, now designated by the name of "Freezone", or any other preparation for the removal of corns composed of substantially the same ingredients or possessing substantially similar therapeutic properties, whether sold under that name or any other name, or names, or disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as commerce is defined in the Federal Trade Commission Act, of said product, which advertisements represent, directly or through implication, that corns have roots or that the preparation "Freezone" will remove the roots of corns or will deaden pain caused by corns or will prevent the recurrence of corns, or that an entire corn can be removed by the use of the fingers by reason of one application of such preparation.

*It is further ordered*, That the respondent shall, within sixty days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 18th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

[File No. 21-265]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE MIRROR MANUFACTURING INDUSTRY

*Promulgation*

Due proceedings having been held [1] under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

*It is now ordered*, That the trade practice rules of Group I and Group II, as hereinafter set forth, which have been approved and received, respectively, by the Commission in this proceeding, be promulgated as of July 19, 1939.

*Statement by the Commission*

Trade practice rules for the Mirror Manufacturing Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure. The rules provide for the proper identification and disclosure of the kind of glass in mirrors and for the elimination and prevention of misrepresentation, deceptive concealment, and various other unfair trade practices, in the interest of maintaining fair competitive conditions and the protection of the purchasing public.

Available statistics show that for the year 1937, the production of mirrors in this country approximated $20,000,000, manufacturers' prices. Mirrors are widely used for many decorative pur-

[1] 4 F.R. 1388 DI.

poses and in construction work; also, as part of furniture, cabinets, store fixtures, and other articles of commerce. They are also marketed for use as mirror novelties and specialties, and for other purposes. The rules apply to mirrors when sold as part of, or in connection with, any commodity or article of commerce as well as when sold separately; and the legal requirements expressed in the rules are applicable in the sale or distribution of such mirrors in commerce by mirror manufacturers, furniture manufacturers or other manufacturers, or by jobbers, distributors, dealers or other sellers. The provisions of the rules as promulgated afford a helpful guide to industry, trade and the purchasing public in respect to the unfair trade practices specified.

The proceeding for the establishment of trade practice rules was instituted upon application of the industry. In the course thereof an industry conference was held, under the auspices of the Commission, at which proposed rules were submitted for Commission action by members of the industry. In due course tentative action was taken by the Commission on the rules so submitted and a draft of proposed rules was made available upon public notice issued by the Commission to all interested or affected parties, whereby they were afforded opportunity to present their views concerning such rules, including such pertinent information, suggestions or objections as they desired to submit, and to be heard in the premises. Accordingly, public hearing was held in Washington pursuant to such notice and all matters submitted in the proceeding were duly received and considered.

Thereafter, and upon consideration of the entire proceeding, final action was taken by the Commission whereby it approved and received, respectively, the rules appearing herein under Group I and Group II.

As herein promulgated, the rules supersede and replace the trade practice rules promulgated by the Commission for this industry on December 31, 1936.[2]

THE RULES

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of the industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

*Group I*

The unfair trade practices which are embraced in the Group I rules are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited, within the purview of the Federal Government, by acts of Congress, as construed in the decisions of the Federal Trade Commission or the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation or other organization, of such unlawful practices in or directly affecting interstate commerce.

(§ 118.1[3]) RULE 1. *Definitions.* For the purpose of these rules the following definitions shall apply:

(a) Plate glass mirrors are mirrors the glass of which is polished plate glass. Plate glass is transparent, flat glass with plane and parallel surfaces, ground and polished to the extent that the glass shows no distortion of vision when objects are viewed through it at any angle. Plate glass is produced in several different grades and may be obtained also in different thicknesses, namely, 1/8", 13/64", 1/4" and other thicknesses.

(b) Window glass (or so-called shock) mirrors are mirrors the glass of which is window glass. Window glass is transparent, flat glass, having glossy, fire finished, apparently plane and smooth surfaces not ground and polished as in the case of plate glass but having a characteristic waviness of surface which is visible when viewed at an acute angle or in reflected light. Window glass for use in mirrors is customarily made in thicknesses of 3/32" and 1/8". It is also made in thicknesses of 5/16", 7/32", 1/4" and other thicknesses.

(§ 118.2) RULE 2. *Deception in General.* It is an unfair trade practice to use, or cause or promote the use of, any advertisement, descriptions, brands, marks, labels, representations or selling methods (a) which have the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public with respect to the brand, manufacture, grade, quality, durability, thickness, origin, size, substance, content, condition, backing, silvering, finish, material or character of any mirror or other product of the industry; or (b) which are false, misleading or deceptive in any other material respect.

(§ 118.3) RULE 3. *Misrepresentations as to kind of glass, quality, thickness or backing.* It is an unfair trade practice to sell, offer for sale, advertise, describe, brand, label or otherwise represent, directly or indirectly, any mirror:

(a) As "plate" or "plate glass", or as being made of plate glass, when the glass of such mirror is not in fact plate glass; or

(b) As being made of glass of a certain grade, quality or thickness, or as being free from or as having certain characteristics, when such is not true in fact; or

(c) As being or not being made of window glass when such is not true in fact; or

(d) As being copper backed or backed with copper or having copper backing when such backing is not genuine metallic copper applied by the electrolytic process. Nothing in this rule shall be construed, however, as prohibiting the use of representations to the effect that any backing on mirrors which has not been applied by the electrolytic process contains copper when such is the fact, *Provided*, There is clearly and nondeceptively disclosed, in immediate conjunction with such representations, information clearly showing the fact that the backing on the mirrors is not such genuine metallic copper backing electrolytically applied, *And provided further*, Said representations are clearly and definitely qualified, phrased or stated in such manner as not to cause the purchasing or consuming public to be deceptively confused, misled or deceived as to the character, nature or content of such backing, or otherwise; or

(e) As being made of or containing crystal glass or as being crystal when such glass is not in fact crystal glass.

(§ 118.4) RULE 4. *Misuse of words "Plate glass thickness", etc.* The use of the words "plate glass thickness" or words or representations of similar import as descriptive of mirrors which are made of glass other than plate glass, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.5) RULE 5. *Use of term "Sheet glass" without disclosing kind of glass.* The use of the term "sheet" or "sheet glass", or words of similar import, as descriptive of mirrors made of window glass or plate glass without disclosing the fact that the glass in such mirrors is window glass or plate glass as the case may be, having the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.6) RULE 6. *Disclosure as to kind of glass in mirrors.* (a) Full and nondeceptive disclosure as to whether the glass in mirrors is plate glass, window glass or other glass should be made in accordance with the hereinafter stated provisions of this rule, to the end that the purchasing and consuming public may be informed as to the kind of glass in such mirrors and that deceptive concealment, misunderstanding, misrepresentation and unfair practices may be avoided and prevented in the marketing of such mirrors. And it is an unfair trade practice to conceal the fact as to the kind of glass in the mirrors or to offer for sale, sell or distribute mirrors without the disclosure of the kind of glass therein, such concealment or nondisclosure having the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public.

(b) Said disclosure, pursuant to this rule, of the kind of glass in mirrors, shall be made by a label attached to and displayed upon the face of each mirror of a size greater than 48 square inches, on which label the facts as to the kind of glass of which the mirror is composed shall be set forth clearly and nondeceptively, as for example, "PLATE GLASS" for mirrors composed of plate glass; "WINDOW GLASS" for mirrors composed of window glass.

(c) In making the above-mentioned disclosure under this rule, labels attached by manufacturers, or those first placing the mirrors in the channels of trade, shall be attached to the face of each glass in the mirror in such manner as to carry through the ordinary channels of trade to the ultimate purchaser or consumer, thus avoiding the necessity of relabeling or further labeling as to the kind of glass contained in the mirror so long as such original label is clear and remains upon the mirror.

(d) The removal, obliteration or defacement of any label required by this rule to appear upon the face of the mirror, or the sale, resale or distribution of any mirror without a label is hereinabove provided for, with the capacity and tendency or effect of deceptively concealing the kind of glass contained in such mirror, or of otherwise causing such mirror to be offered for sale, sold or purchased under false, misleading or deceptive representations or conditions, is an unfair trade practice.

(e) It is deemed proper practice, in respect to mirrors covered by this rule or products containing such mirrors, for manufacturers, distributors, dealers or other marketers to truthfully identify in their invoices or sales slips to purchasers, and in their catalogs and trade promotional literature, whether the respective mirrors so covered therein are "Plate Glass" or "Window Glass" mirrors. Failure or refusal to make such disclosure or identification when pursued with the capacity and tendency or effect of causing or promoting the sale, resale or purchase of such mirrors or mirror products under conditions of deceptive concealment or other misleading conditions or representations is an unfair trade practice.

(§ 118.7) RULE 7. *Deceptive guarantees.* It is an unfair trade practice to make or publish, or cause to be made or published, directly or indirectly, through advertising, trade or corporate name or otherwise, any false, misleading or deceptive statement, guarantee, warranty or other representation concerning "Silver spoilage", or concerning the backing or silvering, or the life or durability of mirrors.

(§ 118.8) RULE 8. *Misrepresenting "Seconds", etc.* It is an unfair trade practice (a) to offer for sale, sell or distribute lower quality or so-called "seconds" or defective mirrors as and for mirrors of higher grade or quality or as not being such "seconds"; or, (b) to deceptively conceal the fact that the product is defective, thereby causing purchasers to be misled or deceived.

(§ 118.9) RULE 9. *Misuse of terms "Close-outs", "Discontinued lines", etc.* It is an unfair trade practice to advertise, describe or otherwise represent regular lines of merchandise as "Close-outs", "Discontinued lines", or by words or representations of similar import, when such are not true in fact; or to so advertise, describe or otherwise represent merchandise where the capacity and tendency or effect thereof is to lead the purchasing or consuming public to believe such merchandise is being offered for sale and sold at greatly reduced prices or at so-called "bargain" prices, when such is not the fact.

(§ 118.10) RULE 10. *Use of lottery or scheme of chance.* The offering or giving of prizes, premiums or gifts in connection with the sale of industry products, or as an inducement thereto, by any scheme which involves lottery or scheme of chance, is an unfair trade practice.

(§ 118.11) RULE 11. *Substituting inferior products for those ordered.* The practice of using or substituting any products of the industry inferior in grade or quality to that specified by the purchaser, without the consent of said purchaser to such use or substitution or with the tendency and capacity or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.12) RULE 12. *Imitation or simulation of trade-marks, etc.* The imitation or simulation of the trade-marks, trade names, labels or brands of competitors, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.13) RULE 13. *False invoicing.* Withholding from or inserting in invoices any statement or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the effect of thereby misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.14) RULE 14. *Misleading price quotations, etc.* The making, publishing or circulating by any member of the industry of false or misleading price quotations, price lists, terms or conditions of sale, with the tendency and capacity or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 118.15) RULE 15. *Commercial bribery.* It is an unfair trade practice for a member of the industry directly or indirectly to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees or representatives of customers or prospective customers, or to agents, employees or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors.

(§ 118.16) RULE 16. *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor, by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such a manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade.

(§ 118.17) RULE 17. *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies, services or conditions of employment, is an unfair trade practice.

(§ 118.18) RULE 18. *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring or prejudicing competitors in their businesses, is an unfair trade practice.

(§ 118.19) RULE 19. *Inducing breach of contract.* Inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers by any false or deceptive means whatsoever, or interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring or prejudicing competitors in their businesses, is an unfair trade practice.

(§ 118.20) RULE 20. (a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc.*[4] *which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce,[4] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential,[4] where such rebate, refund, discount, credit, or other form of price differential

[2] 1 F.R. 2247.

[3] Code of Federal Regulations section number.

[4] Paragraph (a) of Rule 20 shall not be construed as embracing practices prohibited by paragraphs (b), (c), and (d) of this rule.

effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[4] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[4] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination or with customers of either of them: *Provided, however*—

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[4] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the Industry engaged in commerce[4], in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce[4] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offerings for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce[4] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or by furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[4] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this Rule 20.

§ 118.21 RULE 21. *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm or corporation to aid, abet, coerce or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in these rules.

*Group II*

Compliance with the trade practice provisions embraced in these Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Nonobservance of such rules does not, *per se*, constitute violation of law. Where, however, the practice of not complying with any such Group II rules is followed in such manner as to result in unfair methods of competition, or unfair or deceptive acts or practices, corrective proceedings may be instituted by the Commission as in the case of a violation of Group I rules.

RULE A. The industry recommends that each member thereof comply with Commercial Standard CS 27–36 for Mirrors as promulgated by the National Bureau of Standards, U. S. Department of Commerce.

RULE B. To facilitate protection of the purchasing public it is the judgment and recommendation of the industry that the labels to be used pursuant to Rule 6 of Group I should be of uniform wording, as follows:

For plate glass mirrors—

This mirror is made
of
PLATE GLASS

For window glass mirrors—

This mirror is made
of
WINDOW GLASS

Promulgated and issued by the Federal Trade Commission as of July 19, 1939.

## TITLE 21—FOOD AND DRUGS

### FOOD AND DRUG ADMINISTRATION

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN EGG YOLKS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341); and based upon substantial evidence of record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of frozen egg yolks are eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

The eggs are broken from their shells. The yolks are separated from the whites. The yolks may be mixed, or mixed and strained.

3

The yolks of the eggs are so separated from the whites thereof as to contain not less than 43 percent of total egg solids.

4

Yolks are usually thoroughly mixed in some type of power churn, and this mixture is run through a screen for the purpose of removing any extraneous material.

5

The churned and screened yolks are placed in thirty-pound containers and frozen, usually at a temperature varying from zero to minus fifteen degrees Fahrenheit.

6

A definition and standard of identity for frozen egg yolks based upon a total solids determination sets a maximum limit on the amount of egg white adhering to the yolk and prevents the addition of cheapening ingredients.

7

A method which may be used in determining total egg solids in frozen egg yolks is the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids."

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939[2]]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN EGG YOLKS

§ 42.050 *Frozen yolks, frozen egg yolks—Identity.* Frozen yolks, frozen egg yolks, are the food prepared by freezing egg yolks.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39–2653; Filed, July 19, 1939; 12:16 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED EGG YOLKS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of dried egg yolks are eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

The eggs are broken from their shells. The yolks are separated from the whites.

3

The yolks of the eggs are so separated from the whites thereof as to contain not less than 43 percent of total egg solids.

4

Such yolks are thoroughly mixed in some type of power churn, and this mixture is run through a screen for the purpose of removing any extraneous material.

5

The thoroughly mixed and strained egg yolks are forced through a spray machine under high pressure, so that the liquid yolks enter a chamber in the form of a fine spray. This yolk spray enters at the top of the chamber. Warm, dry air is forced in at the bottom of the chamber, thus drying the spray as it falls, so that it is transformed into a yellow powder. This yellow powder is usually put through a screen in order to remove any lumps that may have accumulated in it, and then packed in suitable containers. When properly carried out, this process results in the preparation of a dried product containing less than 5 percent moisture.

6

Moisture in dried egg yolks are the volatile material found in the sample of dried egg yolks. A method of examination is the method outlined in the book entitled "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, page 297, Sections 2 and 3, "Total Solids."

7

The moisture present in the dried product is obtained by subtracting the figure for total solids from one hundred; and, for the reason that total solids are the basis of such calculation, it is better to fix a standard based upon a minimum total solid content, rather than upon a minimum moisture content.

8

The minimum total solids for dried egg yolks are not less than 95 percent. A method of determination of such total solids is the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids." Such a solid-content requirement corresponds to a minimum 5 percent moisture requirement. When properly dried, egg yolks contain less than 5 percent moisture.

9

Since solids and fats are not exactly related, and since solids are a practical measure of the proper limit of separation of yolks from whites, the dried product should be defined in terms of solid content of yolks used, rather than in terms of fat in the finished product.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939[2]]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED EGG YOLKS

§ 42.060 *Dried egg yolks, dried yolks—Identity.* Dried Egg Yolks, Dried Yolks, are the food prepared by drying egg yolks. They contain not less than 95 percent total egg solids, as determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids."

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39–2654; Filed, July 19, 1939; 12:16 p. m.]

[2] 4 F.R. 3320 DI.

[1] 4 F.R. 3320 DI.

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS EGG YOLKS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of egg yolks are eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

The eggs are broken from their shells. The yolks are separated from the whites. The yolks may be mixed, or mixed and strained.

3

The yolks of the eggs are so separated from the whites thereof as to contain not less than 43 percent of total egg solids.

4

Egg yolks, liquid egg yolks, liquid yolks, are all synonyms for the food product commonly known as egg yolks.

5

A definition and standard of identity for egg yolks or any of its synonyms based upon a total solids determination sets a maximum limit on the amount of egg white adhering to the yolk and prevents the addition of cheapening ingredients.

6

A method which may be used in determining total egg solids in egg yolks or any of its synonyms is the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids".

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS EGG YOLKS

§ 42.040 *Egg Yolks, Liquid Egg Yolks, Yolks, Liquid Yolks—Identity.* Egg Yolks, Liquid Egg Yolks, Yolks, Liquid Yolks, are yolks of eggs of the domestic hen so separated from the whites thereof as to contain not less than 43 percent total egg solids, as determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids." They may be mixed, or mixed and strained.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39-2655; Filed, July 19, 1939; 12:16 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED WHOLE EGGS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing[2] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of dried whole eggs are eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

Dried eggs is a synonym for dried whole eggs.

3

The eggs are broken over an apparatus consisting of a horizontal bar of metal set on edge. Underneath the horizontal bar is a tray with a false bottom, in which is kept a cup into which the broken eggs are placed after the breaking has been accomplished.

4

The eggs are broken from the shells, with yolks and whites in their natural proportions as so broken, and are commonly known as liquid eggs.

5

Liquid eggs are dried by either the so-called "spray-drying" method or the so-called "pan-drying" method.

6

The eggs as dried may be powdered.

7

A definition and standard of identity for dried eggs, dried whole eggs, based upon a total solids determination, sets a limit on the amount of moisture in the product.

8

A method of determining total solids in dried eggs, dried whole eggs, is the method prescribed in the book entitled "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids."

9

A definition and standard of identity for dried eggs, dried whole eggs, based upon a total solids of ninety-two percent, or more, limits the moisture content to not more than eight percent, prevents the addition of excess whites, prevents the sale as dried eggs, dried whole eggs, of an excessively wet product, and is in accord with good commercial practice and consumer understanding.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by Section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and

[1] 4 F.R. 1092 DI.

[2] 4 F.R. 3320 DI.

fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS DRIED WHOLE EGGS

§ 42.030 *Dried Eggs, Dried Whole Eggs—Identity.* Dried eggs, dried whole eggs, are the food prepared by drying liquid eggs. They may be powder. They contain not less than 92 percent total egg solids, as determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fourth Edition, 1935, pages 297 and 298, under "Total Solids."

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39-2656; Filed, July 19, 1939; 12:16 p. m.]

---

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS LIQUID WHOLE EGGS, LIQUID MIXED EGGS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of liquid whole eggs and liquid mixed eggs are the eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

The eggs are broken over an apparatus consisting of a horizontal bar of metal set on edge. Underneath the horizontal bar is a tray with a false bottom, in which is kept a cup into which the broken eggs are placed after the breaking has been accomplished.

3

The eggs are broken from the shells, with yolks and whites in their natural proportions as so broken.

4

The eggs as broken out may be stirred or churned and strained, but, ordinarily, they are sold just as they fall into the can after breaking out.

5

In the breaking process, some of the yolks and whites will be broken and intermingled, and the intermingling of yolks and whites may also occur when they are emptied into thirty-pound containers. It is commercially impracticable to have liquid whole eggs in the sense that all the yolks and whites are unbroken.

6

"Liquid eggs," "fresh broken whole eggs," "fresh broken eggs," "fresh broken mixed eggs," "fresh broken mixed," and "liquid whole eggs" are synonymous terms for the egg product herein described.

7

Liquid whole eggs and liquid mixed eggs are the same product. There is no distinction in commercial practice between the product called liquid whole eggs and the product referred to as liquid mixed eggs, except as to the practice of mixing or straining or not so mixing and straining.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by Section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS LIQUID WHOLE EGGS, LIQUID MIXED EGGS

§ 42.010 *Liquid Eggs, Mixed Eggs, Liquid Whole Eggs, Mixed Whole Eggs—Identity.* Liquid eggs, mixed eggs, liquid whole eggs, mixed whole eggs, are eggs of the domestic hen, broken from the shells, and with yolks and whites in their natural proportions as so broken. They may be mixed, or mixed and strained.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39-2657; Filed, July 19, 1939; 12:17 p. m.]

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY REFUSING TO PROMULGATE A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD COMMONLY KNOWN AS EGGS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon the record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

This matter came on to be heard before John McDill Fox as the Presiding Officer duly appointed, pursuant to public notice, on January 23, 1939, in Room 3036, Department of Agriculture, South Building, Independence Avenue, between Twelfth and Fourteenth Streets, SW., Washington, D. C.

2

Interested persons attended the hearing and entered their appearance on the record.

3

The notice of public hearing having been read and entered on the record, a motion was made by counsel for the Government to close the hearing on eggs without the introduction of evidence. The ground for such motion was that it was deemed more suitable to include within each definition and standard for liquid, frozen, and dried manufactured egg products a definition of the term "eggs" as that word is employed in its relationship to the manufactured product, rather than to establish an individual definition and standard of identity for eggs as a separate food.

4

No interested person desiring to offer evidence and no objection being made to the motion, the motion was granted.

§ 42.000 It is ordered that no regulation be promulgated, fixing and estab-

[1] 4 F.R. 1092 DI.

lishing a reasonable definition and standard of identity for the food commonly known as eggs.

This order shall become effective on the ninetieth day after its issuance and the filing of the same with the Archivist of the United States for publication in the FEDERAL REGISTER.

This the 19th day of July 1939.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

IN THE MATTER OF THE PUBLIC HEARING FOR THE PURPOSE OF RECEIVING EVIDENCE UPON THE BASIS OF WHICH A REGULATION MAY BE PROMULGATED FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR EACH OF THE FOLLOWING FOODS: EGGS, LIQUID WHOLE EGGS, LIQUID MIXED EGGS, FROZEN WHOLE EGGS, DRIED WHOLE EGGS, EGG YOLK, FROZEN EGG YOLK, DRIED EGG YOLK

ORDER OF THE SECRETARY PROMULGATING A REGULATION FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN WHOLE EGGS

Pursuant to, and under and by virtue of, the authority and direction of the Federal Food, Drug, and Cosmetic Act (Sec. 701, 52 Stat. 1055; 21 U.S.C. 371 (e); Sec. 401, 52 Stat. 1046; 21 U.S.C. 341), and based upon substantial evidence of record at the hearing[1] in the above-entitled matter, detailed findings of fact are made, as follows:

*Findings of Fact*

1

Eggs used in the preparation of frozen whole eggs are eggs of the fowl known as *gallus domesticus*, or the barnyard hen.

2

The eggs are broken over an apparatus consisting of a horizontal bar of metal set on edge. Underneath the horizontal bar is a tray with a false bottom, in which is kept a cup into which the broken eggs are placed after the breaking has been accomplished.

3

The eggs are broken from the shells, with yolks and whites in their natural proportions as so broken, and are commonly known as liquid eggs.

4

The liquid eggs may be stirred or churned and strained and placed in containers. The containers are placed in a freezer and the contents thereof are completely frozen.

5

Frozen whole eggs, frozen mixed eggs, and frozen eggs, are all designations and synonyms for the same product.

Other findings suggested by the Presiding Officer are not found because they relate either to standards of quality or to matters governed by section 402 of the act. [cf. Sec. 10.000 (c), General Rules and Regulations Promulgated July 14, 1939.[2]]

Based upon the foregoing findings of fact, a conclusion in the form of a regulation which will promote honesty and fair dealing in the interest of consumers is hereby made and promulgated, as follows:

REGULATION UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT FOR FIXING AND ESTABLISHING A REASONABLE DEFINITION AND STANDARD OF IDENTITY FOR THE FOOD PRODUCT COMMONLY KNOWN AS FROZEN WHOLE EGGS

§ 42.020. *Frozen eggs, frozen whole eggs, frozen mixed eggs—Identity.* Frozen eggs, frozen whole eggs, frozen mixed eggs, are the food prepared by freezing liquid eggs.

It is ordered that the regulation hereby prescribed and promulgated shall become effective on January 1, 1940.

Issued this 19th day of July 1939.

## TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

### VETERANS' ADMINISTRATION

#### REVISION OF REGULATIONS

#### JURISDICTION OF RATING BOARD

§ 2.1005 (E) *Jurisdiction of Rating Board.* If it is decided that an appeal is to be taken by the adjudication officer, the manager, or the chief, claims division in central office cases, the claimant or his representative will be promptly informed concerning the question at issue and concerning his right of appearance or representation before the rating board or the board of veterans appeals. As provided in current adjudication procedure the formal hearing in the field office will be in lieu of a formal hearing before the board of veterans appeals except in the unusual case when a special appearance by the veteran or his representative before the board of veterans appeals may be considered necessary. The hearing will not be accepted to serve as a basis for reversal of the majority decision, but such action as may be indicated will be taken where new and material evidence is submitted or where the further development of evidence would appear to be advisable on information submitted by or in behalf of the claimant. A transcribed record of the hearing will be filed. If, upon being informed of the administrative appeal, the claimant or his representative elects to present additional evidence or argument in support of the administrative appeal, such election will be deemed to be an appeal, and the two appeals will be merged and considered in accordance with the provisions of Sec. 2.1328. (July 20, 1939) (48 Stat. 8; 38 U.S.C. 709)

## TITLE 43—PUBLIC LANDS

### GENERAL LAND OFFICE

STOCK DRIVEWAY REVOCATION ORDER OF MARCH 2, 1939, RESCINDED IN PART

#### WYOMING

JULY 12, 1939.

The departmental order of March 2, 1939, releasing certain described lands in Wyoming from Stock Driveway Withdrawal No. 3, Wyoming No. 1, created by departmental order of October 20, 1917, is hereby rescinded so far as it affects the following-described lands, and the said order of October 20, 1917, is hereby reestablished as to such lands:

*Sixth Principal Meridian*

T. 35 N., R. 73 W.,
sec. 5, SW¼NW¼, SW¼;
sec. 6, N½, N½S½, SE¼SE¼;
sec. 8, NE¼NE¼, W½E½, W½;
aggregating 1,226.09 acres.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

9.91 Aircraft stations.

*Aeronautical and Aeronautical Fixed Stations*

9.101 Service aeronautical station.
9.102 Service aeronautical fixed stations.
9.103 Power.
9.104 Emergency service.

*Airport Control Stations*

9.111 Receiving watch on 3105 kc.
9.112 Airport facilities.
9.113 Service to be rendered.
9.114 Communications.
9.115 Interference.
9.116 Power.

*Flying School Stations*

9.121 Eligibility for station license.
9.122 Limitations of instructional facilities.
9.123 Coordinated use of instructional facilities.
9.124 Use of flying school frequency.
9.125 Supervision by airport control operator.
9.126 Power.
9.127 Frequency assignments non-exclusive.
9.128 Private service prohibited.

*Instrument Landing Stations*

9.141 Basis of grant of facilities.

*Public Aviation Service*

9.151 Stations licensed for public aviation service.
9.152 Extent of service.
9.153 Separation of licenses.
9.154 Requirement for a public aviation service station.

DEFINITIONS

§ 9.1 *Aviation service.* The term "aviation service" means a radiocommunication or special service carried on by aircraft stations, airport control stations, aeronautical stations, aeronautical fixed stations, instrument landing stations, and flying school stations.*†

§ 9.2 *Public aviation service* means a radiocommunication service open to public correspondence (paid or toll messages) to provide public communications to, from, and between aircraft in flight.*†

§ 9.3 *Aircraft station* means a radio station on board any aircraft (either heavier-than-air or lighter-than-air) other than public service aircraft station.*†

§ 9.4 *Scheduled aircraft* means an aircraft regularly flying a fixed route.*†

§ 9.5 *Non-scheduled aircraft* means other than scheduled aircraft.*†

§ 9.6 *Aeronautical station* means a station used primarily for radiocommunication with aircraft stations, but which may also carry on a limited fixed service with other aeronautical stations in connection with the handling of communications relating to the safety of life and property in the air.*†

§ 9.7 *Aeronautical fixed station* means a station used in the fixed service for the handling of point-to-point communications relating solely to actual aviation needs.*†

§ 9.8 *Chain of stations* in the aviation service is a series of coordinated stations operating on frequencies allocated to aviation services in accordance with an approved plan.*†

§ 9.9 *Airport Control Station* means a station provided for furnishing communications limited to actual aviation needs between an airport control tower and aircraft stations in the immediate vicinity of the airport.[1]*†

§ 9.10 *Flying School Station* means a station used for communications pertaining to instruction to students or pilots while in flight.*†

§ 9.11 *Instrument Landing Station* is a special service station for facilitating the landing of aircraft.[2]*†

§ 9.12 *Radio Marker Station* means a station marking a definite location on the ground as an aid to air navigation.[3]*†

§ 9.13 *Public Service Aircraft Station* means a station licensed on board an aircraft for the purpose of carrying on public aviation service.*†

§ 9.14 *Public Service Aeronautical Station* means a land station licensed for communicating with public service aircraft stations for the purpose of carrying on a public aviation service.*†

GENERAL REGULATIONS

*License*

§ 9.21 *License Periods.* The license period for all stations in the aviation service shall be for one year unless otherwise stated in the instrument of authorization. The date of expiration of license for all classes of stations operating in the aviation service, unless otherwise specified, shall be as follows:

(a) Stations in the aviation service, other than aircraft stations and all aviation stations in Alaska, shall be issued to expire March 1 of each year.

(b) Aircraft stations in the aviation service other than in Alaska shall be issued to expire April 1 of each year.

(c) All classes of aviation stations in Alaska shall be issued to expire January 1 of each year.*†

*Sec. 4, 44 Stat. 1163; 47 U.S.C. 84 (f), rules promulgated thereunder continued in effect by Sec. 604, 48 Stat. 1103; 47 U.S.C. 604—Sec. 4 (i), 48 Stat. 1066; 47 U.S.C. 154 (i).

†Adopted by the FCC on July 12, 1939, to become effective August 1, 1939.

[1] Approximately within 30-miles distance or 10 minutes flight of the airport.

[2] May include one or more of the following: glide path transmitter, localizer transmitter, combination glide path and localizer transmitter, approach marker transmitters.

[3] May be any one of several types such as Fan Marker, Inner Marker, outer marker or Z marker. When a marker station is installed as part of an instrument landing system, it will not be separately licensed.

§ 9.22 *Posting station licenses.* The station licenses of stations in the aviation service shall be conspicuously posted at the place where the control operator is located except that in aircraft stations the license may be posted or kept at any convenient easily accessible location in the aircraft.*†

§ 9.23 *Posting operator licenses.* The original license of each station operator shall be conspicuously posted at the place he is on duty, or, in the case of mobile units either the license or verification card must be kept in his personal possession.*†

*Tests*

§ 9.31 *Equipment and service tests authorized for aeronautical and aeronautical fixed stations.* Equipment and service tests as authorized in Sections 2.42 and 2.43 may be conducted provided that the necessary precautions are taken to avoid interference.*†

§ 9.32 *Routine tests.* The licensees of all classes of stations in the aviation service are authorized to make such routine tests as may be required for the proper maintenance of the station provided that precautions are taken to avoid interference with any station. Tests on 3105 and 6210 kilocycles using a regular antenna system can be made only at such times when no interference will be caused and, if in range of an airport control station or Civil Aeronautics Authority station, only after permission is secured from such stations before commencing the tests.*†

*Logs*

§ 9.41 *Information required in station logs.* All stations in the aviation service except aircraft stations must keep an adequate log showing (1) hours of operation, (2) frequencies used, (3) stations with which communication was held and (4) signature of operator(s) on duty.*†

§ 9.42 *Station logs public aviation service.* In addition to all the requirements in Section 9.41 above all stations (both public service aircraft station and public service aeronautical station) in the public aviation service must keep a file of all record communications handled and a list of radiotelephone contacts established.*†

§ 9.43 *Required retention period.* The logs in the aviation service, other than public aviation service, may be destroyed after a period of three months except in those circumstances where retention of the logs for a longer period is specifically provided for in other rules.[4] *†

*Inspections*

§ 9.51 *Availability for inspections.* All classes of stations in the aviation service shall be made available for inspection upon request of an authorized representative of the Federal Government.*†

§ 9.52 *Responsibility of licensee.* It is the responsibility of the licensees of aircraft radio stations to submit their stations for inspection by a representative of the Commission at least once during the license period.*†

*Communications*

§ 9.61 *Methods of identification.* The aircraft name, company number, trip number, official registry number or other identification approved by the Commission may be used in lieu of the call letters; provided that adequate records are maintained to permit ready identification of individual aircraft. Also the name of the city or airport in which other classes of stations are located may be used in lieu of the call letters of the station when using telephony. In the case of stations using telegraphic emissions, the call letters designated in the license shall be used at the end of each sequence of communication to one or more stations.*†

§ 9.62 *Permissible communications.* All stations in the aviation service, except those stations licensed for public aviation service, shall transmit only communications relating to and necessary for aircraft operation and the protection of life and property in the air.*†

§ 9.63 *Priority of aviation communications.* (a) The regular routine communications of stations in the aviation service are essential to the safe operation of aircraft and shall have priority over the public aviation service stations.

(b) The radio operator in charge of the aircraft station shall suspend operations of aviation public service stations when such operations will delay or interfere with messages pertaining to safety of life and property or when ordered to do so by the captain of the aircraft.

(c) The operation of public aviation service stations shall in no way interfere with the radiocommunications of the aviation service.

(d) In cases where the aviation public service aircraft station license is issued to cover auxiliary equipment of the regular aircraft station, public communications shall be restricted to the extent necessary for the safe operation of aircraft as determined by the person in charge of the aircraft.*†

*Frequencies*

§ 9.71 *Frequencies: Distress, calling, and navigation.*

278 kc. Airport control frequency. After January 1, 1941, applicants for renewal of airport control station licenses must specify an ultra high frequency in addition to 278 kc. and provide service on 278 kc. until an ultra high frequency is designated as a substitute for 278 kc. After January 1, 1940, new applicants must apply for an ultra high frequency as well as 278 kc. and provide service on 278 kc. until an ultra high frequency is named as a replacement frequency for 278 kc.

Airport control frequencies for domestic aircraft and airport control stations.[5] [6] 130,860 kc., 131,420 kc., 131,840 kc., 140,100 kc.

333 kc. General calling frequency for aircraft stations operating outside the American continent on trans-oceanic flights.

375 kc. International direction-finding frequency for use outside the continental United States.

414 kc. and 457 kc. Working frequencies exclusively for aircraft on sea flights desiring intermediate frequencies.

500 kc. International calling and distress frequency for ships and aircraft over the seas.

1638 kc. Air navigation frequency, available for aeronautical stations, scheduled and non-scheduled aircraft.

3105 kc.[7] and 6210 kc.[7] National and international aircraft calling and working frequencies primarily for use by non-scheduled aircraft. The use of these frequencies is restricted to communications pertaining solely to aircraft operation and the protection of life and property.

3120 kc. National aircraft working frequency primarily for use by non-scheduled aircraft. The use of this frequency is restricted to communications pertaining solely to aircraft operation and the protection of life and property.

140,100 kc. National calling and working frequency available to non-scheduled aircraft for general communication purposes and to scheduled aircraft stations on a limited basis. The use of this frequency is restricted to communications pertaining solely to aircraft operation and the protection of life and property.[6]

*Miscellaneous maritime frequencies.* Calling and working frequencies of ship telegraph stations may also be assigned to aircraft for the purpose of communicating with coastal stations, ship stations, or between aircraft stations, when aircraft are in flight over the seas; available for A1 and A2 emission.*†

*Aeronautical, Aeronautical Fixed and Aircraft Stations*

§ 9.72 *Chain system map.* Chains will be established as indicated upon a map to be maintained by the Commission and this map will show the location of all stations in the aviation service except aircraft stations authorized by the Federal Communications Commission.*†

§ 9.73 *Frequency assignments to chains.* The frequencies allocated to the several chains are as follows:

(a) *Northern transcontinental chain and feeders (Red).* Available for aircraft and aeronautical stations:

| | | | |
|---|---|---|---|
| 3,147.5 | 3,322.5 | 5,172.5 [8] | 5,662.5 |
| 3,162.5 | 3,372.5 | 5,572.5 | 5, 697.5 [8] |
| 3,172.5 | 3,467.5 | 5,582.5 | 5,825 [8] |
| 3,182.5 | 5,122.5 | 5,592.5 | |

Primary: 140,800 140,940
Secondary: 141,080 141,220

Available for aeronautical fixed stations:

5,310

(b) *Mid-transcontinental chain and feeders (Blue).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 2,906 | 3,088 | 4,952.5 | 5,692.5 |
| 3,062.5 [8] | 4,937.5 | 4,967.5 | 6,520 [10] |
| 3,072.5 | 4,947.5 | 5,652.5 | |

Primary: 141,360 141,500
Secondary: 141,640 141,780

Available for aeronautical fixed stations:

| | | | |
|---|---|---|---|
| 2,720 | 6,510 [10] | 8,015 | Day only |
| 2,732 | 6,520 [11] | 10,125 | Day only |
| 4,110 | 6,530 [10] | 10,855 [8] | Day only |

(c) *Southern transcontinental chain and feeders (Brown).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 2,946 | 3,242.5 | 5,602.5 | 5,672.5 |
| 3,222.5 [13] | 3,257.5 | 5,612.5 | 5,887.5 [13] |
| 3,232.5 | 3,432.5 [8] | 5,632.5 | 6,540 |
| | 4,732.5 | 5,652.5 | |

Primary: 141,920 142,060
Secondary: 142,200 142,340

[4] See also Sec. 2.54 of Part 2, General Rules & Regulations (4 F.R. 2107 DI).

[5] In connection with Sec. 9.71 four frequencies above 130 kc. are set aside as airport control frequencies for domestic aircraft and airport control stations. This allocation does not include all of the frequencies in this band which are available to the aviation service under existing rules. Additional frequencies of this order are allocated in Sec. 9.73 for use by chains and in Sec. 9.78 for public aviation service.

[6] For the time being stations using either frequency modulation or amplitude modulation will be authorized on any of these frequencies. However, the Commission feels that in the interest of safety either one or the other types of modulation must be universally adopted. It is expected that by January 1, 1940, the aviation industry and interested government agencies will be in a position to decide on one system which may then be adopted as a standard system.

[7] 6210 kc. is established as an aircraft calling and working frequency on a world-wide basis by the General Radio Regulations (Cairo Revision 1938), 3105 kc. is allocated for similar purposes in the Western Hemisphere only by the Inter-American Arrangement Concerning Radiocommunications (Habana December 1937). Stations of the Civil Aeronautics Authority stand continuous watch on both of these frequencies; however, continuous watch on 3105 kc. only is required to be maintained by airport control stations.

[8] For the time being stations using either frequency modulation or amplitude modulation will be authorized on any of these frequencies. However, the Commission feels that in the interest of safety either one or the other types of modulation must be universally adopted. It is expected that by January 1, 1940, the aviation industry and interested government agencies will be in a position to decide on one system which may then be adopted as a standard system.

Available for aeronautical fixed stations:

| | | | |
|---|---|---|---|
| 2,612 | 4,690 | 6,540 [12] | 7,700 [8] Day only |
| 2,636 | 4,730 [12] | 6,550 [10] | 10,190 Day only |
| 3,447.5 [12] | 5,365 [14] | 6,560 [10] | 18,360 [8] Day only |

(d) *Eastern continental chain and feeders (Green).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 2,854 | 2,986 | 4,742.5 | 5,707.5 [10] |
| 2,922 | 4,122.5 | 5,652.5 | 6,590 [10] |
| 2,946 | 4,335 [8] | 5,672.5 | |

Primary: 140,240 140,380
Secondary: 140,520 140,660

Available for aeronautical fixed stations:

| | | | |
|---|---|---|---|
| 2,608 | 4,735 [11] | 5,310 | 8,130 [8] Day only |
| 2,748 | 4,740 [11] | 6,590 [10] | 10,865 [8] Day only |
| 4,335 [8] | 4,745 [11] | 6,600 [10] | 11,960 [8] Day only |

(e) *Northwestern continental chain and feeders (Purple).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 2,854 | 3,005 | 4,917.5 | 5,887.5 [13] |
| 2,994 | 3,127.5 | 5,377.5 Day only | |

Primary: 142,900 143,040 [11]
Secondary: 143,180

Available for aeronautical fixed stations:

| | | | |
|---|---|---|---|
| 2,644 | 4,917.5 [11] | 6,490 [10] | 10,855 [8] Day only |
| 2,994 [11] | 5,310 | 8,130 [8] Day only | |
| | | | 10,965 [8] Day only |

(f) *Mid-continental chain and feeders (Yellow).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 3,447.5 | 3,485 | 5,042.5 | 5,682.5 |
| 3,457.5 | 5,032.5 [8] [15] | 5,887.5 [10] | |

Primary: 142,480 142,620 [10]
Secondary: 142,760

Available for aeronautical fixed stations:

| | | | | |
|---|---|---|---|---|
| 2,640 | 4,650 | 5,215 [8] | 8,070 [8] Day only | |
| | | | | 11,910 [8] Day only |

(g) *Southern intercontinental chain and feeders (Orange).* Available for aeronautical and aircraft stations:

| | | | |
|---|---|---|---|
| 2,870 | 5,375 | 8,220 | 16,440 |
| 2,986 [10] | 5,405 Day only | 8,240 [15] | 17,000 [15] |
| 3,082.5 | 5,692.5 | 11,470 [8] [16] | |
| 5,165 [15] | 6,570 | 12,330 | |

Available for aeronautical fixed stations:

| | | | | |
|---|---|---|---|---|
| 2,648 | 5,375 | 8,240 [15] | 12,330 [15] | |
| 2,986 [10] | 6,570 [10] | 9,310 [15] [10] | 16,240 | |
| 3,082.5 | 6,580 [10] | 10,955 [15] [10] | 16,440 [15] | |
| 5,165 [15] | 8,220 [15] | 11,470 [16] [8] | 17,000 [15] | |
| | 143,600 [11] | 143,740 [11] | 143,460 [11] [8] *† | |

[8] Subject to the condition that no interference is caused to existing services and that the operating frequency will be maintained within 0.02 percent of the assigned frequency.

[9] Subject to the condition that no interference is caused to Government stations.

[10] These frequencies assigned for unlimited hours upon the express condition that no interference is caused to the international mobile service.

[11] Subject to the condition that no interference is caused to aeronautical and aircraft stations.

§ 9.74 *Lighter-than-air craft frequencies.* The following additional frequencies may be assigned to lighter-than-air craft and to aeronautical stations serving lighter-than-air craft:

2,930 6,615 11,910 [8] Day only.*†

§ 9.75 *Radio marker station frequency:*

75,000 kc.*†

§ 9.76 *Instrument landing frequencies.* Glide path and localizer:

93,500 kc. 93,900 kc. 94,300 kc. 109,500 kc. 109,900 kc. 110,300 kc.*†

§ 9.77 *Flying School Frequencies:*

33,420 kc. 33,660 kc. 37,860 kc. 39,060 kc.*†

§ 9.78 *Public aviation service frequencies.* The frequencies 143,320 kc. and 143,460 kc. are available experimentally for the development of a domestic public aviation radiotelephone service. The frequencies available to ship telegraph and ship telephone stations are also available to public service aircraft stations on inter-continental or trans-oceanic air routes for the handling of public correspondence in the same manner and to the same extent that they are available to ships of the United States and under restrictions hereinafter provided.*†

§ 9.79 *Day provision.* In all cases wherein the word "day" occurs in connection with operation on a frequency, such use of the word "day" or "day only" shall mean that period of time included between two hours after local sunrise and two hours before local sunset.*†

*Tolerance*

§ 9.81 *Frequency tolerance.* The frequency tolerance of stations in the aviation service shall be as follows:

[12] Day only—not to be used within 300 miles of Canada.

[13] Subject to the condition that no interference is caused to the international service.

[14] Maximum power 50 watts for use east of New York only, subject to the condition that no interference will be caused to agriculture stations in the fixed service or to any station which in the judgment of the Commission has priority on this frequency.

[15] Day only, not to be used within 400 miles of Canada.

[16] These frequencies are assigned upon the express condition that no interference will be caused to the international service of any station which, in the discretion of the Commission may have priority on the frequency, or frequencies with which interference results.

[17] May also be assigned for secondary service under certain conditions.

[18] For use south of Dallas, Texas.

[19] Available for use in the Pacific area only.

[20] For use on routes lying south of the United States only.

[21] Also available for use on any other chain where the frequencies regularly assigned cannot be used due to interference.

| Class of station | Frequency band | Percent tolerance: Equipment before Jan. 1, 1940 | Percent tolerance: Authorized after Jan. 1, 1940 |
|---|---|---|---|
| Aeronautical | Below 6 mc | 0.04 | 0.02 |
| Aeronautical fixed | Below 6 mc | .03 | .01 |
| | Above 6 mc | .02 | .01 |
| Aircraft using frequencies assigned aero. stations. | | .04 | .02 |
| Aircraft frequencies available to ships. | | .05 | .05 |
| Aircraft using other frequencies. | | .04 | .02 |
| Airport control stations. | 278 kc | .10 | .02 |
| Airport control stations using other frequencies. | | | .02 |
| All stations in aviation service using frequencies above 30 mc. | | | .02 |

*†

§ 9.82 *Measurement procedure.* The licensee of each station shall provide for measurement of the station frequency, or frequencies, regularly used in accordance with instructions issued from time to time by the Commission and establish procedure for regular checking. These measurements of station frequency shall be made by means independent of the frequency control of the transmitter and shall be of such an accuracy that the limit of error is within the frequency tolerance allowed the station.*†

*Aircraft Stations*

§ 9.91 *Aircraft stations.* Communications by an aircraft station shall be limited to the necessities of safe aircraft navigation and normally contacts with airport control stations shall not be attempted unless the aircraft is within the control area of the airport.[1]*†

*Aeronautical and Aeronautical Fixed Stations*

§ 9.101 *Service aeronautical station.* Aeronautical stations shall provide nonpublic service without discrimination to all scheduled aircraft the owners of which make cooperative arrangements for the operation and maintenance of the aeronautical stations which are to furnish such service and for shared liability in the operation of stations. In addition, this class of station shall provide reasonable and fair service to nonscheduled aircraft in accordance with the provisions of these rules.*†

§ 9.102 *Service aeronautical fixed stations.* Aeronautical fixed stations are authorized primarily for the handling of communications in connection with and relating solely to the actual aviation needs of the licensees and then only where frequencies are allocated to a chain and cooperative participants upon the basis of equality.*†

§ 9.103 *Power.* Aeronautical or aeronautical fixed stations will not be licensed to use more than 1 kilowatt on the frequencies above 1,500 kilocycles unless on proper showing the Commission shall authorize a greater power, in which event the operating frequency must be maintained within 0.02 percent of the assigned frequency and suitable filters must be embodied in the equipment to limit the frequency band of emission to 5 kilocycles.*†

§ 9.104 *Emergency service.* The licensee of an aeronautical fixed station shall be required to transmit, without charge or discrimination, all necessary messages in times of public emergency which involve the safety of life or property.*†

*Airport Control Stations*

§ 9.111 *Receiving watch on 3105 kc.*[2] The licensee of an airport control station shall without discrimination provide non-public service for any and all aircraft. Such licensee shall maintain a continuous listening watch on the aircraft calling and working frequency 3105 kilocycles, and also be prepared to render a non-public communication service, during all hours of the day and night; provided, however, that upon application therefor the Commission may exempt any station from the requirements of this provision when it appears that in the preservation of life and property in the air the maintenance of a continuous watch by such station is not required.*†

§ 9.112 *Airport facilities.* Only one airport control station will be licensed to operate at an airport.*†

§ 9.113 *Service to be rendered.* Communications of an airport control station shall be limited to the necessities of safe operation of aircraft using the airport facilities or operating within the airport control area[1] and in all cases such stations shall be in a position to render, and shall render, all airport control services.*†

§ 9.114 *Communications* must not be attempted with aircraft beyond the control area of the airport.[1] *†

§ 9.115 *Interference.* The operation of airport control stations in adjacent airport areas shall be on a non-interference basis only. In case of disagreement between adjacent areas, the Commission may specify the arrangements necessary to eliminate interference.*†

§ 9.116 *Power.* (a) Airport control stations using 278 kilocycles will not be licensed to use more than 15 watts power for type A3 emission. (b) Localizer transmitters authorized to use the frequency 278 kilocycles may use power in excess of 15 watts provided that the power is limited so as to not produce a field strength of more than 1500 microvolts per meter at one mile from the transmitter location, in the direction of the maximum field. (c) The power of airport control stations operating on other frequencies shall be limited to 100 watts.*†

*Flying School Stations*

§ 9.121 *Eligibility for station license.* Radiocommunication facilities for flying schools may be assigned only to bona fide flying schools and soaring societies.*†

§ 9.122 *Limitations of instructional facilities.* Assignments will be limited to one station to an airport location for one or more flying schools.*†

§ 9.123 *Coordinated use of instructional facilities.* Where more than one flying school operates from an airport location coordinated use of a single instructional frequency shall be arranged, placed in the form of a signed agreement and filed with the Commission.*†

§ 9.124 *Use of flying school frequency.* All aircraft engaged in instructional flying in the vicinity of an airport shall transmit only on the flying school frequency assigned to that airport location.*†

§ 9.125 *Supervision by airport control operator.* At any airport at which an airport control station or control tower is in operation, the airport control operator must be given a remote microphone connection to the transmitter operating on the flying school frequency for the transmission of orders or instructions of an emergency nature to students in flight within the control area[1] of the airport.*†

§ 9.126 *Power.* The power output of flying school stations shall not be more than 50 watts nor less than 15 watts for land stations and not more than 20 watts for aircraft stations.*†

§ 9.127 *Frequency assignments nonexclusive.* No frequency available to a station engaged in instructional flying will be assigned exclusively to any applicant. All stations in this service are required to coordinate operation so as to avoid interference and make the most effective use of assignments.*†

§ 9.128 *Private service prohibited.* The use of flying school frequencies for other than instruction purposes and promotion of safety of life and property is strictly prohibited.*†

[1] Approximately within 30 miles distance or 10-minutes flight of the airport.

[2] Effective June 10, 1939, the United States Army Air Corps will use 4495 kc. for air to ground communication in lieu of 3105 kc. Any airport station located on an airport used extensively by military aircraft should provide equipment for and stand watch on that frequency (4495 kc.) in addition to and during the same hours as is required for the watch on 3105 kc.

[1] Approximately within 30-miles distance or 10-minutes flight of the airport.

*Instrument Landing Stations*

§ 9.141 *Basis of grant of facilities.* Instrument landing service[2] will not be authorized unless (1) the applicant meets all requirements specified by the Civil Aeronautics Authority and the Federal Communications Commission for the type of installation proposed, (2) the applicant executes a specific agreement to relinquish to the Civil Aeronautics Authority the use of any Government frequencies involved on demand and (3) the applicant executes a specific agreement to release the facilities and remove his equipment if and when such release or removal may be required by the Government.*†

*Public Aviation Service*

§ 9.151 *Stations licensed for public aviation service.* Only those stations in the aviation service licensed for "public aviation service" shall carry on public correspondence, i. e., a paid or toll message service in the sense in which these terms are generally understood.[3] *†

§ 9.152 *Extent of service.* All stations licensed in the public aviation service shall provide such service without discrimination to any other station similarly licensed.*†

§ 9.153 *Separation of licenses.* Each license or other instrument of authorization for aviation public service shall be separate from the aviation service licenses and shall designate the specific frequencies which the station is authorized to use to carry on public correspondence.[3] *†

§ 9.154 *Requirement for a public aviation service station.* Upon showing that a need exists for public aviation service a license or other instrument of authorization may be issued for a station for public correspondence provided that a continuous effective listening watch is maintained on the frequency or frequencies used for the aviation safety service messages while public service messages are being handled; and that the installation and system of operation will permit instantaneous interruption of public aviation communications to transmit or receive aviation service messages.*†

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 39–2660; Filed, July 19, 1939; 12:56 p. m.]

[2] Instrument landing stations may include one or more of the following: glide path transmitter, localizer transmitter, combination glide path and localizer transmitter and approach marker transmitters. The frequencies available are assigned by Executive Order to the Civil Aeronautics Authority and may be made available for non-Government agencies only under specific conditions set forth in this section.

[3] No separate or additional authorization is necessary for licensed coastal or ship stations to communicate with or handle public messages to or from an aircraft in flight over the sea.

## PART 9—RULES AND REGULATIONS GOVERNING AVIATION SERVICES

The Commission, on July 12, 1939, repealed the following rules, to become effective August 1, 1939:

| Rule No.: | *C. F. R. Sec. No.* |
|---|---|
| 243–244, inclusive | 100.01–100.02, inclusive. |
| 244a | 106.04. |
| 245–247, inclusive | 100.03–100.05, inclusive. |
| 247a | 100.09. |
| 248–249, inclusive | 100.06–100.07, inclusive. |
| 249½ | 105.01. |
| 250 | 100.08. |
| 251 | 102.01. |
| 251a | 106.03. |
| 252 | 100.30. |
| 252a | 106.02. |
| 253 | 100.40. |
| 254 | 104.02. |
| 254A | 100.41. |
| 255 | 100.20–100.23, inclusive. |
| 256 | 101.05. |
| 257 | 103.01. |
| 258a | 104.01. |
| 258b | 104.05. |
| 259–260, inclusive | 104.03–104.04, inclusive. |
| 260A | 101.06. |
| 260B | 105.02. |
| 261 | 103.02. |
| 262 | 106.01. |
| 262aA–262aD, inclusive | 101.01–101.04, inclusive. |

By the Commission.

## PART 41—TELEGRAPH AND TELEPHONE FRANKS[1]*†

TABLE OF CONTENTS

DEFINITIONS

Sec.
41.1 Definition of terms as used herein.

GENERAL APPLICATION OF RULES

41.11 Services to which rules apply.
41.12 Persons to whom rules apply.
41.13 Carriers, services, and persons to which rules do not apply.

LIMITATION AND FORM OF ISSUANCE

41.21 Amount of free service permitted.
41.22 Name of person.

ADMINISTRATIVE REGULATIONS

41.31 Records to be maintained and reports to be filed.
41.32 Existing franks not conforming declared void.

DEFINITIONS

§ 41.1 *Definition of terms as used herein.* As used herein—

(a) The term "frank" means any authority which authorizes free, or partially free, service.

(b) The term "family" means the wife, husband, minor children, and other dependents of the officer, employee, or agent permitted to receive and use a frank, but no other person.

[1] Rules Governing Communications Services by Telegraph and Telephone Companies Rendered Free or At Less Than Established Charges.

*Promulgated under the authority contained in Sec. 210, 48 Stat. 1073; 47 U.S.C. 210.

†Adopted by the FCC on July 12, 1939, to become effective August 11, 1939.

(c) The terms "officer", "agent", and "employee" include furloughed, pensioned, and superannuated officers, agents, and employees.*†

GENERAL APPLICATION OF RULES

§ 41.11 *Services to which rules apply.* Franks valid for interstate or foreign telegraph or telephone service may be issued or used and free service may be rendered only in accordance with the following provisions:*†

§ 41.12 *Persons to whom rules apply.* Full time officers, agents, and employees of railroad companies, merchant ship companies, motor bus companies, air transport companies, telephone companies, telegraph companies, sleeping car companies, express companies, and pipe line companies not subject to the Act may, at the discretion of carriers subject to the Act, receive franks authorizing free service or service at less than regularly established rates applicable to the service rendered.*†

§ 41.13 *Carriers, services, and persons to which rules do not apply.* These rules shall not apply to:

(a) Services rendered pursuant to lawful contracts for exchange of services under Section 201 (b) of the Act and which contracts are filed with the Commission, nor to any free service rendered by a cable company pursuant to any obligation of its landing license, nor to any service rendered pursuant to any rule or order issued under the authority transferred by Section 601 of the Act;

(b) Except as hereinafter provided, services rendered in connection with situations involving the safety of life and property, including hydrographic reports, weather reports, reports regarding aids to navigation and medical assistance to injured or sick persons on ships and aircraft at sea, as provided in Section 357 (e) of the Act, or to furnishing of reports of positions of ships at sea to newspapers of general circulation, as provided in Section 201 (b) of the Act;

(c) Free or concession service now or hereafter granted to officers, agents, or employees of common carriers subject to the Act, and to their families.*†

LIMITATION AND FORM OF ISSUANCE

§ 41.21 *Amount of free service permitted.* No franks shall be issued by any carrier authorizing free service to any person on which the published charges would, in the aggregate, exceed $50.00 in any one calendar year; nor shall any person use or attempt to use any frank in any calendar year for free service on which the charges at the duly published rates would, in the aggregate, exceed $50.00.*†

§ 41.22 *Name of person.* Each frank shall be issued by a duly authorized officer of the carrier granting the privilege and shall show the name of the person to whom it is issued; and it shall be valid only for service rendered that person.*†

ADMINISTRATIVE REGULATIONS

§ 41.31 *Records to be maintained and reports to be filed.* Common carriers subject to the Act shall maintain records and file reports as follows:

(a) Each such carrier shall maintain its records in such manner as to reflect at all times the name and address of every person holding a telegraph or telephone frank and the office, employment or relationship held by each such person entitling him to a frank; and each such carrier shall keep such basic records as would enable it, if ordered by the Commission, to compile a statement for the last preceding calendar year prior to such order or for any other period during which it is required by other rules to retain such records, showing the above information together with the number of franked communications handled under each frank during such period and the aggregate charges in dollars which would have accrued to the carrier for all of the free service rendered under each frank during such period if charges for all such communications had been collected at the published tariff rates.

(b) With respect to the communications referred to in Section 41.13 every carrier subject to the Act shall maintain its records in such a manner as to show the number of each class of such communications handled free of charge.

(c) Each such carrier shall maintain its records in such a manner as to show the number of reports of positions of ships at sea furnished to newspapers of general circulation without charge, or at nominal charges, as authorized in Section 201 (b) of the act.*†

§ 41.32 *Existing franks not conforming declared void.* All outstanding franks which do not conform to these rules shall be void after the effective date of these rules.*†

By the Commission.

62.24 Change in status; Commission to be informed.

IN GENERAL

§ 62.1 *Application necessary for authorization.* An order of authorization will be granted only upon application therefor as hereinafter provided.[2] *†

§ 62.2 *Who may make application.* An application for such an order may be made by any person in his own behalf.*†

*Promulgated under the authority contained in Sec. 4 (i), 48 Stat. 1066; 47 U.S.C. 154 (i)—Sec. 212, 48 Stat. 1074; 47 U.S.C. 212.

†Adopted by the FCC on July 12, 1939, to become effective Sept. 1, 1939.

[1] "These regulations shall apply to any person authorized by or undertaking for each of two or more carriers to perform the duties, or any of the duties, ordinarily performed by a director, president, vice president, secretary, treasurer, general counsel, general solicitor, general attorney, comptroller, general auditor, general manager, general commercial manager, chief engineer, general superintendent, general land and tax agent, or chief purchasing agent." Order 8, FCC Dec. 7, 1934.

[2] "Every person who desires to hold the position of officer or director of more than one carrier subject to the Communications Act of 1934, shall, on or before December 15, 1934, file with the Federal Communications Commission application for such authority in conformity with 'Regulations Governing Applications Under Section 212 of the Communications Act of 1934 to Hold the Positions of Officer or Director of More Than One Carrier Subject to the Act,' as adopted by the Federal Communications Commission at a general session thereof on October 9, 1934, and amended November 2, 1934.

"*It is further ordered*, That any authority herein or heretofore granted by which any person is authorized to hold the position of officer or director of more than one carrier subject to the Communications Act of 1934 shall automatically expire on the 17th day of December, 1934, unless such person shall have filed application for authority to hold such position of officer or director of more than one carrier subject to the Act in conformity with the last preceding paragraph hereof." Order 7, F.C.C., Nov. 2, 1934.

"*It is ordered*, That persons who did, on or before December 15, 1934, file personal application with the Commission for authority to hold the positions of officer or director of more than one carrier, under Section 212 of the Act and orders and regulations of the Commission, are authorized to hold the positions of officer or director of more than one carrier pending final order by the Commission on their respective applications, subject to all of the limitations set out in orders heretofore issued." Order 10, F.C.C., Dec. 21, 1934.

CONTENTS OF APPLICATION

§ 62.11 *Information required by application.* Each application shall state the following:

(a) The full name, occupation, business address, place of residence, and post-office address of the applicant.

(b) A specification of every carrier of which the applicant holds stock, bonds, or notes, individually, as trustee, or otherwise; and the amount of, and an accurate description of the securities owned or held by the applicant, of each carrier for which authority to act is sought. Whenever it is intended to represent on the board of directors of any carrier securities other than those owned by the applicant the application shall describe such securities, state the character of representation, the name of the beneficial owner or owners and the general nature of the business conducted by such owner or owners.

(c) Each and every position with any carrier which is held by the applicant at the time of the application, and which he seeks authority to hold, together with the date and manner of his election or appointment thereto and, if he has entered upon the performance of his duties in any such position, the nature of the duties so performed and the date when he first entered upon their performance.

(d) As to each carrier covered by the requested authorization, whether it is (1) an operating carrier, (2) a lessor company, or (3) any other person or corporation organized for the purpose of engaging in communication by wire or radio subject to the Act. If any such carrier neither operates nor owns any apparatus nor provides service for communication by wire or radio, which is subject to the Act, there shall be filed with the application, as a part thereof, a copy of such carrier's charter or certificate or articles of incorporation, with amendments to date. When such copy has once been filed with the Commission, reference thereto, with amendments, if any, will suffice.

(e) A full statement of pertinent facts relative to any carrier which does not make annual reports to the Commission, authorization for a position with which is sought.

(f) Full information as to the relationship, operating, financial, competitive or otherwise, existing between the carriers covered by the requested authorization.

(g) Every business corporation—industrial, financial, or other—of which the applicant is an officer or director, trustee, receiver, attorney or agent and also every corporation engaged in communications or in furnishing equipment, supplies, research, services, finances, credit, or personnel, directly or indirectly, to any communication company in which the applicant has a financial interest, together with the general character of the business conducted by such corporation, and the amount and description of the applicant's interest.[1]

(h) Whether or not, since August 18, 1934, the applicant has, as director or officer of any carrier subject to the Act, received for his own benefit, directly or indirectly, any money or thing of value in respect of negotiation, hypothecation, or sale of any securities issued or to be issued by such carrier, or has shared in any of the proceeds thereof, or has participated in the making or paying of any dividends of such carrier from any funds properly included in capital account. If the answer to this question is in the affirmative, the applicant shall state the amount or amounts received from such transaction or transactions, and the reasons to justify such payment or payments.

(i) The reasons, fully, why the granting of the authority sought will not affect adversely either public or private interests.

(j) Whether or not any other application for similar authority has been made by the applicant and, if so, the date and docket number thereof, and the action thereon, if any.*†

ADMINISTRATIVE REGULATIONS

§ 62.21 *Information in previous applications; incorporated by reference.* When application has been made by any person, a subsequent application by him need not repeat every statement contained in the previous application but may incorporate the same by appropriate reference.*†

§ 62.22 *Signature; verification.* The original application shall be signed by the individual applicant, and shall be verified under oath in substantially the following form:

STATE OF ----------;
*County of,* ---------- *ss:*
---------- makes oath and says that ----------
holds no position as officer or director of any carrier or other business corporation except as indicated in the foregoing application, and that all of the statements contained therein are true and correct to the best of ------ knowledge and belief.

---
(Signature of Applicant)

Subscribed and sworn to before me, a ---------- in and for the State and County above named, this ------ day of ----------, 19--.

[SEAL]

My commission expires ----------.*†

§ 62.23 *Form of application; number of copies; size of paper, etc.* The original application and six copies thereof shall be filed with the Commission. Each copy shall bear the dates and signatures that appear on the original and shall be complete in itself, but the signatures in the copies may be stamped or typed and the notarial seal may be omitted. The application shall be submitted in typewritten or printed form, on paper not more than 8½ inches wide and not more than 11 inches long, with a left-hand margin of 1½ inches, and if typewritten, the impression must be on only one side of the paper and must be double spaced.*†

§ 62.24 *Change in status; Commission to be informed.* Should any change occur in the situation as reported under Sec. 62.11 above the applicant shall report such change to the Commission in the same manner and with the same number of copies as the original within thirty days after such change occurs.*†

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 39-2664; Filed, July 19, 1939; 12:57 p. m.]

[1] "The Commission will regard the following as substantial compliance with the showing required by Sec. 62.11 (g): (1) if the applicant is an officer, director, trustee, receiver, attorney or agent of any business corporation he must make a complete disclosure of such position and state the general character of the business conducted by such corporation; and (2) if the applicant has a financial interest in any corporation furnishing equipment, supplies, research, services, finances, credit or personnel, directly or indirectly, to any communication company, he must make a complete showing of his interest and state the general character of the business conducted by such corporation, only in cases where five per cent or more of such corporation's annual gross business consists of furnishing equipment, supplies, research, services, finances, credit, and/or personnel, directly or indirectly to communications companies. If the applicant holds a position named in (1) in a corporation described in (2), he must make the disclosures called for in both (1) and (2).

"Regularly licensed and practicing attorneys will not be required under number (1) above to show clients represented by them, unless such client corporations are engaged in conducting a communications service as a common carrier or come within the description in number (2) above." News Release, F.C.C., Nov. 15, 1934.

## PART 62—RULES GOVERNING APPLICATIONS UNDER SEC. 212 TO HOLD INTERLOCKING DIRECTORATES

The Commission, on July 12, 1939, repealed Orders Nos. 4 and 6 (CFR Secs. 200.01–200.02, 201.01, and 202.01–202.04), effective September 1, 1939.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 39-2665; Filed, July 19, 1939; 12:57 p. m.]

# TITLE 49—TRANSPORTATION AND RAILROADS

## INTERSTATE COMMERCE COMMISSION

[No. 3666]

IN THE MATTER OF REGULATIONS FOR TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

*Decided July 11, 1939*

Application for authority to construct for experimental service in the transportation of petroleum products ten tank-car tanks fabricated by fusion-welding granted.

*Victor Willoughby* for American Car & Foundry Company.

SUPPLEMENTAL REPORT OF THE COMMISSION[1]

*Alldredge, Commissioner:*

In our several prior reports we granted upon applications therein considered authority to build and use for experimental transportation of dangerous articles other than explosives a total of 707 tank cars to be equipped with tanks fabricated by fusion-welding but otherwise conforming to I.C.C. shipping container specifications.

By application filed with the Association of American Railroads under date of January 9, 1939, and transmitted to us, we are asked to authorize the American Car & Foundry Company to construct for use in the transportation of petroleum products ten (10) test cars conforming to current I.C.C. shipping container specification 103 for tank cars, except that tanks will be fabricated by fusion welding instead of riveting. Attachment of tanks to underframes will be by riveting conforming to the specification.

This is the first application received for authority for experimental fusion welding and use of tank cars of I.C.C. specification 103 type for petroleum products. Petroleum products having the character of those authorized by our regulations[2] to be moved in tank cars of specification 103 type with riveted steel tanks and riveted anchors are described in paragraphs 235 and 243 of the regulations.

Application and accompanying drawings provide for tanks having capacity of 8,000 gallons each. Construction will be in accordance with effective regulations and proposed I.C.C. specification 103–W, filed as an exhibit at the hearing herein, and all features of design and construction of the cars have been passed upon as satisfactory by the Committee on Tank Cars and Bureau of Explosives of the Association. Reports required by previous authorities granted for fusion welded test cars show that two hundred forty-one of the cars have been constructed and in service for about seven thousand trips over a total of approximately six million miles of safe transportation. Approval is recommended by the Association as necessary for obtaining results of trials with least possible delay, adequate cars in each of the authorized services being considered necessary for complete test of fusion-welded equipment.

Upon further consideration of the record and in the light of added facts disclosed in the instant application, the

[1] Under the authority of section 17 (6) of the Interstate Commerce Act, the above-entitled matter was referred by the Commission to Commissioner Alldredge for consideration and disposition.

[2] 4 F.R. 1017 DI.

construction and use of ten tanks of tank cars, of specification 103 type, is forthwith authorized, provided that tanks may be fusion welded instead of riveted, and must be constructed and marked in compliance with proposed revised I. C. C. specification 103–W, filed as an exhibit at the hearing and referred to in our prior reports; cars to be used in service tests in the transportation of petroleum products authorized by our regulations to be carried in tank cars of specification 103 type.

In all other respects the regulations for the transportation of dangerous articles herein referred to are and shall remain in full force and effect.

Owners or operators of cars, where construction is authorized herein, shall make semiannual inspection of the tanks and report their condition to the same parties as receive reports required by I. C. C. specification 103.

By the Commission, Commissioner Alldredge.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 39–2648; Filed, July 19, 1939; 10:09 a. m.]

## *Notices*

## DEPARTMENT OF THE INTERIOR.

### Bituminous Coal Division.

[General Docket No. 15]

IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES AND MARKETING RULES AND REGULATIONS: IN RE MINIMUM PRICES AS COORDINATED FOR DISTRICTS NOS. 1 TO 20, INCLUSIVE, 22 AND 23

AN ORDER SUPPLEMENTING AN ORDER DATED JULY 15, 1939, PERTAINING TO PROCEDURE IN RESPECT TO THE FINAL HEARINGS IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES FOR COALS PRODUCED IN DISTRICTS NOS. 1 TO 8, INCLUSIVE, DISTRICTS NOS. 9 TO 15, INCLUSIVE, DISTRICTS NOS. 16 TO 20, INCLUSIVE, 22 AND 23

The Director of the Bituminous Coal Division, Department of the Interior, having issued an order dated July 15, 1939,[1] pertaining to procedure in respect to the final hearings in the matter of the establishment of minimum prices for coals produced in Districts Nos. 1 to 8, inclusive, Districts Nos. 9 to 15, inclusive, Districts Nos. 16 to 20, inclusive, 22 and 23, and it appearing that the procedure as contained in said order should be supplemented as hereinafter provided,

Now, therefore, it is ordered:

1. Any party filing a protest to proposed coordinated minimum prices as published shall file 12 copies but shall not be required to serve a copy thereof upon interested parties appearing in General Docket No. 15. A copy of all protests will be available for inspection at the offices of the Division in Washington, D. C.

2. At the aforesaid hearings commencing July 24, 1939, affirmative evidence will be received in the following order:

(a) Evidence on behalf of the Bituminous Coal Division.

(b) Evidence on behalf of Bituminous Coal Producers Boards.

(c) Evidence on behalf of producers protesting prices contained in proposed price schedules.

(d) Evidence on behalf of political subdivisions.

(e) Evidence on behalf of consumers.

(f) Evidence on behalf of other interested parties.

3. Twelve copies of each brief shall be filed within fifteen days after the close of the taking of evidence on proposed coordinated minimum prices. No brief will be received unless it complies with Rules XII and XXII of the "Rules of Practice and Procedure before the Commission",[2] except that service shall be made only as directed by the presiding officer. A copy of all briefs will be available for inspection at the offices of the Division in Washington, D. C., and any party filing a brief shall furnish a copy thereof to any party to General Docket No. 15 upon request. No brief containing more than fifty pages, exclusive of proper exhibits, shall be filed unless consent is first obtained from the Director or presiding officer.

4. Any party desiring oral argument shall file a petition requesting such argument, stating specifically the points upon which he desires to be heard, within three days after the close of the taking of evidence. Argument on behalf of any party shall not exceed thirty minutes unless, upon good cause shown, the presiding officer shall otherwise order. The allotted time shall not be transferable. Oral argument will be heard as soon as possible after the close of the taking of testimony and the order of the hearing of argument shall be fixed by the examiners.

5. The findings and recommendations of the trial examiners designated for the aforesaid hearings shall be filed with the Director, copies of such findings shall be mailed to each party in interest in the proceedings in General Docket No. 15, to each District Board, to the Director, Consumers' Counsel Division, Office of the Solicitor, Department of the Interior, and shall be made available for inspection at the Statistical Bureaus, and published in the FEDERAL REGISTER.

6. Exceptions to the findings and recommendations of the trial examiners may be filed with the Director of the Bituminous Coal Division within fifteen days after such findings and recommendations are mailed as provided in Paragraph 4 above: *Provided, however*, That parties residing within Districts Nos. 16 to 20, inclusive, 22 and 23 may file such exceptions within twenty days from the date of such mailing. Any party to any phase of the proceeding in General Docket No. 15 may also file with the Director within the time provided for the filing of exceptions:

(a) A brief in support of his exceptions.

(b) A request that the findings and conclusions of the National Bituminous Coal Commission on any phase of the matters included in General Docket No. 15 be reviewed by the Director, which request shall be accompanied by a specific statement of the points as to which review is desired and the contentions of the parties, and may be accompanied by a brief in support thereof.

(c) A request for oral argument before the Director which shall specifically enumerate the points to which oral argument will be addressed and set forth the amount of time desired.

Service of the aforesaid exceptions, briefs and requests shall not be required as provided by Rule XXII of the "Rules of Practice and Procedure before the Commission." Copies of the same will be available for inspection by interested parties at the offices of the Division, 734 15th Street NW., Washington, D. C., and any party filing a brief shall furnish a copy thereof to any party to General Docket No. 15 upon request.

7. In accordance with the provisions of Order No. 1399 of the Secretary of the Interior, which was published in the FEDERAL REGISTER in its issue of July 12, 1939, at page 2947, and in the manner and to the extent provided by the Bituminous Coal Act of 1937, the findings and conclusions of the Director shall be final and the order or orders predicated thereon shall establish the effective minimum prices for all coals subject to the Act.

8. If any provision of this order conflicts with any provision of the "Rules of Practice and Procedure before the Commission" heretofore adopted and ratified, the provisions of this order shall govern.

Dated at Washington, D. C., this 19th day of July, 1939.

H. A. GRAY, *Director.*

[F. R. Doc. 39–2646; Filed, July 19, 1939; 10:27 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of July 1939.

[1] 4 F.R. 3331 DI.

[2] 3 F.R. 1840 DI.

[File No. 1–1378]

IN THE MATTER OF SEDALIA WATER COMPANY 7% CUMULATIVE PREFERRED STOCK, PAR VALUE $100

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

The St. Louis Stock Exchange, pursuant to Section 12 (d) of the Securities Exchange Act of 1934, as amended, and Rule X–12D2–1 (b) promulgated thereunder, having made application to strike from listing and registration the 7% Cumulative Preferred Stock, Par Value $100, of Sedalia Water Company; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

*It is ordered*, That the matter be set down for hearing at 10 A. M. on Monday, August 14, 1939 at the office of the Securities and Exchange Commission, 105 West Adams Street, Chicago, Illinois, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

*It is further ordered*, That Henry Fitts, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of July, A. D. 1939.

[File No. 56–44]

IN THE MATTER OF INTERNATIONAL UTILITIES CORPORATION, GENERAL WATER GAS & ELECTRIC COMPANY, SECURITIES CORPORATION GENERAL

ORDER CONSENTING TO WITHDRAWAL OF APPLICATION UNDER PUBLIC UTILITY HOLDING COMPANY ACT OF 1935 PURSUANT TO REQUEST OF APPLICANT

International Utilities Corporation, a registered holding company, having filed an application pursuant to Rule U–12D–1 with regard to the sale of certain shares of the preferred and common stock of Community Power and Light Company, constituting in each case less than 5% of the outstanding voting securities, to Russell B. Stearns and Morris La Croix;

The applicant having requested permission to withdraw said application; and the Commission, being of the opinion that upon the facts as set forth in the above mentioned application approval of such sale is not required under Section 12 (d) or Rule U–12D–1, hereby consents to the withdrawal of the above named application, and to that effect

It is so ordered.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 39–2652; Filed, July 19, 1939; 11:52 a. m.]

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 19th day of July, A. D. 1939.

[File No. 31–62]

IN THE MATTER OF JERSEY CENTRAL POWER & LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 2 (a) (8) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on August 8, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before August 2, 1939.

The matter concerned herewith is in regard to an application by Jersey Central Power & Light Company, seeking an order to the effect that it is not a subsidiary company within the terms of the Public Utility Holding Company Act of 1935. The application, as amended, shows that the common stock, in the amount of 341,350 shares, is owned by New Jersey Power & Light Company, a subsidiary of NY PA NJ Utilities Company, a registered holding company, and that the balance (except for the amount necessary to qualify directors) amounting to 712,411 shares, is owned of record by New York Trust Company, as trustee. The common stock is the sole voting stock of applicant. The application reveals that two of the nine directors of applicant are officers of associate companies of New Jersey Power & Light Company, and that two additional directors of applicant are employees of New York Trust Company. The application, without further disclosure of facts, states that the management and policies of the applicant are not subject to a controlling influence, directly or indirectly, by New Jersey Power & Light Company or by New York Trust Company, so as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that the applicant be subject to the obligations, duties and liabilities imposed upon subsidiary companies of holding companies.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

## UNITED STATES CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS, SATURDAY, JULY 15, 1939

*Important.* Although the apportioned classified civil service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his State of original residence. Certifications of eligibles are first made from States which are in arrears.

JUL 24 1939

| State | Number of positions to which entitled | Number of positions occupied |
|---|---|---|
| **IN ARREARS** | | |
| 1. Virgin Islands | 9 | 0 |
| 2. Puerto Rico | 618 | 42 |

### FARM SECURITY ADMINISTRATION

[Administration Order 246 (Rev. 1) [1]]

AUTHORITY TO APPROVE THE SALE OF STATE RURAL REHABILITATION CORPORATION SURPLUS REAL PROPERTY

JULY 20, 1939.

I. The Administrator of the FARM SECURITY ADMINISTRATION is hereby authorized to approve the sale of state rural rehabilitation corporation (managed or transferred in trust) surplus tracts of land and the improvements thereon, and to execute in behalf of the United States of America or of a state rural rehabilitation corporation the necessary documents in connection with such sales, provided that no tract of more than 260 acres may be sold under this authorization.

II. The Administrator may redelegate this authority.

## TITLE 14—CIVIL AVIATION

### CIVIL AERONAUTICS AUTHORITY

[Amendment 19 of Civil Air Regulations]

ELIMINATION OF THE USE OF OATHS ON DOCUMENTS REQUIRED BY CIVIL AIR REGULATIONS

At a session of the Civil Aeronautics Authority held at its office in Washington, D. C., on the 18th day of July 1939.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, particularly sections 205 (a), 601 (a) and 608 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under said Act, the Civil Aeronautics Authority hereby amends the Civil Air Regulations as follows:

Effective August 17, 1939, the Civil Air Regulations are amended as follows:

1. By amending section 01.440 to read as follows:

"01.440 The manufacturer shall furnish with each aircraft or component a certified statement that the article in question has been manufactured in accordance with the authenticated data forming a part of said type certificate except for any deviations therefrom, which shall be listed and described. In the case of aircraft such statement shall also certify the weight empty."

2. By striking the phrase "his affidavit" insection 01.76 and inserting in lieu thereof the phrase "a certified statement."

3. By amending section 04.0530 to read as follows:

"04.0530 *Statement of conformity.* The manufacturer shall present to a designated inspector of the Authority a certified statement of conformity, upon a form to be supplied by the Authority, in which his chief engineer or other responsible technical representative shall certify that the airplane submitted for type inspection has been manufactured in accordance with the latest technical data submitted to and approved by the Authority (including all revisions and additions required by the Authority in connection with authorization of the type inspection) except for any deviations therefrom, which shall be listed and described."

4. By striking the phrase "an affidavit" in section 13.201 and inserting in lieu thereof the phrase "a certified statement."

5. By amending section 13.205 to read as follows:

"13.205 (f) A detailed certified report of a 10-hour flight test of the engine. This test shall include a climb at full throttle to 15,000 feet or to the service ceiling of the airplane. The report shall completely describe the test and the results thereof and shall include dates, the names of persons involved and particulars of the airplane. The engine used for this test may be the same engine as submitted for the endurance test or may be another engine of the same type."

6. By striking the word "sworn" in sections 13.4, 13.620 and 14.520 and inserting in lieu thereof the word "certified."

7. By amending section 14.203, as amended, to read as follows:

"14.203 (d) A complete log certified to by the person making the test or signed by a witnessing inspector of the Authority, at the discretion of the Authority, describing the manufacturer's tests of the propeller in accordance with §§ 14.21 or 14.22, as the case may be. The log shall include a detailed record of the test with dates; names of persons involved; name and model number of engine, or name, model number, and identification mark of the airplane issued by the Civil Aeronautics Authority; and hours of testing with corresponding engine speeds. The report shall also include the results of a detailed inspection of the propeller after the test in accordance with § 14.23."

8. By striking the phrase "supported by affidavit" in sections 15.1080, 15.1241 and 15.306 and inserting in lieu thereof the phrase "certified to."

9. By amending section 18.7222 to read as follows:

"18.7222 Only structural parts approved by the Authority shall be used in making replacements in certificated engines, and the repair agency shall furnish the owner a certified statement showing that the parts used are approved. This statement shall be pasted in and shall become a part of the engine log book."

10. By striking the phrase "subscribed under oath" in sections 20.31, 21.21, 23.21, 25.21, 26.21, 27.21 and 50.21.

11. By amending section 20.670 to read as follows:

"20.670 *General.* Every certificated pilot and every person receiving flying instruction shall keep an accurate record of his flying time in a log-book in which the entries with respect to solo flying time have been certified to by him and the entries with respect to dual instruction have been certified to by his certificated instructor. Log-books shall be bound records and the entries shall be accurate, legible, in ink or indelible pencil, and so arranged as to facilitate easy reference thereto."

12. By amending section 21.440 to read as follows:

"21.440 *General.* Every certificated airline transport pilot shall keep an accurate record of his flying time in a log-book in which the entries as to solo flying time have been certified to by him and the entries as to instruction have been certified to by his instructor. Log-books shall be bound records and the entries shall be accurate, legible, in ink or indelible pencil, and so arranged as to facilitate easy reference thereto."

13. By striking the phrase "subscribed under oath" in section 24.21, as amended.

14. By striking the phrase "under oath subscribed" in section 24.25, as amended, and inserting in lieu thereof the phrase "certified to."

By the Authority.

[SEAL] PAUL J. FRIZZELL, *Secretary.*

## TITLE 17—COMMODITY AND SECURITIES EXCHANGES

### SECURITIES AND EXCHANGE COMMISSION

SECURITIES ACT OF 1933

REVISION OF RULE S-930 (B)

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, as amended, particularly Section 19 (a) thereof [C. 38, sec. 19, 48 Stat. 85; C. 404, sec. 209, 48 Stat. 908; 15 U.S.C. 77s], and deeming such action necessary to carry out the provisions of the Act and necessary and appropriate in the public interest and for the protection of investors, hereby amends paragraph (b) of Rule S-930 [Sec. 230.S-930] to read as follows:

(b) In the case of statements which become effective pursuant to Section 8 (a) [C. 38, sec. 8, 48 Stat. 79; 15 U.S.C. 77h] on the twentieth day after the filing thereof, the twentieth day shall be deemed to begin at the expiration of nineteen periods, of twenty-four hours each, from 4:30 p. m. Eastern Standard Time on the date of filing.

The foregoing action of the Commission shall become effective on July 20, 1939.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 39-2672; Filed, July 20, 1939; 10:54 a. m.]

## TITLE 24—HOUSING CREDIT

### FEDERAL SAVINGS AND LOAN SYSTEM

AMENDMENT TO RULES AND REGULATIONS FOR THE FEDERAL SAVINGS AND LOAN SYSTEM

PROVIDING A METHOD FOR CREDITING VOLUNTARY RETIREMENTS OF INVESTMENTS IN FEDERAL SAVINGS AND LOAN ASSOCIATIONS BY THE SECRETARY OF THE TREASURY AND HOME OWNERS' LOAN CORPORATION

*Be it resolved,* That subsection (d) of Section 203.8 of the Rules and Regulations for the Federal Savings and Loan System is amended, effective July 20, 1939, to read as follows:

"(d) *Retirement of investments by the Secretary of the Treasury or Home Owners' Loan Corporation.* Retirement of investments by the Secretary of the Treasury or by Home Owners' Loan Corporation in Federal associations may be effected in accordance with procedure and using forms approved by the Board, which procedure and forms may be obtained from the Federal home loan bank of which the Federal association is a member. No request for the privilege of retiring investments by the Secretary of the Treasury will be approved by the Board unless such request is received by the Board at its office in Washington, D. C., within 30 days subsequent to the last preceding dividend date, accompanied by a check, postal money order, or bank draft in the amount of the investment sought to be retired, together with any dividends declared but unpaid, on such investment to the last preceding dividend date. Any Federal association may request from time to time the voluntary repurchase of investments by the Secretary of the Treasury and by Home Owners' Loan Corporation in the same order as applications for repurchase of such investments may be made by the

[1] 4 F.R. 2410 DI.

Secretary of the Treasury and Home Owners' Loan Corporation under subsection (j) of Section 5 and subsection (n) of Section 4 of Home Owners' Loan Act of 1933, as amended. All such voluntary repurchases will be deducted from the next succeeding requests for repurchase which the Secretary of the Treasury or Home Owners' Loan Corporation is permitted by law to make." (Sec. 5 (a) of H.O.L.A. of 1933, 48 Stat. 132, Sec. 5 (j) of H.O.L.A. of 1933, as added by Sec. 5, 48 Stat. 645, Sec. 4 (n) of H.O.L.A. of 1933, as added by Sec. 17 (a), 49 Stat. 297; 12 U.S.C. 1464 (a), (j), 12 U.S.C., Sup., 1463 (n)).

*Be it further resolved*, That this amendment is deemed to be of a procedural character within the provisions of subsection (c) of Section 201.2 of the Rules and Regulations for the Federal Savings and Loan System.

Adopted by the Federal Home Loan Bank Board on July 20, 1939.

[SEAL] H. CAULSEN,
*Assistant Secretary.*

## HOME OWNERS' LOAN CORPORATION

AMENDMENT TO RULES AND REGULATIONS FOR INVESTMENT BY HOME OWNERS' LOAN CORPORATION IN SECURITIES OF SAVINGS AND LOAN ASSOCIATIONS.

PROVIDING A METHOD FOR CREDITING VOLUNTARY RETIREMENTS OF INVESTMENTS IN SAVINGS AND LOAN ASSOCIATIONS BY HOME OWNERS' LOAN CORPORATION.

*Be it resolved*, That paragraph (b) of Section 58 of the Rules and Regulations for Investment by Home Owners' Loan Corporation in Securities of Savings and Loan Associations is amended, effective July 20, 1939, to read as follows:

"(b) Any institution may request from time to time the voluntary retirement of investments held by Home Owners' Loan Corporation in the same order as applications for retirement of such investments may be made by Home Owners' Loan Corporation under subsection (n) of Section 4 of Home Owners' Loan Act of 1933, as amended. All such voluntary retirements will be deducted from the next succeeding requests for retirement which Home Owners' Loan Corporation is permitted by law to make." (Sec. 4 (k) of H.O.L.A. of 1933, 48 Stat. 132, Sec. 4 (n) of H.O.L.A. of 1933, as added by Sec. 17 (a), 49 Stat. 297; Sec. 5 (j) of H.O.L.A. of 1933, as added by Sec. 5, 48 Stat. 645; 12 U.S.C. 1463 (k), 1464 (j), 12 U.S.C., Sup., 1463 (n)).

Adopted by the Federal Home Loan Bank Board on July 20, 1939.

[SEAL] H. CAULSEN,
*Assistant Secretary.*

## TITLE 30—MINERAL RESOURCES

### BITUMINOUS COAL DIVISION

[Order No. 280]

AN ORDER REQUIRING EACH DISTRICT BOARD TO FILE ANNUAL BUDGET PROPOSALS

Pursuant to Act of Congress entitled "An Act to regulate interstate commerce in bituminous coal, and for other purposes" (Public, No. 48, 75th Cong., 1st Sess.), known as the Bituminous Coal Act of 1937, it is ordered:

1. That the budget year for each District Board shall begin September 1 and end August 31.

2. That on or before August 1 of each year each District Board shall file with the Division for approval, disapproval or modification and approval, a proposed budget of the expense of administering the code by the District Board during the next budget year.

3. That subsequent to September 1, 1939, no District Board shall levy or require any code member to pay an assessment unless the budget for the current fiscal year has been approved, or the levy of an assessment has been specifically authorized.

Dated at Washington, D. C., this 19th day of July, 1939.

H. A. GRAY,
*Director.*

## *Notices*

## DEPARTMENT OF THE INTERIOR.

### Bituminous Coal Division.

[Docket No. 821-FD]

IN THE MATTER OF THE APPLICATION OF BELLEVILLE FUELS, INC., FOR PROVISIONAL APPROVAL AS A MARKETING AGENCY

NOTICE OF AND ORDER FOR HEARING

An application, pursuant to Section 12 of the Bituminous Coal Act of 1937, and pursuant to Order No. 6[1] of the National Bituminous Coal Commission, which order has been adopted and ratified as an order of the Bituminous Coal Division, having been duly filed with the Bituminous Coal Division by the above-named party;

*It is ordered*, That a hearing on such matter be held on August 9, 1939, at 10 o'clock, in the forenoon of that day at the hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

*It is further ordered*, That Edward J. Hayes or any other officer or officers of the Bituminous Coal Division designated by the Director thereof for that purpose shall preside at the hearing in such matter. The officer or officers so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, to examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given, To such applicant and to any other person who may have an interest in such proceedings. Any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Bituminous Coal Division on or before August 7, 1939.

The matter concerned herewith is in regard to, An application by Belleville Fuels, Incorporated, a corporation organized for the purpose of functioning as a selling agency for the coals of producers owning stock in applicant, pursuant to Section 12 of the Bituminous Coal Act of 1937 and to Order No. 6 of the National Bituminous Coal Commission, which order has been adopted and ratified as an order of the Bituminous Coal Division. It is stated that the mines of the code member producers for whom the applicant proposes to act as a selling agency are located in the State of Illinois in the Belleville and DuQuoin districts; that the coal produced by such producers moves generally north and west into Missouri, Illinois, Iowa, Wisconsin and Minnesota, and competes with coal produced in other subdistricts in the State of Illinois, in the State of Indiana, and in District No. 8, as defined by the Act.

Dated at Washington, D. C., this 19th day of July 1939.

[File No. 43-230]

IN THE MATTER OF STONEWALL ELECTRIC COMPANY AND TUCSON GAS, ELECTRIC LIGHT AND POWER COMPANY

ORDER RELATIVE TO EFFECTIVENESS OF DECLARATION, ETC.

Stonewall Electric Company having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 regarding the issue and sale to the Rural Electrification Administration of a promissory note in the principal amount of $65,000, the proceeds of which are to be used for the construction of rural electric distribution lines; and having filed a joint application with Tucson Gas, Electric Light and Power Company pursuant to Sections 12 and 10 of said act regarding the grant of a lease of and option to buy said rural electric distribution lines by Stonewall Electric Company to Tucson Gas, Electric Light and Power Company;

A public hearing having been held upon said declaration and application after appropriate notice,[1] the record having been examined and the Commission having made its findings herein;

*It is ordered*, That the declaration by Stonewall Electric Company regarding the issue and sale of a promissory note to the Rural Electrification Administration in the principal amount of $65,000 be and become effective forthwith;

That the application by Stonewall Electric Company for approval of the grant to Tucson Gas, Electric Light and Power Company of a lease of and option to buy the rural electric distribution lines to be constructed out of the proceeds of said note, be and it hereby is approved;

That the application by Tucson Gas, Electric Light and Power Company for approval of the acquisition of said lease and option to buy be and it hereby is approved;

Provided, and this order is entered upon the following express conditions;

(1) That the issue, sales and acquisitions be effected in accordance with, and for the purposes represented by, said declaration and applications, and

(2) That within 10 days after such issue, sales and acquisitions, the declarant and applicants shall file with this Commission a certificate of notification that such issue, sales and acquisitions have been effected in accordance with and for the purposes represented by, said declaration and applications.

By the Commission.

IN THE MATTER OF INTERNATIONAL UTILITIES CORPORATION

ORDER APPROVING PAYMENT OF DIVIDENDS

International Utilities Corporation, a registered holding company, having filed an application pursuant to Section 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-12C-2 adopted thereunder, for approval of the declaration and payment out of capital or unearned surplus of a regular quarterly dividend at the rate of 87½¢ per share on the $3.50 Prior Preferred Stock, and a payment of $1.4375 per share on the $1.75 Preferred Stock on account of accumulated unpaid dividends;

A hearing on such application having been held after appropriate notice;[1] the record in this matter having been examined; and the Commission having made and filed its findings herein:

*It is ordered*, That the proposed payment of dividends to the $3.50 Prior Preferred Stock be approved, subject, however, to the following conditions:

(1) That the proposed dividends on the $3.50 Prior Preferred Stock shall be charged to capital surplus, and that the amount of such dividends so charged shall be restored to capital surplus from the first available earnings after December 31, 1938, after providing for 1939 dividends heretofore declared and paid;

(2) That International Utilities Corporation shall notify the $3.50 Prior Preferred stockholders concurrently with the receipt of dividends that the dividend payment received is subject to the above condition; and,

(3) That the Commission reserve jurisdiction as to its approval of the declaration and payment of the proposed dividend to the $1.75 Preferred Stock.

By the Commission.

### LIGHTHOUSE WEEK

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Public Resolution 16, 76th Congress (53 Stat. 746), approved May 15, 1939, provides in part:

"That the week commencing August 7, 1939, is hereby designated as Lighthouse Week in commemoration of the one hundred and fiftieth anniversary of the enactment by the first Congress of the United States of the ninth Act of said Congress, which was approved by President George Washington on August 7, 1789, and laid the foundation of the United States Lighthouse Service by providing that all expenses in the necessary support, maintenance, and repairs of all lighthouses, beacons, buoys, and public piers to render navigation safe and easy should be paid for by the Treasury of the United States. During said week all Government officials are hereby directed to display the flag of the United States on all Government buildings, and are requested in appropriate manner to celebrate the enactment and approval of said Act.

"Sec. 2. That the President of the United States is hereby requested, by appropriate proclamation, to call attention of all citizens of the United States to said event and to request the cooperation of all citizens, communities, civic organizations, States, municipalities, counties, public agencies, churches, and schools in an appropriate recognition of the devoted, efficient, faithful, and splendid work of the Lighthouse Service for one hundred and fifty years in the safeguarding of life and property upon the sea";

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do call upon the officials of the Government to observe the provisions of the aforesaid public resolution, invite the attention of all citizens of the United States to the celebration of Lighthouse Week commencing August 7, 1939, and request the cooperation of communities, civic organizations, States, municipalities, counties, public agencies, churches, and schools to recognize in an appropriate manner the devoted, efficient, faithful, and splendid work of the Lighthouse Service for one hundred and fifty years in the safeguarding of life and property upon the sea.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 19" day of July, in the year of our Lord nineteen hundred and thirty-
[SEAL] nine, and of the Independence of the United States of America the one hundred and sixty-fourth.

FRANKLIN D ROOSEVELT

### FEDERAL TRADE COMMISSION

PART 142—RADIO RECEIVING SET MANUFACTURING INDUSTRY

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 18th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman, Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

[File No. 21-260]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE RADIO RECEIVING SET MANUFACTURING INDUSTRY

*Promulgation*

Due proceedings having been held [1] under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

*It is now ordered*, That the trade practice rules of Group I, as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of July 22, 1939.

*Statement by the Commission*

Trade practice rules for the Radio Receiving Set Manufacturing Industry, as herein set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The rules provide for the elimination and prevention of false advertising, deceptive selling methods, and certain other unfair trade practices, and are issued in the interest of protecting the purchasing public and maintaining fair competitive conditions in the industry. Such rules are applicable to radio receiving sets, radio parts, accessories and related products of the industry, and to their sale and distribution in commerce by manufacturers, jobbers, distributors, dealers or other marketers.

Available statistics indicate that for the year 1937, the industry's total sales of radio receiving sets, parts, accessories, etc., amounted to slightly more than $460,000,000, retail value. For the year 1938, radio receiving sets sold by the industry, exclusive of parts, accessories, etc., totaled approximately 7,150,000, with an estimated retail sales value of about $225,000,000. At the present time there is said to be in use in the United States about 41,000,000 radio sets. The industry, as a whole, has a large capital investment and employs many thousands of men and women in its manufacturing operations and in selling, distributing and servicing its products.

The proceeding for the establishment of rules was instituted upon application of the industry. In the course of the proceeding drafts of rules proposed for the industry were made available upon public notices, issued by the Commission to all interested or affected parties, whereby they were afforded opportunity to present to the Commission their views, including such suggestions or objections as they desired to submit, and to be heard in the premises. Accordingly, public hearings were held at Washington, D. C., and all matters presented at the hearings, or otherwise submitted in pursuance of such notices, were duly received and considered.

Thereafter, and upon consideration of the entire proceeding, the rules appearing herein under Group I were given final approval by the Commission and are herewith promulgated as follows:

THE RULES

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of the industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

*Group I*

The unfair trade practices which are embraced in the Group I rules are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited, within the purview of the Federal Government, by acts of Congress, as construed in the decisions of the Federal Trade Commission or the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation or other organization, of such unlawful practices in or directly affecting interstate commerce.

(§ 142.1) RULE 1. *Misbranding, misrepresentation and deceptive selling methods.* It is an unfair trade practice for any member of the industry, in the course of or in relation to the marketing or distribution of radio receiving sets, parts or accessories therefor, or other products of the industry, (1) to use, or to cause, promote or further the use of, any marks, brands, labels, depictions, advertisements, trade promotional descriptions or representations of any kind which, directly or by implication, are false, misleading or deceptive to the purchasing or consuming public; or (2) to offer for sale, sell or distribute, or to cause or promote the sale or distribution of, radio receiving sets, parts or accessories therefor, or other products of the industry, under any other conditions or selling practices which have the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public.

(§ 142.2) RULE 2. *"All-Wave", "Standard Broadcast", etc.—In the application of these rules and for the purpose of avoiding confusion, misunderstanding and deception.* (a) Except as hereinafter provided, the terms "All-Wave", "World-Wave", "World-Wide Wave", or words, phrases or representations of similar import, shall not be used as descriptive of a radio receiving set advertised, offered for sale, sold or distributed in the American market when such set is not constructed to receive and capable of receiving, with reasonable or adequate consistency, the entire spectrum of radio frequencies in recognized use in the art, namely, all long-wave broadcasts and transmissions; all medium-wave and short-wave broadcasts and transmissions, and all other waves transmitted or broadcast, including both foreign and domestic; excepting, however, that such set so described or represented need not include within its capacity of reception such point-to-point transmissions as are confidential and illegal for general reception and divulgence by members of the public, nor such unchanging signals as emanate from radio beacons or radio lighthouses, when such set is not otherwise falsely or deceptively described or represented, directly or indirectly, as being constructed to receive, or as being capable of receiving, such point-to-point or beacon or lighthouse transmissions.

(b) Nothing herein contained shall prohibit the use of the term "Limited All-Wave", "Limited World-Wave", "Limited World-Wide Wave", or term or words of similar import, as descriptive of a radio reeciving set advertised, offered for sale, sold or distributed in the American market when such set is constructed for and capable of consistently receiving at least a continuous spectrum of frequencies from 540 kilocycles to 18,000 kilocycles, provided such term or words are immediately accompanied by words, phrases or terms set forth conspicuously and clearly, unequivocably and truthfully stating the exact wave bands or frequencies which such set is capable of consistently receiving; for example:

"Limited All-Wave—From 540 to 18,000 Kilocycles"

"Limited All-Wave—From 530 to 21,000 Kilocycles"

"Limited World-Wave—From 540 to 18,000 Kilocycles"

"Limited World-Wide Wave—From 540 to 18,000 Kilocycles"

"Limited All-Wave—From 140 to 410 Kilocycles, and From 540 to 18,000 Kilocycles"

"Limited World-Wave—From 540 to 18,000 Kilocycles and From 19,000 to 23,500 Kilocycles"

"Limited World-Wide Wave—From 150 to 400 Kilocycles, and From 540 to 35,000 Kilocycles"

(c) Nothing herein contained shall prohibit the use, as descriptive of a radio receiving set, of the term "all waves" as an integral part of a clause, sentence or statement which truthfully and unequivocally sets forth the bands or radio frequencies such set does not cover, and wherein the words "all waves" are not given greater prominence or conspicuousness than the other parts of such clause, sentence or statement; provided such set is constructed for and capable of receiving with reasonable or adequate consistency all the waves or bands of frequencies from 540 to 18,000 kilocycles and such other bands or frequencies as are represented to be within its receptive capacity. The following are illustrative of such permissible phrases here provided for:

"All waves except for frequencies above 21,000 kilocycles and below 540 kilocycles"

"All waves except Asiatic stations"

"All waves except foreign and domestic frequencies above 18,000 kilocycles and below 540 kilocycles".

(d) The term "Standard Broadcast" shall not be used as descriptive of a radio receiving set which is not built for or capable of receiving with reasonable or adequate consistency a continuous spectrum of frequencies from 540 to at least 1600 kilocycles.

(e) Also, the term "Standard Broadcast" as descriptive of a radio receiving set shall not be used in such manner as to lead the public to believe (1) that such set is constructed for and capable of receiving with reasonable or adequate consistency a greater number of radio frequency signals than is in fact true of such set; or (2) that the set is capable of so receiving more than the continuous spectrum of frequencies from 540 to 1600 kilocycles.

(f) In the advertisement or sale of radio receiving sets, disclosure of the exact bands of frequencies which such sets are constructed to receive and capable of receiving with reasonable or adequate consistency is deemed desirable in the interest of avoiding confusion, misunderstanding or deception of purchasers. Failure or refusal adequately to make such disclosure of frequencies, in connection with the use of the term "Standard Broadcast" or otherwise, when the capacity and tendency or effect thereof is to mislead or deceive the purchasing or consuming public, is an unfair trade practice.

(g) Nothing in these rules shall prevent the use, in lieu of "Kilocycles", of other recognized units of measurement, such as "meters" or "megacycles", when employed in a truthful and nondeceptive manner.

(§ 142.3) RULE 3. *Specific types of advertisements or representations among those prohibited.* It is an unfair trade practice for any member of the industry to use, or cause to be used, any of the following-described types of advertisements or representations:

(a) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented will receive distant stations or any or all foreign broadcasts or transmissions easily or satisfactorily or as easily or satisfactorily as local or domestic reception, when such is not the fact.

(b) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented, or the reception thereof, is not subject to interference or to being interfered with or interrupted by fading, noise, electrical interference, atmospheric conditions, static or any other phenomena or conditions, when such is not the fact.

(c) Advertisements or representations, with respect to the receiving capacity or performance of a radio receiving set, which make deceptively exaggerated or misleading claims or claims which are not justified and supported by the fact or performance of such radio set in the locality in which it is so advertised, represented and sold.

(d) Advertisements or representations which directly or by implication lead purchasers to believe that the radio set so advertised or represented is capable of greater or more consistent or satisfactory performance or reception than is in fact true.

(e) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented will give world-wide continuous reception or other continuous reception, when such is not the fact; or that the radio receiving set will give such reception or other reception with loud speaker voume, when such is not the fact; or that the radio receiving set will give world-wide reception or other reception regularly or dependably, when such is not the fact.

(f) Advertisements or representations which present claims or representations concerning any radio receiving set in such a way as deceptively to cover or conceal defects or deficiencies inherent in such set, or defects or deficiencies inherent in the contemporaneous state of the art to which the receiving set is subject but which are not generally known to the purchasing public.

(g) Advertisements or representations, of any radio receiving set, stating, pur-

[1] 2 F.R. 2531.

porting or implying that each station or any station, whether nearby or foreign or domestic, can be brought in, or brought in with sharp, clear or distinct reception or with ease, simplicity or regularity, by any radio receiving set so advertised or represented, when such is not the fact.

(h) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented will bring in or receive broadcasts from Europe, Africa, South America, Australia or Asia, or from any other designated locality; or that it will bring in such broadcasts, or any of them, consistently or satisfactorily, when such is not the fact.

(i) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented sifts out noise or is free from noise, or brings in far distant stations sharp or clear, when such is not the fact.

(j) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented will bring in or receive satisfactorily or consistently foreign stations, police calls, aviation calls, radio transmissions from or to ships at sea, amateur stations or other types of radio transmissions, when such is not the fact, or when only a small part of any such class of radio frequencies transmitted or broadcast is so receivable and such fact, or the fact that others of the same class are not so receivable, is deceptively concealed.

(k) Advertisements or representations stating, purporting or implying that any radio receiving set so advertised or represented contains a certain number of tubes or is of a certain tube capacity when one or more of such tubes in the set are dummy or fake tubes, or are tubes which perform no useful function, or are tubes which do not perform or were not placed in the set to perform the recognized and customary function of a radio receiving set tube in the detection, amplification and reception of radio signals.

NOTE: In order to avoid and prevent deceptive or misleading tendencies or results, so-called "ballast tubes", dial or other lamps used for illumination, so-called plug-in resistors, and other accessories or devices not serving the recognized and customary function of a radio receiving set tube, are not to be included as tubes in advertisements or representations of a radio receiving set which describe or refer to the set as having a certain number of tubes or as being of a specified tube capacity. References to rectifier tubes, and to tubes, devices or accessories which do not serve as signal amplifying or detecting tubes or heterodyne oscillator tubes, should be such as to clearly avoid misunderstanding or deception of purchasers.

(l) Advertisements or representations of any radio receiving set, or of any part or accessory therefor whatsoever, in such a manner as deceptively to conceal the true function of such part or in such manner as otherwise to mislead or deceive the purchasing or consuming public in respect to such set or such part or accessory.

(m) Advertisements or representations stating, purporting or implying that the price of radio receiving sets, parts or accessories therefor so advertised or represented have been reduced or are reduced prices, or have been reduced a certain amount, when in fact such purported or represented price reduction is fictitious, or is otherwise misleading or deceptive.

(n) Advertisements or representations stating, purporting or implying that radio receiving sets so advertised or represented are of the latest model, when such is not the fact; or advertisements or representations which, directly or indirectly, have the capacity and tendency or effect of leading the purchasing public to believe that the set is of the current year's model or has not been supplanted, superseded or succeeded by a newer or later model, when such is not true in fact; or advertisements or representations which are otherwise deceptive or misleading respecting the model of the set.

(o) Advertisements or representations of radio receiving sets or prices therefor which deceptively or misleadingly conceal the fact that the advertised price does not cover necessary or advertised accessories or devices which must be purchased with the set at an additional charge; or which falsely or deceptively state or imply that the advertised price covers such accessories or devices, when such is not the fact.

(p) Advertisements or representations of radio receiving sets which present former prices or so-called list prices which are fictitious.

(q) Advertisements or representations of purported bona fide trade-in allowances when the price of the new set so offered for sale has been receptively inflated or marked up to offset the trade-in allowance.

(§ 142.4) RULE 4. *Sponsorship.* It is an unfair trade practice to use, or cause to be used, advertisements or representations, of radio receiving sets, parts or accessories therefor, or of other products of the industry, which have the capacity and tendency or effect of misleading purchasers or the consuming public into the belief that such radio sets, parts, accessories or products are sponsored or manufactured by, or are otherwise associated with, any person, concern or organization which is or has been prominent or well known in the electrical or radio industry, or by or with any other person, firm, corporation or association, when such is not the fact.

(§ 142.5) RULE 5. (a) *Alteration of brand name.* The defacement or removal of the correct name plate or brand name of a radio receiving set, or the replacement thereof by another name or mark, when done with the capacity and tendency or effect of thereby misleading or deceiving the purchasing or consuming public in respect to the origin, manufacture or true name of such set, or in any other material respect, is an unfair trade practice.

(b) *Deceptive use or change of cabinets.* The placing of a radio receiving set or chassis in a cabinet designed or made for a set or chassis of a different manufacturer or for a set or chassis of a different size, type or model, when done with the capacity and tendency or effect of thereby misleading or deceiving the purchasing or consuming public as to the origin, size, capacity, make, manufacture, brand or type of such set or cabinet, or when done to mislead or deceive purchasers in any other respect, is an unfair trade practice.

(§ 142.6) RULE 6. *Imitation of Trademarks, Trade Names, Etc.* The imitation or simulation of the trade-marks, trade names, labels or brands of competitors, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.

(§ 142.7) RULE 7. *Commercial Bribery.* It is an unfair trade practice for a member of the industry directly or indirectly to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees or representatives of customers or prospective customers, or to agents, employees or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors.

(§ 142.8) RULE 8. *"Spiffs", "Push Money", Etc.* It is an unfair trade practice for any member of the industry, directly or indirectly, to give, pay or contract to pay, to any clerk or salesperson of any customer-dealer handling two or more competitive brands of radio merchandise, "push money", "spiffs" or any other bonus, gratuity or payment, as an inducement or encouragement to push or promote the sale of such member's product or products over competing products of other members in the industry,

(a) with the capacity and tendency or effect of thereby causing the purchasing or consuming public, when making purchases of such products, to be misled or deceived into the erroneous belief that such clerk or salesperson is free from any such special interest or influence, or is not so subsidized or paid by such member; or

(b) with the capacity and tendency or effect of thereby hampering and unduly restricting the legitimate, free and full use and enjoyment of such retail trade outlets for the distribution to the public of competing products; or

(c) with the purpose or effect, directly or indirectly, of otherwise substantially lessening competition or unreasonably restraining trade in the marketing of the products of the industry; or

(d) with the effect of thereby bringing about the granting of an illegally discriminatory service, payment or price contrary to Section 2 of the Clayton Act as amended by the Act of Congress approved June 19, 1936, known as the Robinson-Patman Act.

Promulgated and issued by the Federal Trade Commission as of July 22, 1939.

[Docket No. 2509]

IN THE MATTER OF MONICA M. ROCK, INDIVIDUALLY AND AS EXECUTRIX, ETC.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (y) *Advertising falsely or misleadingly—Safety.* Representing, in connection with offer, etc., in interstate commerce or in the District of Columbia, of respondent's medicinal preparations or treatment, that respondent's method of treatment, when followed, and respondent's preparations, when taken and used as directed, constitute a scientific, efficacious, safe and proper treatment for goiter, without regard to the variety or form thereof or the stage to which the goiter may have progressed, or that said treatment and preparations will cure and drive out goiter, remove the cause thereof and absorb and get rid of the enlargement or swelling occurring therewith, or that they constitute a remedy or specific for goiter or have a therapeutic value and will correct the functioning of the thyroid gland, or are harmless to all customers in all cases, or constitute a remedy or cure for the various bodily ailments which occur with or are usually found present in cases of goiter, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Monica M. Rock, individually and as Executrix, etc., Docket 2509, July 11, 1939]

§ 3.6 (y 1) *Advertising falsely or misleadingly—Scientific or other relevant facts.* Representing, in connection with offer, etc., in interstate commerce or in the District of Columbia, of respondent's medicinal preparations or treatment, that the use of medicines is the proper and efficacious treatment in all types of goiter, or that the presence of goiter may be determined from answers submitted on question blanks furnished by her, or that surgical operations for goiter are unnecessary, do not remove the cause of goiter and are general inefficacious and dangerous, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Monica M. Rock, individually and as Executrix, etc. Docket 2509, July 11, 1939]

§ 3.6 (a 10.1) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—History:* § 3.6 (a 25) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Qualifications:* § 3.6 (ff 5) *Advertising falsely or misleadingly—Undertakings, in general.* Representing, in connection with offer, etc., in interstate commerce or in the District of Columbia, of respondent's medicinal preparations or treatment, that respondent can diagnose and has accurately and correctly diagnosed cases of goiter from answers submitted in question blanks furnished by her, without a physical examination and without personal observation of the customer, or that respondent can successfully treat and has successfully treated goiter by mail, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Monica M. Rock, individually and as Executrix, etc., Docket 2509, July 11, 1939]

§ 3.6 (b) (2) *Advertising falsely or misleadingly—Competitors and their products—Competitors' products:* § 3.6 (ff 10) *Advertising falsely or misleadingly—Unique nature or advantages:* § 3.48 (b) (6) *Disparaging competitors and their products—Goods—Qualities or properties.* Representing, in connection with offer, etc., in interstate commerce or in the District of Columbia, of respondent's medicinal preparations or treatment, that respondent's treatment and preparations are the only treatment and preparations which can be used efficaciously in treating goiter and that other treatments and preparations are "old style" and worthless, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Monica M. Rock, individually and as Executrix, etc., Docket 2509, July 11, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 11th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

IN THE MATTER OF MONICA M. ROCK, INDIVIDUALLY AND AS EXECUTRIX OF THE ESTATE OF DR. ARTHUR A. ROCK, DECEASED, AS SUCCESSOR TO DR. ARTHUR A. ROCK, AS INDIVIDUAL, DOING BUSINESS IN HIS OWN NAME AND ALSO UNDER THE NAME AND STYLE OF DR. ROCK AND DR. A. A. ROCK

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Joseph A. Simpson, an examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, briefs filed herein and oral arguments by Allen C. Phelps, Counsel for the Commission, and by John A. Rosen, Counsel for the respondent, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, Monica M. Rock, individually and as executrix of the Estate of Dr. Arthur A. Rock, deceased, her representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of her medicinal preparations or treatment in interstate commerce or in the District of Columbia, do forthwith cease and desist from representing:

(1) that respondent's method of treatment, when followed, and respondent's preparations, when taken and used as directed, constitute a scientific, efficacious, safe and proper treatment for goiter, without regard to the variety or form thereof or the stage to which the goiter may have progressed;

(2) that said treatment and preparations will cure and drive out goiter, remove the cause thereof and absorb and get rid of the enlargement or swelling occurring therewith;

(3) that said treatment and preparations are a remedy or specific for goiter, that same have a therapeutic value and will correct the functioning of the thyroid gland;

(4) that the use of medicines is the proper and efficacious treatment in all types of goiter;

(5) that respondent can diagnose and has accurately and correctly diagnosed cases of goiter from answers submitted in question blanks furnished by her, without a physical examination and without personal observation of the customer;

(6) that the presence of goiter may be determined from answers so submitted on such question blanks;

(7) that respondent's treatment and preparations are harmless to all customers in all cases;

(8) that surgical operations for goiter are unnecessary, do not remove the cause of goiter and are generally inefficacious and dangerous;

(9) that respondent's treatment and preparations are the only treatment and preparations which can be used efficaciously in treating goiter and that other treatments and preparations are "old style" and worthless;

(10) that respondent can successfully treat and has successfully treated goiter by mail;

(11) that respondent's treatment and preparations are a remedy or cure for

[1] 1 F.R. 139.

the various bodily ailments which occur with or are usually found present in cases of goiter.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon her of this order, file with the Commission a report in writing setting forth in detail the manner and form in which she has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[Docket No. 3577]

IN THE MATTER OF INTERSTATE PREMIUM NOVELTY COMPANY

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Mailing, etc., in connection with offer, etc., in commerce, of dresser sets, watches, bedspreads, cameras, silverware, jewelry and various other articles of merchandise, to respondent's agents or to distributors or to members of the public pull cards or circulars having pull tabs thereon or other lottery devices so prepared or printed as to enable said persons to sell or distribute any merchandise by the use thereof, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Interstate Premium Novelty Company, Docket 3577, July 11, 1939]

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., in connection with offer, etc., in commerce, of dresser sets, watches, bedspreads, cameras, silverware, jewelry and various other articles of merchandise, any merchandise by the use of pull cards or circulars having pull tabs thereon or any other lottery device, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Interstate Premium Novelty Company, Docket 3577, July 11, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 11th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

IN THE MATTER OF MAX BERGMAN, INDIVIDUALLY AND TRADING AS INTERSTATE PREMIUM NOVELTY COMPANY

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, Max Bergman, in which answer respondent admits all material allegations of fact set forth in said complaint and states that he waives all intervening procedure and further hearings as to the facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent, Max Bergman, individually and trading under the name of Interstate Premium Novelty Company or trading under any other name, his representatives, agents and employees, directly or indirectly, or through any corporate or other device in connection with the offering for sale, sale and distribution of dresser sets, watches, bedspreads, quilts, cameras, dolls, kitchen ware, silverware, razors, razor blades, fountain pen and pencil sets, jewelry, cigarette lighters, cosmetics, pocket knives, mirrors, men's and women's clothing, or any other articles of merchandise in commerce as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Mailing, shipping, or transporting to his agents or to distributors or to members of the public pull cards or circulars having pull tabs thereon or other lottery devices so prepared or printed as to enable said persons to sell or distribute any merchandise by the use thereof;

2. Selling or otherwise disposing of any merchandise by the use of pull cards or circulars having pull tabs thereon or any other lottery device.

*It is further ordered*, That the respondent shall within sixty (60) days after service upon him of this order file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[Docket No. 3776]

IN THE MATTER OF SCHALL CANDY COMPANY

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., in connection with offers, etc., in commerce, of candy or any other merchandise, candy or other merchandise so packed and assembled that sales of such candy, or other merchandise, to the general public are to be, or may be, made, by means of a lottery scheme, gaming device, or gift enterprise, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Schall Candy Company, Docket 3776, July 10, 1939]

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Supplying, etc., in connection with offer, etc., in commerce, of candy or any other merchandise, others with assortments of candy, or other merchandise, together with push or pull cards, punchboards, or other lottery devices, which said push or pull cards, punchboards, or other lottery devices, are to be, or may be, used, in selling or distributing such candy, or other merchandise, to the general public, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Schall Candy Company, Docket 3776, July 10, 1939]

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Supplying, etc., in connection with offer, etc., in commerce, of candy or any other merchandise, others with assortments of candy, or other merchandise, together with push or pull cards, punchboards, or other lottery devices, which said push or pull cards, punchboards, or other lottery devices, are to be, or may be, used, in selling or distributing such candy, or other merchandise, to the general public, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Schall Candy Company, Docket 3776, July 10, 1939]

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* Selling, etc., in connection with offer, etc., in commerce, of candy or any other merchandise, any merchandise by means of a game of chance, gift enterprise, or lottery scheme, prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Schall Candy Company, Docket 3776, July 10, 1939]

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 10th day of July, A. D. 1939.

Commissioners: Robert E. Freer, Chairman; Garland S. Ferguson, Charles H. March, Ewin L. Davis, William A. Ayres.

ORDER TO CEASE AND DESIST

This proceeding having been heard[1] by the Federal Trade Commission upon the complaint of the Commission and the substitute answer of respondent in which substitute answer respondent admits all the material allegations of fact set forth in said complaint and states that it waives all intervening procedure and further hearings as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

*It is ordered*, That the respondent Schall Candy Co., its officers, representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale and distribution of candy or any other merchandise in commerce, as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Selling or distributing candy, or any other merchandise, so packed and assembled that sales of such candy, or other merchandise, to the general public are to be made, or may be made, by means of a lottery scheme, gaming device, or gift enterprise;

(2) Supplying to, or placing in the hands of others assortments of candy, or other merchandise, together with push or pull cards, punchboards, or other lottery devices, which said push or pull cards, punchboards, or other lottery devices, are to be used, or may be used, in selling or distributing such candy, or other merchandise, to the general public;

(3) Supplying to, or placing in the hands of, others push or pull cards, punchboards or other lottery devices, either with assortments of candy, or other merchandise, or separately, which said push or pull cards, punchboards, or other lottery devices are to be used, or may be used, in selling or distributing such candy, or other merchandise, to the general public;

(4) Selling, or otherwise disposing of, any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

*It is further ordered*, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

### FOOD AND DRUG ADMINISTRATION

ORDER AMENDING RULES OF PROCEDURE FOR HEARINGS REQUIRED UNDER THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

By virtue of the authority vested in the Secretary of Agriculture by the Federal Food, Drug, and Cosmetic Act (Title 21 U.S.C. 301 et seq.; 52 Stat. 1040 et seq.), and in order to carry out the powers vested in him by the said act, the rules of procedure,[1] for hearings required thereunder, are hereby amended, as shown below, so as (1) to exclude from their application hearings with reference to regulations contemplated by section 404 (a) of the Act, and (2) to change certain provisions of such rules. The amendments shall take effect upon the issuance of this order and the filing of the same with the Archivist of the United States for publication in the FEDERAL REGISTER.

A. The caption of said procedural regulations is hereby amended to read as follows:

TITLE 21—FOOD AND DRUGS

FOOD AND DRUG ADMINISTRATION

PROMULGATION OF RULES OF PROCEDURE FOR HEARINGS REQUIRED UNDER SECTION 701 (e) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT EXCEPT WITH REFERENCE TO REGULATIONS CONTEMPLATED BY SECTION 404 (a) OF THE ACT

B. Sections 1 and 2 of Article II of said procedural regulations are hereby amended to read as follows:

"§ 1 *Hearings under section 701 (e) of the act.* Whenever the Secretary, on his own initiative, or upon application of any interested industry or substantial portion thereof stating reasonable grounds therefor, shall make a proposal to issue, amend, or repeal any regulation contemplated by any of the following sections of the Act: 401, 403 (j), 406 (a) and (b), 501 (b), 502 (d), 502 (h), 504, and 604, a public hearing shall be held upon such proposal.

"§ 2 *Notice of hearing.* (a) The Secretary shall give appropriate notice of the hearing. The notice shall set forth the proposal in general terms and specify the time and place for the public hearing to be held thereon not less than thirty days after the date of the notice.

"(b) Notice of hearing shall be given by filing the same with the Archivist of the United States for publication in the FEDERAL REGISTER."

C. Sections 3 and 7 of Article III of said procedural regulations are hereby amended to read as follows:

"§ 3 *Transcript of the evidence.* Testimony given at a hearing shall be reported verbatim. All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall be marked for identification and, upon satisfactory showing of their authenticity, relevancy, and materiality, shall be, in the discretion of the presiding officer, received and marked as exhibits in evidence. Such exhibits shall, if possible under the circumstances, be submitted in quintuplicate and in typewritten, printed, photostat or mimeographed form. In case the required number of copies are not made available, the presiding officer shall exercise his discretion as to whether said exhibit shall be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the presiding officer. Where the testimony of a witness refers to a statute, or to a report or document, the presiding officer shall, after inquiries relating to the identification of such statute, report or document, determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. Where relevant and material matter offered in evidence is embraced in a report or document containing immaterial or irrelevant matter, such immaterial and irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the presiding officer."

"§ 7 *Issuance of suggested findings of fact, conclusions and order; transmittal of record—Order of procedure.* The presiding officer, within a reasonable time after the termination of the period allowed for the filing of written arguments, proposed findings of fact, or both, as provided in section 4 of this article, shall prepare, upon the basis of the evidence received at the hearing, suggested findings of fact, conclusions and order, which shall be served upon the interested persons whose appearances were entered at the hearing by publication in the FEDERAL REGISTER and by mailing a copy of such issue of the FEDERAL REGISTER to each of them by registered mail. Within ten days after the receipt of such copy of the FEDERAL REGISTER, any such interested person who wishes to object to any matter set out in the suggested findings of fact, conclusions and order shall transmit such objection in writing to the Hearing Clerk. At the same time, such interested persons shall transmit in writing to the Hearing Clerk a brief statement concerning each of the objections taken to the action of the presiding officer at the hearing, as set out in section 1 of this article, upon which he wishes to rely, referring, where relevant, to the pages of the transcript of evidence. The presiding officer shall then transmit to the Secretary the record of the proceedings. Such record shall include: a transcript of the evidence taken at the hearing, such written arguments and proposed findings of fact as may have been filed in connection with the hearing, the suggested findings of fact, conclusions and order of the presiding officer, and the objections filed thereto, if any."

The amendments promulgated herein shall supersede the amendments contained in the order of the Secretary of Agriculture dated July 18, 1939, and published in the FEDERAL REGISTER on July 19, 1939 (4 F.R. 3337 DI).

In testimony whereof, I have hereunto set my hand and caused the official seal of the United States Department of Agriculture to be affixed hereto on this 21st day of July, 1939, in the City of Washington, District of Columbia.

[SEAL] H. A. WALLACE, *Secretary of Agriculture.*

[F. R. Doc. 39-2693; Filed, July 21, 1939; 11:25 a. m.]

## TITLE 41—PUBLIC CONTRACTS

### DIVISION OF PUBLIC CONTRACTS

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE DRUG AND MEDICINE INDUSTRY

This matter is before me pursuant to Section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U. S. C. Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes", (hereinafter called the Act). The Public Contracts Board, created in accordance with Section 4 of the Act by Administrative Order dated October 6, 1936, held a hearing on October 20, 1938, in the matter of the determination of the prevailing minimum wages in the drugs, medicinal specialties, and toilet preparations industry.

Notice of this hearing was sent to all known members of the industry, to trade unions, to trade publications, and to trade associations in the field. Invitation to attend the hearing was extended through the national press to all interested parties.

At the hearing before the Board, appearances were entered and testimony was given by representatives of the American Drug Manufacturers Association, the American Pharmaceutical Manufacturers Association, the Toilet Goods Association, and the American Federation of Labor.

A survey of the wages and hours in the drug, medicine and cosmetics industries in 1938, prepared by the Women's Bureau, Department of Labor, was received in evidence.

On the basis of the record, the Board made its findings in the matter of the prevailing minimum wages for the drug and medicine industry and recommended that I find the prevailing minimum wages in the drug and medicine industry to be 37.5 cents an hour or $15.00 per week of 40 hours. On May 31, 1939, the Administrator, Division of Public Contracts, circularized the Board's recommendations in order that all parties might have full opportunity to register their objections or approval before the decision in the matter was made by the Secretary of Labor. No objections have been filed in this matter.

The Board advises me that the evidence in the record is insufficient to justify the determination of prevailing minimum wages for the toilet preparations specified in the notice of hearing; namely, dentirifices, talcum powder, shaving soap, and shaving cream.

In view of the fact that the evidence of record appears to be insufficient to justify a determination of prevailing minimum wages in the toilet preparations industry, as specified in the notice of hearing; namely, dentrifices, talcum powder, shaving soap, and shaving cream, these products will not be considered for the purpose of this minimum wage determination.

The Census of Manufactures for 1935 shows 22,123 wage earners in 1,056 establishments in the drug and medicine industry. The survey made by the Women's Bureau in this matter covered 11,645 employees in 197 establishments. The survey wage data were copied from pay-roll records by investigators of the Women's Bureau, and it appears that the survey is adequate to show the wage structure prevailing in the drug and medicine industry. The States covered by the survey and reported by the Census as having more than 500 workers are New York, Michigan, Pennsylvania, Illinois, Indiana, New Jersey, Missouri, Massachusetts, and Ohio. The survey also covered other States where the industry is of lesser importance. These States are California, Iowa, Wisconsin, Connecticut, Maryland, North Carolina, and Tennessee. Of the wage earners included in the survey, 4,801 are classified as being employed in the finishing departments of drug and medicine establishments. The evidence indicates that on the whole the wage earners employed in the finishing departments are the lower paid employees of the industry. The survey shows that it is not a common practice in the industry to pay wages below 35 cents an hour. The wages of employees in the finishing departments range in general from 35 cents an hour to 65 cents an hour and over. There is no pronounced concentration of employees in any 1-cent interval, and the evidence shows that the more frequently paid minimum wages are represented in the intervals of 35–36 cents, 37–38 cents, and 40–41 cents an hour. From the standpoint of numbers or percentage of employees in any of these three wage intervals, it does not appear that there is sufficient concentration to support a prevailing minimum at any of such intervals based upon the factor of concentration or preponderance by number or percentage. A weighted average of the wage rates in the three intervals reflects the customary or most generally followed practice in the drug and medicine industry with respect to wages in the lower bracket of the wage scale. This weighted average is 37.7 cents an hour; consequently, a determination of 37.5 cents an hour appears to be well supported by the evidence.

I have examined the findings of the Board and the evidence of record, and in the light of the facts I hereby determine

The minimum wages for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the Public Contracts Act (49 Stat. 2036; 41 U.S.C. Sup. III 35) for the manufacture, processing, and packaging of drugs (excluding industrial chemicals) and medicinal specialties and pharmaceuticals, to be 37.5 cents an hour or $15.00 per week of 40 hours, arrived at either upon a time or piece work basis.

This determination shall be effective and the minimum wages hereby established shall apply to all such contracts bids for which are solicited on or after August 3, 1939.

[SEAL] FRANCES PERKINS,
*The Secretary.*

Dated: July 19, 1939.

[F. R. Doc. 39–2687; Filed, July 21, 1939; 10:35 a. m.]

## TITLE 47—TELECOMMUNICATION

### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 4—RULES GOVERNING BROADCAST SERVICES OTHER THAN STANDARD BROADCAST

The Commission amended Sec. 4.25 (c), to read:

§ 4.25[1] *Power limitations.* (c) A relay broadcast station assigned frequencies in Groups H and I will be licensed to operate with a power output not in excess of that necessary to transmit the program and orders satisfactorily to the receivers and shall not be operated with a power greater than that licensed. In event interference may be caused to stations on adjacent channels, licensees shall endeavor to make arrangements to reduce power to a point where interference will not be objectionable. If a satisfactory arrangement cannot be agreed upon the Commission will determine and specify the maximum power or conditions of operation of each such station. (Sec. 4 (i), 48 Stat. 1066; 47 U.S.C. 154 (i) [Sec. 41.05 (c), as amended by the FCC., July 12, 1939, effective immediately]

The Commission amended Sec. 4.74 (a), to read:

§ 4.74[2] *Frequency assignment.* (a) The following groups of channels, as indicated by a channel designation, are allocated for assignment to television broadcast stations licensed experimentally.

GROUP A

Channel No. 1—44,000–50,000 kc
Channel No. 2—50,000–56,000 kc
Channel No. 3—66,000–72,000 kc
Channel No. 4—78,000–84,000 kc
Channel No. 5—84,000–90,000 kc
Channel No. 6—96,000–102,000 kc
Channel No. 7—102,000–108,000 kc

GROUP B

Channel No. 8—156,000–162,000 kc
Channel No. 9—162,000–168,000 kc[3]
Channel No. 10—180,000–186,000 kc
Channel No. 11—186,000–192,000 kc
Channel No. 12—204,000–210,000 kc
Channel No. 13—210,000–216,000 kc[3]

[1] Appears as Sec. 41.05 at 4 F.R. 1667 DI.
[2] Appears as Sec. 43.13 at 4 F.R. 1668 DI.
[3] See Secs. 4.4 (e) and 4.154 (a) [Secs. 40.04 (e) and 46.04 (a) at 4 F.R. 1666, 1671 DI.]

Channel No. 14—234,000–240,000 kc
Channel No. 15—240,000–246,000 kc
Channel No. 16—258,000–264,000 kc
Channel No. 17—264,000–270,000 kc[3]
Channel No. 18—282,000–288,000 kc
Channel No. 19—288,000–294,000 kc

GROUP C

Any 6,000 kc band above 300,000 kc, excluding the band 400,000–401,000 kc.

(Sec. 4 (i), 48 Stat. 1066; 47 U.S.C. 154 (i); Sec. 303 (c), 48 Stat. 1082; 47 U.S.C. 303 (c)) [Sec. 43.13 (a), as amended by the FCC, July 12, 1939, effective immediately.]

By the Commission.

## TITLE 49—TRANSPORTATION AND RAILROADS

### INTERSTATE COMMERCE COMMISSION

[Ex Parte No. MC–19]

PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 17th day of July, A. D. 1939.

*It appearing*, That on March 14, 1938, the Commission entered upon an investigation into the matter of the practices of common carriers by motor vehicle, of household goods, subject to the Motor Carrier Act, 1935;

*And it further appearing*, That a full investigation of the matters and things involved has been made, and said division, on the date hereof, has made and filed a report herein containing its findings of fact and conclusions thereon, which said report is hereby referred to and made a part hereof: [1]

*It is ordered*, That the rules set forth in the appendix to said report, governing the practices of motor common carriers of household goods subject to the provisions of the Motor Carrier Act, 1935, be, and they are hereby, prescribed to become effective on September 20, 1939;

*And it is further ordered*, That tariffs in accordance with said rules shall be filed and published on or before September 20, 1939.

By the Commission, division 5.

[SEAL] W. P. BARTEL,
*Secretary.*

[1] Filed as a part of the original document with the Division of the FEDERAL REGISTER, The National Archives; requests for copies should be addressed to the Interstate Commerce Commission.

APPENDIX

*Rules and Regulations Prescribed Under the Provisions of the Motor Carrier Act, 1935, Governing the Practices of Motor Common Carriers Engaged in the Transportation of Household Goods in Interstate or Foreign Commerce*

RULE 1. As used in these rules:

(a) The term "household goods" means personal effects and property used or to be used in a dwelling when a part of the equipment or supply of such dwelling; furniture, fixtures, equipment and the property of stores, offices, museums, institutions, hospitals, or other establishments when a part of the stock, equipment, or supply of such stores, offices, museums, institutions, hospitals, or other establishments; and articles, including objects of art, displays, and exhibits, which because of their unusual nature or value require specialized handling and equipment usually employed in moving household goods.

(b) Where any other terms used in these rules are defined in section 203 (a) of the Motor Carrier Act, 1935, such definitions shall be controlling. Where terms are used in these rules which are neither defined herein nor in said section 203 (a), they shall have the ordinary practical meaning of such terms.

RULE 2. All common carriers by motor vehicle engaged in the transportation of household goods in interstate or foreign commerce shall establish, in the manner and form required by section 217 of the Motor Carrier Act, 1935, and by the regulations of the Commission issued pursuant thereto, rates for the transportation of household goods in interstate or foreign commerce stated in amounts per hundred pounds, and shall not establish rates upon any other basis. All rates applicable to the transportation of household goods established upon any other basis than in amounts per hundred pounds shall be canceled and superseded by rates published in accordance with this rule.

RULE 3. Each such common carrier shall determine the tare weight of each vehicle used in the transportation of household goods by having it weighed prior to the transportation of each shipment, without the crew thereon, by a certified weighmaster or on a certified scale, and when so weighed the gasoline tank on each such vehicle shall be full and the vehicle shall contain all blankets, pads, chains, dollies, hand trucks, and other equipment needed in the transportation of such shipment. Each carrier shall retain in the vehicle, subject to inspection, a weighmaster's certificate or weight ticket as to each such vehicle showing the tare weight, the date weighed, and a list of such equipment.

After the vehicle has been loaded it shall be weighed, without the crew thereon, prior to delivery of the shipment and the net weight shall be determined by deducting the tare weight from the loaded weight, except that in instances where no adequate scale is located at origin or at any point within a radius of 10 miles thereof, a constructive weight, based on seven pounds per cubic foot of properly loaded van space, may be used. The gross weight, tare weight, and net weight, or the constructive weight, shall be shown on the freight bill.

In the transportation of part loads this rule shall apply in all respects, except that the gross weight of a vehicle containing one or more part loads may be used as the tare weight of such vehicle as to part loads subsequently loaded thereon, and a part load for any one shipper, not exceeding 1,000 pounds, may be weighed on a certified scale prior to being loaded on a vehicle, such part load to be accompanied by a weight ticket evidencing such weighing.

RULE 4. Such common carriers shall establish in the manner prescribed in section 217 of the Motor Carrier Act, 1935, and the rules and regulations issued pursuant thereto, the charges to be made for each accessorial or terminal service rendered in connection with the transportation of household goods by motor vehicle. The tariffs establishing such charges shall separately state each service to be rendered and the charge therefor. The charges so established for packing and unpacking shall be in amounts per container and those for other services shall be separately stated on a unit or hourly basis, whichever is appropriate. No charge so established shall be lower than the cost of performing the service. This rule shall apply only where the line-haul transportation is performed by a motor carrier. The rate for transportation of such goods shall not include the charge for any accessorial service and no such services other than those for which separate charges have been so established shall be rendered by any such carrier.

RULE 5. No discounts of any character whatsoever shall be authorized by tariff provisions or otherwise allowed by any such common carrier and no rates or charges shall be established based upon prepayment of charges.

RULE 6. No such common carrier shall act as agent for any other such common carrier in the solicitation of shipments of household goods, in interstate or foreign commerce, between points which such agent is authorized to serve and for which it shall have established different rates than those of its principal.

RULE 7. No such common carrier nor any employee, agent, or representative of a carrier shall act as an agent for an insurance company in insuring, under any type of policy, shipments of household goods to be transported by such carrier in interstate or foreign commerce if such carrier, its employee, agent, or representative receives compensation from such insurance company.

RULE 8. No such common carrier shall issue a receipt or bill of lading for household goods to be transported in interstate or foreign commerce prior to receiving such household goods for such transportation, but must issue such receipt or bill of lading when such household goods have been received.

[F. R. Doc. 39-2696; Filed, July 21, 1939; 12:30 p. m.]

## *Notices*

### RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 375]

ALLOCATION OF FUNDS FOR LOANS

JULY 20, 1939.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, as amended, I hereby allocate, from the sums authorized by said Act, funds for loans for the projects and in the amounts as set forth in the following schedule:

| *Project Designation* | *Amount* |
|---|---|
| Illinois 0040A2 Macoupin | $224,000 |
| Illinois 0046A2 Madison | 403,000 |
| Iowa 0053B1 Linn | 225,000 |
| Minnesota 0072B1 Renville | 204,500 |
| Minnesota 0073B1 Pipestone | 140,000 |
| Missouri 0028B1 Barton | 133,000 |
| Missouri 0030C1 Lawrence | 215,000 |
| Missouri 0036B1 Audrain | 157,000 |

### SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 17th day of July, A. D. 1939.

IN THE MATTER OF APPLICATION BY WHEELING STOCK EXCHANGE FOR UNLISTED TRADING PRIVILEGES IN WHEELING STEEL CORPORATION, 5% CUMULATIVE CONVERTIBLE PRIOR PREFERRED STOCK, NO PAR VALUE

ORDER GRANTING APPLICATION FOR PERMISSION TO EXTEND UNLISTED TRADING PRIVILEGES

The Wheeling Stock Exchange, having made application to the Commission for the extension of unlisted trading privileges to the 5% Cumulative Convertible Prior Preferred Stock of the Wheeling Steel Corporation, in accordance with a condition granting said Exchange exemption from registration as a national securities exchange and pursuant to the requirements of Section 12 (f) of the Securities Exchange Act of 1934, as amended; and

A hearing having been held in this matter after appropriate notice,[1] and the Commission, on July 7, 1939, having made and filed its findings herein; and

It appearing that it was provided in said opinion that an order granting the application would issue, if within ten days after the date of said opinion the applicant exchange would give reasonable assurance to this Commission that its rules provide that all odd-lot transactions by the members thereof must be reported to it, and if, within the same period, the said exchange reports that it has adopted rules requiring members, before effecting any transaction for a customer, to check both the primary and local market, and to execute the order upon the market most favorable to the customer; and

The Wheeling Stock Exchange having filed with this Commission on July 15, 1939, an assurance and report in all respects in compliance with the condition of the Commission above recited;

*It is ordered*, That the application of the Wheeling Stock Exchange for permission to extend unlisted trading privileges to the 5% Cumulative Convertible Prior Preferred Stock of the Wheeling Steel Corporation be and the same hereby is granted.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
*Secretary.*

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of July 1939.

[File No. 32-157]

IN THE MATTER OF WISCONSIN GAS & ELECTRIC COMPANY

ORDER IN REGARD TO ISSUANCE OF PREFERRED STOCK AND PROMISSORY NOTES

Wisconsin Gas & Electric Company, a subsidiary of The North American Company, a registered holding company, having filed an application and amendments thereto pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935 for the exemption from the provisions of such Act of the issue and sale of not more than 46,480 shares of 4½% preferred stock having a par value of $100 per share and promissory notes not to exceed $1,500,000 in principal amount bearing interest at 1½% from date of issue to August 31, 1939 and thereafter at 2¾%; and Wisconsin Gas & Electric Company having filed a declaration in regard to any change in rights of its outstanding common stock caused by the issuance of the preferred stock above mentioned;

A hearing on such matter having been held after appropriate notice;[1] the applicant and declarant having waived the right to have submitted to it a report by the Trial Examiner; to have submitted to it proposed findings of fact by the Commission; to file a brief and to oral argument before the Commission prior to the making of findings of fact and the entry of an order herein by the Commission; the record in this matter having been examined; and the Commission having made and filed its findings herein;

*It is ordered*, That the application filed pursuant to Section 6 (b) is approved and that the declaration in regard to the change in rights of the outstanding common stock may become effective subject, however, to the following conditions:

(1) That until further order of the Commission so long as any shares of the 4½% Preferred Stock are outstanding, the applicant and declarant shall not pay any dividends on or make any other distribution to the holders of shares of its Common Stock if after giving effect to such payment or distribution the capital of the applicant and declarant represented by its common stock together with its surplus, as then stated on its books of account, shall in the aggregate be less than $6,000,000. This condition shall become inoperative and of no effect if the Commission shall at any time hereafter adopt or enter a rule, regulation or order

[1] 4 F.R. 2505 DI.

under Section 12 (c) of the Act or otherwise (other than Rule U-12C-2 as now in effect), which shall be applicable to the applicant and declarant, limiting the right of companies to pay dividends on their common stock with reference to maintaining an equity junior to outstanding preferred or preference stocks. The Commission reserves jurisdiction to revoke or modify this condition at any time on its own motion or upon application of the applicant and declarant;

(2) That the issue and sale of the 4½% Preferred Stock and the Promissory Notes shall be accomplished in compliance with the terms and conditions of, and for the purposes represented in said application as amended;

(3) The exemption granted herein of the issue and sale of the 4½% Preferred Stock and the Promissory Notes shall terminate without further order of this Commission in the event that the authorization of the Public Service Commission of Wisconsin shall be revoked or otherwise terminated; and

(4) That within ten days after the issue and sale of the 4½% Preferred Stock and Promissory Notes, the applicant shall file with this Commission a certificate of notification showing that such issue and sale have been effected in accordance with the terms and conditions and for the purposes represented by said application as amended.

By the Commission.

IN THE MATTER OF APPLICATIONS BY THE LOS ANGELES STOCK EXCHANGE TO EXTEND UNLISTED TRADING PRIVILEGES TO

*The Atchison, Topeka & Santa Fe Railway Company, Common Stock, $100 Par Value; Baldwin Locomotive Works, Voting Trust Certificates for Common Stock, $13 Par Value; Barnsdall Oil Company, Common Stock, $5 Par Value; Bethlehem Steel Corporation (Delaware), Common Stock, No Par Value; Continental Motors Corporation, Common Stock, $1 Par Value; Graham-Paige Motors Corporation, Common Stock, $1 Par Value; Mountain City Copper Company, Capital Stock, 5¢ Par Value; The Pennsylvania Railroad Company, Capital Stock, $50 Par Value; The Pure Oil Company, Common Stock, No Par Value; Stone & Webster, Incorporated, Capital Stock, No Par Value; Superior Oil Corporation, Common Stock, $1 Par Value; United Air Lines Transport Corporation, Capital Stock, $5 Par Value; Willys-Overland Motors, Incorporated, Common Stock, $1 Par Value*

ORDER SETTING HEARING ON APPLICATIONS TO EXTEND UNLISTED TRADING PRIVILEGES

The Los Angeles Stock Exchange, pursuant to Section 12 (f) of the Securities Exchange Act of 1934, as amended, and Rule X-12F-1 promulgated thereunder, having made application to the Commission to extend unlisted trading privileges to the above-mentioned securities; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

*It is ordered*, That the matter be set down for hearing at 10 A. M. on Monday, August 28, 1939, at the office of the Securities and Exchange Commission, 650 South Spring Street, Los Angeles, California, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

*It is further ordered*, That John G. Clarkson, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
*Secretary.*

[File No. 43-139]

IN THE MATTER OF OKLAHOMA POWER AND WATER CO.

NOTICE OF AND ORDER FOR HEARING

A declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935, and three amendments thereto, having been duly filed with this Commission by the above named party;

Hearing on said declaration, as amended, having been duly held before a Trial Examiner pursuant to order of the Commission, and the hearing having been closed;

Subsequently, the declarant having filed a fourth amendment to its amended declaration;

*It is ordered*, That such hearing be reopened for the purpose of receiving evidence with respect to said matter;

*It is further ordered*, That such hearing be held on July 26, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty or any other officer or officers of the Commission designated by it for the purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding

shall file a notice to that effect with the Commission on or before July 24th, 1939.

The matter concerned herewith is in regard to the issue and sale by Oklahoma Power and Water Co., a subsidiary of The Middle West Corporation, a registered holding company, of fifty-eight 5% unsecured promissory notes aggregating $704,000 in principal amount and maturing in various amounts and on various dates between August 15, 1939 and July 15, 1943.

The notes are to be issued and delivered to Sand Springs Home at Sand Springs, Oklahoma, in exchange for and to refund and discharge an equal principal amount of 5% notes which declarant states were inadvertently issued by declarant without filing a declaration in respect thereto.

By the Commission.

[File No. 32-164]

IN THE MATTER OF PENNSYLVANIA POWER & LIGHT COMPANY NATIONAL POWER & LIGHT COMPANY AND LEHIGH POWER SECURITIES CORPORATION

NOTICE OF AND ORDER FOR HEARING

A declaration and applications pursuant to sections 6 (b), 7 and 10 & Rules U-12C-1 & U-12D-1 of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named parties;

*It is ordered*, That a hearing on such matter be held on August 7, 1939, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before August 2, 1939.

The matter concerned herewith is in regard to a proposal by the declarant and applicants concerning the issuance by Pennsylvania Power & Light Company, a subsidiary of Lehigh Power Securities Corporation, National Power & Light Company and Electric Bond and Share Company, registered holding companies, of $95,000,000 First Mortgage Bonds, 3½% Series, due 1969, $28,500,000 4½% Debentures due 1974 and $8,500,000 Ten-Year 2⅝% Promissory Notes; the acquisition by Lehigh Power Securities Corporation, pursuant to a plan for the liquidation of said corporation, of all of its outstanding $6 Preferred Stock and Common Stock; the surrender for cancellation by National Power & Light Company, pursuant to the liquidation plan of Lehigh Power Securities Corporation, of all the shares of $6 Preferred Stock and Common Stock of Lehigh Power Securities Corporation held by National Power & Light Company and of the acquisition by National Power & Light Company, pursuant to the same plan, of securities of various public utility companies now held in the portfolio of Lehigh; and the sale by Lehigh Power Securities Corporation to Pennsylvania Power & Light Company of $19,000,000 principal amount of First Mortgage Gold Bonds, 4½% Series, due 1981, of Pennsylvania Power & Light Company.

Pennsylvania Power & Light Company proposes to issue the aforementioned bonds, debentures and promissory notes to refund its presently outstanding funded debt in the principal amount of $132,000,000. The price at which the securities proposed to be issued will be sold has not yet been set but it is stated that the proceeds from such securities, after deducting expenses and excluding accrued interest, will be used for the following purposes:

| | |
|---|---|
| 1. To redeem on or about September 13, 1939, at 104½% of the principal amount thereof, $102,000,000 principal amount of the Company's First Mortgage Gold Bonds, 4½% Series due April 1, 1981, which exclusive of accrued interest to the date of redemption will require the sum of | $106,590,000 |
| 2. To acquire for cancellation from Lehigh Power Securities Corporation at such corporation's cost $19,000,000 principal amount of the Company's First Mortgage Gold Bonds, 4½% Series due April 1, 1981, which, exclusive of accrued interest to the date of acquisition, will require the sum of | 17,670,000 |
| 3. To acquire by redemption from Lehigh Power Securities Corporation at such corporation's cost, $10,000,000 principal amount of the Company's 6% Gold Debentures, Series A due December 1, 1950, which, exclusive of accrued interest to date of the acquisition, will require the sum of | 10,000,000 |
| Total | 134,260,000 |

The remainder of the proceeds will be used to reimburse the treasury of the Company in part for expenditures actually made for additions, extension or improvements of its facilities and will be available for its general corporate purposes. The joint application of National Power & Light Company and Lehigh Power Securities Corporation states that it is planned to liquidate Lehigh Power Securities Corporation and thereby eliminate it as an intermediate holding company in National Power & Light Company holding company system. Prior to such liquidation it is proposed that Lehigh will redeem at 110% of the principal amount thereof and accrued interest $23,840,000 principal amount of its 6% Gold Debentures, Series A, due February 1, 2026, constituting all of its debentures issued and outstanding under the debenture agreement of February 1, 1926. Such redemption will be effected as soon as practicable after completion of the refunding program of Pennsylvania Power & Light Company, described above, by virtue of which Pennsylvania Power & Light Company proposes to redeem the $10,000,000 principal amount of its 6% Gold Debentures, Series A, due December 1, 1950 now owned by Lehigh Power Securities Corporation, and by virtue of which Pennsylvania Power & Light Company proposes to purchase from Lehigh Power Securities Corporation $19,000,000 principal amount of its First Mortgage Gold Bonds, 4½% Series, due 1981, of Pennsylvania Power & Light Company at 93% of the principal amount thereof. As an incident to the aforementioned liquidation of Lehigh Power Securities Corporation, Lehigh Power Securities Corporation will declare a dividend of $1.75 per share on its outstanding common stock; it is represented that such dividend will be paid out of earned surplus.

As part of the liquidation plan of Lehigh Power Securities Corporation, National Power & Light Company proposes to surrender for cancellation all of the outstanding shares of $6 Preferred Stock of Lehigh Power Securities Corporation consisting of 129,769 shares without par value and all of the outstanding common stock of Lehigh Power Securities Corporation consisting of 2,928,280 shares without par value except 690 shares which are held by the public. Upon the surrender for cancellation or redemption by National Power & Light Company of all of Lehigh Power Securities Corporation's Common Stock now owned by National Power & Light Company Lehigh Power Securities Corporation will distribute to National Power & Light Company all of its assets charged with such liabilities of Lehigh Power Securities Corporation as cannot be discharged prior to the date of such distribution and National Power & Light Company will agree to deliver on behalf of Lehigh Power Securities Corporation to the holders of the 690 shares of Lehigh Power Securities Corporation Common Stock outstanding in the hands of the public, at the option of such holders, (a) one share of Common Stock of Pennsylvania Power & Light Company and one share of Common Stock of Lehigh Valley Transit Company, or (b) the sum of $50 in cash. It is contemplated that the assets of Lehigh Power Securities Corporation transferred to National Power & Light Company on the dissolution of the former will be held by the latter for investment.

The joint application of Pennsylvania Power & Light Company and Lehigh Power Securities Corporation represents that $19,000,000 principal amount of First Mortgage Gold Bonds, 4½% Series, due 1981 of Pennsylvania Power & Light Corporation will be sold by Lehigh Power Securities Corporation to, and they will be acquired by, Pennsylvania Power & Light Company at the same price at which they were originally purchased by Lehigh Power Securities Corporation, namely 93% of the principal amount. Accordingly, the bonds are to be sold for cash on delivery for a total consideration of $17,670,000 plus accrued interest from April 1, 1939 to date of delivery. Lehigh Power Securities Corporation expects to utilize such portion of the proceeds of this sale, together with the proceeds which it may receive upon the redemption of the 6% Gold Debentures, Series A, due December 1, 1950 of Pennsylvania Power & Light Company, as aforementioned, as may be required to redeem its own outstanding debentures as aforementioned, and the balance of such proceeds will be added to Lehigh Power Securities Corporation's cash on hand, a portion of which will be used by Lehigh Power Securities Corporation to pay the dividend on its outstanding common stock as aforementioned.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
*Secretary.*

### TITLE 7—AGRICULTURE

### AGRICULTURAL ADJUSTMENT ADMINISTRATION

[ACP-99—Revised]

AMENDED REGULATIONS PERTAINING TO THE MAKING OF ADVANCES TO PERSONS TO ENABLE THEM TO OBTAIN INSURANCE FROM THE FEDERAL CROP INSURANCE CORPORATION

By virtue of the authority vested in the Secretary of Agriculture by the Act entitled, "An Act to amend section 12 of the Soil Conservation and Domestic Allotment Act, as amended," approved March 25, 1939, I, F. W. Reichelderfer, Acting Secretary of Agriculture, do make, prescribe, publish, and give public notice of the following regulations covering the making of advances to persons for the purpose of assisting them to insure their crops with the Federal Crop Insurance Corporation, which amend and supersede the regulations entitled "Regulations Pertaining to the Making of Advances to Persons to Enable Them to Obtain Insurance From the Federal Crop Insurance Corporation," approved and issued by the Secretary of Agriculture under the date of March 29, 1939.[1] These regulations are to be in force and effect until amended or superseded by regulations hereafter made by the Secretary of Agriculture under said provisions of law.

Done at Washington, D. C., this 22d day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] F. W. REICHELDERFER,
*Acting Secretary of Agriculture.*

§ 1. *Definitions.* As used herein and in all forms and documents relating to the making of advances to persons to enable them to obtain insurance from the Federal Crop Insurance Corporation (hereinafter referred to as an advance), unless the context or subject matter otherwise requires, the terms:

(a) *Secretary, Administrator, Regional Director, State committee, county committee* and *person* shall have the meanings assigned to them in the Agricultural Conservation Program Bulletin issued for the crop year with respect to which a person applies for insurance with the Federal Crop Insurance Corporation.

(b) *The Corporation* means the Federal Crop Insurance Corporation.

§ 2. *Eligibility for an advance.* In order to be eligible to request an advance a person at the time of making such request,

(1) must file, or have previously filed with the county committee, the application for crop insurance to which the request for advance relates;

(2) must be participating, or agree to participate, in the Agricultural Conservation Program relating to the crop year to which the application for insurance relates, to such an extent that the sum of the estimated payment to be earned under such program and the estimated payments, if any, earned or to be earned under any other programs administered by the Department of Agriculture with respect to the same or preceding crop years, less (a) the pro rata deduction, if any, for county association expenses, (b) the amount of the conservation payment which has been assigned, and (c) the sum of such person's indebtedness to the Agricultural Adjustment Administration and to the various agencies and departments of the Federal Government as set forth in the Order Governing Set-offs Revised by the Secretary of Agriculture, October 25, 1936, is at least equal to the amount for which the request for advance is made; this amount of payment is hereinafter referred to as "net payment";

(3) must authorize the Secretary to deduct the amount of the advance from any payment to which such person then or thereafter becomes entitled under any program administered by the Department, must agree, upon notice from the Secretary or his agent, to repay the amount of advance owing to the Secretary at the time of such notice, and must agree that the Secretary has a right to and interest in all indemnities payable

under insurance contracts issued to him by the Corporation to the extent of the amount of the advance owing to the Secretary at the time claim for any such indemnity is made;

(4) must agree that the authorization for deduction from payments and indemnities, as set forth in (3) above, shall apply to payments and indemnities due him which are made to his successor in interest because of death, incompetency, insolvency or bankruptcy.

§ 3. *Request for advance.* An advance will be made only upon request therefor submitted through the county office on a prescribed form. A request form shall be filed for each application for insurance for which an advance is desired: *Provided, however,* That if, subsequent to filing such a request, a person desires to increase his insurance coverage under an insurance contract for which an advance was previously requested, he may file a supplemental request for advance of the additional amount of premium.

§ 4. *Manner of payment.* The amount of advance approved by the appropriate State Office of the Agricultural Adjustment Administration will be remitted by the Secretary directly to the Corporation. In the event the amount of the advance so remitted to the Corporation is in excess of the amount of premium due, the excess will be returned by the Corporation to the Secretary and the applicant's account credited with such amount: *Provided, however,* That, if the Secretary has been reimbursed for a portion of the amount of the advance, the amount of excess needed to reimburse the Secretary for the entire amount of advance will be returned to the Secretary for the applicant's account and the remainder will be returned to the applicant.

§ 5. *Forms and instructions.* The Agricultural Adjustment Administration shall prescribe such forms and issue such instructions as may be necessary to carry out these regulations.

§ 6. *Signatures and authorization.* The provisions of ACP–16, "Instructions on Signatures and Authorizations," are hereby made a part of these regulations.

## TITLE 10—ARMY: WAR DEPARTMENT

### CHAPTER V—MILITARY RESERVATIONS AND NATIONAL CEMETERIES

### PART 52—REGULATIONS AFFECTING MILITARY RESERVATIONS

*Commanding Officer* [1]

§ 52.19 *Duties, general*—(a) *Emergency issue of subsistence to destitute persons.* Subsistence to destitute persons to relieve starvation or extreme suffering will be issued by the commanding officer as prescribed in paragraph 9, AR 30–2210.[2]

(b) *Quarters for civilians.* The commanding officer may grant permission to servants and civilian employees to occupy such quarters as are available.

(c) *Aid to mail contractors.* Commanding officers will assist mail contractors by furnishing them with Government transportation, provided it can be spared without detriment to the service, when, through accident or unavoidable causes, a mail contractor is deprived of the necessary means to fulfill his contract. Such assistance will cease as soon as the contractor can, by exercise of proper diligence, resupply himself with transportation. Receipts for the transportation loaned will be taken, which, in the event of its loss or damage, will be forwarded with a report of facts to The Adjutant General in order that the expense involved may be collected through the Post Office Department.

(d) *Use of Government airdromes or landing fields for privately owned aircraft.* (1) Owners of private aircraft will not be permitted to use any active Government airdrome as a base. The use of such airdrome by operators of private aircraft may, however, be permitted, in the discretion of the commanding officer of the post, upon condition that

[1] These regulations supersede Sections 52.19 and 52.20, Chapter V, Title 10, Code of Federal Regulations.

[2] Administrative regulations of the War Department relative to rations.

the aircraft is not operated for profit, that it is housed in privately owned hangars not located on Government land, and that assistance will not be required from the personnel of the post as to maintenance, repair, or operation.

(2) In the case of Government-owned airdromes announced from time to time as being on an inactive status, operators of private and commercial aircraft may be permitted, when airdrome facilities are available, to use such facilities, subject, however, in each case to the approval of the War Department and under such regulations as are now or may hereafter be prescribed.

(3) With regard to airdromes leased by the Government, owners of private and commercial aircraft may obtain permits from the lessor to use the facilities at such airdromes under the rules and regulations that apply to the use of the airdromes by Army organizations. In all cases, however, this permit must have the approval of the War Department.

(4) Operators of aircraft making use of the facilities at any Air Corps airdrome will be required to conform to the local rules and regulations in force at that post.

(5) While owners of private aircraft are not permitted to use any Government airdrome or landing field as a base, the commanding officer may in an emergency permit them to use such landing field, provided the aircraft require no Government supplies or property.

(e) *Construction of buildings other than public.* No buildings other than public will be erected or constructed on military reservations unless authority is granted by the Secretary of War under a revocable license in which the conditions for occupancy will be clearly set forth. Exceptions may be made with respect to unimportant and temporary structures such as are necessary and incident to the work of contractors on Government work, provided that such temporary buildings will be removed at the expiration of the permit. It is the policy of the War Department to eliminate as promptly as practicable all temporary structures on military reservations. The Panama Canal, Hawaiian, Philippine, and Puerto Rican Departments are excepted from these provisions in view of the special situations in those departments. See also section I, A.R. 30–1425.[3]

(f) *Welfare*—(1) *Young Men's Christian Association.* (i) At posts where Young Men's Christian Association buildings have been constructed pursuant to the act of May 31, 1902 (32 Stat. 282); 10 U.S.C. 1346; the Young Men's Christian Association will be permitted to continue to conduct thereat helpful physical, intellectual, and nonsectarian religious activities. The commanding officer will assist and facilitate these activities in such ways as he may deem appropriate and desirable.

[3] Administrative regulations of the War Department relative to construction.

(ii) Duly appointed secretaries of the association serving at such posts will be permitted to purchase from the quartermasters such necessary supplies as are available.

(2) *American National Red Cross.* The activities of the American National Red Cross at posts will be as prescribed or implied in A.R. 850–75,[4] and the commanding officer will assist and facilitate such activities in every appropriate manner.

(g) *Granting use of water to certain nonmilitary agencies.* At a few posts the Secretary of War has authorized in particular cases the establishment and maintenance by religious, fraternal, or benevolent organizations, of chapels and other facilities for service in or with the Army. Commanding officers will grant to such authorized establishments the use of water and sewer facilities within the posts, provided that the water supply is ample, that the facilities are adequate, and that the granting of these privileges will involve no expense to the Government.

(h) *Competition with civilian enterprises.* (1) The commanding officer will be charged with the responsibility that no enlisted man of his command shall be detailed, ordered, or permitted to leave his post to engage in any pursuit, business, or performance in civil life, for emolument, hire, or otherwise, when it will interfere with the customary employment and regular engagement of local civilians in the respective arts, trades, or professions.

(2) He will prohibit the use of military personnel or civilian employees of the Army, during normal working hours, in conducting cooperatives (other than post exchanges) which operate in competition with civilian enterprises. (R.S. 161; 5 U.S.C. 22) [Pars. 12, 14*e*, 16*b*, 22, 24, 32*c* and *d*, 33, and 36, A.R. 210–10, July 1, 1939]

§ 52.20 *State fish and game laws*—(a) *Jurisdiction.* The fish and game laws of a State are not operative on a military reservation over which the United States has exclusive jurisdiction unless authorized to that effect, and a State or local official who attempts at any time to enforce such State laws thereon will be directed to desist from such attempted enforcement. Should he persist therein he will be removed from the reservation.

(b) *Permits.* All permits to hunt, catch, trap, or kill any kind of game animal, game or nongame bird, or to fish on a military reservation or the waters thereof will be issued by the commanding officer. (R.S. 161; 5 U.S.C. 22) [Par. 37, A.R. 210–10, July 1, 1939]

## TITLE 14—CIVIL AVIATION

### CIVIL AERONAUTICS AUTHORITY

[Regulation 401–K–1]

TEMPORARY SUSPENSION OF SERVICE UNDER CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AUTHORIZING INTERSTATE AIR TRANSPORTATION

At a session of the Civil Aeronautics Authority held at its office in Washington, D. C. on the 21st day of July 1939.

Acting pursuant to the Authority vested in it by the Civil Aeronautics Act of 1938, particularly sections 205 (a) and 401 (k) thereof, and finding that this action is necessary and appropriate to carry out the provisions of the Act, and is required by the public interest, the Civil Aeronautics Authority hereby makes and promulgates the following regulation:

(a) The holder of a certificate of public convenience and necessity authorizing interstate air transportation (hereinafter called a "Certificate") may at any time file with the Authority an application for the approval of the temporary suspension of service to any point named in the Certificate. Such application shall be conspicuously entitled "Application for Order Authorizing Temporary Suspension of Service," shall state the facts on which it is based, and shall include the names and addresses of the persons upon whom a copy of such application was served. The execution, number of copies, and verification of an application filed hereunder, and the formal specifications of papers included in an application, shall be in accordance with the requirements of the "Rules of Practice Under Title IV and Section 1002 (d) to (i) of the Civil Aeronautics Act of 1938" relating to applications generally. At the time the application is filed a copy shall be served by personal service or registered mail upon the chief executive of such point, each scheduled air carrier which regularly renders service to such point, and, if the Certificate authorizes the holder to engage in the transportation of mail to or from such point, upon the Postmaster General, marked for the attention of the Division of Air Mail Service. Each copy so served shall be accompanied by a letter of transmittal stating that such service is being made pursuant to Regulation 401–K–1 of the Authority.

The Authority may by order (hereinafter called a "Service Suspension Order") grant an application if it finds that the temporary suspension of service to such point is in the public interest. The Authority may by order at any time revoke or amend a Service Suspension Order.

(b) Without obtaining from the Authority a Service Suspension Order pursuant to paragraph (a) of this regulation, the holder of a Certificate may

(1) temporarily suspend service to a point named in such Certificate during such time as the air carrier operating

certificate together with the operation specifications of the holder do not authorize service to such point through the airport and with the type of aircraft last regularly used by the holder to serve such point,

(2) In the case of a point named in a Certificate issued pursuant to section 401 (d) or section 401 (e) (2) of the Act and which has never been regularly served by the holder after the date of issuance of the Certificate, temporarily suspend service to such point during such time as the air carrier operating certificate together with the operation specifications of the holder do not authorize service to such point through any airport convenient thereto with any type of aircraft then being regularly used (or, if the holder is not operating, proposed to be used) by the holder for scheduled operations between other points named in such Certificate, or

(3) In the case of a point named in a Certificate issued pursuant to section 401 (e) (1) of the Act, continue temporarily to suspend service to such point if service to such point has been suspended during the thirty days immediately preceding the effective date of this regulation.

With respect to any such point the Authority may by order at any time revoke or amend the authority conferred on the holder by this paragraph (b).

(c) Before issuing, amending, or revoking any order pursuant to this regulation the Authority may require that a hearing be held with respect thereto.

(d) The temporary interruption of service to a point named in a Certificate caused by adverse weather conditions or by other conditions which the holder could not reasonably have been expected to foresee or control shall not be deemed to have caused a temporary suspension of service to such point within the meaning of such Certificate or this regulation.

(e) The Authority may by order or otherwise authorize such other temporary suspension of service as it may deem in the public interest.

(f) Nothing in this regulation shall be construed as prohibiting or restricting the holder of a Certificate from landing or taking off in an emergency at a point not named in its Certificate.

(g) This regulation shall become effective on July 31, 1939.

By the Authority.

[SEAL] PAUL J. FRIZZELL,
*Secretary.*

ADOPTION OF FORM X-15AJ-2

Form X-15AJ-2, Annual Consolidated Supplement to Registration Statement of a National Securities Association or an Affiliated Securities Association, adopted by the Commission on July 7, 1939, effective July 13, 1939, was filed with the Division of the Federal Register, The National Archives, on July 24, 1939, at 11:14 a. m. (F. R. Doc. 39-2714). Requests for copies should be addressed to the Securities and Exchange Commission.

## TITLE 24—HOUSING CREDIT

### HOME OWNERS' LOAN CORPORATION

PART 402—LOAN SERVICE; PART 405—RECONDITIONING

INCOME PRODUCING RECONDITIONING

Amending Parts 402 and 405 of Chapter IV, Title 24 of the Code of Federal Regulations.

Sections 402.10 and 405.03 are amended respectively to read as follows:

The General Manager, with the advice of the General Counsel, may authorize advances of Corporation funds for the accounts of borrowers, vendees and transferees to effect income producing reconditioning when he determines that (a) such advance is reasonably necessary to facilitate collection of the indebtedness owing to the Corporation from the borrower, vendee or transferee, whose account is delinquent or will inevitably become delinquent unless such advance is made, (b) the borrower, vendee or transferee is unable to finance satisfactorily such reconditioning otherwise and (c) such income producing reconditioning is in the best interest of the Corporation, all things considered.

The authority herein vested in the General Manager may be exercised also by the Regional Manager under procedure and limitations prescribed by the General Manager and the General Counsel, provided that any case in which the estimated cost of the income producing reconditioning exceeds $500 shall be forwarded to the Home Office by the Regional Manager, together with his recommendation and the opinion and recommendation of the Regional Counsel as to examination of title and the form of security instrument to be taken, for the concurring recommendation of the Chief, Reconditioning Section, and the Deputy General Manager in Charge of Loan Service and final approval by the General Manager.

Income producing reconditioning may be authorized only under proper legal advice, and questions of waiver of examination of title or the form of note and mortgage or other security instrument that should be taken to secure such advance, shall be determined by the Legal Department. The Reconditioning Section shall direct and supervise all income producing reconditioning.

(Secs. 4 (a), 4 (k) of Home Owners' Loan Act of 1933, 48 Stat. 129, 132 as amended by Section 13 of the Act of April 27, 1934, 48 Stat. 647; 12 U.S.C. 1463 (a) (k))

(Effective August 1, 1939)

Adopted by the Federal Home Loan Bank Board on July 20, 1939.

## TITLE 31—MONEY AND FINANCE: TREASURY

### PUBLIC DEBT SERVICE

[1939—Department Circular No. 617]

OFFERING OF COMMODITY CREDIT CORPORATION 5/8 PERCENT NOTES OF SERIES D, DUE AUGUST 1, 1941

JULY 24, 1939.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, on behalf of the Commodity Credit Corporation, invites subscriptions, at par and accrued interest, from the people of the United States for notes of the Commodity Credit Corporation, designated 5/8 percent notes of Series D. The amount of the offering is $200,000,000, or thereabouts.

II. DESCRIPTION OF NOTES

1. The notes will be dated August 1, 1939, and will bear interest from that date at the rate of 5/8 percent per annum, payable semiannually on February 1 and August 1 in each year until the principal amount becomes payable. They will mature August 1, 1941, and will not be subject to call for redemption prior to maturity.

2. These notes are issued under the authority of the act approved March 8, 1938, (Public No. 442—75th Congress) which provides that these notes shall be fully and unconditionally guaranteed both as to interest and principal by the United States; that they shall be deemed and held to be instrumentalities of the Government of the United States, and as such they and the income derived therefrom shall be exempt from Federal, State, municipal, and local taxation (except surtaxes, estate, inheritance, and gift taxes); and that the notes shall be lawful investments and may be accepted as security for all fiduciary, trust, and public funds the investment or deposit of which shall be under the authority or control of the United States or any officer or officers thereof.

3. The authorizing act further provides that in the event the Commodity Credit Corporation shall be unable to pay upon demand, when due, the principal of, or interest on, such obligations, the Secretary of the Treasury shall pay to the holder the amount thereof which is authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amount so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such obligations.

4. Bearer notes with interest coupons attached will be issued in denominations of $1,000, $5,000, $10,000 and $100,000. The notes will not be issued in registered form.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve banks and branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions from banks and trust companies for their own account will be received without deposit but will be restricted in each case to an amount not exceeding one-half of the combined capital and surplus of the subscribing bank or trust company. Subscriptions from all others must be accompanied by payment of 10 percent of the amount of notes applied for. The Secretary of the Treasury reserves the right to close the books as to any or all subscriptions or classes of subscriptions at any time without notice.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, to make allotments in full upon applications for smaller amounts and to make reduced allotments upon, or to reject, applications for larger amounts, or to adopt any or all of said methods or such other methods of allotment and classification of allotments as shall be deemed by him to be in the public interest; and his action in any or all of these respects shall be final. Allotment notices will be sent out promptly upon allotment, and the basis of the allotment will be publicly announced.

IV. PAYMENT

1. Payment at par and accrued interest, if any, for notes allotted hereunder must be made or completed on or before August 1, 1939, or on later allotment. In every case where payment is not so completed, the payment with application up to 10 percent of the amount of notes applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve banks of the respective districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve banks.

[SEAL] HENRY MORGENTHAU, Jr.,
*Secretary of the Treasury.*

## TITLE 32—NATIONAL DEFENSE

### NATIONAL MUNITIONS CONTROL BOARD, DEPARTMENT OF STATE

PART 3—RULES OF PROCEDURE GOVERNING THE ISSUANCE OF LICENSES FOR THE EXPORTATION OF TIN-PLATE SCRAP DURING THE CALENDAR YEAR 1939

JULY 20, 1939.

§ 3.20 *Additional allotments—Authority.* The following rules of procedure are hereby prescribed, by and with the advice and consent of the National Munitions Control Board, to govern the issuance of additional allotments under the provisions of paragraph (5) of the rules of procedure prescribed by the Acting Secretary of State on December 16, 1938,[1] for the exportation of tin-plate scrap during the calendar year 1939:*

§ 3.21 *To whom granted.* Additional allotments will be granted to producers of tin-plate scrap only and will be assigned in the order of the receipt of requests therefor, provided that, in the event that it shall be necessary in order that the quantity of tin-plate scrap to be exported during the calendar year 1939 shall not exceed the total figure agreed upon by the National Munitions Control Board, the available balance of such total shall be apportioned among the applicants on the basis of their production during the first 6 months of 1939. Allotments will be based on the individual producer's request therefor with the provision that no allotment of more than 25 long tons shall exceed in amount 20 percent of the quantity of tin-plate scrap produced by him during the first 6 months of the calendar year 1939. No allotment assigned under the provisions of this paragraph to any one producer, including his affiliated or associated companies, shall exceed 1,000 long tons. Requests for allotments of 25 long tons or less may be granted in full, subject to the qualifications set forth in the following paragraph.*

§ 3.22 *Sworn statement of production.* No producer shall be eligible to receive an allotment under the provisions of paragraph (5) of the rules of procedure until the Secretary of State has received from him a sworn statement setting forth the quantity of tin-plate scrap, in long tons, produced by him during the first 6 months of the calendar year 1939, provided that requests for 25 long tons or less may be granted in full, without reference to the quantity of tin-plate scrap produced during the first 6 months of 1939, if the producer concerned presents convincing evidence, in the form of a sworn statement, establishing that he will, so far as can be foreseen, produced during the calendar year 1939 at least the equivalent of the allotment requested by him in excess of the total of any allotments previously assigned to him for export during the calendar year 1939. Sworn statements submitted under the provisions of this paragraph shall include the name and address of the producer, the name and location of each factory, and the quantity of tin-plate scrap produced at each factory.*

[SEAL] CORDELL HULL,
*Secretary of State.*

[F. R. Doc. 39-2701; Filed, July 22, 1939; 9:13 a. m.]

*Sections 3.20 to 3.22 issued under the authority contained in E.O. No. 7297, Feb. 16, 1936; Sec. 1, 2, 49 Stat. 1140; 50 U.S.C. 86, 87; 32 CFR 3.12.

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### WAR DEPARTMENT

CHAPTER II.—RULES RELATING TO NAVIGABLE WATERS

PART 202—ANCHORAGE REGULATIONS

§ 202.27 *Delaware River, Delaware, explosives anchorage in vicinity of Reedy Island.*[1]

[1] These regulations are supplementary to Title 33, Chapter II, Part 202, of the Code of Federal Regulations.

Under the provisions of Section 7 of the River and Harbor Act approved March 4, 1915, the following explosives anchorage area is established with rules and regulations pertaining thereto:

*The Anchorage Area*

(a) At the upper end of Artificial Island, to the eastward of the dredged channel along Reedy Island Range, northward of a line 103° from Reedy Island Light, extending upstream about 5,000 feet to a line 110° from the Quarantine Tank on Reedy Island, eastward of a line 500 feet from and parallel with the edge of the channel to the 26-foot curve of depth.

*The Rules and Regulations*

(b) (1) This anchorage area is intended primarily for vessels engaged in the transportation, storage, stowage and handling of explosives and other dangerous articles. No vessel not so engaged will be permitted to anchor in this anchorage area except in a case of emergency.

(2) The anchoring of vessels in this anchorage area shall be subject to supervision and approval of the District Engineer, Engineer Department at Large, in charge of the locality.

(3) Vessels shall be so anchored within this anchorage area that no portion of the hull or rigging shall at any time extend outside the boundaries of the anchorage area.

(4) Vessels within this anchorage area shall not be anchored closer than 500 feet within one another and not less than 500 feet from the edge of navigable channel.

(5) Every vessel whose crew may be reduced to such number that it will not have sufficient men on board to weigh anchor at any time shall be anchored with two anchors, with mooring swivel put on before the crew shall be reduced or released.

(6) The District Engineer is hereby empowered to shift the position of any vessel within this anchorage area whenever the maritime or commercial interests of the United States so require. A vessel upon being notified to move or shift its position must get under way at once and change position as directed with reasonable promptness.

(7) The owners of vessels or interests using the anchorage area shall comply with all Federal, State, and local rules and regulations governing the transportation, storage, stowage and handling of explosives and other dangerous articles.

(8) Nothing in these rules and regulations shall be construed as relieving the owner or person in charge of any vessel or plant from the penalties of the law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the navigation laws in regard to lights, fog signals, or for otherwise violating law. (Sec. 7, River and Harbor Act, March 4, 1915, 38 Stat. 1053; 33 U.S.C. 471) [Regs., June 23, 1939 (E.D. 7175 (Delaware River)—5/9)]

[SEAL] E. S. ADAMS,
*Major General,*
*The Adjutant General.*

## *Notices*

### TREASURY DEPARTMENT.

#### Federal Alcohol Administration Division.

DISTILLED SPIRITS LABELING AND ADVERTISING

DECISION ON CERTAIN PROPOSED AMENDMENTS TO REGULATIONS NO. 5

*To All Importers, Bottlers and Wholesalers of Distilled Spirits:*

Pursuant to notices of hearing issued by the Administration on March 17 and March 30, 1939,[1] public hearings were held in Washington, D. C. on April 27 and 28, 1939, upon fourteen proposals to amend the distilled spirits labeling and advertising regulations. The Administration has now completed its study and analysis of the testimony adduced upon several of these proposals and takes this occasion to advise the industry that Items 2, 4 (b), 5 (e), 6, and 12 (b) have been rejected. These proposals were as follows:

"2. To amend Article II, Class 6, and other pertinent sections of the regulations, in such manner as to establish a minimum proof of 60 degrees for all distilled spirits marketed as cordials or liqueurs."

"4 (b). That there be stated upon the labels of all Scotch type whiskey and Irish type whiskey, in direct conjunction with the class and type designation, a statement of the name of the country in which the product was produced, preceded by the words 'product of' or a similar appropriate phrase."

"5 (c). That where Scotch whiskey, rum, and other distilled spirits, imported in bulk and domestically bottled, are reduced in proof in the United States at the time of bottling, a statement to that effect be required to appear in conjunction with the required name and address statement upon the brand label."

"6. To amend Article III, Section 37, and other pertinent provisions of the regulations, in such manner as to permit the statement of net contents to be eliminated from the label in all cases where the net contents are displayed, by having the same legibly blown in the bottle, either on the back or on the front."

"12 (b). That all distilled spirits, whether domestically manufactured, domestically bottled, or imported, be packaged in liquor bottles of the following sizes only: to wit, one gallon, one half gallon, one quart, one pint, one half pint, and one eighth pint, and that the following sizes of liquor bottles presently authorized for use as containers of distilled spirits be eliminated as standards of fill: to wit, four fifths quart, four fifths pint, one tenth pint, and one sixteenth pint."

In rejecting Proposal No. 2, dealing with the establishment of a minimum proof for cordials and liqueurs, the Administration is cognizant of the opinion expressed by various members of the industry that a minimum proof should be established for these products, but that all legitimate cordials and liqueurs would not be embraced within the proposed 60° minimum. The Administration, therefore, proposes to devote further consideration to this question with a view to the later adoption of some minimum which will embrace all legitimate cordials and liqueurs.

In rejecting Proposal No. 12 (b), the Administration is of the opinion that the question of more adequate information to the consuming public regarding the capacities of the various standards of fill can be obtained by a change in the labeling requirements, without the complete elimination of such sizes. This will require a new proposal at a public hearing. Such a hearing it is proposed to hold at some future date, after proper notice to all interested parties, but such a hearing will not be held until late in the fall.

With respect to the other proposals contained in the public hearing notices of March 17 and 30, 1939, the Administration announces that no decision has as yet been arrived at. Upon some of these proposals the testimony adduced at the public hearing was voluminous and will require extensive study and careful analysis and consideration before any definite action is taken. It is possible, with reference to some of the proposals on which evidence was taken, that the Administration may desire, at some future date, to take evidence upon proposals which are alternative to some of those considered at the public hearings on April 27 and 28, 1939.

This course of action may be found to be particularly appropriate in connection with the Administration's efforts to establish more effective standards of identity for brandy. It will be recalled that in the spring of 1938 evidence was taken on a proposal to establish a maximum distillation proof of 160° for brandy. This proposal has not been disposed of and the record of the hearing of April 27 and May 2,[2] held during 1938, on this question, has been kept open pending completion of scientific research under the auspices of the University of California. When such research is completed, it will be made a part of the public record and become subject to the scrutiny of the industry.

#### Bureau of Marine Inspection and Navigation.

EXECUTIVE COMMITTEE OF THE BOARD OF SUPERVISING INSPECTORS

NOTICE OF MEETING

Pursuant to the authority conferred by Section 4405, R. S., I hereby call a meeting of an Executive Committee of the Board of Supervising Inspectors of the Bureau of Marine Inspection and Navigation, consisting of R. S. Field, Director; George Fried, Supervising Inspector of the Second District, New York, New York; and Eugene Carlson, Supervising Inspector of the Third District, Norfolk, Virginia, to take place in the Board Room of the Auditorium of the Department of Commerce, commencing at 10:00 A. M. August 4, 1939, for the purpose of considering proposed amendments to the General Rules and Regulations, approvals of miscellaneous items of equipment for use on inspected vessels, and for the transaction of such other business as may come before the meeting.

A public hearing will commence coincidental with the meeting of the Executive Committee for the purpose of considering written and oral comments of the marine industry on the proposed amendments.

### DEPARTMENT OF LABOR.

#### Wage and Hour Division.

IN THE MATTER OF THE APPLICATION FOR EXEMPTION OF THE SPRING FRESHET DRIVING OF LUMBER IN THE STATES OF MICHIGAN, MINNESOTA AND WISCONSIN FROM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938

Whereas, the Timber Producers' Association of Minnesota has filed an application with Elmer F. Andrews, Administrator of the Wage and Hour Division, United States Department of Labor for a determination that spring freshet driving of lumber in the States of Michigan, Minnesota and Wisconsin is a branch of an industry of a seasonal nature within the meaning of Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526[1] of the Regulations issued thereunder, and

Whereas, the Administrator determined, after a public hearing[2] held before him in Washington, D. C. on April 17 and 18, 1939, that the spring freshet driving branch of the lumber industry conducted in the States of Maine, New Hampshire, New York and Vermont is entitled to the seasonal exemption provided in Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder, and

Whereas, it is alleged in the application filed by the Timber Producers' Association of Minnesota that spring freshet driving in Michigan, Minnesota and Wisconsin is similar in all material respects to spring freshet driving in Maine, New Hampshire, New York and Vermont.

Now, therefore, upon consideration of the facts stated in the said application, the Administrator hereby determines, pursuant to Section 526.5 (c) of the Regulations that a *prima facie* case has been shown for the granting of an exemption, pursuant to Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder to the branch of the lumber industry which is engaged in spring freshet driving in the States of Michigan, Minnesota and Wisconsin.

In accordance with the procedure established by Section 526.5 (c) of the Regulations, the Administrator for fifteen days following the publication of this determination will receive objection to the granting of the exemption and request for hearing from any interested person. Upon receipt of objection and request for hearing, the Administrator will set the application for hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case shown upon the application.

The application may be examined in Room 5144, U. S. Department of Labor, Washington, D. C.

Signed at Washington, D. C., this 20th day of July, 1939.

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES FOR THE EMPLOYMENT OF LEARNERS

Notice is hereby given that Special Certificates for the employment of learners at wages lower than the minimum wage applicable under Section 6 of the Fair Labor Standards Act of 1938 are issued to the following employers, subject to the following terms;

| Name of firm | Number of learners | Industry | Occupation | Period | Beginning | Percent of minimum wage |
|---|---|---|---|---|---|---|
| H. Lang Co., 113 N. 2d St., River Falls, Wisconsin. | 7 | Apparel (overalls, Jackets and Pants). | Stitching | 8 weeks | July 25, 1939 | 75 |
| Elin Mfg. Corp., 501 Main St., Rochester, Indiana. | 20 | Apparel(Work Clothes) | Stitching | 8 weeks | July 25, 1939 | 75 |
| Normandy Frocks, Obion, Tenn. | 25 | Apparel (Dresses) | Stitching | 8 weeks | July 25, 1939 | 75 |
| Ideal Mfg. Co., Main Street, Tilton, N. H. | 10 | Apparel (Dresses) | Stitching | 8 weeks | July 25, 1939 | 75 |

These Special Certificates are issued ex parte under Section 14 of the said Act and Section 522.5 (b) of Regulations Part 522, as amended.[1] For fifteen days following the publication of this notice the Administrator will receive detailed written objections to any of these Special Certificates and requests for hearing from interested persons. Upon due consideration of such objections as provided for in said Section 522.5 (b) such Special Certificates, or any of them, may be cancelled as of the date of their issuance and if so cancelled, reimbursement of all persons employed under such certificates must be made in an amount equal to the difference between the applicable statutory minimum wage and any lesser wage paid such persons.

Signed at Washington, D. C., this 20th day of July, 1939.

## FEDERAL POWER COMMISSION.

[Docket No. IT-5580]

IN THE MATTER OF NEW ENGLAND POWER COMPANY

NOTICE OF APPLICATION

JULY 21, 1939.

Notice is hereby given that on July 20, 1939, an application was filed with the Federal Power Commission, pursuant to Section 203 of the Federal Power Act, by the New England Power Company, a corporation organized under the laws of The Commonwealth of Massachusetts and the State of Vermont and having its principal business office at 441 Stuart Street, Boston, Massachusetts, seeking an order authorizing the merger of its facilities subject to the jurisdiction of the Federal Power Commission with the electric facilities of the Bellows Falls Hydro-Electric Corporation, a corporation having its principal office at Bellows Falls, Vermont, and with certain of the electric facilities of the Connecticut River Power Company, a corporation having its principal office at Littleton, New Hampshire, said merger to be accomplished by the purchase of the property, assets and franchises of the Bellows Falls Hydro-Electric Corporation (except cash and except accounts receivable by the Bellows Falls Hydro-Electric Corporation from the New England Power Company), consisting principally of a hydro-electric generating plant on the Connecticut River and transmission lines used in connection therewith, for a purchase price of $12,381,739.66 as of April 30, 1939, and the purchase by the New England Power Company of that portion of the so-called Bellows Falls-Pratts Junction transmission line located in New Hampshire, from the Connecticut River Power Company, which line connects the lines of the Bellows Falls Hydro-Electric Corporation and the lines of the New England Power Company, for a purchase price of $672,747.30 as of April 30, 1939; as more fully appears in the application on file with the Commission;

Any person desiring to be heard or to make any protest with reference to the said application should, on or before the 5th day of August 1939, file with the Federal Power Commission a petition or protest in accordance with the Commission's Rules of Practice and Regulations.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 39-2700; Filed, July 22, 1939; 9:13 a. m.]

## RURAL ELECTRIFICATION ADMINISTRATION.

[Administrative Order No. 377]

ALLOCATION OF FUNDS FOR LOANS

JULY 20, 1939.

By virtue of the authority vested in me by the provisions of Section 4 of the Rural Electrification Act of 1936, as amended, I hereby allocate, from the sums authorized by said Act, funds for loans for the projects and in the amounts as set forth in the following schedule:

| *Project Designation* | *Amount* |
|---|---|
| Tennessee 0009F1 Macon | $156,000 |

ROBERT B. CRAIG,
*Assistant Administrator.*

[F. R. Doc. 39-2699; Filed, July 22, 1939; 9:13 a. m.]

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 19th day of July, A. D. 1939.

IN THE MATTER OF UNITY GOLD CORPORATION

ORDER FIXING EFFECTIVE DATE OF AMENDMENTS TO REGISTRATION STATEMENT AND DECLARING STATEMENT AMENDED IN ACCORDANCE WITH STOP ORDER

This matter coming on to be heard by the Commission upon the registration statement originally filed by Unity Gold Corporation of Butte, Montana, on May 25, 1937, and upon amendments to said

[1] 4 F.R. 2068 DI.

[1] 4 F.R. 1621 DI.

registration statement filed by said registrant on June 14, July 17, 22 and 23, and November 1, 1937, February 17, 1938, and January 3 and 16, February 21, May 12, June 28, and July 14, 1939, and the Commission having duly considered the matter and now being fully advised in the premises

*It is declared*, That said registration statement has been amended in accordance with the Stop Order issued on July 19, 1938,[1]

*It is ordered*, That said Stop Order shall cease to be effective,

*It is further ordered*, That the said amendments shall become effective on July 19, 1939.

Attention is directed to Rules 800 (b) and 970 of the General Rules and Regulations, relating, respectively, to the requirements for the filing of twenty copies of the actual prospectus used and statement of price at which securities were actually offered.

Attention shall be directed to the provisions of Section 23, Securities Act of 1933, which follow: "Neither the fact that the registration statement for a security has been filed or is in effect nor the fact that a stop order is not in effect with respect thereto shall be deemed a finding by the Commission that the registration statement is true and accurate on its face or that it does not contain an untrue statement of fact or omit to state a material fact, or be held to mean that the Commission has in any way passed upon the merits of, or given approval to, such security. It shall be unlawful to make, or cause to be made, to any prospective purchaser any representation contrary to the foregoing provisons of this section."

By direction of the Commission.

[File No. 32-143]

IN THE MATTER OF PETOSKEY GAS COMPANY AND AMERICAN UTILITIES SERVICE CORPORATION

EXEMPTION, ETC., ORDER

Petoskey Gas Company, a wholly owned subsidiary of American Utilities Service Corporation, a registered holding company, having duly filed with this Commission an application pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935 for exemption from the provisions of Section 6 (a) of the Act with respect to the issue and sale of a 6% unsecured income note in the principal amount of $23,500 and 5,000 shares of common stock with a par value of $10 per share;

American Utilities Service Corporation having joined in the application of Petoskey Gas Company and having filed an application pursuant to Sections 10 (a) (1) and 12 (d) of the Public Utility Holding Company Act of 1935 for approval of the acquisition and pledge of the aforementioned note and common stock, in accordance with the terms of the trust indenture securing its Collateral Trust 6% bonds, Series A; and

A hearing[1] on said applications as amended having been duly held after appropriate notice; the record in this matter having been examined; and the Commission having made and filed its findings herein;

*It is ordered*, That the issue and sale by Petoskey Gas Company of such note and common stock be and the same hereby is exempted from the provisions of Section 6 (a) of the Public Utility Holding Company Act of 1935;

*It is further ordered*, That the aforementioned acquisition and pledge by American Utilities Service Corporation of said securities be and the same hereby is approved; and

*It is further ordered*, That this order be subject to the following terms and conditions:

(1) That all acts in connection with said applications as amended shall be performed in all respects as set forth in, and for the purposes represented by said applications as amended; and

(2) That in the event that the order of the Public Utilities Commission of the State of Michigan authorizing the issue of the aforesaid note and stock and the delivery of such note and stock to American shall be revoked, rescinded, or otherwise terminated the exemption granted herein shall immediately terminate without further notice or order of this Commission; and

(3) That within ten days after the issue and sale of the note and stock referred to herein and the acquisition and pledge of these securities by American the applicants shall respectively file with this Commission certificates of notification showing that such issue, sale, acquisition and pledge have been effected in accordance with the terms and conditions of, and for the purposes represented by, said applications as amended.

By the Commission.

IN THE MATTER OF MINNESOTA UTILITIES COMPANY AND AMERICAN UTILITIES SERVICE CORPORATION

ORDER RELATIVE TO DECLARATION AND AMENDED APPLICATION

Minnesota Utilities Company, a wholly-owned subsidiary of American Utilities Service Corporation, a registered holding company, having filed a declaration pursuant to Section 7 of the Public Utility Holding Company Act of 1935 with respect to the issue and sale to the aforesaid American Utilities Service Corporation of 3,400 shares of Common stock without par value for a consideration of $102,000;

American Utilities Service Corporation having joined in the declaration of Minnesota Utilities Company and having filed an application pursuant to Section 12 (d) of the Public Utility Holding Company Act of 1935 for approval of the pledge of the aforesaid 3,400 shares of common stock in accordance with the terms of the trust indenture securing its Collateral Trust 6% Bonds, Series A; and

A hearing[1] upon said declaration and application as amended, having been held after appropriate notice; the record in this matter having been examined; the Commission having made and filed its findings herein;

*It is ordered*, That said amended declaration be and become effective forthwith and that the said amended application be, and the same hereby is, approved, subject, however, to the following conditions:

(1) That all acts in connection with said declaration and said application shall be performed in all respects as set forth in, and for the purposes represented by, said declaration and said application, as amended; and

(2) That within ten days after the issue and sale of the stock referred to herein and the acquisition and pledge of such stock the declarant and the applicant shall file with this Commission certificates of notification showing that such issue, sale, acquisition, and pledge have been effected in accordance with the terms and conditions of, and for the purposes represented by, said declaration and said application, as amended.

By the Commission.

IN THE MATTER OF WASHINGTON AND SUBURBAN COMPANIES

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on July 27, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before July 26, 1939.

The matter concerned herewith is in regard to the application of Washington and Suburban Companies, a registered holding company, pursuant to Section 12 (d) of the Public Utility Holding Company Act of 1935, and Rule U-12D-1 promulgated thereunder, for approval of the sale of 362,588 shares of the no par Common Stock of Washington Gas Light Company, one of its subsidiary companies. Of said number of 362,588 shares proposed to be sold, the applicant presently owns 327,588 shares and expects to acquire 35,000 shares in exchange for certain securities and other indebtedness of Alexandria Gas Company and Washington Suburban Gas Company. The proposed sale is to be made to the public through underwriters. The price at which the shares are to be initially offered and the price to be received by the applicant will be supplied by amendment.

By the Commission.

## TITLE 7—AGRICULTURE

### SUGAR DIVISION

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF NORMAL YIELDS OF COMMERCIALLY RECOVERABLE SUGAR PER ACRE FOR SUGAR BEETS, 1939 SUGAR BEET PROGRAM

Pursuant to the provisions of Section 303 of the Sugar Act of 1937, I, H. A. Wallace, Secretary of Agriculture, do hereby make the following determination:

§ 802.15b (a) *Determination of normal yields of commercially recoverable sugar per acre for sugar beets—1939 sugar beet program.* The normal yield of commercially recoverable sugar per acre for a farm on which sugar beets were planted for harvest in 1939 shall be the amount of sugar obtained by multiplying the normal yield of sugar beets, in tons per acre, for the farm by the amount of sugar, raw value, determined to be commercially recoverable in the determination entitled "Determination of Sugar Commercially Recoverable from Sugar Beets," approved March 28, 1938 (Sec. 802.15a), from a ton of sugar beets of normal percentage of sugar content for the farm.

(b) *Definitions.* For the purposes of this determination:

(1) The normal yield of sugar beets in tons per acre for a farm on which sugar beets were planted for harvest in three or more of the years 1932-38, inclusive, shall be the simple average of the annual average yields of sugar beets per acre planted on the farm for harvest for all of the years 1932-38, inclusive, in which sugar beets were planted for harvest.

(2) The normal yield of sugar beets in tons per acre for a farm on which sugar beets were planted for harvest in only one or two of the years 1932-38, inclusive, shall be the number of tons obtained by multiplying the county normal yield (as defined in subparagraph 3) in tons of sugar beets per acre by the percentage that the simple average of the yields of sugar beets per acre planted on the farm for harvest in such year or two years is of the simple average of the yields of sugar beets per acre for the county for such year or two years, which county average yield shall be, for any year in which sugar beets were planted for harvest on ten or more of the farms on which sugar beets were planted for harvest in 1939, the weighted average yield of sugar beets per acre planted for harvest in 1939, the yield per acre planted for harvest in that year on farms in the county on which sugar beets were planted for harvest in 1939, and for any year in which sugar beets were planted for harvest on less than ten of the farms on which sugar beets were planted for harvest in 1939, the yield per acre established by the State Agricultural Conservation Committee on the basis of the yields per acre for that year in the county and in adjacent counties which have similar sugar beet production conditions: *Provided, however*, That the normal yield for such farm shall not be less than 80 percent nor more than 120 percent of the county normal yield.

(3) The normal yield of sugar beets in tons per acre for a farm on which sugar beets were not planted for harvest in any of the years 1932-38, inclusive, shall be 90 percent of the county normal yield per acre, which county normal yield shall be, for a county in which sugar beets were planted for harvest in three or more of the years 1932-38, inclusive, on ten or more of the farms on which sugar beets were planted for harvest in 1939, the simple average of the county average yields (as defined in subparagraph 2), for all of the years 1932-38, inclusive, in which sugar beets were planted for harvest on ten or more of such farms, and for a county in which sugar beets were planted for harvest in less than three of the years 1932-38, inclusive, on ten or more of the farms on which sugar beets were planted for harvest in 1939, the yield per acre established by the State Agricultural Conservation Committee on the basis of the yields per acre for the years 1932-38, inclusive, in the county and in adjacent

counties which have similar sugar beet production conditions.

(4) The normal percentage of sugar content of sugar beets for farms from which sugar beets were contracted to be marketed in 1939 under that type of agreement commonly known as an "individual test contract," shall be as follows:

(i) In cases in which sugar beets were so marketed in three or more of the years 1934–38, inclusive, the simple average of the annual average percentages of sugar content, at the time of delivery to a processor, of the sugar beets marketed in such years (including all years in which sugar beets were so marketed);

(ii) In cases in which sugar beets were so marketed in only one or two of the years 1934–38, inclusive, the percentage of sugar content obtained by multiplying the county normal percentage of sugar content of sugar beets (as defined in subdivision iii) by the percentage that the simple average of the average percentages of sugar content, at the time of delivery to a processor, of the sugar beets marketed in such year or two years is of the simple average of the average percentages of sugar content of sugar beets for the county for such year or two years, which county average percentage shall be, for any year in which sugar beets were so marketed from ten or more of the farms on which sugar beets were planted for harvest in 1939, the weighted average percentage of sugar content, at the time of delivery to a processor, of the sugar beets marketed in that year from farms in the county on which sugar beets were planted for harvest in 1939, and for any year in which sugar beets were so marketed from less than ten of the farms on which sugar beets were planted for harvest in 1939, the percentage of sugar content established by the State Agricultural Conservation Committee on the basis of the percentage of sugar content, at the time of delivery to a processor, of the sugar beets marketed in that year from farms in the county and in adjacent counties; and

(iii) In cases in which sugar beets were not so marketed in any of the years 1934–38, inclusive, the county normal percentage of sugar content of sugar beets, which county normal percentage shall be, for a county in which sugar beets were so marketed in three or more of the years 1934–38, inclusive, from ten or more of the farms on which sugar beets were planted for harvest in 1939, the simple average of the county average percentages of sugar content of sugar beets (as defined in subdivision ii), for such years (including all years in which sugar beets were so marketed from ten or more of the farms on which sugar beets were planted for harvest in 1939), and for a county in which sugar beets were not so marketed in at least three of the years 1934–38, inclusive, from ten or more of the farms on which sugar beets were planted for harvest in 1939, the percentage of sugar content of sugar beets established by the State Agricultural Conservation Committee on the basis of the percentage of sugar content, at the time of delivery to a processor, of the sugar beets marketed in the years 1934–38, inclusive, from farms in the county and in adjacent counties.

(5) The normal percentage of sugar content of sugar beets for farms from which sugar beets were contracted to be marketed in 1939 under any type of agreement other than that commonly known as an "individual test contract," shall be the normal percentage of sugar content of sugar beets for the district (an area in which a common marketing agreement was in use in 1939), which district normal percentage shall be:

(i) For districts in which beet sugar factories were operated in three or more of the years 1932–38, inclusive, the simple average of the annual average percentages of sugar content, at the time of processing, of all of the sugar beets processed in the district in all of such years in which sugar beets were processed; and

(ii) For districts in which beet sugar factories were operated in less than three of the years 1932–38, inclusive, the percentage of sugar content of sugar beets established by the Sugar Division on the basis of the average percentage of sugar content, at the time of processing, of sugar beets produced under similar conditions in the years 1932–38, inclusive. (Sec. 303, 50 Stat. 911; 7 U.S.C., Sup. IV, 1133)

Done at Washington, D. C., this 25th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

## AGRICULTURAL MARKETING SERVICE

### PART 29—THE TOBACCO INSPECTION ACT

### ORDER OF DESIGNATION OF TOBACCO MARKETS

*Greenville, North Carolina*

Whereas the Act of Congress approved August 23, 1935 (49 Stat., 731: 7 U.S.C., Sup. I, Chap. 21A) entitled "The Tobacco Inspection Act" contains the following provisions:

SEC. 2. That transactions in tobacco involving the sale thereof at auction as commonly conducted at auction markets are affected with a public interest; that such transactions are carried on by tobacco producers generally and by persons engaged in the business of buying and selling tobacco in commerce; that the classification of tobacco according to type, grade, and other characteristics affects the prices received therefor by producers; that without uniform standards of classification and inspection the evaluation of tobacco is susceptible to speculation, manipulation, and control, and unreasonable fluctuations in prices and quality determinations occur which are detrimental to producers and persons handling tobacco in commerce; that such fluctuations constitute a burden upon commerce and make the use of uniform standards of classification and inspection imperative for the protection of producers and others engaged in commerce and the public interest therein.

SEC. 5. That the Secretary is authorized to designate those auction markets where tobacco bought and sold thereon at auction, or the products customarily manufactured therefrom, moves in commerce. Before any market is designated by the Secretary under this section he shall determine by referendum the desire of tobacco growers who sold tobacco at auction on such market during the preceding marketing season. The Secretary may at his discretion hold one referendum for two or more markets or for all markets in a type area. No market or group of markets shall be designated by the Secretary unless two-thirds of the growers voting favor it. The Secretary shall have access to the tobacco records of the Collector of Internal Revenue and of the several collectors of internal revenue for the purpose of obtaining the names and addresses of growers who sold tobacco on any auction market, and the Secretary shall determine from said records the eligibility of such grower to vote in such referendum, and no grower shall be eligible to vote in more than one referendum. After public notice of not less than thirty days that any auction market has been so designated by the Secretary, no tobacco shall be offered for sale at auction on such market until it shall have been inspected and certified by an authorized representative of the Secretary according to the standards established under this Act, except that the Secretary may temporarily suspend the requirement of inspection and certification at any designated market whenever he finds it impracticable to provide for such inspection and certification because competent inspectors are not obtainable or because the quantity of tobacco available for inspection is insufficient to justify the cost of such service: *Provided*, That, in the event competent inspectors are not available, or for other reasons, the Secretary is unable to provide for such inspection and certification at all auction markets within a type area, he shall first designate those auction markets where the greatest number of growers may be served with the facilities available to him. No fee or charge shall be imposed or collected for inspection or certification under this section at any designated auction market. Nothing contained in this Act shall be construed to prevent transactions in tobacco at markets not designated by the Secretary or at designated markets where the Secretary has suspended the requirement of inspection or to authorize the Secretary to close any market.

and

Whereas pursuant to said Act a referendum has been held among the growers of flue-cured tobacco who sold tobacco at auction on the Greenville, North Carolina market during the last marketing season, in which referendum said growers were given an opportunity to vote for or against the designation as provided in Section 5 of said Act; and

Whereas more than two-thirds of the growers voting in said referendum and who sold tobacco at auction on said market during the last marketing season voted in favor of said designation,

§ 29.301 (m) *Designation of tobacco market.*

Now, therefore, by virtue of the authority conferred upon me by Section 5 of The Tobacco Inspection Act and the affirmative results of the referendum conducted thereunder, the flue-cured tobacco market of Greenville, North Carolina is designated as a market where tobacco bought and sold thereon at auction, or the products manufactured therefrom, moves in commerce.

*It is hereby ordered*, That effective 30 days from this date no tobacco shall be offered for sale at auction on the abovenamed market until it shall have been inspected and certified by an authorized representative of the United States Department of Agriculture according to standards established under the Act: *Provided, however*, That the requirement of inspection and certification may be suspended at such times as it is found impracticable to provide inspection or when the quantity of tobacco available for inspection is insufficient to justify the cost of such service. No fee or charge shall be imposed or collected for the inspection and certification of tobacco sold or offered for sale at auction on the market designated herein. (49 Stat., 731: 7 U.S.C., Sup. I, Chap. 21A)

Done at Washington, D. C., this 24th day of July 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] F. W. REICHELDERFER,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39–2731; Filed, July 24, 1939; 4:05 p. m.]

## TITLE 9—ANIMALS AND ANIMAL PRODUCTS

### AGRICULTURAL MARKETING SERVICE

### NOTICE UNDER PACKERS AND STOCKYARDS ACT[1]

JULY 24, 1939

TO UNION STOCKYARDS OF BASSETT, INC., *Bassett, Calif.*

Notice is hereby given that after inquiry, as provided by Section 302 (b) of the Packers and Stockyards Act, 1921 (7 U.S.C. Sec. 202 (b)), it has been ascertained by me that the stockyard known as the Union Stockyards of Bassett, at Bassett, State of California, is subject to the provisions of said Act.

The attention of stockyard owners, market agencies, dealers, and other persons concerned is directed to Sections 303 and 306 (7 U.S.C. Secs. 203 and 207) and other pertinent provisions of said Act and the rules and regulations issued thereunder by the Secretary of Agriculture.

[SEAL] F. W. REICHELDERFER,
*Acting Secretary of Agriculture.*

[F. R. Doc. 39–2735; Filed, July 25, 1939; 10:16 a. m.]

## TITLE 30—MINERAL RESOURCES

### BITUMINOUS COAL DIVISION

### AN ORDER REPEALING RULE IV–B–3 OF THE RULES OF PRACTICE AND PROCEDURE PROMULGATED JUNE 23, 1937, AS AMENDED, OF THE NATIONAL BITUMINOUS COAL COMMISSION

Whereas, The Secretary of the Interior on June 29, 1939, issued and promulgated an Order[2] governing appearance and practice before the Department of the Interior or any bureau, board, division or other agency thereof, and related matters, which rule is applicable to the Bituminous Coal Division of the Department:

Now, therefore, Sub-paragraph 3 of paragraph b of Rule IV[3] of the "Rules of Practice and Procedure" promulgated June 23, 1937, as amended, of the National Bituminous Coal Commission, is hereby repealed, the matters to which said paragraph relates being governed by the aforesaid Order of the Secretary of the Interior.

Dated at Washington, D. C., this 22nd day of July 1939.

H. A. GRAY,
*Director.*

[F. R. Doc. 39–2730; Filed, July 24, 1939; 2:16 p. m.]

## TITLE 47—TELECOMMUNICATION

### FEDERAL COMMUNICATIONS COMMISSION

### PART 7—RULES GOVERNING COASTAL AND MARINE RELAY SERVICES*†

TABLE OF CONTENTS

DEFINITIONS
Sec.
7.1 Coastal service.
7.2 Public coastal service.
7.3 Private coastal service.
7.4 Maritime mobile service.
7.5 Coastal station.
7.6 Coastal telegraph station.
7.7 Coastal telephone station.
7.8 Coastal harbor station.
7.9 Hours of service.

GENERAL
7.21 Order of priority of communications.
7.22 Points of communication.
7.23 Watch on distress frequency.
7.24 Station not maintaining continuous hours of service.
7.25 Transmission of call lists.
7.26 Transmission of press.
7.27 Transmission of alarm signal.
7.28 Repetition of distress call.
7.29 Repetition of alarm signal.
7.30 Use of A–1 and A–2 emission by coastal telephone and coastal harbor stations.
7.31 Interference from A–2 emission.
7.32 Operating power.
7.33 Use of special emission.

LICENSE
7.41 Coastal station license.
7.42 Posting of station license.
7.43 Posting of operator license.
7.44 Special temporary authorization.
7.45 Equipment and service tests.
7.46 Experimental research.

FREQUENCIES
7.51 International calling and distress frequency.
7.52 Use of other frequencies for distress.
7.53 Use of distress frequency.
7.54 Use of 143 kilocycles and other calling frequencies.
7.55 Use of working frequencies.
7.56 Emission in the band 100 to 160 kilocycles.
7.57 A–2 Emission in 365 to 515 kilocycle band.
7.58 Coastal service.
7.59 Frequency measurements.
7.60 Frequency tolerance.

INSTALLATION
7.71 Change from transmission to reception.
7.72 Percentage of modulation.
7.73 Clock required.
7.74 Accuracy of clock.

LOGS
7.81 Radio log for frequencies below 515 kilocycles.
7.82 Radio log for frequencies above 1500 kilocycles.

MARINE RELAY SERVICE
7.91 Marine relay service.
7.92 Marine relay station.
7.93 Licenses and use of frequencies.
7.94 Points of communication.
7.95 Logs.
7.96 Additional regulations.

*Sec. 4, 44 Stat. 1163; 47 U.S.C. 84 (f), rules promulgated thereunder continued in effect by Sec. 604, 48 Stat. 1103; 47 U.S.C. 604—Sec. 4 (i), 48 Stat. 1066; 47 U.S.C. 154 (i).

†Adopted by the FCC, July 12, 1939, effective Oct. 1, 1939.

DEFINITIONS

§ 7.1 *Coastal service.* The term "coastal service" means a radiocommunication service carried on by means of coastal stations of any class with maritime mobile stations.*†

§ 7.2 *Public coastal service.* The term "public coastal service" means a radio communication service open to public correspondence, carried on by means of coastal stations with maritime mobile stations.*†

§ 7.3 *Private coastal service.* The term "private coastal service" means a limited private radiocommunication service not open to public correspondence, carried on by means of coastal stations with maritime mobile stations.*†

§ 7.4 *Maritime mobile service.* The general term "maritime mobile service" means a radio service carried on between maritime mobile stations and land stations, and by maritime mobile stations communicating among themselves.*†

§ 7.5 *Coastal station.* The term "coastal station" means a land station used for radiocommunication with maritime mobile stations.*†

§ 7.6 *Coastal-telegraph station.* The term "coastal-telegraph station" means a coastal station used for radiotelegraph communication with maritime mobile stations.*†

§ 7.7 *Coastal-telephone station.* The term "coastal-telephone station" means a coastal station used for radiotelephone communication primarily with ship telephone stations on board ocean-going vessels and with radiotelephone stations on board aircraft at sea.*†

§ 7.8 *Coastal-harbor station.* The term "coastal-harbor station" means a coastal station used primarily for radiotelephone communication with ship telephone stations which, by reason of the assigned frequency or frequencies, have a limited communication range.*†

§ 7.9 *Hours of service.* The term "hours of service" or "duration of service" means the time during which a coastal station is held open for the exchange of message traffic with other stations in the maritime mobile service.*†

GENERAL

§ 7.21 *Order of priority of communications.* The order of priority of radio telegraph and radio telephone communications in the maritime mobile service on any frequency used for this service shall be as follows:

(a) Distress calls, distress messages, and distress traffic.

(b) Communications preceded by an urgent signal.

(c) Communications preceded by a safety signal.

(d) Communications relative to radio direction-finder bearings.

(e) Government radiotelegrams for which priority right has not been waived.

(f) All other communications.*†

§ 7.22 *Points of communication.* Unless otherwise specified in the license, a coastal station is authorized to communicate with maritime mobile stations, without regard to the country to which these stations belong.*†

§ 7.23 *Watch on distress frequency.* Except as otherwise required by the necessity of handling distress, urgent, or safety signals and messages, all coastal-telegraph stations licensed for public coastal service on frequencies within the band 365 to 515 kilocycles shall maintain a listening watch on the frequency 500 kilocycles (410 kilocycles on the Great Lakes) by a licensed radiotelegraph operator during the hours of service of the coastal station as follows:

(a) At least during each international silent period, as specified by the General Radio Regulations in force annexed to the International Telecommunication Convention in force.

(b) At all other times when the coastal station is not engaged in calling, transmitting to, or communicating with other stations in the maritime mobile service.*†

§ 7.24 *Station not maintaining continuous hours of service.* Coastal stations licensed for other than continuous hours of service shall not discontinue operation before having:

(a) Finished all operations called for by a distress call;

(b) Exchanged all communications originating in or destined to maritime mobile stations which are within the normal communication range of the coastal station and have signalled their presence before the effective cessation of operation of the coastal station.*†

§ 7.25 *Transmission of call lists.* Coastal telegraph stations are authorized to transmit call lists of maritime mobile stations for which they have messages, on one or more of their assigned working frequencies. The use of calling frequencies for this purpose is prohibited; however, these stations are authorized to announce on a calling frequency, including 500 kilocycles (410 kilocycles on the Great Lakes), that they are ready to begin transmission of such call lists on a specified working frequency or frequencies, using the proper procedure signals.*†

§ 7.26 *Transmission of press.* Upon application a coastal telegraph station open to public correspondence may be authorized to communicate secondarily with fixed points for transmission to such points of press material which is transmitted regularly by the coastal station simultaneously and primarily to maritime mobile stations, provided a sufficient need for such authorization is shown to exist.*†

§ 7.27 *Transmission of alarm signal.* When a distress call has been transmitted and was not preceded by the international auto-alarm signal, a coastal station located in the general vicinity of the station which transmitted the distress call, except in the Great Lakes region, may transmit the alarm signal (using A–2 emission) on 500 kilocycles, upon authorization of the station licensee or the representative thereof.*†

§ 7.28 *Repetition of distress call.* If a coastal station has heard a distress call or distress message for which acknowledgment of receipt has not been given promptly, and the coastal station itself is not in a position to render assistance, the coastal station subject to authority of the licensee or his representative shall make every effort possible to attract the attention of any station in the maritime mobile service which appears to be in a position to render assistance, and for this purpose transmission of the distress call and distress message may be repeated on 500 kilocycles (410 kilocycles on the Great Lakes) and on such other frequencies as may be deemed necessary. Except on the Great Lakes, the coastal station if authorized by the station licensee or representative thereof may transmit for this purpose the international automatic-alarm signal on the frequency 500 kilocycles (using A–2 emission) prior to repetition of the distress call and message. In the event the alarm signal is transmitted, a sufficient period of time to allow operators warned by the alarm signal to go on watch shall be observed after transmission of the alarm signal and before retransmission of the distress message.*†

§ 7.29 *Repetition of alarm signal.* A coastal station (other than in the Great Lakes region) intercepting an international automatic-alarm signal which appears to be not duly effective by reason of improper timing, improper type of emission, insufficient signal strength, interference, or excessive deviation from 500 kilocycles, if authorized by the station licensee or representative thereof, and if located in the general vicinity of the station which transmitted the alarm signal, may repeat the transmission of this signal (using A–2 emission) to be followed by a repetition of the distress call and distress message provided all reasonable precaution is taken by such station not to interfere with acknowledgment of receipt of the distress call or distress traffic already in progress.*†

§ 7.30 *Use of A–1 and A–2 emission by coastal telephone and coastal harbor stations.* Coastal telephone and coastal harbor stations are authorized to use types A–1 and A–2 emission for calling, for brief testing, for the transmission of brief service messages, and for communication in an emergency involving the safety of life or property.*†

§ 7.31 *Interference from A–2 emission.* Beginning January 1, 1940, the use of A–2 emission, which is generated by abrupt [1] interruptions or reductions of the carrier wave, at an audible frequency or frequencies, without reference to the usual interruptions caused by ordinary telegraphic keying, shall be prohibited for coastal stations on frequencies below 30000 kilocycles except when necessary for emergency communication.*†

§ 7.32 *Operating power.* The operating power of coastal stations shall be computed in conformity with the terms of Section 2.79 of Part 2; provided, however, that for coastal stations the multiplying factor to which reference is made in paragraph (a) and the method of measuring field intensity to which reference is made in paragraph (c) of Section 2.79 shall be as specifically determined from time to time by the Commission.*†

§ 7.33 *Use of special emission.* Upon application, coastal telephone stations normally licensed to transmit on frequencies above 4,000 kilocycles may be granted authority to use special emission upon a secondary basis, providing the applicant makes a satisfactory showing of the need for this type of emission and upon condition that no increase in interference to the service of other stations will result.*†

LICENSE

§ 7.41 *Coastal station license.* All coastal station licenses normally will be issued to expire at 3:00 A. M., E. S. T., February 1st, of each year except as otherwise provided by Section 2.46 of Part 2.*†

§ 7.42 *Posting of station license.* The original of each coastal station license shall be posted in a conspicuous place either in the room housing the transmitting equipment, or at the control point for the station when the station license authorizes operation by remote control in accordance with Section 2.53 of Part 2; provided, however, that when such authorized remote control operation is used and the transmitting equipment is unattended by a licensed operator of the required class, the coastal station license shall be posted at the control point.*†

§ 7.43 *Posting of operator license.* The original license of each operator of a coastal station while he is on duty therein, shall be posted in a conspicuous place at the operator's regular point of duty, either in the room housing the transmitting equipment or at the control point for the station, when the station license authorizes operation by remote control in accordance with Section 2.53 of Part 2, except when any operator license has been submitted to the Commission in accordance with relevant provisions of Part 13.*†

§ 7.44 *Special temporary authorization.* Requests for special temporary authority must comply with the applicable provisions of Section 1.365 of Part 1 and must be accompanied by a showing that interference will not be caused to the coastal service for which the station is primarily licensed; in addition, such requests must be accompanied by the following:

(a) A statement of the call letters and location of the transmitting station and designation of the frequency, or frequencies, which it is desired to use under temporary authority;

(b) A statement of the period for which the temporary authority is desired;

(c) A statement describing the service which is to be rendered under temporary authority.*†

§ 7.45 *Equipment and service tests.* Equipment and service tests are authorized to be carried on by coastal stations in accordance with the provisions of Sections 2.42 and 2.43 of Part 2.*†

§ 7.46 *Experimental research.* The licensee of a coastal station may be authorized to use a transmitter, which is licensed for coastal service, for experimental research in accordance with the rules and regulations governing the experimental service upon the condition that no interference will be caused to the coastal service for which the station is licensed.*†

FREQUENCIES

§ 7.51 *International calling and distress frequency.* The international calling and distress frequency is 500 kilocycles. In the Great Lakes region, the frequency 410 kilocycles shall be used for calling and distress purposes in lieu of the international calling and distress frequency 500 kilocycles.*†

§ 7.52 *Use of other frequencies for distress.* In case of distress, if it is not possible to use the international distress frequency, any station of the maritime mobile service may use any other frequency available to it to call attention, report the position of the ship or aircraft in distress, and obtain help.*†

§ 7.53 *Use of distress frequency.* The international calling and distress frequency 500 kilocycles (410 kilocycles on the Great Lakes only), shall be used only for calls and replies, for distress traffic, for urgent and safety messages as may be necessary, and for operating signals, including announcements as authorized by Section 7.25.*†

§ 7.54 *Use of 143 kilocycles and other calling frequencies.* In no case shall the calling frequencies 143 and 500 kilocycles (410 kilocycles on the Great Lakes) be used for working purposes except as may be necessary for the handling of distress, urgent, or safety messages. Other calling frequencies may be used for working purposes, provided no interference is caused to calls from mobile stations.*†

§ 7.55 *Use of working frequencies.* Frequencies designated in a coastal telegraph station license as "working" shall be used for the primary purpose of exchanging message traffic with maritime mobile stations; however, these frequencies also may be used for all purposes for which calling frequencies are authorized.*†

§ 7.56 *Emission in the band 100 to 160 kilocycles.* When transmitting on licensed frequencies within the band 100 to 160 kilocycles, coastal telegraph stations shall use A–1 emission only.*†

§ 7.57 *A–2 emission in 365 to 515 kilocycle band.* All coastal telegraph stations open to public correspondence and licensed to operate in the band 365 to 515 kilocycles, shall be capable of transmitting on the frequency 500 kilocycles (410 kilocycles on the Great Lakes) and at least one working frequency within this band by means of A–2 emission. Beginning January 1, 1940, the frequency of modulation of such stations when using A–2 emission on these frequencies shall not be less than 300 cycles per second nor more than 1250 cycles per second.*†

§ 7.58 *Coastal service.* The following frequencies in kilocycles are allocated to the following types of coastal stations:

[5] See Section 7.51.

[6] The frequency 455 kilocycles has been recognized as the standard intermediate frequency for superheterodyne receiving equipment and requests for new assignments on the frequencies indicated will be considered in relation to the possibility of general interference to receiving equipment so designed and operated.

[6] Not available for use on the Great Lakes or on inland waters.

[6] Available for coastal telephone stations upon the condition that interference will not be caused to inter-continental aeronautical services.

[7] Available only for assignments that will not cause interference to the service of Canadian stations.

*†

§ 7.59 *Frequency measurements.* The licensee of each coastal station shall provide for measurement of each operating frequency of the station and shall establish procedure for regular measurement of these frequencies. These measurements shall be made by means independent of the frequency control of the coastal station transmitter and shall be of an accuracy sufficient to detect deviations from the assigned frequency within one-half the authorized tolerance.*†

§ 7.60 *Frequency tolerance.* The licensee of each coastal station shall maintain the operating frequency within a tolerance of plus or minus the assigned frequency as specified in the following table:

TOLERANCE TABLE

| | Tolerances | |
|---|---|---|
| | Transmitters first authorized to the station for coastal service prior to Jan. 1, 1940 and until Jan. 1, 1944, after which date they shall conform to the tolerance indicated in Column II | New transmitters first authorized to the station for coastal service after Jan. 1, 1940 |
| | Column I | Column II |
| *From 100 to 30,000 kc* | *Percent* | *Percent* |
| From 100 to 515 kc. | 0.1 | 0.1 |
| From 1500 to 30,000 kc. | 0.04 | 0.02 |
| *Above 30,000 kc* | | |

| From 100,000 to 200,000 kc. | | 0.04 |

*† —

INSTALLATION

§ 7.71 *Change from transmission to reception.* All coastal stations shall be so arranged that change from transmission to reception and vice versa can be made from the normal operating position as rapidly as possible and in all cases within not more than ten seconds.*†

§ 7.72 *Percentage of modulation.* Coastal telephone and coastal harbor stations licensed for public coastal service shall be regularly operated at a maximum percentage of modulation of at least 75 per cent, unless otherwise specified by the Commission.*†

§ 7.73 *Clock required.* Prior to January 1, 1940, a reliable clock with a second hand shall be installed at the radio operating control point of each coastal telegraph station licensed for public coastal service on frequencies below 515 kilocycles. This clock shall be mounted in a position that will allow the divisions between minutes to be easily and accurately read by the operator from his normal operating position. Prior to July 1, 1940, in each coastal station licensed to transmit on 500 kilocycles, the required clock shall be provided with a sweep second hand and shall be mounted in a position that will allow the second dial to be easily and accurately read by the operator from his normal operating position.*†

§ 7.74 *Accuracy of clock.* On each day the coastal station is operated, the time indicated by the clock, specified by Section 7.73, shall be compared with standard time and if a deviation is observed, the clock shall be adjusted to accurately coincide with standard time; provided, however, that this requirement shall not preclude adjustment of this clock to Greenwich Mean Time pursuant to the International Radio Regulations, in force.*†

LOGS

§ 7.81 *Radio log for frequencies below 515 kilocycles.* The licensee of each coastal station authorized to operate on frequencies within the band 100 to 515 kilocycles shall maintain an accurate radio log as follows:

(a) Each sheet of the log shall be numbered in sequence, and shall include official call letters of the coastal station and the name of the operator on watch.

(b) The entry "on watch" shall be made by the operator beginning a watch, followed by his signature. The entry "off watch" shall be made by the operator being relieved or terminating a watch, followed by his signature. All log entries shall be currently completed at the end of each watch by the operator responsible for the entries. The use of initials or signs is not authorized in lieu of the operator's signature.

(c) During the period a watch is maintained by an operator, all calls transmitted to or from the coastal station and all replies transmitted or received, shall be entered, stating the time and frequencies, and the call letters [9] of the station communicated with or heard. In addition a notation of any messages exchanged shall be entered, stating the time, the frequency in kilocycles and the call letters [9] of the station(s) heard, or communicated with. In so far as possible, a positive entry with respect to reception on 500 kilocycles (410 kilocycles on the Great Lakes) shall be made at least once in each fifteen minutes. The entries required by paragraph (e) hereof shall be acceptable as positive entries provided operating conditions are such as to prevent additional entries being made.

(d) The time of making an entry shall be shown opposite the entry and shall be expressed in Greenwich Mean Time (GMT) (counted from 00:00 to 24:00 o'clock, beginning at midnight).[10] The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "GMT" shall be marked at the head of the column in which the time is entered.

(e) During the period a watch is maintained by an operator, an entry shall be made twice per hour stating whether or not the international silent period was observed. In addition, entries shall be made indicating any signals or communications heard on 500 kilocycles (410 kilocycles on the Great Lakes) during this period. If no signals are heard on 500 kilocycles (410 kilocycles on the Great Lakes), an entry to that effect shall be made. The use of rubber stamps for making entries to show observation of the silent period is not authorized.

(f) All distress calls, automatic alarm signals, urgent and safety signals made or intercepted, the complete text, if possible, of distress messages and distress communications, and any incidents or occurrences which may appear to be of importance to safety of life or property at sea, shall be entered, together with the time of such observation or occurrence, and the position of the ship or other mobile unit in need of assistance, if it can be determined.

(g) Whenever harmful interference is experienced, an entry shall be made to that effect, stating the sources of the interference, if known.

(h) A daily entry shall be made regarding comparison of the radio station clock with standard time, including an indication of any errors observed and corrections made. For this purpose, authentic radio time signals received from land or fixed stations shall be acceptable as standard time.

(i) Any failure of equipment to operate as required, any failure of power supply, and any incidents tending to unduly delay communication shall be entered.*†

§ 7.82 *Radio log for frequencies above 1500 kilocycles.* The licensee of each coastal station authorized to operate on frequencies above 1500 kilocycles shall maintain an accurate radio log as follows:

(a) Each sheet of the log shall be numbered in sequence and shall include official call letters of the coastal station and the name of the operator on watch.

(b) The entry "on watch" shall be made by the operator beginning a watch, followed by his signature. The entry "off watch" shall be made by the operator being relieved or terminating a watch, followed by his signature. All log entries shall be currently completed at the end of each watch by the operator responsible for the entries. The use of initials or signs is not authorized in lieu of the operator's signature.

(c) During the period a watch is maintained by an operator, all calls transmitted to or from the coastal station and all replies transmitted or received, shall be entered, stating the time and frequencies, and the call letters [11] of the station communicated with or heard. In addition, a notation of any messages exchanged shall be entered, stating the time, the frequency in kilocycles and the call letters [11] of the station(s) heard or communicated with.

(d) The time of making an entry shall be shown opposite the entry and shall be expressed in Greenwich Mean Time (GMT) (counted from 00:00 to 24:00 o'clock, beginning at midnight).[12] The first entry in each hour shall consist of four figures; additional entries in the same hour may be expressed in two figures by omitting the hour designation. The abbreviation "GMT" shall be marked at the head of the column in which the time is entered.

(e) All distress calls, urgent and safety signals made or intercepted, the complete text, if possible, of distress messages and distress communications, and any incidents or occurrences which may appear to be of importance to safety of life or property at sea, shall be entered, together with the time of such observation or occurrence, and the position of the ship or other mobile unit in need of assistance, if it can be determined.

(f) Whenever harmful interference is experienced, an entry shall be made to that effect, stating the source of the interference, if known.

(g) Any failure of equipment to operate as required, any failure of power supply, and any incidents tending to unduly delay communication shall be entered.*†

MARINE RELAY SERVICE

§ 7.91 *Marine relay service.* The term "marine relay service" means a radiotelegraph service carried on between marine relay stations communicating with one another for the relay of maritime mobile communications or for the interchange of messages or operating signals pertaining to maritime mobile communications only.*†

§ 7.92 *Marine relay station.* The term "marine relay station" means a coastal telegraph station licensed to communicate with other coastal telegraph stations within the same geographical area.*†

§ 7.93 *Licenses and use of frequencies.* A license for marine relay service will be granted only to the licensee of a public coastal telegraph station and only to the following:

(a) A coastal telegraph station licensee, for the transmission of radio operating signals utilizing the coastal calling or individual working frequencies that are licensed to the same applicant at the particular location where marine relay service is desired.

(b) A Great Lakes coastal telegraph station licensee, for the relay of messages either destined to or originating at mobile stations on the Great Lakes, *Provided, however,* That such messages shall be relayed only upon the coastal working frequencies that are licensed to the same applicant at the particular location where marine relay service is desired and provided further that the frequencies are available for both fixed and mobile services under the provisions of the International Radiotelegraph Convention.

(c) Any other coastal telegraph station licensee, for the relay via another marine relay station of messages destined to a mobile station: *Provided, however,* That such messages shall be relayed only upon the coastal working frequencies that are licensed to the same applicant at the particular location where marine relay service is desired and provided further that this service is not to be used for the normal routing of traffic, but only when, for any reason, the initial coastal station has been unable to communicate directly with such mobile station.*†

§ 7.94 *Points of communication.* Marine relay stations are permitted to communicate only with stations of their own class located in the same geographical area: *Provided, however,* That they may also communicate with foreign coastal stations within their geographical areas if no interference with international service results from such com-

[6] Available for assignment to coastal harbor stations upon the condition that excessive interference will not be caused to the service of maritime mobile stations.

[9] If desired, the names of the stations or ships also may be entered.

[10] For example, 7:01 P. M., Eastern Standard Time would be entered as 0001 GMT; 7:30 A. M., Eastern Standard Time would be entered as 1230 GMT; 6:45 P. M., Eastern Standard Time would be entered as 2345 GMT.

[11] If desired, the names of the stations or ships also may be entered.

[12] For example, 7:01 P. M. Eastern Standard Time would be entered as 0001 GMT; 7:30 A. M. Eastern Standard Time would be entered as 1230 GMT; 6:45 P. M. Eastern Standard Time would be entered as 2345 GMT.

munication. The areas to be designated in licenses, unless otherwise specified, will be as follows:

(a) Atlantic-Gulf area.
(b) Great Lakes area.
(c) Pacific area.*†

§ 7.95 *Logs.* Each licensee shall maintain adequate records of the operation of each station, including (a) hours of operation, (b) frequencies used, (c) points of communication, and (d) estimate of the total volume of traffic transmitted for the periods of time covered. This information shall be made available upon request by authorized government representatives.*†

§ 7.96 *Additional regulations.* The operation of marine relay stations shall be governed in the following matters by the associated provisions of the following designated rules governing the operation of coastal stations:

(a) Section 7.21—Priority of Communications.
(b) Section 7.31—Interference from A–2 Emission.
(c) Section 7.32—Operating Power.
(d) Section 7.41—Coastal Station License.
(e) Section 7.42—Posting of Station License.
(f) Section 7.43—Posting of Operator License.
(g) Section 7.59—Frequency Measurement.
(h) Section 7.60—Frequency Tolerance.*†

By the Commission.

PART 7—RULES GOVERNING COASTAL AND MARINE RELAY SERVICES

RULES REPEALED

The Commission, on July 12, 1939, repealed the following rules, effective October 1, 1939:

| Rule No.: | C. F. R. Sec. No. |
|---|---|
| 263–269, inclusive | 70.01–70.07, inclusive. |
| 270–272, inclusive | 70.10–70.12, inclusive. |
| 273–274, inclusive | 70.20–70.21, inclusive. |
| 275 | 70.13. |
| 276–277, inclusive | 71.01–71.02, inclusive. |
| 278–280, inclusive | 71.10–71.12, inclusive. |

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 39–2728; Filed, July 24, 1939; 1:40 p. m.]

---

PART 1—RULES OF PRACTICE AND PROCEDURE

CORRECTION

Attention is directed to the following errors in Sections 1.102 and 1.195, printed in the Wednesday, July 19, 1939, issue of the FEDERAL REGISTER on pages 3344 and 3345:

Sec. 1.102, line 8: The word "and" should be changed to "or", immediately following the word "subscribed".

Sec. 1.195, line 13: The word "asking" should be changed to "making", immediately following the word "person".

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

## TITLE 49—TRANSPORTATION AND RAILROADS

### INTERSTATE COMMERCE COMMISSION

[Order No. 3666]

IN THE MATTER OF REGULATIONS FOR TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Present: J. Haden Alldredge, Commissioner, to whom the above entitled matter has been assigned for action thereon.

Regulations for the transportation of explosives and other dangerous articles by rail in freight, express, and baggage services, and by water and highway, being under further consideration:

*And it appearing,* That upon applications made by interested parties, certain proposed new and amended regulations should be established pursuant to section 233 of the Criminal Code (Transportation of Explosives Act), and upon investigation had are found to be in accord with the best-known practicable means for securing safety in transit, covering the packing, marking, loading, handling while in transit, and the precautions necessary to determine whether the material when offered is in proper condition to transport:

*It is ordered,* That the aforesaid regulations as heretofore published in orders of March 12, 1936, and March 15, 1938,[1] be and they are hereby amended as follows, effective October 25, 1939:

PART I—FREIGHT

Superseding and amending Note to 3d subparagraph, paragraph 484, order March 15, 1938, as follows (*packing poisonous liquids, class B*):

NOTE: Shipments of sodium arsenite in specification 5E metal drums, capacity not exceeding 55 gallons, are authorized.

PART IV—SHIPPING CONTAINER SPECIFICATION

Amending paragraph 7, specification 5J, order March 12, 1936 as follows:

(Add) NOTE: Removable-head containers which will pass all required tests are authorized for transportation of inflammable inks.

*It is further ordered,* That the aforesaid regulations as further amended herein shall be and remain in force on and after October 25, 1939, and shall be observed until further order of the Commission;

*It is further ordered,* That compliance with the aforesaid amendments made effective by this order is hereby authorized on and after the date of approval and publication thereof;

*And it is further ordered,* That copies of this order be served upon all the respondents herein, and that notice to the public be given by posting in the office of the Secretary of the Commission at Washington, D. C.

Dated at Washington, D. C., this 20th day of July 1939.

By the Commission, Commissioner Alldredge.

## FEDERAL POWER COMMISSION.

[Docket No. IT–5548]

IN THE MATTER OF TENNESSEE UTILITIES CORPORATION

NOTICE OF APPLICATION

JULY 24, 1939.

Notice is hereby given that on July 22, 1939, an application was filed with the Federal Power Commission by Tennessee Utilities Corporation, a corporation organized under the laws of the State of Tennessee and having its principal place of business at 241 Market Street, Chattanooga, Tennessee, seeking such order supplementary to the Federal Power Commission's Order Authorizing and Approving Sale of Facilities, adopted June 29, 1939, upon said Corporation's application filed May 8, 1939, as amended, as the Commission may find necessary to authorize and approve the sale of the facilities, as described in said order, under the contract of May 12, 1939, therein referred to, as extended and modified by a contract dated as of July 19, 1939, between substantially the same parties; said contract of July 19, 1939, extending the said contract of May 12, 1939, from June 30, 1939, to August 15, 1939, and making certain other modifications in said contract on account of the fact that the Congress did not enact legislation in the form necessary to enable certain terms of the contract to be carried out and providing that the purchase prices to be paid by the Tennessee Valley Authority, and the cities of Nashville and Chattanooga, Tennessee, shall not be reduced by their proportionate shares of the amount of $3,333, daily after April 30, 1939, as provided in subsection B of section V of the contract of May 12; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to the said application should, on or before 12:00 o'clock noon on the 27th day of July 1939, file with the Federal Power Commission a petition or protest in accordance with the Commission's Rules of Practice and Regulations.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 25 day of July, A. D. 1939.

[File No. 32-165]

IN THE MATTER OF EDISON SAULT ELECTRIC COMPANY

NOTICE OF AND ORDER FOR HEARING

An application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

*It is ordered*, That a hearing on such matter be held on August 10, 1939, at 10 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

*It is further ordered*, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice to continue or postpone said hearing from time to time.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before August 5, 1939.

The matter concerned herewith is in regard to an application by Edison Sault Electric Company, a subsidiary of American States Utilities Corporation, a registered holding company, pursuant to Section 6 (b) of the Act, requesting an exemption from Section 6 (a) thereof, or in the alternative a declaration pursuant to Section 7 of the Act, in regard to the proposed issue and sale by the applicant of (1) its First Mortgage Sinking Fund Bonds, Series B, 4½%, due October 1, 1961, in the principal amount of $60,000, and (2) 2,400 shares of its Common Capital Stock without par value (stated value of $25 per share). The applicant states that it also proposes to increase the stated value of 20,000 shares of its Common Capital Stock now outstanding from $22 a share to $25 a share by a charge of $60,000 to earned surplus, thus making uniform at $25 per share the stated value of the 32,000 shares of such stock now outstanding. The applicant also states that the Bonds and Common Capital Stock will be sold privately, the Bonds to Wilmington Savings Fund Society for cash at par, plus accrued interest, and the Common Capital Stock to its parent for $60,000 cash, the stated value of the shares; the net proceeds to be used for the purpose of reimbursing applicant's treasury for expenditures incurred for capital improvements.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

RELATING TO NEWLY-MINED DOMESTIC SILVER

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, by Proclamation of the twenty-first day of December, 1933, as modified by Proclamations of the ninth day of August, 1934, the tenth and twenty-fourth days of April, 1935, the thirtieth day of December, 1937,[1] and the thirty-first day of December, 1938,[2] the United States coinage mints are directed to receive for coinage and addition to the monetary stocks of the United States silver mined subsequently to December 21, 1933, from natural deposits in the United States or any place subject to the jurisdiction thereof;

AND WHEREAS, such Proclamation as so modified is subject to revocation or further modification as the interests of the United States may seem to require.

NOW, THEREFORE, finding that the interests of the United States require further modification of said Proclamation of the twenty-first day of December, 1933, as so modified; by virtue of the power in me vested by the Act of Congress cited in said Proclamation, and other legislation designated for national recovery, and by virtue of all other authority in me vested;

I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby proclaim and direct that, unless repealed or further modified by Act of Congress or by subsequent Proclamation, the said Proclamation of the twenty-first day of December, 1933, as heretofore and hereby modified, shall remain in force and effect until the thirty-first day of December, 1939, with respect to silver mined subsequently to December 21, 1933, and on or before July 1, 1939, from natural deposits in the United States or any place subject to the jurisdiction thereof; and I do further proclaim and direct that the proviso:

"that silver to be eligible for receipt under the said Proclamation of the twenty-first day of December, 1933, as heretofore and hereby modified must be delivered to a United States coinage mint not later than June 30, 1939."

stated in the said Proclamation of the thirty-first day of December, 1938, is hereby rescinded.

Notice is hereby given that I reserve the right by virtue of the authority vested in me to revoke or modify this Proclamation as the interests of the United States may seem to require.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 25th day of July, in the year of our Lord nineteen hundred and [SEAL] thirty-nine, and of the Independence of the United States of America the one hundred and sixty-fourth.

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL

## EXECUTIVE ORDER

AMENDMENT OF SECTION 15 OF EXECUTIVE ORDER NO. 1888 OF FEBRUARY 2, 1914, PRESCRIBING GENERAL CONDITIONS OF EMPLOYMENT FOR EMPLOYEES OF THE PANAMA CANAL AND THE PANAMA RAILROAD COMPANY ON THE ISTHMUS OF PANAMA

By virtue of and pursuant to the authority vested in me by section 5 of title 2 of the Canal Zone Code, and by section 81 of the said title as amended by section 3 of the act of July 9, 1937, 50 Stat. 486, 487, section 15 of Executive Order No. 1888 of February 2, 1914, prescribing general conditions of employment for employees of The Panama Canal and the Panama Railroad Company on the Isthmus of Panama, is hereby amended to read as follows:

"15. *Free transportation to United States on termination of service.* Employees who are citizens of the United States will on termination of service be granted free transportation to the United States as follows:

(a) *To New York on Panama Railroad Steamship Line.* Free transportation to New York on the Panama Railroad Steamship Line will be granted: (1) to employees with three years' continuous service without regard to the manner in which the employment terminates or is terminated, (2) to employees with less than three years' service who were appointed in the United States and whose employment is terminated by authority of the Governor of The Panama Canal for any cause other than inefficiency or misconduct, and (3) to employees with continuous service of six months or more but less than three years who were appointed on the Isthmus for permanent employment and whose employment is terminated by authority of the Governor for any reason other than inefficiency or misconduct.

(b) *To any United States port by another line; limitation.* Employees entitled to free transportation to New York on the Panama Railroad Steamship Line, under paragraph (a) of this section, may in lieu thereof be granted free transportation to any port of the United States by any other line: *Provided, however,* that if the cost of such transportation exceeds $50, the employee shall pay such excess cost.

(c) *To port of embarkation.* Employees who were appointed in the United States and to whom free transportation was furnished from a port other than New York will on termination of service be granted free transportation to the port of embarkation (1) if they were appointed prior to April 1, 1914, and have served continuously since such appointment, or (2) if their employment is terminated by retirement, or (3) is terminated by the Governor for any cause other than inefficiency or misconduct. Employees entitled to free transportation to port of embarkation, as provided in this paragraph, may in lieu thereof be granted free transportation to any other port of the United States: *Provided, however,* that such employees shall pay any excess in the cost of such transportation over the cost to the port of embarkation.

(d) *Availability of benefits hereunder.* Benefits authorized upon the basis, as stated in this section, of three years' continuous service, or of appointment prior to April 1, 1914, and continuous service thereafter, or of termination of employment by retirement, shall be available to an employee at any time after termination of his employment. Benefits authorized upon the sole basis, as stated in this section, of termination of employment by authority of the Governor for a cause other than inefficiency or misconduct, shall be available to an employee for a period of six months immediately following termination of his employment, and not thereafter.

## EXECUTIVE ORDER

WITHDRAWING PUBLIC LAND AND WATER FOR NAVAL PURPOSES

ALASKA

By virtue of and pursuant to the authority vested in me as President of the United States and by the act of June 25, 1910, c. 421, 36 Stat. 847, as amended by the act of August 24, 1912, c. 369, 37 Stat. 497, and subject to the conditions therein expressed, it is ordered as follows:

SECTION 1. The Executive order of October 30, 1901, reserving Harbor Island and three islets southeast thereof in Sitka Harbor, Alaska, for the use of the Revenue Cutter Service, is hereby revoked.

SECTION 2. The public land and water in the following-described area in the Territory of Alaska are hereby withdrawn from settlement, location, sale, or entry, and reserved for the use of the Department of the Navy for naval purposes:

That part of Sitka Bay lying south of Japonski Island and west of the main channel described by metes and bounds as follows: Beginning at the southeast point of Japonski Island at angle point No. 7 of the meanders of U. S. Survey No. 1496; thence east approximately 12.00 chains to the center of the main channel; thence S. 45° E. along the main channel approximately 20.00 chains; thence S. 45° W. approximately 9.00 chains to the southeastern point of Aleutski Island; thence S. 79° W. approximately 40.00 chains to the southern point of Fruit Island; thence N. 60° W. approximately 50.00 chains to the southwestern point of Japonski Island at angle point No. 35 of U. S. Survey No. 1496; thence easterly with the meanders of Japonski Island to the point of beginning including Charcoal, Aleutski, Harbor, Alice, Love, Fruit Islands and a number of smaller unnamed islands and containing a total land and water area of approximately 195 acres.

SECTION 3. The reservation made by section 2 of this order shall remain in force until revoked by the President or by act of Congress.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
*July 25, 1939.*

## TITLE 7—AGRICULTURE

### AGRICULTURAL ADJUSTMENT ADMINISTRATION

[ACP-1939-16]

PART 701—1939 AGRICULTURAL CONSERVATION PROGRAM BULLETIN

SUPPLEMENT NO. 16

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended,[1] the 1939 Agricultural Conservation Program Bulletin, as amended, is hereby further amended as follows:

(1) Section 701.7 (h) (1) is amended to read as follows:

(1) Leaving on the land as a protection against wind erosion (only in wind-erosion areas designated by the Administrator) the stalks of sorghums (including broomcorn) or Sudan grass, where it is determined by the county committee that such cover is necessary as a protection against wind erosion and the operator's farming plan provides that such cover will be left on the land until the spring of 1940 (except any of such crops qualifying at a higher rate of credit under any other practice listed in this section 701.7).

(2) Section 701.7 (l) (1) is amended to read as follows:

(1) Leaving on the land as a protection against wind erosion the stalks of sorghums (including broomcorn) or Sudan grass, where it is determined by the county committee that such cover is necessary as a protection against wind erosion and the operator's farming plan provides that such cover will be left on the land until the spring of 1940 (except any of such crops qualifying at a higher rate of credit under any other practice listed in this section 701.7).

(3) Section 701.10 (a) (1), as amended, is hereby further amended by adding at the end thereof the following:

*Provided further,* That if for any reason the total acreage of cotton on the farm in 1939 is less than 80 percent of the cotton acreage allotment established for the farm and the acreage of cotton which is or would have been grown thereon by any tenant or sharecropper in 1939 is not substantially proportionate to the acreage of cotton which such tenant or sharecropper would normally grow thereon, and all the persons who are or would have been entitled to receive a share of the proceeds of cotton agree, as shown by their signatures on the application for payment or a separate statement, the net payment or net deduction computed for cotton for the farm shall be divided among the landlords, tenants, and sharecroppers in the proportion that the county committee determines such persons would have been entitled to share in the proceeds of the cotton crop if the entire acreage in the cotton acreage allotment had been planted and harvested in 1939, but in no event shall the acreage share so determined for any person be less than such person's acreage share of the acreage planted to cotton on the farm in 1939.

Done at Washington, D. C., this 26th day of July, 1939. Witness my hand and the seal of the Department of Agriculture.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 39-2752; Filed July 26, 1939; 10:19 a. m.]

## TITLE 25—INDIANS

### OFFICE OF INDIAN AFFAIRS

LANDS PROCLAIMED TO BE AN INDIAN RESERVATION FOR USE OF SOKAOGON CHIPPEWA COMMUNITY

WISCONSIN

JUNE 30, 1939.

By virtue of authority contained in Section 7 of the Act of June 18, 1934 (48 Stat. 984), the lands described below, acquired by purchase under the provisions of Section 5 of that Act, are hereby proclaimed to be an Indian reservation for the use and benefit of the Sokaogon Chippewa Community:

T. 35 N., R. 12 E., 4th P. M.
E½SW¼, SE¼ Section 20.
SW¼, NE¼SE¼, W½SE¼ Section 21.
Government lots 1 and 2, Section 22.
SW¼NW¼, Section 26.

Government lot 2, Section 27, except that part bounded and described as follows: Commencing at a point on the east and west quarter line of Section 27, T. 35 N., R. 12 E., which is 76 rods and 16 links west of the quarter post between Sections 26 and 27 in said township, and running thence west along said quarter line 479 feet to the meander line on the lake; and thence north 45° east, or along the meander line of said lake 841.5 feet to a point in the meander line; thence south 32° east 475 feet; thence south 62° west 379.5 feet to place of beginning.

Government lot 3, Section 27, subject to a right of way of State Trunk Highway No. 55 and excepting the following described parcel: Commencing at the NW¼SE¼ of said section; thence south 67.5 feet to western edge of State Aid Highway 55; thence southwesterly along said highway 148 feet; thence north 32°30' west to north line of said NW¼SE¼; thence east to place of beginning.

Government lots 4 and 5, Section 27, excepting the right of way of a public road over and across said lots and a certain portion of Lot 5 described as follows: Commencing at the southwest corner of said Government lot 5; thence east on the south line of said Government lot 5 a distance of 7 rods; thence north parallel with the west line of said section to the high water mark of Swamp Creek or the outlet of Rice Lake; thence westerly along the high water mark of Swamp Creek or the outlet of Rice Lake to the section line between Sections 27 and 28; thence north along said section line to the place of beginning.

Government lots 6 and 7, Section 27.

NE¼SE¼ Section 27, excepting therefrom a tract of land described as follows: Commencing at the northwest corner of the NE¼SE¼ of said Section 27; thence running south 67.5 feet to the western edge of State Highway No. 55; thence in a northeasterly direction along the edge of said highway 172.4 feet to the east and west quarter line of said Section 27; thence westerly along said quarter line 152 feet to the place of beginning.

Government lots 1, 2 and the east 70 rods of Government lot 3, Section 28.

Government lots 4 and 5, Section 28, except that portion of lot 5 described as follows: Commencing on the southeast corner of Section 28; thence running west 18 rods; thence north 18 rods; thence east 18 rods; thence south 18 rods to place of beginning.

N½NE¼, SW¼NE¼, W½SE¼ and SW¼ Section 28.

Government lot 2, Section 29.

All of the said lands being within Forest County, Wisconsin, containing a total of 1,437.60 acres, more or less.

OSCAR L. CHAPMAN,
*Assistant Secretary of the Interior.*

## TITLE 26—INTERNAL REVENUE

### BUREAU OF INTERNAL REVENUE

[T. D. 4912]

AMENDMENT OF CAPITAL STOCK TAX REGULATIONS

*To Collectors of Internal Revenue and Others Concerned:*

In order to conform Regulations 64[1] (1938 Edition) (Part 137, Subpart B, Title 26, Code of Federal Regulations), as made applicable to the Internal Revenue Code (53 Stat., Part 1) by Treasury Decision 4885, approved February 11, 1939[2] (Part 465, Subpart B, of such Title 26) to section 1202, Internal Revenue Code, as amended by section 301 of the Revenue Act of 1939 (Public, No. 155, Seventy-sixth Congress, first session), such regulations are amended as follows:

1. Article 21 (m) (section 137.21 (m) of such Title 26), as made applicable to the Internal Revenue Code, is amended to read as follows:

"(m) The term 'declaration year' means (1) the first year of each 3-year period for which a corporation, whether domestic or foreign, is subject to the tax, (2) the capital stock tax year beginning with or within an income-tax taxable year within which bankruptcy or receivership, due to insolvency, of a domestic corporation, is terminated, and (3) in the case of a domestic corporation, the capital stock tax year ending June 30, 1939, or June 30, 1940, or both, if the corporation elects under section 1202 (e) of the Internal Revenue Code, added by section 301, Revenue Act of 1939, to establish either or both of such years as an additional declaration year or years."

2. Article 44 (section 137.44 of such Title 26), as made applicable to the Internal Revenue Code, is amended by changing the third paragraph thereof to read as follows:

"For any declaration year (except for the limitation as to an additional declaration year established by an election under section 1202 (e) of the Internal Revenue Code, added by section 301, Revenue Act of 1939,—see article 45½, [section 137.45½, Title 26, Code of Federal Regulations]) a corporation may exercise unrestricted judgment and discretion in determining the value to be declared for its capital stock; and in making such declaration, the corporation is not bound by any previous declaration of value."

3. Immediately following article 45 (section 137.45 of such Title 26) there are inserted a heading, a quotation of section 1202 (e) of the Internal Revenue Code, added by section 301, Revenue Act of 1939, and a new article designated article 45½ (section 137.45½ of such Title 26), as follows:

SECTION 1202 (e) OF THE INTERNAL REVENUE CODE, ADDED BY SECTION 301, REVENUE ACT OF 1939

(e) ADDITIONAL DECLARATION YEARS.—In the case of any domestic corporation, the year ending June 30, 1939, and the year ending June 30, 1940, shall each, if not otherwise a declaration year, constitute an additional declaration year if with respect to such year (1) the taxpayer so elects (which election cannot be changed) in its return filed before the expiration of the statutory filing period or any authorized extension thereof, and (2) the value declared by the taxpayer is in excess of the adjusted declared value computed under paragraph (1) of subsection (b). If, under this subsection, the year ending June 30, 1939, is a declaration year, the computation, under paragraph (1) of subsection (b), of the adjusted declared value for the year ending June 30, 1940, shall be made on the basis of the value declared for the year ending June 30, 1939.

"ART. 45½ (SEC. 137.45½). *New declaration of value by domestic corporation pursuant to election under section 1202 (e) of Internal Revenue Code, added by section 301, Revenue Act of 1939.* Under section 1202 (e) of the Internal Revenue Code, added by section 301, Revenue Act of 1939, a domestic corporation may, by complying with certain conditions, establish the year ending June 30, 1939, or June 30, 1940, or both, as an additional declaration year or years. The election applies only to domestic corporations required to report an adjusted value for either or both of such years. The election can be exercised only (a) by filing a return prior to the expiration of the filing period, or any authorized extension thereof, and (b) by declaring a value in such return in excess of the adjusted value correctly computed under section 1202 (b) (1) of the Internal Revenue Code (same as section 601 (f) (3) and (4), Revenue Act of 1938).

"In general, the rules stated in article 44 [section 137.44, Title 26, Code of Federal Regulations], which relates to declared value, are equally applicable to declarations of value made for an additional declaration year established by an election under section 1202 (e), added by section 301, Revenue Act of 1939, with these limitations: (a) the election if exercised may not be changed after the close of the filing period, or any authorized extension thereof, and (b) the value declared must be in excess of the adjusted value for the year for which the new value is declared, correctly computed under section 1202 (b) (1) of the Internal Revenue Code (same as section 601 (f) (3) and (4), Revenue Act of 1938).

"In the event the election is exercised, the return must include a computation of the adjusted value as well as a statement of the new declared value. A change of election or of declared value, if desired, can be made only by filing an amended return before the expiration of the filing period or authorized extension thereof. Unless the last return timely filed shows a declared value exceeding the correct adjusted value as determined by audit of the return, even though it is more than the adjusted value as computed on the return, the purported election of an additional declaration year is nugatory, and the correct adjusted value controls.

"If the year ending June 30, 1939, is established as an additional declaration year, the value declared for that year will constitute the base for computing the adjusted value for the year ending June 30, 1940."

(This Treasury Decision is prescribed pursuant to section 1202 (e) as added to the Internal Revenue Code by section 301 of the Revenue Act of 1939 (Public, No. 155, Seventy-sixth Congress, first session) and section 3791 of the Internal Revenue Code (53 Stat., Part 1).)

[SEAL] HAROLD N. GRAVES,
*Acting Commissioner of Internal Revenue.*

Approved, July 24, 1939.

STEPHEN B. GIBBONS,
*Acting Secretary of the Treasury.*

[F. R. Doc. 39-2743; Filed, July 25, 1939; 3:03 p. m.]

[T. D. 4913]

AMENDING ARTICLE 203 OF REGULATIONS 96 RELATING TO PERIOD OF LIMITATIONS FOR FILING CLAIMS FOR REFUND OF TAXES PAID UNDER THE AGRICULTURAL ADJUSTMENT ACT, AS AMENDED

*To Collectors of Internal Revenue and Others Concerned:*

Regulations 96, approved October 15, 1936,[1] (Part 456 of Title 26, Code of Federal Regulations) are amended as follows:

Immediately after the quotation of section 903 of the Revenue Act of 1936 which precedes Article 201 (section 456.201 of Title 26, Code of Federal Regulations) the following subtitle and quotation of section 405 of the Revenue Act of 1939 are inserted:

SECTION 405 OF THE REVENUE ACT OF 1939

Section 903 of the Revenue Act of 1936 (relating to expiration of time for filing claims for refund of amounts paid under the Agricultural Adjustment Act) is amended by striking out "July 1, 1937" and inserting in lieu thereof "January 1, 1940."

Article 203 (section 456.203 of Title 26, Code of Federal Regulations) is amended to read as follows:

ART. 203. *Period of limitations for filing claims.* No refund shall be made or allowed of any amount paid as tax unless a claim for such refund is filed by the person entitled thereto, or his duly authorized agent or representative, subsequent to June 22, 1936, and prior to January 1, 1940.

(This Treasury Decision is issued pursuant to section 903 of the Revenue Act of 1936 (49 Stat. 1747; 7 U.S.C. Sup. IV, 645) as amended by section 405 of the Revenue Act of 1939 (Public, No. 155, Seventy-sixth Congress), and section 916 of the Revenue Act of 1936 (49 Stat. 1755; 7 U.S.C. Sup. IV, 658).)

[SEAL] HAROLD N. GRAVES,
*Commissioner of Internal Revenue.*

Approved, July 24, 1939.

STEPHEN B. GIBBONS,
*Acting Secretary of the Treasury.*

[F. R. Doc. 39-2744; Filed, July 25, 1939; 3:03 p. m.]

## TITLE 31—MONEY AND FINANCE: TREASURY

### OFFICE OF THE SECRETARY

AMENDMENT TO NEWLY-MINED DOMESTIC SILVER REGULATIONS OF JANUARY 16, 1939

JULY 25, 1939.

Section 1 of the Newly-Mined Domestic Silver Regulations of January 16, 1939[1] is amended to read as follows:

"SECTION 1. *Scope.* These regulations relate to the receipt and coinage by the United States coinage mints of silver, mined in the United States or any place subject to the jurisdiction thereof, pursuant to the proclamation of December 21, 1933, as modified by the proclamations of August 9, 1934, April 10 and April 24, 1935, December 30, 1937, December 31, 1938, and July 25, 1939."[2]

Section 2 of the Newly-Mined Domestic Silver Regulations of January 16, 1939 is amended to read as follows:

"SEC. 2. *Authority for regulations.* These regulations are prescribed under authority of subsection (b) (2), section 43, title III of the act of Congress approved May 12, 1933 (Public, No. 10), as amended, and the President's proclamation of December 21, 1933, as modified by the proclamations of August 9, 1934, April 10 and April 24, 1935, December 30, 1937, December 31, 1938, and July 25, 1939."

SEC. 3. Section 20 (c) of the Newly-Mined Domestic Silver Regulations of January 16, 1939 is amended to read as follows:

"(c) That the aggregate amount of such mixture so received pursuant to the proclamation of December 30, 1937, as modified, modifying the proclamation of December 21, 1933, as modified, does not exceed the amount of such silver which has been mined on or after January 1, 1938, from natural deposits in the United States or any place subject to the jurisdiction thereof."

SEC. 4. Section 24 of the Newly-Mined Domestic Silver Regulations of January 16, 1939 is hereby rescinded.

[SEAL] HENRY MORGENTHAU, Jr.,
*Secretary of the Treasury.*

Approved,

FRANKLIN D ROOSEVELT
*The White House,*
JULY 25, 1939.

[F. R. Doc. 39-2746; Filed, July 25, 1939; 3:31 p. m.]

## TITLE 49—TRANSPORTATION AND RAILROADS

### INTERSTATE COMMERCE COMMISSION

IN THE MATTER OF REGULATIONS TO GOVERN THE FORMS AND RECORDING OF PASSES, ISSUE OF 1917

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 20th day of July, A. D. 1939.

The matter of filing with the Interstate Commerce Commission, the names and titles of officers having authority for issuance and for request of free transportation being under consideration,

*It is ordered*, That the Regulations to Govern the Forms and Recording of Passes, Issue of 1917, prescribed under an order of the Commission entered on the 8th day of July, 1916 be, and the same are hereby amended so that paragraph 3 shall read as follows:

Each carrier shall file with the Commission:

(a) A list of the names and titles of officers in whom is reposed the authority for issuance of free transportation and over whose signature passes will be issued, and

(b) A list of the names and titles of officers having the authority to request free transportation of other carriers except that requests for passes may be honored when signed by retired employees of lines which have been abandoned subsequent to the date of their retirement and upon satisfactory evidence that they are on the pension roll of the Railroad Retirement Board. The filing of new lists annually is not required but when changes occur due notice thereof shall be filed promptly with the Commission.

*It is further ordered*, That this order shall become effective on the 1st day of August 1939.

By the Commission, division 1.

[SEAL] W. P. BARTEL,
*Secretary.*

[F. R. Doc. 39-2761; Filed, July 26, 1939; 12:26 p. m.]

[No. 3666]

IN THE MATTER OF REGULATIONS FOR TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

*Decided July 15, 1939*

Application for authority to construct for experimental service in the transportation of caustic soda solution fifty tank-car tanks fabricated by fusion-welding granted.

*R. W. Thompson* for General American Transportation Corporation.

SUPPLEMENTAL REPORT OF THE COMMISSION[1]

ALLDREDGE, *Commissioner:*

In our several prior reports we granted upon applications therein considered authority to build and use for experimental transportation of dangerous articles other than explosives a total of 717 tank cars to be equipped with tanks fabricated by fusion welding but otherwise conforming to I.C.C. shipping container specifications.

By application filed with the Association of American Railroads under date of January 6, 1939, and transmitted to us, we are asked to authorize the General American Transportation Corporation to construct for use in the transportation of caustic soda solution fifty additional test cars conforming to current I.C.C. shipping container specification 103 for tank cars, except that tanks will be fabricated by fusion welding instead of riveting.

This is the third application for authority for experimental fusion welding in tank cars of I.C.C. specification 103 type used for caustic soda solution, increasing the total number of test cars for this service that have been applied for to eighty-five. Prior to the test period covered by our several orders, caustic soda solution moved under our requirements in tank cars of specification 103 or 103-A type with riveted steel tanks and riveted anchors.

Application and accompanying drawings provide for tanks having capacity of 10,000 gallons each. Construction will be in accordance with effective regulations and proposed I.C.C. specification 103-W, filed as an exhibit at the hearing herein, except (1) that proposed welding process be modified to permit single-welded butt seam for longitudinal joints, described and recommended by the mechanical division, Association of Ameri-

[2] 3 F.R. 5 DI; 4 F.R. 1, 3429 DI.

[1] Under the authority of section 17 (6) of the Interstate Commerce Act, the above-entitled matter was referred by the Commission to Commissioner Alldredge for consideration and disposition.

can Railroads, (2) that tank anchors be of welded construction, and (3) that drainage plates, fusion welded in place, be applied to the inside of domes to close off pockets therein and secure complete drainage of dome liquid.

Caustic soda solution causes no interior vapor pressure on a tank and no material corrosive effect on tank plates, but in order to deliver iron-free lading the inside of tank-car tanks and their domes and dome-drainage plates will be coated with caustic-resisting paint. Difficulty is encountered in applying this coating at riveted seams, due to breaks in the seal which result in iron-pick-up at exposed surfaces. Smooth interior surfaces of tanks permit better application of the coating.

Reports received concerning previous authorities granted for fusion welded test cars show that two hundred forty-one cars have been constructed and in service for about seven thousand trips and approximately six million miles of safe transportation. Approval is recommended by the Association as necessary for obtaining results of trials with least possible delay, cars in each of the authorized services being considered necessary for complete tests of fusion welding in tank car equipment.

Upon further consideration of the record and in the light of added facts disclosed in the instant application, the construction and use of fifty additional fusion-welded tanks of tank cars of I.C.C. specification 103 type is forthwith authorized, tanks to be constructed and marked as modified by this application in compliance with proposed revised I.C.C. specification 103–W, filed as an exhibit at the hearing and referred to in our prior reports, the cars to be used in further service trials in the transportation of caustic soda solution.

In all other respects the regulations for the transportation of dangerous articles[1] herein referred to are and shall remain in full force and effect.

Owners or operators of cars, where construction is authorized herein, shall make semiannual inspection of the tanks and report their condition to the same parties as receive reports required by I.C.C. specification 103.

By the Commission, Commissioner Alldredge.

## TITLE 50—WILDLIFE

## BUREAU OF FISHERIES

### SUBCHAPTER A—ALASKA FISHERIES

### PART 204—BRISTOL BAY AREA FISHERIES

Section 204.13 is hereby amended to curtail the commercial salmon fishing season in the Kvichak-Naknek district of the Bristol Bay area, as follows:

§ 204.13 *Seasonal closed periods, commercial salmon fishing.* Commercial fishing for salmon is prohibited in the period from 6 o'clock antemeridian July 25 to 6 o'clock antemeridian August 3: *Provided*, That in the Kvichak-Naknek district such fishing is prohibited from 6 o'clock postmeridian July 22 to 6 o'clock antemeridian August 3: *Provided further*, That in the Ugashik district such fishing is prohibited from 6 o'clock antemeridian July 28 to 6 o'clock antemeridian August 10. (Sec. 1, 44 Stat. 752, Sec. 2, 43 Stat. 465; 48 U.S.C. 221, 225)

HAROLD L. ICKES,
*Secretary of the Interior.*

## TREASURY DEPARTMENT.

### Federal Alcohol Administration Division.

RETURN OF OBSOLETE CERTIFICATES OF LABEL APPROVAL

*To all bottlers and importers of distilled spirits, wine and malt beverages:*

Since its establishment, the Federal Alcohol Administration has acted upon approximately one-half million label applications. Some 350,000 certificates of label approval have been issued.

Due to amendments to the wine, distilled spirits, and malt beverages labeling regulations, a large number of labels heretofore approved do not conform to present requirements. In many instances bottlers and importers have obtained new certificates for revised labels covering the same brand, and also have apparently discontinued the use of some of their own as well as private brands bottled or imported for wholesaler and retailer customers. Consequently, the Administration's files contain duplicates of many thousands of outstanding certificates of label approval which no longer serve a useful purpose.

In order to promote efficiency in handling current applications for label approval and to simplify filing procedure, it is desired to place these records of obsolete certificates in a cancelled file. Accordingly, *it is requested that bottlers and importers return promptly for cancellation all such obsolete certificates in their possession.*

Your cooperation in this matter will be much appreciated.

[SEAL] W. S. ALEXANDER,
*Administrator.*

## DEPARTMENT OF AGRICULTURE.

### Sugar Division.

WAGE RATES, 1940 CROP OF SUGAR BEETS

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (b) and (d) of Section 301 of the Sugar Act of 1937 (Public, No. 414, 75th Congress),

Notice is hereby given that public hearings will be held as follows:

For northern California, at Sacramento, California, in the Supervisor's Room of the County Courthouse, on August 7, 1939, at 9:30 a. m.

For southern California, at Los Angeles, California, in Patriotic Hall, 1816 South Figueroa Street, on August 9, 1939, at 9:30 a. m.

The purpose of such hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining, (1) pursuant to the provisions of section 301 (b) of the said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of the 1940 crop of sugar beets on farms with respect to which applications for payments under the act are made, and (2), pursuant to the provisions of section 301 (d) of the said act, fair and reasonable prices for the 1940 crop of sugar beets to be paid, under either purchase or toll agreements, by processors who as producers apply for payments under the said act.
